Contents

1	Introduction	14
1.1	Intended audience	14
1.2	Limitations.....	14
2	Responsive design capability	15
3	Preconfigured user roles	16
3.1	Client Users	16
3.2	RM Users	16
3.3	Admin Users	16
3.4	PM Users	17
4	Summary of available functionalities	18
4.1	Homepages	18
4.2	Portfolio functions	18
4.3	Instrument functions	19
4.4	Messages functions	19
4.5	Basic functions.....	20
4.6	Alert functions	20
4.7	Strategy administration functions.....	20
4.8	User administration functions	20
4.9	Constraint administration functions.....	20
4.10	Profile administration functions.....	21
4.11	Workflow administration functions	21
4.12	Questionnaire administration functions.....	21
4.13	System Process Monitoring functions.....	21
5	Summary of available CRM functionalities	22
5.1	Homepage	22
5.2	Client functions	22
5.3	Notes function	22
5.4	Categories function	23
6	Navigation principles	24
6.1	Standard menu bar	24
6.2	CRM menu bar	24
6.3	Main menus	25
6.4	Admin Users menu bar	25
6.5	Pagination	26

6.6	Launching a workflow	26
6.7	Column Selection.....	27
7	Managing basic functions	29
7.1	Logging into the application	29
7.2	Logging out of application.....	29
7.3	Managing your user preferences	30
7.3.1	Changing application language	30
7.3.2	Changing application time zone	30
7.3.3	Changing password.....	31
7.4	Printing or exporting data.....	31
8	Working with clients and portfolios	33
8.1	Client Users	33
8.1.1	Portfolio banner for Client Users	33
8.2	RM Users.....	34
8.2.1	Portfolio contexts.....	34
8.2.2	Portfolio banner for RM Users.....	35
8.2.3	Managing portfolio groups.....	35
8.2.4	Quick access to portfolio basket.....	39
8.2.5	Managing your portfolio basket	40
8.3	RM Users (with access to CRM functionalities).....	42
8.3.1	Client banner for RM Users.....	43
9	Understanding the search features	45
9.1	Rapid search.....	45
9.2	Searching for clients	47
9.2.1	Filters.....	47
9.2.2	Advanced filters.....	48
9.2.3	Removing filters.....	48
9.3	Searching for clients (for CRM module only)	49
9.3.1	Filters.....	50
9.3.2	Advanced filters.....	50
9.3.3	Removing filters.....	50
9.4	Searching for portfolios.....	51
9.4.1	Filters.....	52
9.4.2	Advanced filters.....	52
9.4.3	Removing filters.....	52
9.5	Searching for portfolio groups.....	52

9.6	Searching for instruments	53
9.6.1	Search pattern	53
9.6.2	Search conditions	54
9.6.3	Quick result proposal	54
9.6.4	Advanced search	55
9.7	Searching for external banks	58
9.7.1	Search pattern	58
9.7.2	Search conditions	58
9.7.3	Quick result proposal	58

30	Understanding the Profile Administration menu	450
30.1	Viewing profiles	450
30.2	Creating profiles	451
30.2.1	Creating Data Profiles	452
30.2.2	Creating Data Security Profiles	453
30.2.3	Creating Screen Profiles	454
30.2.4	Creating Report Profiles	455
30.2.5	Creating Channel Profiles	457
30.2.6	Creating Function Security Profiles	459
30.2.7	Creating External Service Profiles	461
30.2.8	Creating Format Profiles	462
30.2.9	Creating Search Profiles	463
30.3	Editing existing profiles	465
30.4	Deleting existing profiles	466
31	Understanding the Workflows Administration Menu	467
31.1	Viewing workflows	467
31.2	Creating workflow attributes	468
31.3	Editing existing workflow attributes	469
31.4	Deleting existing workflow attributes	470
32	Using WealthSuite Channel on a Tablet	471
33	Using WealthSuite Channel on a Smartphone	473

1 Introduction

This product guide is intended mainly for end users and others who would like information regarding the WealthSuite Channels – Front Office application. The goal of this guide is to provide a broad overview of the main functions of the application.

Details about the packaged objects for each Portfolio Management and Analysis functionality can be found in the *WealthSuite Channels - Front Office - Packaging Guide Object List*.

1.1 Intended audience

This product guide provides guidance and assistance to:

- Relationship Manager (RM) users
- Implementation teams
- Admin users

It is assumed that RM Users are familiar with Internet (online) banking, banking transactions, and online application operations.

1.2 Limitations

The functionality of the Channels application depends on the functionality of the underlying Front Office – Portfolio Management (PM) version. Some functions might not be available when older versions of Front Office – PM are installed.

If you are not sure which Front Office – PM version is running, ask your System Administrator.

2 Responsive design capability

The goal of responsive design is to build web pages that detect the user's screen size and orientation and change the layout accordingly. Breakpoints are points where the page content responds according to the device width, allowing showing the best possible layout to the user. This means that the layout adapts automatically to the screen size.

The WealthSuite Channels – Front Office application uses this principle and a different display may be shown based on the user's screen resolution. Five breakpoints are implemented in the WealthSuite Channels application to support the different device and screen sizes.

The table below presents the different breakpoints and the screen width for which they are valid with their typical usage:

Breakpoints	Width (px)	Typical usage
XS (extra small)	< 568	Phone (portrait)
SM (small)	From 568 to 767	Phone (landscape)
MD (medium)	From 768 to 1023	Tablet (portrait)
LG (large)	From 1024 to 1279	Tablet (landscape)
XL (extra-large)	> 1279	Desktop

You can refer to the *Wealth Suite Channels – Front Office Product Compatibility* document for more details.

3 Preconfigured user roles

Different user roles have access to different functions. This section describes the functions that are available in the Channels application:

- [Client Users](#)
- [RM Users](#)
- [Admin Users](#)
- [PM Users](#)

3.1 Client Users

Client Users refer to clients of the bank using the application to access the portfolios they hold.

- Home (see section [Homepage of Client Users](#))
- Portfolios (see section [Understanding the Portfolios menu](#))
- Instruments (see section [Understanding the Instruments menu](#))
- Messages (see section [Understanding the Messages menu](#))
- Notifications (see section [Understanding the Notifications menu](#))
- Alerts (see section [Understanding the Alert Configuration menu](#))

3.2 RM Users

RM Users refer to RMs of the bank using the application to access the client and the portfolios they manage.

- Home (see section [Homepage of RM Users](#))
- Dashboard (see section [Understanding the Dashboard menu](#))
- Portfolios (see section [Understanding the Portfolios menu](#))
- Instruments (see section [Understanding the Instruments menu](#))
- Messages (see section [Understanding the Messages menu](#))
- Notifications (see section [Understanding the Notifications menu](#))
- Alerts (see section [Understanding the Alert Configuration menu](#))
- Client (see section [Understanding the Client menu](#))
- Strategy Administration (see section [Understanding the Strategy Administration menu](#))

3.3 Admin Users

Admin Users refer to the administrators of the bank who use the application to create mandatory alerts and alert templates for RM Users and Client Users.

- Alert Administration (see section [Homepage of Admin Users](#))
- Strategy Administration (see section [Understanding the Strategy Administration menu](#))

- Users Administration (see section [Understanding the Users Administration menu](#))

3.4 PM Users

In order to facilitate the day to day operations, with an objective of easing administrative tasks, a dedicated log in with enhanced features are introduced for a PM.

- Home (see section [Homepage of PM Users](#))
- Messages (see section [Understanding the Messages menu](#))

4 Summary of available functionalities

The following is a summary of available functionalities in the Channels application:

- [Homepages](#)
- [Portfolio functions](#)
- [Instrument functions](#)
- [Messages functions](#)
- [Basic functions](#)
- [Alert functions](#)
- [Strategy administration functions](#)
- [User administration functions](#)
- [Constraint administration functions](#)
- [Profile administration functions](#)
- [Workflow administration functions](#)
- [Questionnaire administration functions](#)
- [System Process Monitoring functions](#)

4.1 Homepages

- RM homepage (only available for RM Users)
- Client summary (only available for Client Users)
- Admin homepage (only available for Admin Users)

4.2 Portfolio functions

- Summary views
 - Portfolio
 - Client (only available for RM Users)
 - Group (only available for RM Users)
 - Portfolio basket (only available for RM Users)
- Group management (only available for RM Users)
- Portfolio basket management (only available for RM Users)
- Portfolio Analysis
 - Assets
 - Recent operations
 - Account movements
 - Compliance
 - Future cash flow
 - Risk
 - Performance

4.3 Instrument functions

- Held Assets (only available for RM Users)
- Market information
- Watchlist

4.4 Messages functions

- Viewing received messages in Inbox
- Viewing sent messages
- Viewing draft messages
- Composing new messages
- Replying to received messages
- Deleting messages

4.5 Basic functions

- Logging in
- Logging out
- Managing user preferences
- Printing and exporting data

4.6 Alert functions

- Creating mandatory alerts to be assigned to RM Users (only available for Admin Users)
- Creating alert templates for RM Users and Client Users (only available for Admin Users)
- Viewing details of mandatory alerts and alert templates (only available for Admin Users)
- Performing actions on mandatory alerts and alert templates (e.g., edit, deactivate, activate, and archive) (only available for Admin Users)
- Viewing private alerts
- Viewing mandatory alerts
- Subscribing to and unsubscribing from private alert templates

4.7 Strategy administration functions

- Viewing strategies
- Creating strategies
- Editing strategies
- Validating strategies

4.8 User administration functions

User administration is available only for Admin Users to perform the following functions:

- Creating RM Users
- Creating Client Users (for existing third parties)
- Viewing list of RM Users and Client Users
- Viewing and editing details of RM Users and Client Users
- Deactivating and reactivating RM Users and Client Users

4.9 Constraint administration functions

Constraint administration is available only for Admin Users to perform the following functions:

- Viewing constraints
- Creating constraints

- Editing and deleting constraints

4.10 Profile administration functions

Profile administration is available only for Admin Users to perform the following functions:

- Viewing existing profiles and their composition
- Creating new profiles and their composition
- Editing existing profiles and their composition
- Deleting existing profiles and their composition

4.11 Workflow administration functions

Workflow administration is available only for Admin Users to perform the following functions:

- Viewing existing workflows and their attributes
- Creating attributes for workflows
- Editing attributes for workflows
- Deleting attributes from workflows

4.12 Questionnaire administration functions

Questionnaire administration is available only for Admin Users to perform the following functions:

- Viewing existing questionnaires
- Creating new questionnaires
- Creating new versions of questionnaires
- Editing existing questionnaires
- Deleting draft questionnaires

4.13 System Process Monitoring functions

- Viewing a list of portfolios for which the last rebalancing failed
- Realigning portfolios
- Viewing a list of portfolios for which a transfer request failed
- Viewing a list of automated processes which failed

5 Summary of available CRM functionalities

The information provided in this section is specific to the Customer Relationship Management (CRM) module, which is not part of the standard packaging and is sold separately.

The CRM module provides features that assist RM Users with managing client data, documents, and interactions with the goal of improving their client relationships and increasing assets under management.

In addition to the standard functionalities of the Channels application that are available for RM Users (see section [Summary of available functionalities](#)), the following is a summary of functionalities available only in the CRM module:

- [Homepage](#)
- [Client functions](#)
- [Notes function](#)
- [Categories function](#)

5.1 Homepage

- RM homepage that contains CRM features (which is different from the standard RM homepage)

5.2 Client functions

- Creating prospects
- Creating persons and organizations
- Summary views
 - Client view
 - Client profiling
- Relationships
 - Relationship tree
 - Related countries
- Related companies
- Activities
- Documents

5.3 Notes function

- Viewing existing notes
- Creating, deleting, and editing notes
- Linking and unlinking categories and associated clients

5.4 Categories function

- Viewing assigned categories for clients and notes
- Searching for existing categories
- Creating, deleting, and editing categories
- Adding or deleting categories assigned to clients

6 Navigation principles

This section covers the following topics about navigation principles:

- [Standard menu bar](#)
- [CRM menu bar](#)
- [Main menus](#)
- [Admin Users menu bar](#)
- [Pagination](#)
- [Launching a workflow](#)
- [Column Selection](#)

6.1 Standard menu bar

From the standard menu bar, you can access:

- Your homepage via  (see section [Understanding the homepages](#))
- Dashboard main menu (see section [Understanding the Dashboard menu](#))
- Portfolios main menu (see section [Understanding the Portfolios menu](#))
- Instruments main menu (see section [Understanding the Instruments menu](#))
- Your notification inbox via  (see section [Understanding the Notifications menu](#))
- Your message inbox via  (see section [Understanding the Messages menu](#))
- Your user preferences, alert configurations, strategy administration, constraint administration and workflow management via  (see sections [Managing your user preferences](#) , [Understanding the Alert Configuration menu](#), [Understanding the Strategy Administration menu](#), [Understanding the Constraints Administration menu](#) and [Understanding the Manage Workflows menu](#))
- Logout function via  (see section [Logging out of application](#))

6.2 CRM menu bar

The information provided in this section is specific to the Customer Relationship Management (CRM) module, which is not part of the standard packaging and is sold separately.

The CRM menu bar is the same as the standard menu bar (see section [Standard menu bar](#)) with the addition of the following to further assist RM Users with managing their client relationships:

- Your homepage (see section [Homepage of RM Users \(with access to CRM functionalities\)](#))
- Client menu (see section [Understanding the Client menu](#))
- Quick create prospect (see section [Creating prospects](#))
- Notes (see section [Understanding the Notes menu](#))
- Categories configuration (see section [Understanding the Category Maintenance menu](#))

6.3 Main menus

The main menus of the application are:

- Client. This main menu lets you access all functions of your selected client(s). For more information, see section [Understanding the Client menu](#).
- Dashboard. This main menu lets you access all dashboard options. For more information, see section [Understanding the Dashboard menu](#).
- Portfolios. This main menu lets you access all functions of your selected portfolio(s). For more information, see section [Understanding the Portfolios menu](#).
- Instruments. This main menu lets you access all functions concerning financial instruments. For more information, see section [Understanding the Instruments menu](#).

6.4 Admin Users menu bar

Admin Users have a dedicated menu bar with access to the:

- Alerts menu, which is considered the Admin User homepage (default page). For more information, see section [Homepage of Admin Users](#).
- Strategies menu. For more information, see section [Understanding the Strategy Administration menu](#).
- Constraints menu. For more information, see section [Understanding the Constraints Administration menu](#).
- Users menu. For more information, see section [Understanding the Users Administration menu](#).
- Profiles menu. For more information, see section [Understanding the Profile Administration menu](#).
- Questionnaires menu. For more information, see the “*Wealth Suite Channels -- Front Office - Dynamic Questionnaire Administration Desktop User Guide*”
- Workflows menu. For more information, see section [Understanding the Workflows Administration Menu](#).

6.5 Pagination

To improve the responsivity of the application, only the first 20 results of data are displayed, making the rest of the data available via the pagination concept. On the pages where this occurs, you will see the following pagination widget:

This widget offers the following functionalities:

- The displayed numbers represent the available page that contain results data (maximum 20 results per page).
- The encircled number represents the currently displayed page.
- Clicking on one number, except the encircled one, will redirect you to the corresponding page.
- Clicking on the << icon will redirect you to the first page of results data. Note that this icon is not available for the first page of data.
- Clicking on the < icon will redirect you to the previous page of results data. Note that this icon is not available for the first page of data.
- Clicking on the > icon will redirect you to the next page of results data. Note that this icon is not available for the last page of data.
- Clicking on the >> icon will redirect you to the last page of results data. Note this this icon is not available for the last page of data.

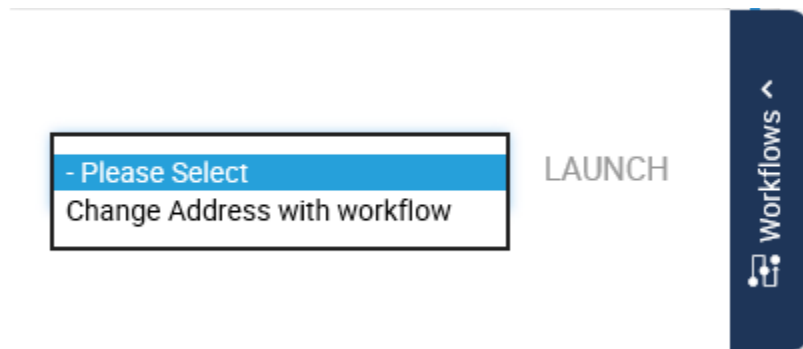

6.6 Launching a workflow

Workflows can be available for contacts, organizations, customers, notes, activities and portfolios.

When a workflow is available for an entity, a flyout will appear on the left side of the screen.

Selecting the flyout will display a list of the available workflows.

To launch one of the workflows, select it from the drop down list and click the **Launch** button.

6.7 Column Selection

Several pages allow you to control the content that you see in a table or grid of values.

On pages where this occurs, you can access the column selection widget by clicking on the  icon.

Column Selector ✕

☒	Instrument Code Portfolio Code
☒	Instrument Portfolio

Default **Discard** **Save**

This widget provides the following functionality:

- To include a column in the display, check the box to the left of the column name.
- To remove a column from the display, check the box to the left of the column name. Some columns are mandatory and cannot be removed from the display.
- To move a column, click on the column name and drag the column up or down on the list. Some columns are mandatory and cannot be moved.
- To restore the default columns, click **Default**.
- To discard any changes you have made, click **Discard**.
- To save your changes, click **Save** or the **X** in the upper right corner.

7 Managing basic functions

This section describes how to use the following basic functions of the Channels application:

- [Logging into the application](#)
- [Logging out of application](#)
- [Managing your user preferences](#)
- [Printing or exporting data](#)

7.1 Logging into the application

For first-time users, your initial user name and password were created and provided to you by the Administrator. You must use these credentials to log into the application for the first time and then, the application will immediately prompt you to change your password.

To log into the application:

1. Open a web browser.
2. Access the application's URL. A typical URL looks like `http://<yourserver>/<.warFileName>/servletcontroller`.

The **Login** page is displayed.

3. (Optional) At the top of the page, you have the option to change the language that is displayed. In the standard packaging, English and French options are available.
4. In the **User ID** field, enter your user ID.

Note: If you are the only person using this computer and would like to save your user ID, you have the option to check the **Remember User ID?** checkbox. You should never use this checkbox if you are using a public computer, or if you are sharing the computer with others, to prevent your account from being open to anyone who uses the same computer after you.

5. In the **Password** field, enter your password.
6. Click **Sign in**.

If your password is nearing its expiration date, a warning message is displayed. To change your password, see section [Managing your user preferences](#). If your password has expired, you will be prompted to immediately change your password.

The homepage is displayed after successful login. For more information about the homepage, see section [Understanding the homepages](#).

7.2 Logging out of application

To log out of the application:

1. On the menu bar, click the  icon.
The **Logout** pop-up is displayed asking you to confirm the action.
2. Click **Yes** to log out of the application.

7.3 Managing your user preferences

The user preferences are settings that concern logged user details and the preferred application language set-up.

The following topics are covered in this section:

- [Changing application language](#)
- [Changing application time zone](#)
- [Changing password](#)

7.3.1 Changing application language

To change the application language:

1. On the menu bar, click the  icon.
The **Configuration** menu is displayed.
2. Click **User preferences**.

The **User Details and Preferences** page is displayed.

- If you are logged in as Client User, the **User Details** section displays your name, address, contact email, phone number, mobile phone number, last login details (including both date and time), and password expiry date.
 - If you are logged in as an RM User, the **User Details** section displays your name, contact email, phone number, role, last login details (including both date and time), and password expiry date.
3. In the **Preferences** section, select the desired language from the drop-down list. In the standard packaging, only English and French options are available.
 4. Click **Save** to apply your change.

The application is now displayed in the selected language and will keep your preferences even after logging out.

7.3.2 Changing application time zone

To change the application time zone:

1. On the menu bar, click the  icon.
The **Configuration** menu is displayed.
2. Click **User preferences**.

The **User Details and Preferences** page is displayed.

- If you are logged in as Client User, the **User Details** section displays your name, address, contact email, phone number, mobile phone number, last login details (including both date and time), and password expiry date.
- If you are logged in as an RM User, the **User Details** section displays your name, contact email, phone number, role, last login details (including both date and time), and password expiry date.

3. In the **Preferences** section, select the desired time zone from the drop-down list. In the standard packaging, all supported time zones are available.
4. Click **Save** to apply your change.
The application will now convert and display specific dates in the selected time zone and will keep your preferences even after logging out.

7.3.3 Changing password

Passwords must comply with password guidelines that contain a certain length and/or mix of letters, numbers, and/or special characters.

To change your password:

1. On the top bar, click the  icon and then, click **User preferences**.
The **Configuration** menu is displayed.
2. Click **User preferences**.
The **User Details and Preferences** page is displayed.
 - If you are logged in as Client User, the **User Details** section displays your name, address, contact email, phone number, mobile phone number, last login details (including both date and time), and password expiry date.
 - If you are logged in as an RM User, the User Details section displays your name, contact email, phone number, role, last login details (including both date and time), and password expiry date.
3. In the **Preferences** section, click **Change Password** to change your password.
4. Click **Save** to apply your change.

Alternatively, you can contact your Administrator to reset the password for you.

7.4 Printing or exporting data

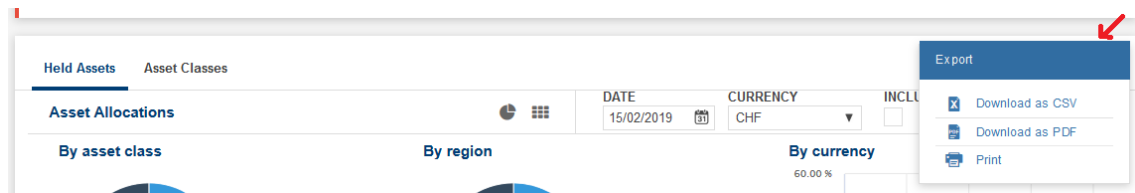

Printing or exporting data is available via the following mechanisms:

- Printing to local printers
- Downloading data as CSV file
- Downloading data as PDF file

These mechanisms are only available from the **Assets** page. For information about how to access the Assets page, see section [Viewing asset allocations and held assets](#).

To print or export data:

1. On the **Assets** page, click the  icon.
The **Export** menu is displayed.

2. Chose one of the following menu options:
 - Click **Download as CSV** to export the data into a comma-separated values (CSV) file. You will then be prompted to open or save the generated document.
 - Click **Download as PDF** to export the data into a portable document format (PDF) file. You will then be prompted to open or save the generated document.
 - Click **Print** to print the data using your local printer. Note that the application will first generate a PDF document and then, you will be prompted to choose a local printer to print the document.

8 Working with clients and portfolios

This section details the basic principles on how to work with clients and portfolios for all portfolio functions (see section [Portfolio functions](#)) that are available in the Portfolios menu (see section [Understanding the Portfolios menu](#)) when you are logged as:

- [Client Users](#)
- [RM Users](#)
- [RM Users \(with access to CRM functionalities\)](#)

8.1 Client Users

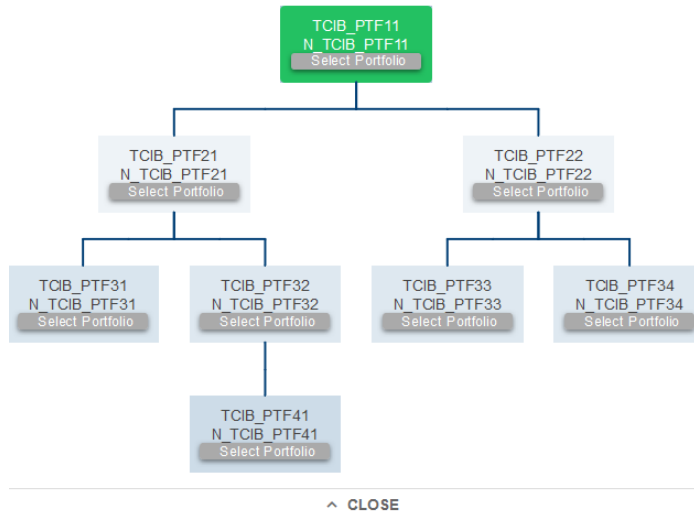

When you are logged as a Client User, the selection of one of your portfolio or all your portfolios in a consolidation mode is done via your homepage (see section [Homepage of Client Users](#)) or via the portfolio banner (see section [Portfolio banner for Client Users](#)).

8.1.1 Portfolio banner for Client Users

Selected Portfolio N_TCIB_PTF63	Service Type Discretionary	Investment Profile ▲ Expired >	Managed Since 31/12/2001	Change Portfolio TCIB_PTF63 ▼
---	-------------------------------	-----------------------------------	-----------------------------	----------------------------------

On the banner, you will find general information about the selected portfolio as well as the following:

- **Change Portfolio** field: Lets you switch to view another of your portfolio on the drop-down list. Alternatively, you can choose to get a consolidated view of all your portfolios by selecting All portfolios from the drop-down list.
- **Hierarchy** checkbox: Lets you load the selected portfolio's hierarchy if it is a parent portfolio. This checkbox is not displayed if the current portfolio does not have any children. By default, the **Hierarchy** checkbox is checked. To unload the hierarchy, uncheck the checkbox. The selection made in this checkbox is propagated from page to page.
- Hierarchy icon (displayed if the selected portfolio belongs to a hierarchy): Lets you access the hierarchy tree view of the current portfolio. The selected portfolio will be highlighted in red in the hierarchy tree. To access a portfolio's summary, click on the portfolio from the hierarchy tree.

8.2 RM Users

This section describes what is available to you when logged as a RM User:

- [Portfolio contexts](#)
- [Portfolio banner for RM Users](#)
- [Managing portfolio groups](#)
- [Quick access to portfolio basket](#)
- [Managing your portfolio basket](#)

8.2.1 Portfolio contexts

Throughout the application, you can work with:

- A portfolio: In this case, the working context is set as portfolio client and you can work on any portfolio that belongs to the client associated with the selected portfolio or with all its portfolios in a consolidation mode.
- A client: In this case, the working context is set as portfolio client and you can work on any portfolio that belongs to the selected client or with all its portfolios in a consolidation mode.
- A portfolio group (see section [Managing portfolio groups](#) for more details on portfolio groups): In this case, the working context is set as portfolio group and you can work on any portfolio that belongs to the selected group or with all its portfolios in a consolidation mode.
- Your portfolio basket (see section [Managing your portfolio basket](#) for more details on RM portfolio baskets): In this case, the working context is set as portfolio basket and you can work on any portfolio that belongs to your basket or with all its portfolios in a consolidation mode.

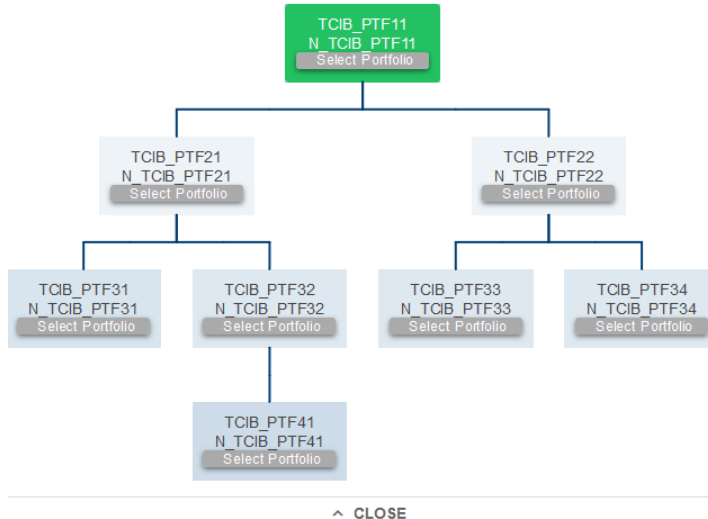

8.2.2 Portfolio banner for RM Users

Selected Portfolio N_TCIB_PTF22  CLIENT_HIER	Service Type Discretionary	Investment Profile  Expired >	Managed Since 31/12/2005	Change Portfolio TCIB_PTF22 ▾	Hierarchy ☒
--	-------------------------------	---	-----------------------------	----------------------------------	--

On the banner, you will find general information about the selected portfolio as well as the following:

- **Change Portfolio:** Lets you switch to view another portfolio on the drop-down list. Contents of the drop-down depend on whether you are currently working on a client, a portfolio group, or your basket. Alternatively, you can choose to get a consolidated view of all portfolios of your client, portfolio group, or basket, by selecting All portfolios from the drop-down list.
- **Chevron**  icon next to the Investment Profile status: Lets you access the **Investment Profile** page (see section [Managing Investment Profiles](#)).
- **Client** hyperlink below the selected portfolio name: Lets you access the summary view of the portfolio's client (see section [Obtaining summary view of a client](#)).
- **Hierarchy** checkbox: Lets you load the selected portfolio's hierarchy if it is a parent portfolio. This checkbox is not displayed if the current portfolio does not have any children. By default, the **Hierarchy** checkbox is checked. To unload the hierarchy, uncheck the checkbox. The selection made in this checkbox is propagated from page to page.
- Hierarchy icon (displayed if the selected portfolio belongs to a hierarchy): Lets you access the hierarchy tree view of the current portfolio. The selected portfolio will be highlighted in red in the hierarchy tree. To access a portfolio's summary, click on the portfolio from the hierarchy tree.

8.2.3 Managing portfolio groups

Portfolio groups allow RM Users to assemble portfolios together in different ways (e.g., regrouping portfolios across multiple clients in a family unit) for collective analysis (e.g., consulting aggregated and detailed positions, initiating orders, looking at the overall performance, etc...).

Portfolio groups typically contain small numbers of portfolios; the limit is fixed to 20 portfolios in the standard packaging. Each RM User can create and manage a maximum of 20 portfolio groups.

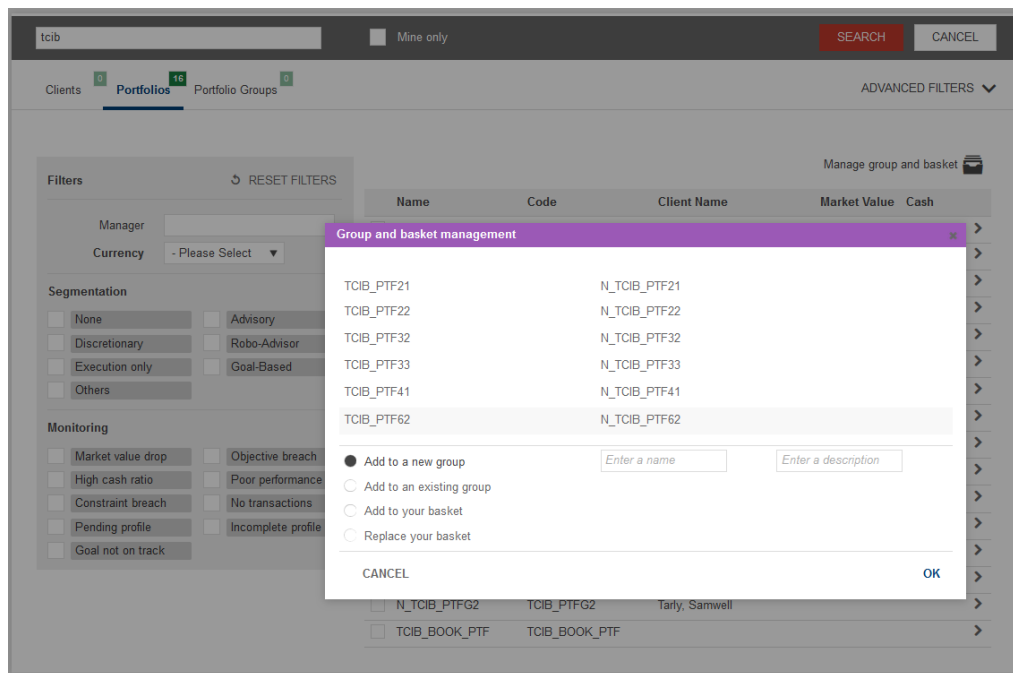

This section describes the following available functionalities for portfolio groups:

- [Creating new portfolio groups](#)
- [Adding portfolios to existing portfolio groups](#)
- [Removing portfolios from existing portfolio groups](#)
- [Changing the name and/or description of existing portfolio groups](#)
- [Changing the group reference currency](#)
- [Deleting existing portfolio groups](#)

8.2.3.1 Creating new portfolio groups

To create a new portfolio group:

1. Search for portfolios that you would like to include in a new portfolio group (see sections [Rapid search](#) and [Searching for portfolios](#)).
2. From the Portfolios tab of the **Advanced Search** page, use the checkboxes to select the desired portfolios from the search result list.
3. Click **Manage group and basket**.
The **Group and basket management** pop-up is displayed.
4. Select **Add to a new group** and enter the portfolio group name and short description.

5. Click **OK**. Note that you will not be able to create a new portfolio group if you already reached the maximum allowed number of 20.

Your portfolio group is created and its **Summary view** is displayed. You can use it for collective analysis for all portfolio functionalities.

8.2.3.2 Adding portfolios to existing portfolio groups

To add portfolios to an existing portfolio group, choose one of the following options:

- [Adding from portfolio search results](#)
- [Adding from Portfolio Groups Edit page](#)

Adding from portfolio search results

To add a portfolio from the search results:

1. Search for the portfolio that you want to add to one of your portfolio groups (see sections [Rapid search](#) and [Searching for portfolios](#)).
2. From the Portfolios tab of the **Advanced Search** page, use the checkboxes to select the desired portfolios from the search result list.
3. Click **Manage group and basket**.
The **Group and basket management** pop-up is displayed.
4. Select **Add to an existing group** and, from the drop-down list, select the portfolio group that you want to add.
5. Click **OK**.

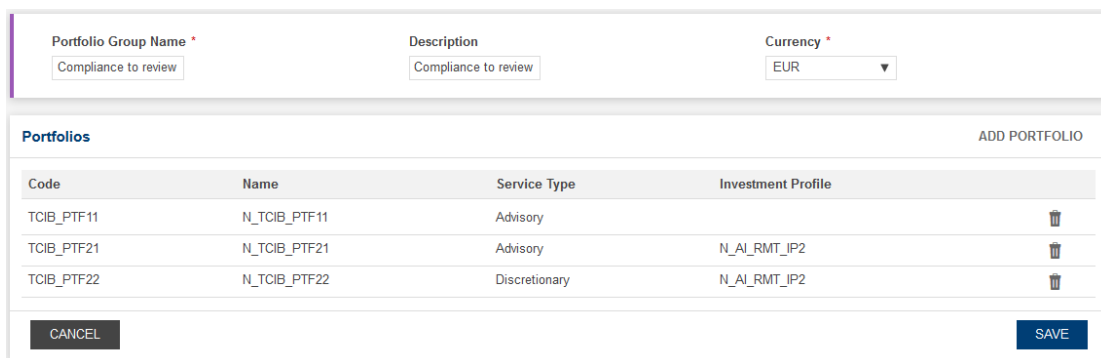

Your portfolio group is updated and its **Summary view** is displayed.

Adding from Portfolio Groups Edit page

To add a portfolio from the **Portfolio Group Edit** page:

1. Search for the portfolio group to which you want to add portfolios (see sections [Rapid search](#) and [Searching for portfolio groups](#)).
2. From the Portfolio Groups tab of the **Advanced Search** page, click the  icon of the desired portfolio group.

The **Portfolio Groups Edit** page is displayed. Note that you can also access this page by clicking **Edit** from the **Portfolio Groups Summary** page.

Code	Name	Service Type	Investment Profile
TCIB_PTF11	N_TCIB_PTF11	Advisory	
TCIB_PTF21	N_TCIB_PTF21	Advisory	N_AI_RMT_IP2
TCIB_PTF22	N_TCIB_PTF22	Discretionary	N_AI_RMT_IP2

3. Click **Add Portfolio**.

The **Portfolio Advanced Search** page is displayed, which allows you to search and select the portfolios that you want to add to your portfolio group. This page provides similar functionalities as the Portfolios tab of the **Advanced Search** page (see section [Searching for portfolios](#)).

- Use the checkboxes to select the desired portfolios from the search result list to add to your portfolio group.
- Click **Add portfolio(s)**.
If the total number of portfolios contained in your portfolio group exceeds the maximum allowed number of 20, an error message is displayed.
- Click **Save** to confirm the modification. If you do not save the modification, the selected portfolios will not be added to the portfolio group.
Your portfolio group is updated and its **Summary view** is displayed.

8.2.3.3 Removing portfolios from existing portfolio groups

To remove portfolios from an existing portfolio group that you created:

- Search for the portfolio group from which you want to remove portfolios (see sections [Rapid search](#) and [Searching for portfolio groups](#)).
- From the Portfolio Groups tab of the **Advanced Search** page, click the  icon of the desired portfolio group.
The **Portfolio Groups Edit** page is displayed. You can also access this page by clicking **Edit** from the **Portfolio Groups Summary** page.
- From the portfolio list, click the  icon for each portfolio that you would like to remove from your portfolio group.
- Click **Save** to confirm the portfolio group modification. If you do not save the modification, the portfolios that you want to remove will still be present in the composition of the portfolio group.
Your portfolio group is updated and its **Summary view** is displayed.

8.2.3.4 Changing the name and/or description of existing portfolio groups

To change the name and/or the description of an existing portfolio group that you created:

1. Search for the portfolio group that you want to change the name and/or description (see sections [Rapid search](#) and [Searching for portfolio groups](#)).
2. From the **Portfolio Groups tab** of the **Advanced Search** page, click the  icon of the desired portfolio group.

The **Portfolio Groups Edit** page is displayed. You can also access the **Portfolio Groups Edit** page by clicking **Edit** from the **Portfolio Groups Summary** page.

3. From the banner, change the name and/or denomination.
4. Click **Save** to confirm the portfolio group modification. If you do not save the modification, the name and/or description is not updated.

Your portfolio group is updated and its **Summary view** is displayed.

8.2.3.5 Changing the group reference currency

To change the group reference currency of an existing portfolio group that you created:

1. Search for the portfolio group that you want to change the group reference currency (see sections [Rapid search](#) and [Searching for portfolio groups](#)).
2. From the **Portfolio Groups tab** of the **Advanced Search** page, click the  icon of the desired portfolio group.

The **Portfolio Groups Edit** page is displayed. You can also access the **Portfolio Groups Edit** page by clicking **Edit** from the **Portfolio Groups Summary** page.

3. From the banner, change the currency.
4. Click **Save** to confirm the modification. If you do not save the modification, the group reference currency is not updated.

8.2.3.6 Deleting existing portfolio groups

To delete an existing portfolio group that you created:

1. Search for the portfolio group that you want to delete (see sections [Rapid search](#) and [Searching for portfolio groups](#)).
2. From the Portfolio Groups tab of the **Advanced Search** page, click the  icon of the portfolio group that you want to delete.

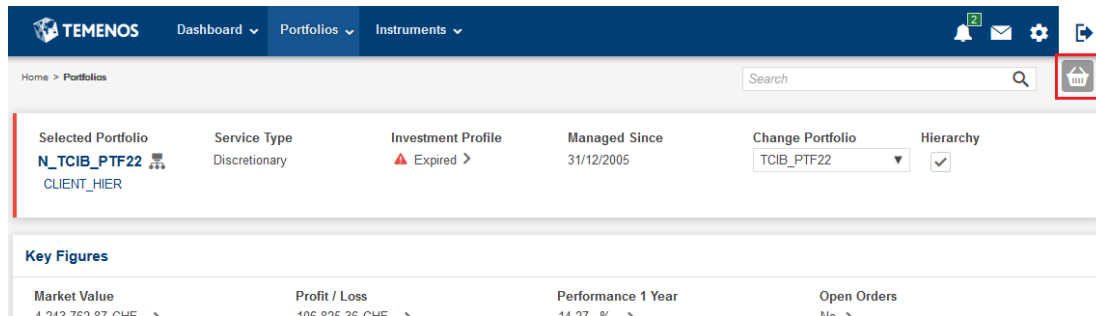

The **Confirm Delete** pop-up is displayed.

3. Click **Yes** to confirm the deletion.

Your portfolio group is deleted and the list of portfolio groups on the **Advanced Search** page is refreshed.

8.2.4 Quick access to portfolio basket

RM Users can quickly access their portfolio basket via the basket icon  (see section [Managing your portfolio basket](#)) located at the top right of every page of the application (except on the **Place Order**, **Cash Transfer**, **Investment Proposals**, and **Advanced Search** pages).

When you click the basket icon, the list of portfolios that compose the portfolio basket is displayed. To access its summary view, see section [Obtaining summary view of your portfolio basket](#).

8.2.5 Managing your portfolio basket

Portfolio baskets are very similar to portfolio groups (see section [Managing portfolio groups](#) for more details about portfolio groups). Not only can RM Users assemble portfolios together in different ways for collective analysis in a portfolio basket, it can also be considered as the default portfolio group where RM Users can group portfolios for quick access.

Similarly, the portfolio basket typically contains small numbers of portfolios; the limit is fixed to 20 portfolios in the standard packaging. A portfolio basket is automatically created for you the first time you log into the application. There is only one portfolio basket available per RM User.

This section describes the following available functionalities for portfolio baskets:

- [Adding portfolios to your portfolio basket](#)
- [Removing portfolios from your portfolio basket](#)
- [Replacing the portfolios in your portfolio basket](#)
- [Emptying the contents of your portfolio basket](#)

8.2.5.1 Adding portfolios to your portfolio basket

To add portfolios to your portfolio basket, choose one of the following options:

- [Adding from portfolio search results](#)
- [Adding from Portfolio Basket Edit page](#)

Adding from portfolio search results

To add a portfolio from the search results:

1. Search for the portfolio that you want to add to your portfolio basket (see sections [Rapid search](#) and [Searching for portfolios](#)).
2. From the Portfolios tab of the **Advanced Search** page, use the checkboxes to select the desired portfolios from the search result list.
3. Click **Manage group and basket**.
The **Group and basket management** pop-up is displayed
4. Select **Add to your basket**.
5. Click **OK**.

Your portfolio basket is updated and its **Summary view** is displayed.

Adding from Portfolio Basket Edit page

To add a portfolio from the **Portfolio Basket Edit** page:

1. Click the basket icon (see section [Quick access to portfolio basket](#)).
The **Basket** pop-up is displayed.
2. Click **Summary**.
The **Portfolio Basket Summary** page is displayed.
3. Click **Edit**.
The **Portfolio Basket Edit** page is displayed.

CANCEL		SAVE	

4. Click **Add Portfolio**.
The **Portfolio Advanced Search** page is displayed, which allows you to search and select the portfolios you want to add to your portfolio basket. This page provides similar functionalities as the Portfolios tab of the **Advanced Search** page (see section [Searching for portfolios](#)).
5. Use the checkboxes to select the desired portfolios from the search result list.
6. Click **Add portfolio(s)**.
If the total number of portfolios contained in your portfolio basket exceeds the maximum allowed number of 20, an error message is displayed.
7. Click **Save** to confirm the modification. If you do not save the modification, the selected portfolios will not be added to the portfolio basket.
Your portfolio basket is updated and its **Summary view** is displayed.

8.2.5.2 Removing portfolios from your portfolio basket

To remove portfolios from your portfolio basket:

1. Click the basket icon (see section [Quick access to portfolio basket](#)).
The **Basket** pop-up is displayed.
2. Click **Summary**.
The **Portfolio Basket Summary** page is displayed.

3. Click **Edit**.
4. The **Portfolio Basket Edit** page is displayed.
5. From the portfolio list, click the  icon for each portfolio that you would like to remove from your portfolio basket.
6. Click **Save** to confirm the portfolio basket modification. If you do not save the modification, the portfolios that you want to remove will still be present in the composition of the portfolio group.

Your portfolio basket is updated and its **Summary view** is displayed

8.2.5.3 Replacing the portfolios in your portfolio basket

To replace the portfolios in your portfolio basket:

1. Search for the new portfolios that will replace the existing portfolios in your portfolio basket (see sections [Rapid search](#) and [Searching for portfolios](#)).
2. From the Portfolios tab of the **Advanced Search** page, use the checkboxes to select the desired portfolios from the search result list.
3. Click **Manage group and basket**.
The **Group and basket management** pop-up is displayed.
4. Select **Replace your basket**.
5. Click **OK**.

Your portfolio basket is updated and its **Summary view** is displayed.

8.2.5.4 Emptying the contents of your portfolio basket

To empty the contents of your portfolio basket:

1. Click the basket icon (see section [Quick access to portfolio basket](#)).
The **Basket** pop-up is displayed.
2. Click **Empty**.

Your portfolio basket is now empty and its **Edit view** is displayed.

8.3 RM Users (with access to CRM functionalities)

The information provided in this section is specific to the Customer Relationship Management (CRM) module, which is not part of the standard packaging and is sold separately.

In addition to the basic principles on how to work with clients and portfolios for all portfolio functions (see section [Portfolio functions](#)) that are available in the **Portfolios** menu, this section describes what is also available to you in the **Client** menu when logged as an RM User with access to CRM functionalities:

- [Client banner for RM Users](#)

Client

SHOW MORE ▼

The client banner is displayed on all pages of the submenus (e.g., Client View, Relationship Tree, etc.) in the **Client** menu. On the banner, you will find a snapshot of the client's primary personal details. As well, the following functions are available:

- To view additional client information (e.g., language preference, reference currency, address, signature), click the **Show More** link. To minimise the client banner, click **Show Less**.

Note: Although the client banner is displayed on all pages of the submenus, the **Show More** link may not be available on all pages.

- To add, edit, or delete the following client information, see section [Managing details on client banner](#):
 - Personal details (e.g., name, address, phone number, email, marital status, birthdate, employment, etc)
 - Photo
 - Signature
 - Categories
 - Notes

8.3.1.1 Managing details on client banner

To add, edit, or delete client details on the client banner:

1. Go to the **Client View** page of the desired client. For information about how to search for your client, see section [Obtaining summary view of a client](#).

The client banner is located at the top of the **Client View** page.

2. Click **Edit** button located on the client banner.

The **Edit Person** page is displayed with three tabs: Details, Contact, and Address.

3. Click each tab to locate the fields and client information that you want to add, edit, or delete. Mandatory fields are marked with an asterisk. Note that you must save any changes made in each tab before exiting the tab; otherwise, the changes will be lost.
4. (Optional) For the client photo shown on the banner:
 - To add or replace the client photo, click  in the **Photo** field. The **Attach File** pop-up is displayed where you can browse for the client's photo file and then, upload it. The existing photo is automatically replaced when you upload a new photo.
 - To delete (and not replace) the existing photo, click the **X** of the file in the **Photo** field.
5. (Optional) For the client signature shown on the banner:

- To add a client signature, click the **Create New Signature** link in the Signatures section. Then, click  in the **Signature** field to display the **Attach File** pop-up where you can browse for the client's signature file and then, upload it. You have the option to include a description and expiry date for the uploaded signature. These fields can be modified at any time.
 - To upload more than one signature file, click the **Create New Signature** link for each signature file to upload. All active (i.e., unexpired) signatures can be retrieved from the banner to be displayed; the latest one that is uploaded is automatically the first to be displayed on the banner.
 - To delete a signature file, click the  icon next to the signature that you want to delete.
6. (Optional) To add or delete a category, see section [Linking or unlinking categories assigned to clients](#).
 7. When you are done, click **Close** button located on the client banner.

9 Understanding the search features

This section provides details about the following available search features:

- [Rapid search](#)
- [Searching for clients](#)
- [Searching for clients \(for CRM module only\)](#)
- [Searching for portfolios](#)
- [Searching for portfolio groups](#)
- [Searching for instruments](#)
- [Searching for external banks](#)

9.1 Rapid search

The rapid search feature provides a readily-available **Search** field for RM Users to easily search for clients, portfolios, or portfolio groups. This search field is located:

- On every page (except the **Place Order**, **Cash Transfer**, **Investment Proposals**, and **Advanced Search** pages):

The screenshot shows the TEMENOS application interface. At the top, there is a navigation bar with 'Dashboard', 'Portfolios', and 'Instruments' tabs. On the right side of the navigation bar, there is a search bar with the placeholder text 'Search' and a magnifying glass icon. Below the navigation bar, the main content area displays various portfolio details and key figures.

- On the homepage of RM Users:

The screenshot shows the homepage of an RM User. At the top, there are four summary cards: 'ASSETS UNDER MANAGEMENT' (20,419,662.92 EUR), '2 CLIENTS', '15 PORTFOLIOS', and '0 GROUPS'. Below these cards, there is a large banner image of a sailboat. At the bottom of the banner, there is a search bar with the placeholder text 'What are you looking for?' and a 'SEARCH' button. There is also a checkbox labeled 'Mine only' next to the search bar.

In both cases, you can enter text in the rapid search field and the application automatically searches for objects that are similar to the entered text; no matter if it is a portfolio, client, or portfolio group.

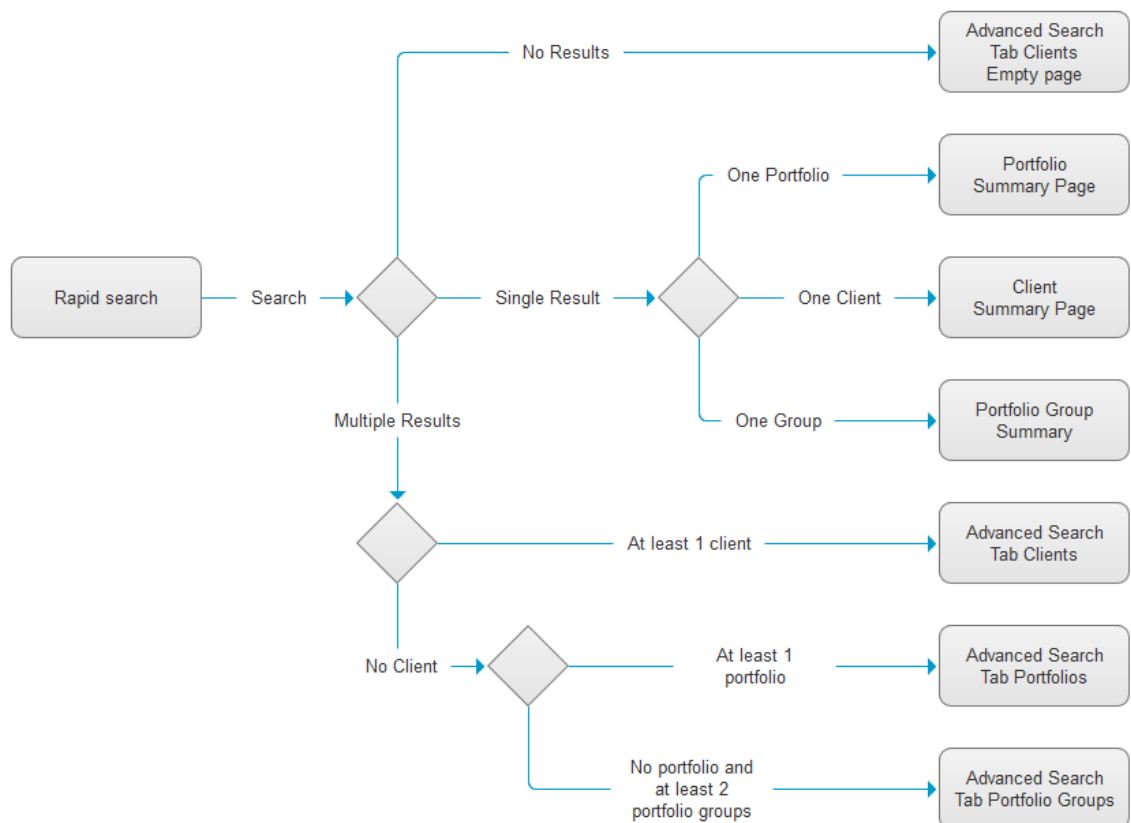

When performing a database query, the application displays clients, portfolios, or groups whose code, name, or denomination matches the search pattern. Technically speaking, the application uses a “start with” operator that has a word matching feature. This means that the application can

validate each word in a text separated with spaces. The search pattern accepts wild cards (i.e., the * character) to substitute any character.

After the application has performed the search request, you will be redirected to different pages according to the resulting data:

- If the search results return only one client, the application automatically selects the client and redirects the RM to a summary view of the client (see section [Obtaining summary view of a client](#)).
- If the search results return only one portfolio, the application automatically selects the portfolio and redirects the RM to a summary view of the portfolio (see section [Obtaining summary view of a portfolio](#)).
- If the search results return only one portfolio group, the application automatically selects the portfolio group and redirects the RM to a summary view of the portfolio group (see section [Obtaining summary view of a portfolio group](#)).
- If there is more than one result or no results are returned, the application opens the **Advanced Search** page on the Clients, Portfolios, or Portfolio Groups tab according to the rules described in the following image:

Note: By default, the search process automatically restricts the retrieval of clients, portfolios, or portfolio groups that are managed by the logged RM. On the **Advanced Search** page and homepage of RMs, this feature is controlled via the checkbox **Mine only**. Unchecking the box when performing a search will retrieve all clients, portfolios, or portfolio groups that the logged RM has security rights to view.

9.2 Searching for clients

As described in section [Rapid search](#), searching for clients can be initiated by RMs entering text in the rapid search field located on the [Homepage of RM Users](#) as well as on most application pages. If there is more than one result or no results are returned, the application opens the **Advanced Search** page on the Clients tab.

This **Advanced Search** page displays a list of clients who are currently managed by the related RM, together with the number of clients retrieved during the search process. If the number of clients shown exceeds the available space on the page, the application will use the [Pagination](#) feature.

Name	Code	Status	Client Type	Market Value	Change (1 Year)	Cash
Arnaud, Clemence	100233	Client	Person	8,423,457.02 EUR	15.64 %	79.27 %
Beaufort, Naomi	100136	Client	Person	2,905,693.15 EUR	9.00 %	40.93 %
Brown, Alexa	100774	Client	Person	1,157,736.77 EUR	17.85 %	52.33 %
Furrer, Antonia	100696	Client	Person	2,914,637.88 EUR	15.72 %	49.87 %
Furrer, Dave	100070	Client	Person	7,324,553.69 EUR	16.40 %	76.49 %
Lopez, Pedro	100235	Client	Person	5,214,337.88 EUR	22.07 %	71.98 %
Martin, Jeanette	100853	Client	Person	12,305,693.15 EUR	15.79 %	86.97 %
Ming, Yvonne	100037	Client	Person	4,969,398.91 EUR	12.65 %	65.33 %
Muller, Wolfgang	100953	Client	Person	3,193,847.93 EUR	11.56 %	48.82 %
Powell, Chris	100437	Client	Person	5,214,337.88 EUR	22.07 %	71.98 %
Robert, Joseph	100009	Client	Person	2,214,337.88 EUR	11.56 %	34.02 %
Smith, Judith	100703	Client	Person	6,605,693.15 EUR	-0.50 %	76.08 %
Tarfy, Samwell	100817	Client	Person	6,305,693.15 EUR	15.79 %	71.98 %
Vega, Anna Dolores	100123	Client	Person	522,244.13 EUR	0.00 %	100.00 %

On the **Advanced Search** page, you can:

- In the results list, click on the corresponding line of a client, which will redirect you to a summary view of the selected client. For more information, see section [Obtaining summary view of a client](#).
- Change the search scope by using the rapid search field (including the **Mine only** checkbox) located at the top of the page. Note that using this field will always execute a search for clients, portfolios, and portfolio groups.
- Use filters to help narrow down the search results:
 - [Filters](#)
 - [Advanced filters](#)
 - [Removing filters](#)

9.2.1 Filters

On the left of the **Advanced Search** page, standard filters are available for you to narrow your search results. The **Manager** and **Currency** fields can only have one value per field while you can select one or more values in the **Status**, **Client Type**, **Segmentation**, and **Monitoring** fields. Each time

the values are modified for the selected filter, the list of results will be automatically redefined accordingly.

Notes:

The **Manager** field is only displayed when the **Mine only** checkbox is unchecked. This field uses the

- [Quick result proposal](#) capability similar to the one for instruments but in this case, the search is for active managers.
- Filters are cumulative (i.e., they use an "and" logical operator).
- Filters in the **Status**, **Client Type**, **Segmentation**, and **Monitoring** fields are cumulative with filters in other fields but uses an "or" logical operator between criteria of the same group.

9.2.2 Advanced filters

When you click **ADVANCED FILTERS** located at the top right of the **Advanced Search** page, additional filters are available for you to further narrow your client search. These advanced criteria options are **Market value**, **Cash**, **Objectives compliance**, **Constraints compliance**, **Risk compliance**, **Number of days since the last investment proposal**, **Last investment proposal date**, **Number of days since the last operation**, **Last operation date**, **MiFID expiry date**, **Categories**, and **Phone number**.

To use these advanced criteria options:

1. Select the desired criterion using the drop-down list.
2. Depending of the selected criterion, the application will then display additional fields to complete such as operators, text fields with or without [Quick result proposal](#), numeric fields, date's widgets, etc. Complete these fields as required.
3. (Optional) To add additional criteria options, click the icon and repeat the steps above.
4. Click **Apply** to update the list of search results.

Note:

Advanced filters are cumulative with standard filters (i.e., they use an "and" logical operator).

9.2.3 Removing filters

To remove filters, do one of the following:

- To remove all filters, change the search scope by using the search field located at the top of the **Advanced Search** page and then, click **Search**. Alternatively, you can click **Reset filters** to automatically refresh the page.

- To remove the advanced criteria options described in section [Advanced filters](#), click the icon of the option that you want to remove. The **Advanced Search** page will only refresh after you click **APPLY**.

9.3 Searching for clients (for CRM module only)

The information provided in this section is specific to the Customer Relationship Management (CRM) module, which is not part of the standard packaging and is sold separately.

In addition to the basic principles on how RM Users can search for clients (see section [Searching for clients](#)), this section describes the search functionality when logged as an RM User with access to CRM functionalities.

Name	HH	Household Name	Code	Status	Client Type	Market Value	Cash
☐ Doe, John	JHT	J_DOE	Client	Person	44,824,350.92 EUR	100.00 %	>
☐ JM. Aulas	JHT	CL_AULAS	Prospect	Person	3,419,897.78 EUR	24.11 %	>

On the **Advanced Search** page of RM Users with access to CRM functionalities, you can:

- View additional client details such as head of household (HH) and household name, if any.
- In the results list, click on the corresponding line of a client, which will redirect you to a summary view of the selected client. For more information, see section [Obtaining summary view of a client](#).
- Change the search scope by using the rapid search field (including the **Mine only** checkbox) located at the top of the page. Note that using this field will always execute a search for clients, portfolios, and portfolio groups.
- Use the **Manage Categories and Notes** link to assign/attach one category or one note to multiple clients at the same time. For more information, see sections [Attaching one note to multiple clients](#) and [Assigning one category to multiple clients](#).

- Use filters to help narrow down the search results:
 - [Filters](#)
 - [Advanced filters](#)
 - [Removing filters](#)

9.3.1 Filters

Refer to section [Filters](#).

9.3.2 Advanced filters

When you click **ADVANCED FILTERS** located at the top right of the **Advanced Search** page, additional filters are available for you to further narrow your client search. These advanced criteria options are **Market value**, **Cash**, **Objectives compliance**, **Constraints compliance**, **Risk compliance**, **Number of days since the last investment proposal**, **Last investment proposal date**, **Number of days since the last operation**, **Last operation date**, **MiFID expiry date**, **Categories**, **Phone number**, **Next Contact**, **Last Contact**, **Number of days since last contact date**, **Number of days to next contact date**, **GDPR Process restriction Flag**, **GDPR Inscope Flag**, **GDPR Child flag**, and **Household Name**.

The screenshot shows the 'Advanced Filters' section of a web application. At the top, there are tabs for 'Clients' (2), 'Portfolios' (15), and 'Portfolio Groups' (0). The 'ADVANCED FILTERS' tab is selected. Below the tabs, there is a list of filter rules. The first rule is 'Market value' with a dropdown arrow, a greater-than operator, and the value '100,000'. The second rule is 'Objectives compliance' with a dropdown arrow, an equals operator, and two checkboxes 'No objective' and 'Compliant'. A plus icon is on the left to add more filters, and an 'APPLY' button is on the right.

To use these advanced criteria options:

1. Select the desired criterion using the drop-down list.
2. Depending of the selected criterion, the application will then display additional fields to complete such as operators, text fields with or without [Quick result proposal](#), numeric fields, date's widgets, etc. Complete these fields as required.
3. (Optional) To add additional criteria options, click the  icon and repeat the steps above.
4. Click **Apply** to update the list of search results.

Note:

Advanced filters are cumulative with standard filters (i.e., they use an "and" logical operator).

9.3.3 Removing filters

Refer to section [Removing filters](#).

9.4 Searching for portfolios

As described in section [Rapid search](#), searching for portfolios can be initiated by RMs entering text in the search field located on the [Homepage of RM Users](#) as well as on most application pages. If there is more than one result or no results are returned, the application opens the **Advanced Search** page on the Portfolios tab.

This **Advanced Search** page displays a list of portfolios that are currently managed by the related RM, together with the number of portfolios retrieved during the search process. If the number of portfolios shown exceeds the available space on the page, the application will use the [Pagination](#) feature.

Name	Code	Client Name	Market Value	Cash
☐ N_TCIB_PTF11	TCIB_PTF11	Tarly, Samwell	2,600,075.80 EUR	27.09 %
☐ N_TCIB_PTF21	TCIB_PTF21	Tarly, Samwell	2,598,342.88 EUR	52.13 %
☐ N_TCIB_PTF22	TCIB_PTF22	Tarly, Samwell	1,968,090.12 EUR	50.21 %
☐ N_TCIB_PTF31	TCIB_PTF31	Tarly, Samwell	2,212,437.29 EUR	52.97 %
☐ N_TCIB_PTF32	TCIB_PTF32	Tarly, Samwell	875,151.90 EUR	97.08 %
☐ N_TCIB_PTF33	TCIB_PTF33	Tarly, Samwell	875,151.90 EUR	97.08 %
☐ N_TCIB_PTF34	TCIB_PTF34	Tarly, Samwell	875,151.90 EUR	97.08 %
☐ N_TCIB_PTF41	TCIB_PTF41	Tarly, Samwell	875,151.90 EUR	97.08 %
☐ N_TCIB_PTF61	TCIB_PTF61	Torth, Bienne	1,947,923.48 EUR	24.25 %
☐ N_TCIB_PTF62	TCIB_PTF62	Torth, Bienne	4,529,102.71 EUR	3.63 %
☐ N_TCIB_PTF63	TCIB_PTF63	Torth, Bienne	1,063,083.04 EUR	5.56 %
☐ N_TCIB_PTF64	TCIB_PTF64	Torth, Bienne		
☐ N_TCIB_PTF65	TCIB_PTF65	Torth, Bienne		
☐ N_TCIB_PTFG1	TCIB_PTFG1	Tarly, Samwell		
☐ N_TCIB_PTFG2	TCIB_PTFG2	Tarly, Samwell		

On the **Advanced Search** page, you can:

- In the results list, click on the corresponding line of a portfolio, which will redirect you to a summary view of the selected portfolio. For more information, see section [Obtaining summary view of a portfolio](#).
- Change the search scope by using the search field (including the **Mine only** checkbox) located at the top of the page. Note that using this field will always execute a search for clients, portfolios, and portfolio groups.
- Create new portfolio groups, add portfolios to an existing group or basket, or replace the basket with the current portfolio selection. For more information, refer to sections [Managing portfolio groups](#) and [Managing your portfolio basket](#).
- Use filters to help narrow down the search results:
 - [Filters](#)
 - [Advanced filters](#)
 - [Removing filters](#)

9.4.1 Filters

The standard filters available for you to narrow the search results of portfolios are the same as those for clients. For more information, see subsection [Filters](#) of section [Searching for clients](#).

9.4.2 Advanced filters

When you click **ADVANCED FILTERS** located at the top right of the **Advanced Search** page, additional filters are available for you to further narrow your portfolio search. These advanced criteria options are *Market value*, *Current year return*, *One year return*, *Over-performance*, *Cash*, *Asset weight*, *Instrument held as position*, *Objectives compliance*, *Objectives deviation*, *Constraints compliance*, *Number of days since the last operation*, *Last operation date* and *Investment profile expiry date*.

Filter Criteria	Operator	Value
Market value	>	1,000,000
Current year return	<	0

The steps for applying advanced criteria options to portfolios are the same as those for clients. For more information, see subsection [Advanced filters](#) of section [Searching for clients](#).

9.4.3 Removing filters

The steps for removing filters on portfolio searches are the same as those for client searches. For more information, see subsection [Removing filters](#) of section [Searching for clients](#).

9.5 Searching for portfolio groups

As described in section [Rapid search](#), searching for portfolios can be initiated by RMs entering text in the search field located on the [Homepage of RM Users](#) as well as most application pages. If there is more than one result or no results are returned, the application opens the **Advanced Search** page on the Portfolio Groups tab.

This **Advanced Search** page displays a list of your portfolio groups based on the search criteria.

What are you looking for?			☒ Mine only	SEARCH	CANCEL
Clients	2	Portfolios	15	Portfolio Groups	4
Name	Description	Currency			
Fiscal Residence	Portfolios to review fiscal residence	EUR			
Review Constraints	Portfolios with too much constraints	EUR			
Review IP	Portfolios to review investment profiles	EUR			
Sell insurance	Portfolios to proposal insurance	EUR			

Contrary to the Clients and Portfolios tabs, standard and advanced filters used to narrow search results are not necessary on the Portfolio Groups tab because the application only allows you create and use 20 portfolio groups.

From the search results list on the **Advanced Search** page, you can:

- Click on the corresponding line of a portfolio group, which will direct you to a summary view of the selected group. For more information, see section [Obtaining summary view of a portfolio group](#).
- Click the icon of the desired portfolio group, which will allow you to make edits to the selected group. For more information, see section [Changing the name and/or description of existing portfolio groups](#).
- Click the icon of the desired portfolio group, which will allow you to delete the selected group. For more information, see section [Deleting existing portfolio groups](#).

9.6 Searching for instruments

Several mechanisms are provided in the application to speed up the instruments search or to permit advanced searches.

Whether you are logged in as a Client User or RM User, you will use the same instruments search mechanisms. These mechanisms are:

- [Search pattern](#)
- [Search conditions](#)
- [Quick result proposal](#)
- [Advanced search](#)

9.6.1 Search pattern

When validating a search criterion in an instrument search box, the application will perform a search for instruments by code, name, denomination, translated denominations, ISIN synonym, and Telekurs synonym that match the pattern. Technically speaking, the application uses a “start with” operator that has a word matching feature. This means that the application can validate each word in a text separated with spaces. The search pattern accepts wild cards (i.e., the * character) to substitute any character.

9.6.2 Search conditions

The application will only retrieve instruments in which you have access (from a security perspective) and the nature is stock, fixed income, discount instrument, fund share, option bond, and convertible bond.

For Investment Proposals, when searching for instruments while creating manual orders, the application might restrict the search results if the MiFID compliance is activated in the system:

- When MiFID suitability check level 1 is activated, the search is restricted to instruments that have a risk level lesser or equal to the Investment Profile risk level defined for the selected portfolio. This rule applies only for purchase orders on portfolios managed through advisory or discretionary mandates and for clients classified as Retail.
- When MiFID appropriateness check level 1 is activated, the search is restricted to instruments that are not flagged as complex. This rule applies only for purchase orders on portfolios managed through advisory or discretionary mandates, and for clients classified as Retail and have indicated on their MiFID profile that they do not have any complex instruments knowledge.
- When MiFID execution only check is activated, the search is restricted to instruments that are listed in a specific list of authorised instruments for buying. This rule applies only for purchase orders on portfolios managed through an execution-only mandate.

By default, MiFID compliance is not activated in the standard packaging, but if activated, all of the above rules are cumulative, including the instrument nature and access rights.

9.6.3 Quick result proposal

When you enter at least three characters in an instrument search box and then stop typing, the application will automatically perform a search request and propose the first 10 results in a drop-down list:

The screenshot shows a search interface with a search box containing the text 'TEM'. Below the search box is a dropdown list titled 'Selected Instruments*'. The list contains four entries, each with a bold title, a code, and a name. The first entry is 'Temenos Group AG' with code 'TEMN.S' and name 'TEMN.S'. The second entry is 'Temenos Group AG' with code 'T_AI_CHF_TEMN' and name 'TEMENOS'. The third entry is 'Temenos 2.00% 31Jan2019' with code 'T_AI_CHF_TEMN_2.00_0119' and name 'N_AI_CHF_TEMN_2.00%_Jan19'. The fourth entry is 'Temenos 2.75% 25Jul2017' with code 'T_AI_CHF_TEMN_2.75_0717' and name 'N_AI_CHF_TEMN_2.75%_Jul17'.

Selected Instruments*		
Temenos Group AG	Code: TEMN.S	Name: TEMN.S
Temenos Group AG	Code: T_AI_CHF_TEMN	Name: TEMENOS
Temenos 2.00% 31Jan2019	Code: T_AI_CHF_TEMN_2.00_0119	Name: N_AI_CHF_TEMN_2.00%_Jan19
Temenos 2.75% 25Jul2017	Code: T_AI_CHF_TEMN_2.75_0717	Name: N_AI_CHF_TEMN_2.75%_Jul17

For each result, the application will display the translated denomination, code, and name of the proposed instruments directly in the drop-down list. If a star is displayed, the instrument is considered a best-recommended instrument, which is always displayed first on the results list. After the desired result is selected, then only the instrument code is displayed.

To remove the selected instrument, click the small x located at the right of the instrument.

Selected Instruments*

T_AI_CHF_TEMN X

Finally, if your search criterion does not match any instruments, the drop-down list will display "No Results".

Selected Instruments*

XYZ

No Results

9.6.3.1 Multi-selection

In some cases, you can select more than one instrument. To do so, enter at least three characters in an instrument search box and select the desired instrument from the drop-down list. After the first selection is done, repeat the same search process.

Selected Instruments*

ABB X TEM

- Temenos Group AG
Code: TEMN.S
Name: TEMN.S
- Temenos Group AG
Code: T_AI_CHF_TEMN
Name: TEMENOS
- Temenos 2.00% 31Jan2019
Code: T_AI_CHF_TEMN_2.00_0119
Name: N_AI_CHF_TEMN_2.00%_Jan19
- Temenos 2.75% 25Jul2017
Code: T_AI_CHF_TEMN_2.75_0717
Name: N_AI_CHF_TEMN_2.75%_Jul17

In the **Selected Instruments** field, the instruments that you selected are displayed side-by-side. To remove any of the instruments, click the small x located at the right of the instrument that you want to remove.

Selected Instruments*

ABB X T_AI_CHF_TEMN X |

9.6.4 Advanced search

An instrument search box that contains a magnifying glass icon indicates that you are able to access the **Advanced Search** page. To access the page, you can either directly click the icon or enter a criterion in the search box before clicking on the icon.

If you had entered a criterion in the search box that contained the icon, it will be used to perform an automatic search on the **Advanced Search** page. Otherwise, no search request is performed and you must enter a criterion on the main search box located on the top of the page and then click **Search**. To return to the previous page, click **Cancel**.

The following sections provide additional information about the features on the **Advanced Search** page:

- [Filters](#)
- [List of results](#)
- [Advanced filters](#)
- [Removing filters](#)

9.6.4.1 Filters

On the left of the **Advanced Search** page, standard filters are available for you to narrow your search results. The **ISIN**, **Telekurs**, and **Currency** fields can only have one value per field while you can select one or more values in the **Nature** field. Each time the values are modified for the selected filter, the list of results will be automatically redefined accordingly.

Notes:

- Filters are cumulative (i.e., they use an "and" logical operator).
- Filters in the **Nature** field are cumulative with filters in other fields but use an "or" logical operator between them. For example, selecting **Stock** and **Fixed Income** (in the **Nature** field), and **CHF** (in the **Currency** field) will lead to a search for instruments whose nature is stock or fixed income and are referenced in CHF currency.
- Filters in the **Sub Nature** field are cumulative with filters in other fields but use an "or" logical operator between them. For example, selecting **Fund Share** (in the **Nature** field), External

Product (in the **Sub Nature** field) and **CHF** (in the **Currency** field) will lead to a search for instruments whose nature is fund share and sub nature is external product and are referenced in CHF currency.

9.6.4.2 List of results

On the right of the **Advanced Search** page, a list of instruments that match your search criterion and filters are displayed. An instrument that is displayed with a star is considered a best-recommended instrument, which is always displayed first on the results list. The instrument details can be viewed by clicking on the chevron symbol at the right of the instrument. (see section [Viewing Details of an instrument](#))

If the search returns more instruments that can be displayed on the page, the application will use the [Pagination](#) feature.

The needs of the page that called the **Advanced Search** page will determine whether you can select only one instrument from the list of results or several at once:

- When the page that called the **Advanced Search** page only allow one instrument to be selected; after selecting one instrument by clicking on a checkbox, the other checkboxes will be disabled. To select a different instrument, deselect the first one and then select the desired instrument.
- When the page that called the **Advanced Search** page allows for more than one instrument to be selected, you must select each desired instrument by clicking on its checkbox. Then, clicking **Select instrument(s)** will close the **Advanced Search** page and propagate your list of selected instruments to the previous page.

Note that you can select multiple instruments from the various paginated pages, but if you change any filters or modify the main search criterion, all selected instruments will be lost.

9.6.4.3 Advanced filters

When you click **ADVANCED FILTERS** located at the top right of the **Advanced Search** page, additional filters are available for you to further narrow your instrument search. These advanced criteria options are **Issuer**, **Interest rate**, **Maturity date**, **Last price**, **Risk country**, and **Type**.

Filter	Operator	Value	Unit
Interest Rate	>	5	%
Last Price	>	10	
Last Price	<	75	

The steps for applying advanced criteria options to instruments are the same as those for clients. For more information, see subsection [Advanced filters](#) of section [Searching for clients](#).

9.6.4.4 Removing filters

The steps for removing filters on instrument searches are the same as those for client searches. For more information, see subsection [Removing filters](#) of section [Searching for clients](#).

9.7 Searching for external banks

Several mechanisms are provided in the application to speed up the external banks search or to permit advanced searches.

Whether you are logged in as a Client User or RM User, you will use the same external banks search mechanisms. These mechanisms are:

- [Search pattern](#)
- [Search conditions](#)
- [Quick result proposal](#)
- [Advanced search](#)

9.7.1 Search pattern

When validating a search criterion in an external bank search box, the application will perform a search for external banks by code, name, denomination and translated denominations that match the pattern. Technically speaking, the application uses a “start with” operator that has a word matching feature. This means that the application can validate each word in a text separated with spaces. The search pattern accepts wild cards (i.e., the * character) to substitute any character.

9.7.2 Search conditions

The application will only retrieve external banks in which you have access (from a security perspective) and the third parties which are external banks.

9.7.3 Quick result proposal

When you enter at least three characters in an external banks search box and then stop typing, the application will automatically perform a search request and propose the first 10 results in a drop-down list:

For each result, the application will display the translated denomination, code, and name of the proposed external banks directly in the drop-down list. If a star is displayed, the external bank is considered a best-recommended external bank, which is always displayed first on the results list. After the desired result is selected, then only the external bank code is displayed.

To remove the selected external bank, click the small x located at the right of the external bank.

Finally, if your search criterion does not match any external banks, the drop-down list will display "No Results".

9.7.4 Advanced search

An external bank search box that contains a magnifying glass icon indicates that you are able to access the **Advanced Search** page. To access the page, you can either directly click the icon or enter a criterion in the search box before clicking on the icon.

If you had entered a criterion in the search box that contained the icon, it will be used to perform an automatic search on the **Advanced Search** page. Otherwise, no search request is performed. To return to the previous page, click **Cancel**. To reset the entered criteria in the search box and the filter, click **Reset**.

The following sections provide additional information about the features on the **Advanced Search** page:

- [Filters](#)
- [List of results](#)

9.7.4.1 Filters

On the left of the **Advanced Search** page, standard filter is available for you to narrow your search results. The **Tax Country** field can only have one value per field. Each time the values are modified for the selected filter, the list of results will be automatically redefined accordingly.

9.7.4.2 List of results

On the right of the **Advanced Search** page, a list of external banks that match your search criterion and filters are displayed. An external bank that is displayed with a star is considered a best-recommended external bank, which is always displayed first on the results list. The Reference Bank can be selected by clicking on the chevron symbol at the right of the external bank and will close the **Advanced Search** page and propagate your selected external bank to the previous page.

If the search returns more external banks that can be displayed on the page, the application will use the [Pagination](#) feature.

WealthSuite Channels – Front Office WS 201909 - User Guide

59

10 Understanding the homepages

Different user roles have access to different homepages. The following sections describe the homepages that are available in the Channels application:

- [Homepage of Client Users](#)
- [Homepage of RM Users](#)
- [Homepage of RM Users \(with access to CRM functionalities\)](#)
- [Homepage of Admin Users](#)
- [Homepage of Admin Users \(with access to CRM functionalities\)](#)

10.1 Homepage of Client Users

The homepage for Client Users displays:

- Pop-up that shows the last date and time that the current user successfully logged in.
 - The pop-up will display the number of unsuccessful login attempts since the last successful login.
 - For first time users, the pop-up will only display the welcome message without last login details.
- Bank's contact information
- Logged user's portfolios
- Graph that illustrates the different asset classes that make up the portfolios' total assets. The graph legend shows the value and weight of each asset class.

To get additional views of the assets (e.g., assets classes, region, and currency) as well as aggregated positions, click on the > icon next to the value in the **Total Assets** field.

To get a summary view of a particular portfolio on the list, click on its corresponding line (see section [Obtaining summary view of a portfolio](#)).

The last section of the Client User homepage provides a summary of the logged user's profile, including the profile's validation status (see [Managing MiFID profiles](#) section).

REVIEW NOW

10.2 Homepage of RM Users

The homepage of RM Users displays:

- Pop-up that shows the last date and time that the current user successfully logged in.
 - The pop-up will display the number of unsuccessful login attempts since the last successful login.
 - For first time users, the pop-up will only display the welcome message without last login details.
- Pertinent global information and quick access to assets under management.

On this page, the following functions are available:

- [Viewing assets under management](#)
- [Viewing overview of potential problems](#)
- [Viewing overview of clients and portfolios allocation](#)
- [Viewing overview of market indices](#)
- [Viewing overview of messages and notifications](#)
- [Viewing best/worst portfolio performers](#)
- [Viewing overview of market currencies](#)

10.2.1 Viewing assets under management

The Assets Under Management section of the RM homepage displays the total market value of assets under management and the number of portfolios, clients, and portfolio groups managed by the connected RM.

The following actions are available in this section of the homepage:

- When you click **ASSET UNDER MANAGEMENT** or **PORTFOLIOS** (including their respective icons), you will be redirected to the **Advanced Search** page (on the Portfolios tab) and the application will display all portfolios under your management (see section [Searching for portfolios](#)).
- When you click **CLIENTS** (including its icon), you will be redirected to the **Advanced Search** page (on the Clients tab) and the application will display all clients under management (see section [Searching for clients](#)).
- When you click **GROUPS** (including its icon), you will be redirected to the **Advanced Search** page (on the Portfolio Groups tab) and the application will display all portfolio groups owned by the connected RM (see section [Searching for portfolio groups](#)).

Below the Assets Under Management section, a search field is available that lets you initiate searches on portfolios, clients, and portfolio groups without the need to first go to the **Advanced Search** page (see section [Rapid search](#)).

10.2.2 Viewing overview of potential problems

This section of the RM homepage displays an overview of various potential problems, as illustrated below:

Client Monitoring			Portfolio Monitoring		
2	Pending proposal	>	0	Goal not on track	>
0	Pending Profile	>	7	High cash ratio	>
2	Incomplete profile	>	0	Pending profile	>
			0	Constraint breach	>
			10	Objective breach	>
			15	Incomplete profile	>

In the Client Monitoring section:

- **Pending proposal** indicator displays the number of clients who have an Investment Proposal that is pending approval for more than 5 days.
- **Pending profile** indicator displays the number of clients who have an MiFID profile that is pending validation.
- **Incomplete profile** indicator displays the number of clients who do not have any MiFID profile or have an expired one.

In the Portfolio Monitoring section:

- **High cash ratio** indicator displays the number of portfolios with liquidity ratio that is greater than 30%.
- **Constraint breach** indicator displays the number of portfolios that are not compliant with their constraints.
- **Goal not on track** indicator displays the number of goal based portfolios that are not on track with their objectives
- **Objective breach** indicator displays the number of portfolios that are not compliant with their objectives.
- **Pending profile** indicator displays the number of portfolios with an Investment Profile that is pending validation.
- **Incomplete profile** indicator displays the number of portfolios that do not have any Investment Profile or have an expired one.

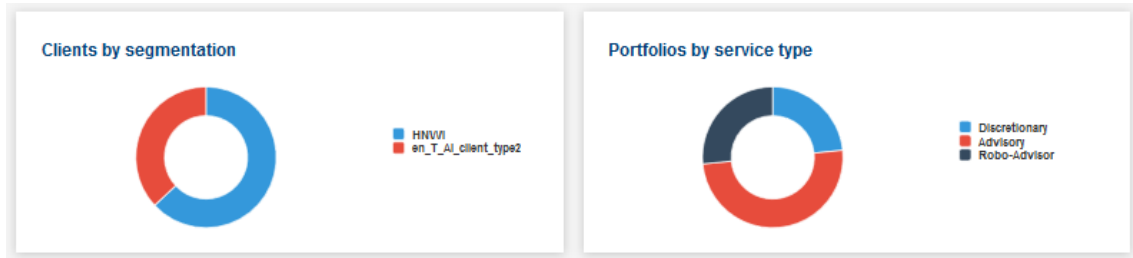

The following actions are available:

- When you click the **Goal not on track**, **No transactions**, **Objective breach**, **High cash ratio**, and **Pending proposal** indicators, you will be redirected to the **Advanced Search** page (on the Portfolios tab) and the application will display all portfolios that match the related problem (see section [Searching for portfolios](#)).
- When you click the **Pending proposal** indicator, you will be redirected to the **Advanced Search** page (on the Clients tab) and the application will display all clients with proposals pending approval (see section [Searching for clients](#)).

10.2.3 Viewing overview of clients and portfolios allocation

This section of the RM homepage displays an overview of clients and portfolios allocations, as illustrated below:

The following actions are available:

- On the Clients by Segmentation chart, click a category either on the chart itself or on the legend, which will redirect you to the **Advanced Search** page (on the Clients tab) where the application will display all clients of the selected segmentation (see section [Searching for clients](#)).
- On the Portfolios by Service Type chart, click a category either on the chart itself or on the legend, which will redirect you to the **Advanced Search** page (on the Portfolios tab) where the application will display all portfolios of the selected service type (see section [Searching for portfolios](#)).

10.2.4 Viewing overview of market indices

This section of the RM homepage displays an overview of the market indices, as illustrated below:

CAC 40	Dow Jones	FTSE 100	Nikkei	SMI
5,410.69	8,875.51	5,876.62	1,202.76	8,990.23
-4.00	-16,437.63	-1,766.90	-20,654.73	-173.30
-0.07%	-64.94%	-23.12%	-94.50%	-1.89%

The list of displayed indices are similar to the one used in the **Instruments** menu (see section [Obtaining market information](#)).

10.2.5 Viewing overview of messages and notifications

This section of the RM homepage displays the number of unread messages and new notifications.

The following actions are available in this section:

- To view unread messages, click the unread messages box and you will be redirected to the **Messages Inbox** page (see section [Viewing messages in inbox](#)).
- To view new notifications, click the new notifications box and you will be redirected to the **Notifications** page (see section [Viewing notifications in inbox](#)).

10.2.6 Viewing best/worst portfolio performers

The Best Performers and Worst Performers sections on the RM homepage displays the top/bottom four portfolios (managed by the current logged RM) that performed the best/worst during the last 12 months in terms of performance (%).

To get a summary view of a portfolio displayed in one of these sections, click on the desired portfolio (see section [Obtaining summary view of a portfolio](#)).

10.2.7 Viewing overview of market currencies

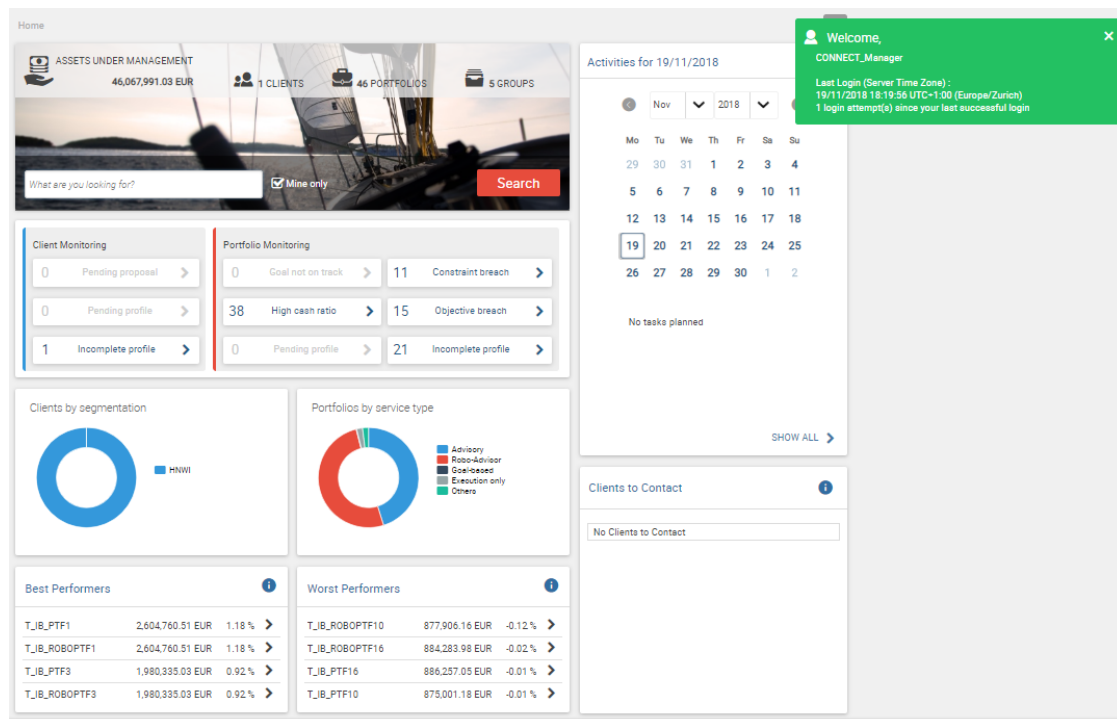

This section of the RM homepage displays an overview of the market currencies, using the same list used in the **Instruments** menu (see section [Obtaining market information](#)).

No action is available on this section.

10.3 Homepage of RM Users (with access to CRM functionalities)

The information provided in this section is specific to the Customer Relationship Management (CRM) module, which is not part of the standard packaging and is sold separately.

For the most part, the homepage of RM Users who have access to CRM functionalities is similar to the standard RM homepage (see section [Homepage of RM Users](#)).

On this page, the following functions are available:

- [Viewing assets under management](#)

- [Viewing overview of potential problems](#)
- [Viewing overview of clients and portfolios allocation](#)
- [Viewing best/worst portfolio performers](#)
- [Viewing overview of activities](#)
- [Viewing overview of clients to contact](#)
- [Launching a workflow](#)

10.3.1 Viewing overview of activities

This section of the RM homepage displays a list of activities for the date shown on the calendar view.

The following actions are available in this section:

- To view a list of activities for a specific date, select the desired date on the calendar and the results will be displayed below the calendar. Shaded dates on the calendar indicate that there are planned activities for that date.
 - A date marked with a darker shade indicates that there is at least one high-priority activity on that date, while a lighter shade indicates that there is no high-priority activity.
 - A maximum of five results are displayed and sorted in the following order: highest priority activities first, followed by outstanding activities, and then upcoming activities. Then, the activities are sorted in the order of common date first and then subject. To view details of an activity shown on the list, click on the desired activity and you will be redirected to the **Activity List** page (see section [Managing activities](#)).
- To view a list of all activities for a specific date or to search for activities using filters, click **Show All** and you will be redirected to the **Activity List** page (see section [Managing activities](#)).

10.3.2 Viewing overview of clients to contact

This section of the RM homepage displays a list of clients that the RM User has not contacted for more than the number of days displayed under the ⓘ icon. A maximum of seven clients are displayed on the list that is sorted by oldest date first, then alphabetically by name. Only clients to whom the RM User has full access are shown.

To view details of a client shown on the list, click on the desired client and you will be redirected to the **Client View** page (see section [Obtaining summary view of a client](#)).

10.3.3 Launching a workflow

The RM homepage allows the RM to launch workflows that are not related to any specific entities. (see the Navigation Principle [Launching a workflow](#) for more details).

10.4 Homepage of Admin Users

The Alerts menu is the homepage for Admin users and displays the following:

- Pop-up that shows the last date and time that the current user successfully logged in.
 - The pop-up will display the number of unsuccessful login attempts since the last successful login.
 - For first time users, the pop-up will only display the welcome message without last login details.
- [Mandatory Alerts tab](#) (default): Displays a list of mandatory alerts that are defined and managed by the Administrator.
- [Alert Templates tab](#): Displays a list of alert templates that are defined and managed by the Administrator.

10.4.1 Mandatory Alerts tab

The Mandatory Alerts tab on the homepage for Admin Users displays a list of mandatory alerts that are defined by the Admin user. By default, the list first displays active alerts. You can filter the list to display inactive or archived alerts by selecting the respective radio buttons.

On the Mandatory Alerts tab, the following actions are available:

- [Viewing and modifying status of existing mandatory alerts](#)
- [Creating mandatory alerts](#)

10.4.1.1 Viewing and modifying status of existing mandatory alerts

To view and modify an existing mandatory alert:

1. From the list of alerts on the homepage, click the desired mandatory alert or its  icon. The status of all alerts on the list is determined by the selected radio button (i.e., **Active**, **Inactive**, or **Archived**).

Details of the selected mandatory alert is displayed in read-only mode.

Details		Schedule	
Name	Constraint1	Frequency	Daily
Description	Constraint on the selected portfolio has been violated	Time of Execution	18/02/2019

2. Do one of the following:

- To return to the list of mandatory alerts, click **Back**.
- To change the status of a mandatory alert, you have the option to:
 - Deactivate an active alert by clicking **Deactivate**. The alert will move to inactive status and can be viewed under the list of inactive mandatory alerts.
 - Archive an active alert by clicking **Archive**. The alert will move to archived status and can be viewed under the list of archived mandatory alerts.
 - Activate an inactive alert by clicking **Activate**. The alert will move to active status and can be viewed under the list of active mandatory alerts.
 - Activate an archived alert by clicking **Restore**. The alert will move to active status and can be viewed under the list of active mandatory alerts.
 - Update the details of an alert by clicking **Edit**. The **Create / Update Mandatory Alert** page is displayed and lets you modify the alert's details.

10.4.1.2 Creating mandatory alerts

To create a mandatory alert:

1. On the homepage, click **New**.

The **Create / Update Mandatory Alert** page is displayed with a step approach for the creation process. The first step is Definition.

Create/Update Alert

DEFINITION QUERY NOTIFICATION RECIPIENTS CONFIRMATION

On the Alert Templates tab, the following actions are available:

- [Viewing and modifying status of alert templates](#)
- [Creating alert templates](#)

10.4.2.1 Viewing and modifying status of alert templates

To view an alert template:

1. From the list of alert templates displayed in the Alert Templates tab, click the desired template or its > icon. The status of all templates on the list is determined by the selected radio button (i.e., **Active**, **Inactive**, or **Archived**).

Details of the selected alert template is displayed in read-only mode.

2. Do one of the following:

- To return to the list of alert templates, click **Back**.
- To change the status of an active alert template, you have the option to:
 - Deactivate an active alert template by clicking **Deactivate**. The template will move to inactive status and can be viewed under the list of inactive alert templates.
 - Archive an active alert templates by clicking **Archive**. The template will move to archived status and can be viewed under the list of archived alert templates.
 - Activate an inactive alert template by clicking **Activate**. The template will move to active status and can be viewed under the list of active alert templates.
 - Activate an archived alert template by clicking **Restore**. The template will move to active status and can be viewed under the list of active alert templates.
 - Update the details of an alert template by clicking **Edit**. The **Create / Update Alert Template** page is displayed and lets you modify the template's details.

10.4.2.2 Creating alert templates

To create an alert template:

1. On the Alert Templates tab, click **New**.

The **Create / Update Alert Template** page is displayed with a step approach for the creation process. The first step is Definition.

Create/Update Alert

4. In the Definition section, perform the following tasks:

- a. Choose whether you are defining the query for a portfolio (default) or a client. If you have the CRM Module, you can choose whether you are defining the query for clients, portfolios, documents or activities.
 - b. Define all required **criteria**. To add a criteria click . To remove a criteria click . For each criteria, you can alternatively:
 - Uncheck the **Threshold** checkbox and define **operator** and **value** fields. In this case, users who subscribe to this alert template will not be able to customise these fields of the query.
 - Check the **Threshold** checkbox. In this case, users who subscribe to this alert template will be able to customise these fields of the query (see section [Customising the query in templates](#)).
 - c. Click **Test** to check your alert. This button is available only when all criteria, operators, and values are set. Results that fulfil the criteria are displayed in the list section. If no results are found, the No Results Found message is displayed. You are not prevented from moving to the next step if no results are found.
5. Do one of the following:
- To return to the Definition step of the creation process, click **Previous**.
 - To cancel the creation process, click **Cancel**. You will be returned to the list of mandatory alerts.
 - To save the entered information without concluding the creation process, click **Save as Draft**. The status of this alert will change to inactive and you can come back to the same page later to complete the creation process.
 - To proceed to the next step click **Next**. The **Create / Update Alert Template** page is displayed with the next step - Notification - of the creation process.

6. In the Notification section, complete the **Category**, **Subject**, and **Text** fields.
7. Do one of the following:
 - To return to the Query step of the creation process, click **Previous**.
 - To cancel the creation process, click **Cancel**. You will be returned to the list of mandatory alerts.
 - To save the entered information without concluding the creation process, click **Save as Draft**. The status of this alert will change to inactive and you can come back to the same page later to complete the creation process.
 - To finalize the creation process, click **Validate**. The **Create / Update Alert Template** page is displayed with the next step - Confirmation - of the creation process. A confirmation message on the page confirms that the mandatory alert has been created and saved.

10.5 Homepage of Admin Users (with access to CRM functionalities)

The information provided in this section is specific to the Customer Relationship Management (CRM) module, which is not part of the standard packaging and is sold separately.

For the most part, the homepage of Admin Users who have access to CRM functionalities is similar to the standard Admin homepage (see section [Homepage of Admin Users](#)).

The difference is that alerts can be defined for documents and activities, in addition to clients and portfolios.

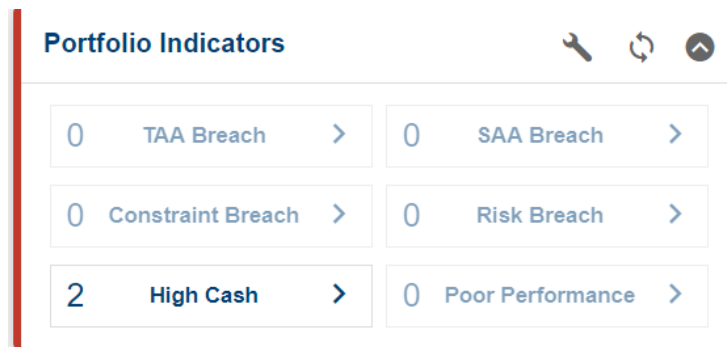

10.6 Homepage of PM Users

This section describes the homepage of PM. The following functions are available:

- [Portfolio Indicators](#)
- [Portfolio Monitoring - Quick access](#)
- [Order Blotter Summary](#)
- [Portfolio Monitoring - My portfolios](#)
- [Order Processes](#)
- [Working on Multiple tabs / windows](#)

10.6.1 Portfolio Indicators

This section of the PM home page displays an overview of various potential problems, as illustrated below:

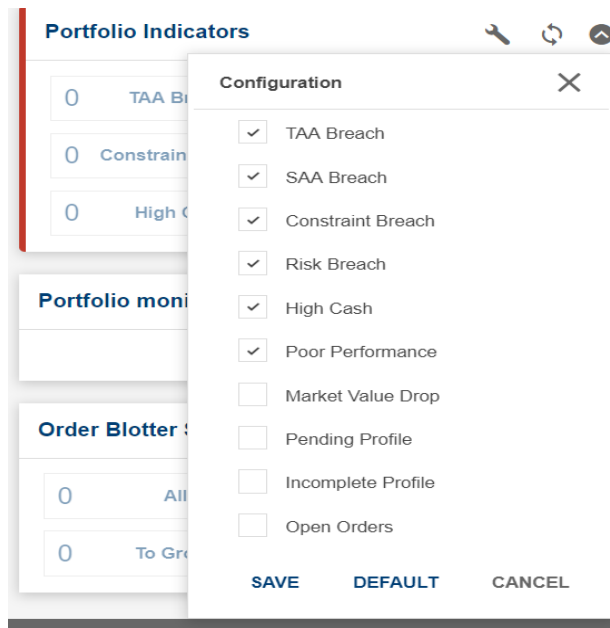

1. In the Portfolio indicators section, the following indicators are displayed by default:

- **TAA Breach** indicator displays the number of portfolios that would have breached tactical asset allocation
- **SAA Breach** indicator displays the number of portfolios that would have breached strategic asset allocation
- **Constraint Breach** indicator displays the number of portfolios that are not compliant with their constraints.

- **Risk Breach** indicator displays number of portfolios in deviation with their main risk compliance
 - **High cash** ratio indicator displays the number of portfolios with liquidity ratio that is greater than 30%.
 - **Poor Performance** indicator displays the number of portfolios below a defined performance threshold
8. To select different indicators, click on the configuration icon (🔧).

The additional indicators available are:

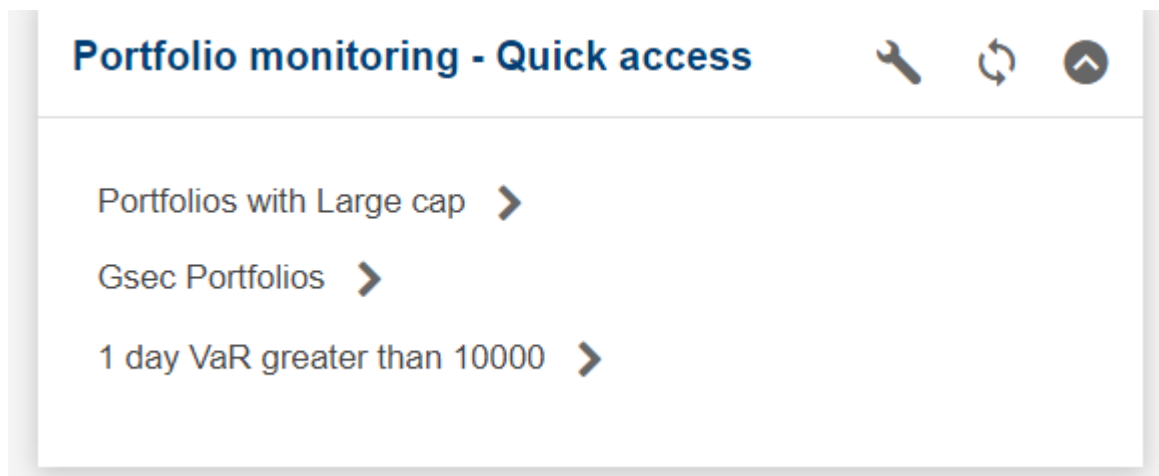

- **Market value drop** indicator displays the number of portfolios with a value that has fallen more than 2% since one year
 - **Pending profile** displays list of all profiles under PM that are in the Pending stage
 - **Incomplete profile** displays list of incomplete profiles
 - **Open orders** displays list of all open orders that are due for settlement
9. On the Configuration dialog, do one of the following:
- To select specific indicators to display, select each indicator and then click **Save**.
 - To restore the indicators to display to the defaults, click **Default**.
 - To cancel your selection, click **Cancel** or close the dialog.
10. To refresh the Portfolios Indicator section with the most recent results, click the Refresh (🔄) icon.
11. To minimize the Portfolios Indicator section, click the Minimize (📦) icon.
12. To maximize the section, click the Maximize (📦) icon.
13. To see a list of the portfolios referenced by a specific indicator in the portfolio overview tab, click on the chevron next to the indicator.

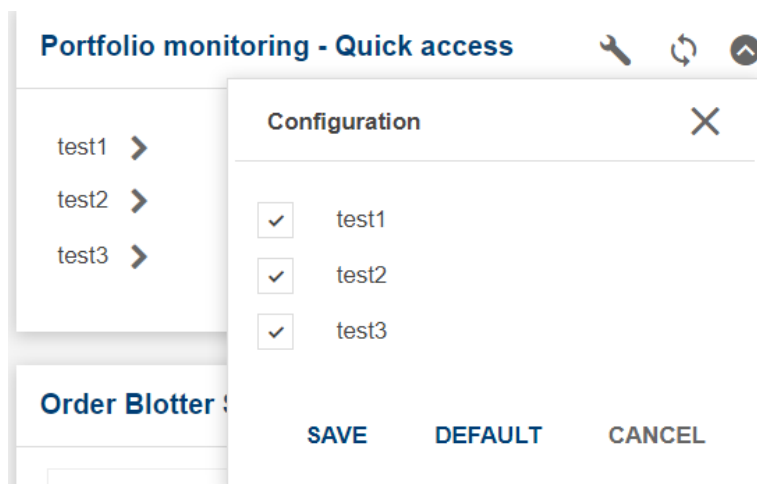

If there are no portfolios for an indicator, you will remain on the home page.

10.6.2 Portfolio Monitoring - Quick access

This section shows existing portfolio monitoring views. This view can be configured, refreshed and maximized / minimized

1. To select different monitoring views to display, click on the configuration icon (wrench).
The Configuration dialog will be displayed.

2. On the Configuration dialog, do one of the following:
 - To select specific views to display, select each view and then click **Save**.
 - To restore the views to display to the defaults, click **Default**.

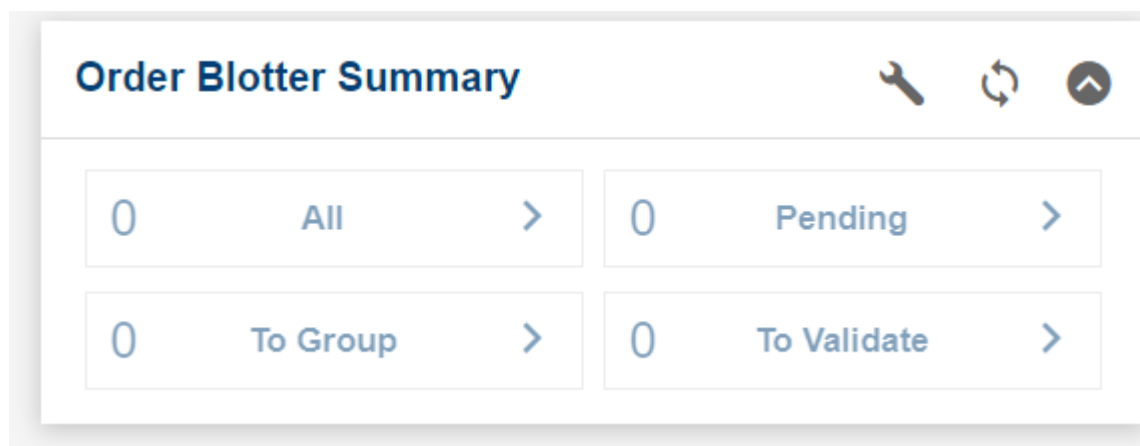

- To cancel your selection, click **Cancel** or close the dialog.
- 3. To refresh the section with the most recent results, click the Refresh (🔄) icon.
- 4. To minimize the section, click the Minimize (⌵) icon.
- 5. To maximize the section, click the Maximize (🔼) icon.
- 6. To see a list of the portfolios referenced by a specific indicator in the portfolio overview tab, click on the chevron next to the indicator.

If there are no portfolios for an indicator, you will remain on the home page.

10.6.3 Order Blotter Summary

This card on the home page displays a summary of orders, by which the PM can gain quick access to the Order monitoring page displaying the respective orders.

1. Clicking chevron next to **All** will display all orders (pending and non pending) that would have been logged by you or orders pertaining to portfolios that are managed by you or orders pertaining to portfolios in a list that would have been created by you.
2. Clicking chevron next to **Pending** will display up a new tab option that lets you view all pending, executed, and unexecuted orders. You then have the option to submit a request to cancel or to update an order.
3. Clicking chevron next to **To Group** will display a list of orders that can potentially be grouped as one order.
4. Clicking chevron next to **To Validate** will display a list of orders that require validation. There will also be an option to reject the orders.
5. To configure the information displayed, click on the configuration icon (🔧).
The Configuration dialog will be displayed.

6. You can modify the list of portfolios to be referenced.
 - Clicking 'ALL' shall display count of orders in each status for all portfolios.
 - Clicking 'MINE' shall display count of orders in each status for portfolios for which PM is the administrative manager.
 - Clicking 'LIST' shall display count of orders in each status for portfolios that are part of a chosen list.
7. You can modify the time frame for the orders to be considered.
8. Once you have made your changes; click **Save**, **Cancel** or close the dialog.
9. To refresh the section with the most recent results, click the Refresh (🔄) icon.
10. To minimize the section, click the Minimize (📐) icon.
11. To maximize the section, click the Maximize (📦) icon.

10.6.4 Portfolio Monitoring - My portfolios

The home page displays a list of portfolios in a dedicated card, allowing the PM to quickly access the Portfolio summary page of a selected portfolio and in turn its analysis, ordering and reporting pages.

These views can be created through Portfolio Monitoring that can be found under 'Monitoring' menu. All views created through 'Portfolio Monitoring' will appear in the homepage. You can add, edit and delete views

By default, all portfolios in a pre defined list will be displayed whenever PM logs in. The default list will be named "All My Portfolios". Additional lists can be added to the view. Each saved view will then appear in Portfolio Monitoring - Quick Access card. The 'Save As' option will be provided only

when you modify existing portfolio monitoring views by changing the attached portfolio list. When creating new view, only the 'Save' option will be available.

10.6.6 Working on Multiple tabs / windows

PM will be able to work on multiple tabs. Whenever a chevron or a link is clicked in the homepage a new tab opens up. This will help PM in working on different pages/ tabs rather than refreshing the existing page

Contents of two different pages can be viewed simultaneously by opening up content in new window. When one of the existing tabs is clicked upon or moved (dragged and dropped anywhere), that tab will open up in a new window

As can be seen below, two windows are open. The second window captures 'Monitoring view details'.

11 Understanding the Client menu

The information provided in this section is specific to the Customer Relationship Management (CRM) module, which is not part of the standard packaging and is sold separately.

The purpose of the **Client** menu in the Channels application is described in this section.

Under the **Client** menu, the following functions are available:

- [Obtaining summary view of a client](#)
- [Obtaining summary view of a client profile](#)
- [Viewing and editing regulatory information](#)
- [Viewing relationships](#)
- [Managing related companies](#)
- [Managing activities](#)
- [Managing documents](#)
- [Viewing and updating related countries](#)

11.1 Obtaining summary view of a client

To obtain a summary view of a client, RM Users must first find the desired client by using one of the following options:

- Accessing the client from your homepage (see section [Homepage of RM Users \(with access to CRM functionalities\)](#)).
- Using rapid search (see section [Rapid search](#)).
- Searching from the Clients tab of the **Advanced Search** page (see section [Searching for clients](#)).

After the client has been selected, RM Users can go to **Client > Client View** from the menu bar to display the **Client View** page. This page provides global information about the selected client and allows the RM User to navigate to more detailed data:

- At the top of the page, a snapshot of the client's primary personal details is displayed in the client banner (see section [Client banner for RM Users](#) for more information).
- Client Details section provides a snapshot of the client's information as it relates to the bank. From this section, you can get direct access to the following pages that provide more detailed views:
 - **Relationships** page by clicking the > icon in the **Relationships** field. This field shows the most current contact related to the client (see section [Viewing relationships](#)).

- **Create Customer** page by clicking the  icon displayed in the **Create Customer** field. This field lets you create a customer record, which is a contract between the bank and client (or organization).
- Portfolios section shows a list of portfolios associated with the client. To view details of a particular portfolio, click the > icon next to the desired portfolio and you will be redirected to the **Portfolio Summary** page (see section [Obtaining summary view of a portfolio](#)).
- Regulatory / Compliance section shows regulatory details of the client that banks must maintain to ensure that clients are being monitored for potential violations of legal and tax laws. From this section, you can get direct access to the following pages that provide more detailed views:
 - **Related Companies** page by clicking the > icon in the **Related Companies** field. This field shows the most current company related to the client (see section [Managing related companies](#)).
 - **Client Profiling** page by clicking the > icon in the **FATCA Status** and **MiFID Profile** fields (see sections [Viewing FATCA information of clients](#) and [Viewing MiFID profile](#)).
 - **Regulatory** page by clicking the > icon in the **Activity in Sanctioned Country?** field (see section [Viewing regulatory information maintained for clients](#)).
 - **GDPR** page by clicking the > icon in the **Processing** field (see section [Viewing GDPR information of clients](#)).
- Notes section shows a list of five most recent notes associated with the client. The list displayed is sorted in descending order of the modified date.
 - To view details of a particular note on the list, click the > icon next to the desired note and you will be redirected the **Notes** page (see section [Understanding the Notes menu](#)).
 - To view a list of all notes associated with the client or to search for notes using filters, click **Show All** and you will be redirected to the **Notes** page (see section [Understanding the Notes menu](#)).
- Current Activities section shows a list of five most recent activities associated with the client. The list displayed is sorted in the following order: highest priority activities first, followed by outstanding activities, and then upcoming activities. Then, the activities are sorted in the order of common date first and then subject.
 - To view details of a particular activity on the list, click the > icon next to the desired activity and you will be redirected to the **Activity List** page (see section [Managing activities](#)).
 - To view a list of all activities or to search for activities using filters, click **Show All** and you will be redirected to the **Activity List** page (see section [Managing activities](#)).
- Documents section shows a list of five most recent non-pending documents associated with the client. The list displayed is sorted in descending order of the modified date and title.
 - To open or save a document on the list, click on the desired document and you will be redirected to the **Current Documents** page (see section [Managing documents](#)).
 - To view a list of all documents or to search for documents using filters, click **Show All** and you will be redirected to the **Current Documents** page (see section [Managing documents](#)).
- Related Countries section shows a list of countries/jurisdictions, if any, that are associated with the client (e.g., tax implications for clients who are taxed in a particular country while residing in another). For more information, see section [Viewing and updating related countries](#)).

11.1.1 Viewing FATCA information of clients

To view the Foreign Account Tax Compliance Act (FATCA) classification and status of a client, go to the **Client View** page and click the > icon in the **FATCA Status** field. (For more information about the **Client View** page, see section [Obtaining summary view of a client](#).) The **Client Profiling** page is displayed and contains a FATCA section.

Alternatively, you can reach the **Client Profiling** page by searching for the client and then, from the menu bar, go to **Client > Client Profiling**. (For more information, see section [Obtaining summary view of a client profile](#).)

In the FATCA section, you can:

- Review FATCA information maintained for the client.
- Edit the FATCA information maintained for the client (see section [Editing FATCA information](#)).

11.1.1.1 Editing FATCA information

To edit FATCA information maintained for the client:

1. From the **Client Profiling** page of the desired client, click **Edit** button located in the FATCA section.
2. Edit the information in the relevant fields.
3. Click **Save**.

11.1.2 Viewing MiFID profile

To view the Markets in Financial Instruments Directive (MiFID) profile of a client, go to the Client Details section on the **Client View** page and click the > icon next to the status displayed in the **MiFID Profile** field. (For more information about the **Client View** page, see section [Obtaining summary view of a client](#).) The **Client Profiling** page is displayed with all information related to the client's MiFID profile in read-only mode. In the MiFID section, you have the option to define a new MiFID profile or to update a current one (see section [Managing MiFID profiles](#)).

Alternatively, you can reach the **Client Profiling** page by searching for the client and then, from the menu bar, go to **Client > Client Profiling**. (For more information, see section [Obtaining summary view of a client profile](#).)

11.1.3 Viewing regulatory information maintained for clients

To view the regulatory information maintained for a client, go to the Client Details section on the **Client View** page and click the > icon next to the status displayed in the **Activity in Sanctioned Country?** field. (For more information about the **Client View** page, see section [Obtaining summary view of a client](#).) Alternatively, you can also access the **Regulatory** page by going to **Client > Client View** from the menu bar. For more information about the **Regulatory** page, see section [Viewing and editing regulatory information](#).

11.1.4 Viewing GDPR information of clients

To view your clients' preferences on how their personal data will be used with regard to the European Union's General Data Protection Regulation (GDPR), go to the Client Details section on

the **Client View** page and click the > icon next to the status in the **Processing** field. (For more information about the **Client View** page, see section [Obtaining summary view of a client](#).) The **GDPR** page contains the following sections/tabs that provide quick access to tasks for managing your client's GDPR information:

- [GDPR Criteria section](#) where you can define whether the client is in scope under the privacy regulation.
- [Consent section](#). Separate consents can be obtained from the client for different processing purposes. This section lets you define how your clients want their personal data used for automated decision making, data sharing, marketing, profile, and research purposes.
- [Processing Restrictions tab](#) where you can view history as well as track and save the following data access requests:
 - Reasons for changes
 - Challenges to automated decisions
 - Objections to the use of personal data
- [Personal Data Requests tab](#) where you can view history as well as track and save the following data access requests:
 - Personal data access
 - Personal data erasures
 - Discrepancy modifications
- [Data Portability Requests tab](#) where you can view history as well as track and save the following data access requests:
 - Digital portability

11.1.4.1 GDPR Criteria section

The GDPR Criteria section shows existing GDPR information, if any, for your client.

To edit or define whether the client is in or outside the scope of GDPR:

1. In the GDPR section of the **GDPR** page, click **Edit**.
The GDPR section is expanded with modifiable fields.
2. Modify the existing information in the fields or add new information.
3. Click **Save**.
The GDPR section is updated with the new information.

11.1.4.2 Consent section

The Consent section shows a list of existing client consents, if any. You have the option to submit requests to edit, delete, or view an existing consent, as well as to create new consents. More than one consent can be created and maintained at any time. Currently, the system only captures, stores, and maintains the requests; it does not process the requests.

To manage your client's consent information, do one of the following in the Consent section of the **GDPR** page:

- To view details of an existing consent on the list, click the > icon of the desired consent. The **Consent Details** page is displayed with the information in read-only mode. Click **Close** to return to the **GDPR** page.

- To edit an existing consent on the list, click the  icon. The **Consent Details** page is displayed with modifiable fields. Modify the existing information in the fields and click **Save**. The **GDPR** page is displayed with the new consent information.
- To delete an existing consent on the list, click the  icon next to the desired consent. When a confirmation message is displayed asking you to confirm the deletion, click **Yes**. The deleted consent is removed from the list.
- To create a new consent, click **New Consent**. The **Consent Details** page is displayed with modifiable fields. Complete the fields and click **Save**. The **GDPR** page is displayed with the new consent added to the list.

11.1.4.3 Processing Restrictions tab

The Processing Restrictions tab shows a history of the following types of data access requests. Click **Manage Requests** to create, edit, or delete these requests:

- You want to capture details of a client's request to restrict processing of their personal data.
- You want to capture details of a client's objection to the automated decision making of the system when processing their personal data.
- You want to capture details of a client's objection to using their personal data for specific processes (e.g., marketing)

The available tasks are:

- To create a new request, click **New Request** and complete the fields. Then, click **Save**.
- To edit an existing request, modify the information in the fields and then, click **Save**.
- To delete an existing request, click the  icon next to the desired request. When a confirmation message is displayed asking you to confirm the deletion, click **Yes**. Then, click **Save**.

Currently, these requests are tracked and saved but not processed by the system.

11.1.4.4 Personal Data Requests tab

The Personal Data Requests tab shows a history of the following types of data access requests. Click **Manage Requests** to create, edit, or delete these requests:

- Clients requesting access to their personal data
- You want to erase all personal data of the client stored in the bank's systems
- You want to correct any discrepancies in the client's personal data

The available tasks are:

- To create a new request, click **New Request** and complete the fields. Then, click **Save**.
- To edit an existing request, modify the information in the fields and then, click **Save**.
- To delete an existing request, click the  icon next to the desired request. When a confirmation message is displayed asking you to confirm the deletion, click **Yes**. Then, click **Save**.

Currently, these requests are tracked and saved but not processed by the system.

11.1.4.5 Data Portability Requests tab

The Data Portability Requests tab shows a history of requests from the clients regarding the use of their personal data in compatible machine readable format. Click **Manage Requests** to create, edit, or delete these requests:

The available tasks are:

- To create a new request, click **New Request** and complete the fields. Then, click **Save**.
- To edit an existing request, modify the information in the fields and then, click **Save**.
- To delete an existing request, click the  icon next to the desired request. When a confirmation message is displayed asking you to confirm the deletion, click **Yes**. Then, click **Save**.

Currently, these requests are tracked and saved but not processed by the system.

11.1.5 Viewing categories assigned to clients

To view categories that have been assigned a client, see section [Understanding the Category Maintenance menu](#).

11.1.6 Viewing related countries

To view information about related countries/jurisdictions that apply to a client, see section [Viewing and updating related countries](#).

11.1.7 Launching a workflow for a client

The Client Summary page also allows the RM to launch a workflow related to the client (see the Navigation Principle [Launching a workflow](#) for more details)

11.2 Obtaining summary view of a client profile

To obtain a summary view of a client profile, RM Users must first find the desired client by using one of the following options:

- Accessing the client from your homepage (see section [Homepage of RM Users \(with access to CRM functionalities\)](#)).
- Using rapid search (see section [Rapid search](#)).
- Searching from the Clients tab of the **Advanced Search** page (see section [Searching for clients](#)).

After the client has been selected, RM Users can go to **Client > Client Profiling** from the menu bar to display the **Client Profiling** page:

- At the top of the page, a snapshot of the client's primary personal details is displayed in the client banner (see section [Client banner for RM Users](#) for more information).

- Personal Information / Preference section displays the client's personal information and preferences.
- MiFID section displays all information related to the client's MiFID profile in read-only mode. In this section, you have the option to define a new MiFID profile or to update a current one (see section [Managing MiFID profiles](#)).
- FATCA section displays a summary view of the FATCA information maintained for the client (see section [Viewing FATCA information of clients](#) for more information).

11.3 Viewing and editing regulatory information

The **Regulatory** sub-menu is an option under **Summary** in the **Client** menu and displays the regulatory information maintained for the client. This information assists you with verifying the client's identity and obtaining information regarding the purpose and intended nature of the business relationship. For example, the client's financial situation, assets, income as well as business activities and if available, family situation are captured.

From the **Regulatory** page, you can:

- Directly edit the client's financial situation, asset, income, and politically exposed person information by clicking the **Edit** button in the relevant, individual sections.
- Access the client's MiFID profile by clicking the > icon in the MiFID section (for more information about this profile, see section [Managing MiFID profiles](#)).
- Directly edit the client's business activity and family situation by selecting the relevant, individual tabs and then, clicking the **Edit** button.
- Access to related companies information by clicking the > icon in the **Related Companies** field on the Business Activity tab. For more information about this field, see section [Managing related companies](#).

11.4 Viewing relationships

The **Relationship Tree** sub-menu is an option under **Relationships** in the **Client** menu and provides details of all relationships connected to the selected client's profile as well as the members of the household and the person to contact as head of household, if any.

To view the relationship tree:

1. From the menu bar, go to **Client > Relationship Tree**.
The **Relationships** page is displayed.
2. In the Relationships section, you can:
 - Review details of each relationship that is connected to the client profile. Each relationship is illustrated as individual contact cards at the bottom of the page. When you click on a contact card, you are redirected to the **Relationships** page of the connected relationship.
 - Edit the relationships. For more information, see section [Editing household, client relationships, and customer relationships](#).

11.4.1 Editing household, client relationships, and customer relationships

This section describes how you can set or dissolve the household, create client or customer relationships, and delete client or customer relationships.

To edit household or relationship information:

1. From the menu bar, go to **Client > Relationship Tree**.
The **Relationships** page is displayed.
2. In the Relationship section, click **Edit**.
The **Edit Relationships** page is displayed.
3. (Optional) If available, set the head of household by selecting the radio button and entering the household name of the client that you want to set as the head of household.
4. (Optional) If available, dissolve the household by clicking the  icon next to the household name for the head of the household.
5. (Optional) To create a client or customer relationship, click **Create Relationship** in the Client Relationships section or Customer Relationships section respectively. A new empty row is added to the end of the list of relationships. Complete the fields to create a new relationship. Mandatory fields are marked with an asterisk. To continue to create another relationship, click **Create Relationship** again to create another empty row.
6. (Optional) To delete a client or customer relationship, click the  icon of the client or customer relationship that you want to delete.
7. Click **Save**.

11.5 Managing related companies

The **Related Companies** sub-menu is an option under **Relationships** in the **Client** menu and provides details of all companies associated with the selected client's profile as well as any regulatory information related to the companies.

The following sections describe how to manage information regarding the client's related companies:

- [Viewing related companies](#)
- [Creating related companies](#)
- [Editing related companies](#)
- [Deleting related companies](#)

11.5.1 Viewing related companies

To view the related company:

1. From the menu bar, go to **Client > Related Companies**.
The **Related Companies** page is displayed with a list of companies, if any.

2. (Optional) If you have a paginated list, you can use the search feature to reduce the list. To conduct a search, enter part or all of the company name in the **Search on Company** field, then click on the magnifying glass icon.
3. To view details of a company on the list, click the > icon of the desired company.
Details of the selected company are shown on the right side of the list.

11.5.2 Creating related companies

To create a related company:

1. From the menu bar, go to **Client > Related Companies**.
The **Related Companies** page is displayed with a list of companies, if any.
2. Click the + icon to create a new related company.
The **New Related Company** section is displayed.
3. Complete the fields. Mandatory fields are marked with an asterisk.
4. Click **Save**.

11.5.3 Editing related companies

To edit a related company:

1. From the menu bar, go to **Client > Related Companies**.
The **Related Companies** page is displayed with a list of companies, if any.
2. (Optional) If you have a paginated list, you can use the search feature to reduce the list. To conduct a search, enter part or all of the company name in the **Search on Company** field, then click on the magnifying glass icon.
3. Click the > icon of the company that you want to edit.
Details of the selected company are shown on the right side of the list.
4. Click **Edit** and update the desired fields.
5. Click **Save**.

11.5.4 Deleting related companies

To delete a related company:

1. From the menu bar, go to **Client > Related Companies**.
The **Related Companies** page is displayed with a list of companies, if any.
2. (Optional) If you have a paginated list, you can use the search feature to reduce the list. To conduct a search, enter part or all of the company name in the **Search on Company** field, then click on the magnifying glass icon.
3. Click the > icon of the company that you want to delete.
Details of the selected company are shown on the right side of the list.

4. Click **Delete**. When a confirmation message is displayed asking you to confirm the deletion, click **Yes**.

11.6 Managing activities

The **Activities** sub-menu in the **Client** menu lets RM Users schedule and maintain the following activities (e.g., tasks) with other users for the selected client:

- [Viewing existing activities](#)
- [Creating activities](#)
- [Editing activities](#)
- [Deleting activities](#)
- [Linking documents to activities](#)
- [Unlinking documents from activities](#)
- [Linking categories and associated clients/portfolios to activities](#)
- [Unlinking categories and associated clients/portfolios from activities](#)
- [Launching a workflow for an activity](#)

11.6.1 Viewing existing activities

The **Activities** sub-menu is an option under the **Client** menu and provides details of all outstanding activities (e.g., tasks) associated with the selected client.

To view an activity:

1. From the menu bar, go to **Client > Activities**.
The **Activity List** page is displayed with a list of activities, if any.
2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Click **Advanced Filters** to apply a type or status filter, then click **Apply**.
 - Enter from and to dates to apply a date filter.
 - Enter part or all of the activity subject in the **Search on Subject** field, then click on the magnifying glass icon.
3. To view details of an activity on the list, click the > icon of the desired activity.
Details of the selected activity are shown on the right side of the list.

11.6.2 Creating activities

When creating activities for selected clients, you can also link categories or associated clients to the new activities.

To create a new activity:

1. From the menu bar, go to **Client > Activities**.
The **Activity List** page is displayed with a list of activities, if any.
2. Click the  icon to create a new activity.

The New Task section is displayed.

3. Complete the fields. Mandatory fields are marked with an asterisk.
4. (Optional) Link categories and associated clients/portfolios to the activity. For more information, see section [Linking categories and associated clients/portfolios to activities](#).
5. Click **Save**.

11.6.3 Editing activities

To edit an activity:

1. From the menu bar, go to **Client > Activities**.

The **Activity List** page is displayed with a list of activities, if any.

2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Enter from and to dates to apply a date filter.
 - Enter part or all of the activity's subject in the **Search on Subject** field, then click on the magnifying glass icon.
3. Click the > icon of the activity that you want to edit.

Details of the selected activity are shown on the right side of the list.

4. Click **Edit** and update the desired fields.
 - For more information about linking categories and associated clients/portfolios to the activities, see section [Linking categories and associated clients/portfolios to activities](#).
 - For more information about unlink categories and associated clients/portfolios to the activities, see section [Unlinking categories and associated clients/portfolios from activities](#).
5. Click **Save**.

11.6.4 Deleting activities

To delete an activity:

1. From the menu bar, go to **Client > Activities**.

The **Activity List** page is displayed with a list of activities, if any.

2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Enter from and to dates to apply a date filter.
 - Enter part or all of the activity's subject in the **Search on Subject** field, then click on the magnifying glass icon.
3. Click the > icon of the activity that you want to delete.

Details of the selected activity are shown on the right side of the list.

4. Click **Delete**. When a confirmation message is displayed asking you to confirm the deletion, click **Yes**.

11.6.5 Linking documents to activities

One or more documents can be linked to an activity.

To link a document to an activity:

1. From the menu bar, go to **Client > Activities**.

The **Activity List** page is displayed with a list of activities, if any.

2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:

- Enter from and to dates to apply a date filter.
- Enter part or all of the activity's subject in the **Search on Subject** field, then click on the magnifying glass icon.

3. Click the > icon of the desired activity.

Details of the selected activity are shown on the right side of the list.

4. Click **Edit**.

5. In the Documents section, click **Show All**.

The **Documents** page is displayed.

6. Click the  icon and do one of the following:

- To link an existing document, select **Link Document**. Then, in the Link Document section, do one of the following:
 - Begin typing the document name in the **Search on Title** field and a list of relevant names are displayed from which the document can be selected.
 - To search for a document, click on the magnifying glass icon in the **Documents** field. You will be redirected to the **Documents** page to select and/or search for documents.
- To link a document that has not been created, select **Create Document**. The **Documents** page is displayed where you can create the document (see section [Creating documents](#)).

7. Click **Save**.

11.6.6 Unlinking documents from activities

To unlink a document from an activity:

1. From the menu bar, go to **Client > Activities**.

The **Activity List** page is displayed with a list of activities, if any.

2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:

- Enter from and to dates to apply a date filter.
- Enter part or all of the activity's subject in the **Search on Subject** field, then click on the magnifying glass icon.

3. Click the > icon of the desired activity.

Details of the selected activity are shown on the right side of the list.

4. Click **Edit**.
5. In the Documents section, click **Show All**.
The **Documents** page is displayed.
6. In the Title section, click the > icon of the desired document.
Details of the selected document are shown on the right side of the list.
7. Click **Unlink**. When a confirmation message is displayed asking you to confirm the action, click **Yes**.

11.6.7 Linking categories and associated clients/portfolios to activities

An activity can be linked to one or more categories and clients/portfolios.

To link categories and clients/portfolios to an activity:

1. From the menu bar, go to **Client > Activities**.
The **Activity List** page is displayed with a list of activities, if any.
2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Enter from and to dates to apply a date filter.
 - Enter part or all of the activity's subject in the **Search on Subject** field, then click on the magnifying glass icon.
3. Click the > icon of the desired activity.
Details of the selected activity are shown on the right side of the list.
4. Click **Edit** and do one or more of the following:
 - In the Categories section, additional categories can be linked to this activity. For more information about categories, see section [Understanding the Category Maintenance menu](#). Do one of the following to perform the link:
 - Begin typing the category name and a list of relevant names are displayed from which the category can be selected.
 - To search for a category, click on the magnifying glass icon. You will be redirected to the **Category Maintenance** page to select and/or search for categories.
 - In the Links section, clients/portfolios associated with the selected client can be linked to this activity. Do one of the following to perform the link:
 - In the relevant fields, begin typing the name of the client/portfolio and a list of relevant names are displayed from which the client/portfolio can be selected.
 - To search for a client, click on the magnifying glass icon in the **Clients** field. You will be redirected to the **Advanced Search** page to search for the clients. For more information, see section [Searching for clients](#).
 - To search for a portfolio, click on the magnifying glass icon in the **Portfolios** field. You will be redirected to the **Advanced Search** page to search for the portfolios. For more information, see section [Searching for portfolios](#).
5. Click **Save**.

11.6.8 Unlinking categories and associated clients/portfolios from activities

To unlink categories and associated clients/portfolios from an activity:

1. From the menu bar, go to **Client > Activities**.
The **Activity List** page is displayed with a list of activities, if any.
2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Enter from and to dates to apply a date filter.
 - Enter part or all of the activity's subject in the **Search on Subject** field, then click on the magnifying glass icon.
3. Click the > icon of the desired activity.
Details of the selected activity are shown on the right side of the list.
4. Click **Edit** and do one or more of the following:
 - In the Links section, click the **x** next to the name of the client/portfolio to delete.
 - In the Categories section, click the **x** next to the name of the category to delete.
5. Click **Save**.
- 6.

11.6.9 Launching a workflow for an activity

To launch a workflow for an activity:

1. From the menu bar, go to **Client > Activities**.
The **Activity List** page is displayed with a list of activities, if any.
2. Select the desired workflow from the flyout on the right (see the Navigation Principle [Launching a workflow](#) for more details).
- 3.

11.7 Managing documents

The **Documents** sub-menu is an option under the **Client** menu and provides details of all documents associated with the selected client's profile.

The following sections describe what you can do with documents:

- [Viewing existing documents](#)
- [Creating documents](#)
- [Editing documents](#)
- [Deleting documents](#)
- [Linking categories and associated clients to documents](#)
- [Unlinking categories and associated clients from documents](#)

11.7.1 Viewing existing documents

The **Documents** page shows a list of documents attached to the selected client.

To view a document:

1. From the menu bar, go to **Client > Documents**. Alternatively, you can also click **Show All** in the Document section of the **Client View** page.

The **Documents** page is displayed with a list of documents, if any.

2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Apply one or more filter criteria. For example, you can check the **Active** checkbox, and/ or complete the **From** and **To** fields as well as the **Type** field.
 - Enter part or all of the document's title in the **Search on Title** field, then click on the magnifying glass icon.
3. To view details of a document on the list, click the > icon of the desired document.

11.7.2 Creating documents

To create a new document:

1. From the menu bar, go to **Client > Documents**.

The **Documents** page is displayed with a list of documents, if any.

2. Click the  icon and select **Create New Document**.

The New Document section is displayed.

3. Do one or more of the following:
 - Complete the **Subject**, **Access**, **Document Owner**, **Reference ID**, **Type**, and **Language** and date fields, if required. Mandatory fields are marked with an asterisk.
 - Upload the document using the  icon in the **File** field.
 - Add a description in the free text field.
 - To link categories and associated clients to the document, see section [Linking categories and associated clients to documents](#).
4. Click **Save**.

11.7.3 Editing documents

To edit a document:

1. From the menu bar, go to **Client > Documents**. Alternatively, you can also click **Show All** in the Document section of the **Client View** page.

The **Documents** page is displayed with a list of documents, if any.

2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Apply one or more filter criteria. For example, you can check the **Active** checkbox, and/ or complete the **From** and **To** fields as well as the **Type** field.

- Enter part or all of the document's title in the **Search on Title** field, then click on the magnifying glass icon.
3. Click the > icon of the document that you want to edit.
Details of the selected document are shown on the right side of the list.
 4. Click **Edit** and do one or more of the following:
 - Modify the **Subject**, **Type**, and **Language** fields, if required. Mandatory fields are marked with an asterisk.
 - In the free text field, update the description of the document.
 - To link categories and associated clients to the document, see section [Linking categories and associated clients to documents](#).
 - To unlink categories and associated clients to the document, see section [Unlinking categories and associated clients from documents](#).
 5. Click **Save**.

11.7.4 Deleting documents

Deleting a document will permanently delete it from the database. Any links that reference the deleted document will also be removed. If you want to keep the document in the database but remove it from a specific category or client, use the unlink feature instead (see section [Unlinking categories and associated clients from documents](#)).

To delete a document:

1. From the menu bar, go to **Client > Documents**. Alternatively, you can also click **Show All** in the Document section of the **Client View** page.
The **Documents** page is displayed with a list of documents, if any.
2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Apply one or more filter criteria. For example, you can check the **Active** checkbox, and/ or complete the **From** and **To** fields as well as the **Type** field.
 - Enter part or all of the document's title in the **Search on Title** field, then click on the magnifying glass icon.
3. Click the > icon of the document that you want to delete.
Details of the selected document are shown on the right side of the list.
4. Click **Delete** to delete the document. When a confirmation message is displayed asking you to confirm the deletion, click **Yes**.

11.7.5 Linking categories and associated clients to documents

A document can be linked to one or more clients and categories.

To link categories and clients to a document:

1. From the menu bar, go to **Client > Documents**. Alternatively, you can also click **Show All** in the Document section of the **Client View** page.
The **Documents** page is displayed with a list of documents, if any.

2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Apply one or more filter criteria. For example, you can check the **Active** checkbox, and/ or complete the **From** and **To** fields as well as the **Type** field.
 - Enter part or all of the document's title in the **Search on Title** field, then click on the magnifying glass icon.
3. Click the > icon of the desired document.

Details of the selected document are shown on the right side of the list.
4. Click **Edit** and do one or more of the following:
 - In the Categories section, additional categories can be linked to this document. For more information about categories, see section [Understanding the Category Maintenance menu](#). Do one of the following to perform the link:
 - Begin typing the category name and a list of relevant names are displayed from which the category can be selected.
 - To search for a category, click on the magnifying glass icon. You will be redirected to the **Category Maintenance** page to select and/or search for categories.
 - In the Links section, clients associated with the selected client can be linked to this document. Do one of the following to perform the link:
 - Begin typing the name of the client and a list of relevant names are displayed from which the client can be selected.
 - To search for a client, click on the magnifying glass icon. You will be redirected to the **Advanced Search** page to search for the clients. For more information, see section [Searching for clients](#).
5. Click **Save**.

11.7.6 Unlinking categories and associated clients from documents

Unlinking a document will remove it from a specific category or client but the document remains in the database. All links to other categories and clients remains intact. If you want to permanently delete a document from the database, see section [Deleting documents](#).

To unlink categories and associated clients from a document:

1. From the menu bar, go to **Client > Documents**. Alternatively, you can also click **Show All** in the Document section of the **Client View** page.

The **Documents** page is displayed with a list of documents, if any.
2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Apply one or more filter criteria. For example, you can check the **Active** checkbox, and/ or complete the **From** and **To** fields as well as the **Type** field.
 - Enter part or all of the document's title in the **Search on Title** field, then click on the magnifying glass icon.
3. Click the > icon of the desired document.

Details of the selected document are shown on the right side of the list.
4. Click **Edit** and do one or more of the following:

- In the Links section, click the **x** next to the name of the client to delete.
 - In the Categories section, click the **x** next to the name of the category to delete.
5. Click **Save**.

11.8 Viewing and updating related countries

Information about the countries/jurisdictions that apply to a client can be found in the Related Countries section of the **Client View** page.

1. Go to the **Client View** page of the selected client (for more information about this page, see section [Obtaining summary view of a client](#)).
The Related Countries section is located at the bottom of the page.
2. Review details of each country that is connected to the client profile. Each related country is illustrated as individual contact cards at the bottom of the page.
3. To update related country information, click **Edit** in the Related Countries section.
The **Related Countries Edit** page is displayed with a list of existing related countries, if any, sorted in ascending order by country name.
4. Do one or more of the following:
 - To delete a related country, click the  icon of the country that you want to delete.
 - To add another related country, click **Create Related Country**. A new empty row is added to the end of the country list. Complete all fields in the row.
5. Click **Save**.

12 Understanding the Dashboard menu

This section describes the purpose of the **Dashboard** menu in the Channels application.

Under the **Dashboard** menu, the following functions are available:

- [Returning to the homepage](#)
- [Monitoring system process results](#)
- [Elective Corporate Actions](#)

12.1 Returning to the homepage

To return to your homepage,

1. From the menu bar, go to **Dashboard > Main**.

Your homepage is displayed. (see section [Understanding the homepages](#))

12.2 Monitoring system process results

The System Process Monitoring sub-menu is an option in the Dashboard menu.

From the System Process Monitoring sub-menu, the following functions are available:

- [Managing automatic rebalancing issues](#)
- [Viewing automatic rebalancing details](#)
- [Managing transfer request issues](#)
- [Viewing transfer request details](#)
- [Managing automated process results](#)
- [Viewing payout request details](#)
- [Viewing payout monitoring details](#)
- [Viewing event generation details](#)

12.2.1 Managing automatic rebalancing issues

To manage automatic rebalancing issues,

1. From the menu bar, go to **Dashboard > System Process Monitoring**.

The **Portfolios** tab and the **Automatic Rebalancing** sub-tab are shown by default.

The Goal-based and Robo-Advisor portfolios for which the last rebalance failed are displayed.

2. (Optional) You can narrow the list of results by using the filters on the left of the page.
 - You can select more than one value for the **Portfolio**, **Service Type** and **Last Rebalancing Status** fields.
 - Each time the values are modified for a filter, the list of results will be automatically refreshed.
 - Filters are cumulative (i.e., they use an "and" logical operator).
3. (Optional) You can reset the filters to their defaults by clicking the **Reset Filters** link.
4. (Optional) You can realign one or more portfolios by using the checkboxes to select the desired portfolios from the search result list. The checkbox in the title row will select all of the portfolios on the page.
 - a. Then, click the **Realign** link.

A pop-up is displayed asking if you would like to replace your current portfolio basket with the set of portfolios selected.

 - b. Click **Cancel** to close the pop-up. Click **Ok** to proceed.

The **Realign – Rules** page is displayed. (see section [Realigning a Portfolio/Portfolio Group](#))
5. (Optional) You can view the details for the automatic rebalancing of a portfolio by clicking the > icon for the process.

12.2.2 Viewing automatic rebalancing details

To view the details for an automatic rebalancing,

1. From the list on the Portfolios > Automatic Rebalancing page, click on the > icon of the desired automated rebalancing job. Alternatively, from the Portfolio Summary page Process Results section; click on the > icon of the desired automated rebalancing job.
- The **Automatic Rebalancing Details** page is displayed.

13 Understanding the Portfolios menu

This section describes the purpose of the **Portfolios** menu in the Channels application.

Under the **Portfolios** menu, the following functions are available:

- [Obtaining summary view of a portfolio](#)
- [Obtaining summary view of a client](#)
- [Obtaining summary view of a portfolio group](#)
- [Obtaining summary view of your portfolio basket](#)
- [Viewing assets](#)
- [Viewing portfolio exposure](#)
- [Viewing recent operations](#)
- [Viewing account movements](#)
- [Viewing compliance](#)
- [Viewing future cash flow](#)
- [Viewing risk](#)
- [Viewing performance figures](#)
- [Viewing Lombard Valuation](#)
- [Placing securities orders](#)
- [Placing OTC orders](#)
- [Placing OTC contracts](#)
- [Placing fund switch orders](#)
- [Placing derivatives orders](#)
- [Placing forex orders](#)
- [Placing IPO Subscription orders](#)
- [Placing PE Subscription orders](#)
- [Placing Transfers](#)
- [Allocating block orders](#)
- [Allocating orders](#)
- [Realigning a Portfolio/Portfolio Group](#)
- [Entering cash transfers](#)
- [Viewing orders](#)
- [Managing Assets Transfer](#)

- [Viewing pending transfers](#)
- [Cancelling pending orders](#)
- [Cancelling pending transfers](#)
- [Modifying pending orders](#)
- [Managing Advisor or Robo-Advisor portfolios](#)
- [Managing Goal Based Portfolios](#)
- [Managing Investment Proposals](#)
- [Managing Investment Profiles](#)
- [Managing Mutual Fund Systematic Plans](#)
- [Managing Elective Corporate Actions](#)
- [Managing reports](#)
- [Managing activities](#)

Note: All menus that allow you to create orders in portfolios are not accessible for Discretionary, Robo-Advisor, and Goal-based portfolios, which means that the **Order** menu, **Investment Profile** sub-menu and **Mutual Fund Plan** sub-menu are not displayed when the selected portfolio is Discretionary, Robo-Advisor, or Goal-based.

13.1 Obtaining summary view of a portfolio

In this section, you will learn about:

- [Accessing the portfolio summary view](#)
- [Displaying the portfolio summary view](#)
- [Launching a workflow for a portfolio](#)

13.1.1 Accessing the portfolio summary view

If you are a Client User, you can select the desired portfolio from your homepage (see section [Homepage of Client Users](#)).

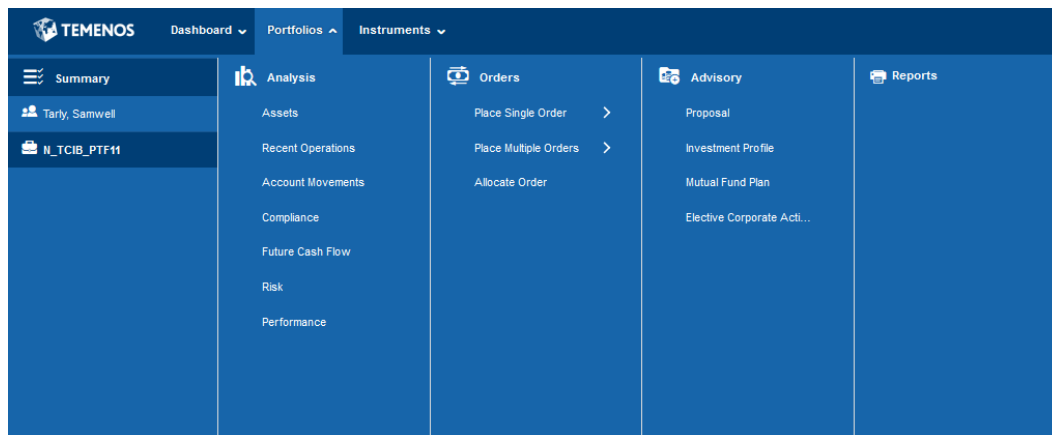

If you are a PM User, you have several options for selecting the desired portfolio:

- Using rapid search to find portfolio (see section [Rapid search](#)).
- Searching for the portfolio from the Portfolios tab in the **Advanced Search** page (see section [Searching for portfolios](#)).
- After the portfolio has been selected, the portfolio summary page is displayed.

If you are an RM User, you have several options for selecting the desired portfolio:

- Accessing it from your homepage (see section [Homepage of RM Users](#)).
- Using rapid search to find portfolio (see section [Rapid search](#)).
- Searching for the portfolio from the Portfolios tab in the **Advanced Search** page (see section [Searching for portfolios](#)).

After the portfolio has been selected, it will be displayed as an icon and link that both RM Users and Client Users can access from the menu bar **Portfolios > Summary**. The following image provides an illustration of the  portfolio icon and link for RM Users:

Clicking the icon/link will take you to the **Portfolio Summary** page, which provides users with an overview of the selected portfolio.

13.1.2 Displaying the portfolio summary view

Standard summary view

13.1.2.1 Portfolio banner

The portfolio banner is common for both Client Users (see section [Portfolio banner for Client Users](#)) and RM Users (see section [Portfolio banner for RM Users](#)).

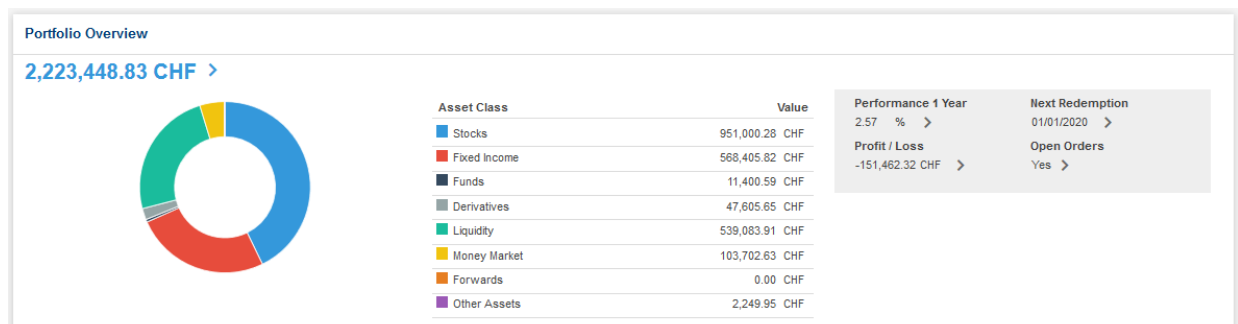

13.1.2.2 Portfolio Overview

The Portfolio Overview section provides a snapshot of key figures and asset allocation of the portfolio.

Depending on whether you are a Client User, a PM User or an RM User, the Portfolio Overview section is displayed differently.

View for Client User:

View for PM User:

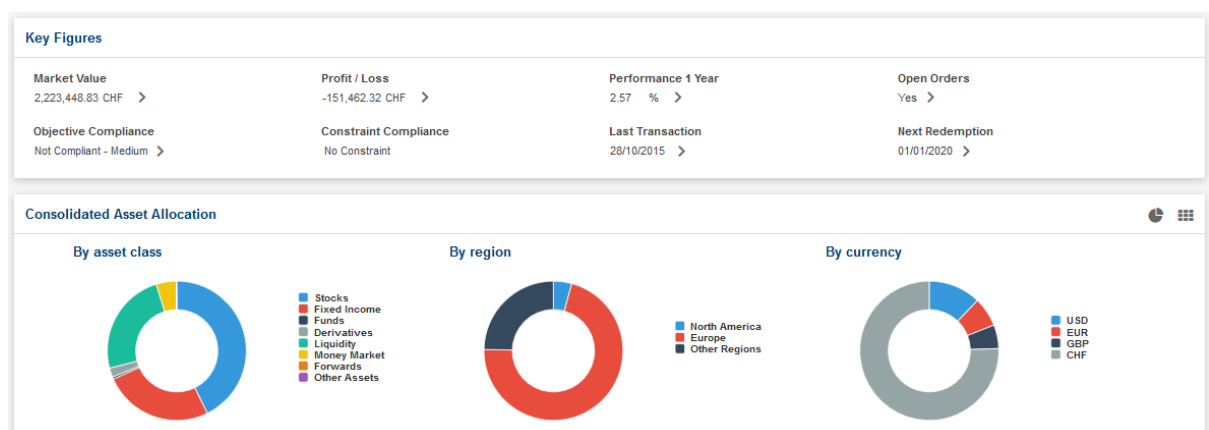

Portfolio Overview					
Currency	Relationship Manager	Portfolio Manager	Service Type	Status	Investment Profile
CHF	Meera Reed	Theon Greyjoy	Discretionary	Active	Mifid P Active-B >

Key Figures				
Market Value	Performance 1 Year	Last Transaction	Open Orders	Next Redemption
4,810,245.56 CHF >	20.97 % >	01th April 2019 >	No >	14th July 2019 >

From the Portfolio Overview and Key Figures sections, you can get direct access to the following pages that provide more detailed views:

- **Investment Profile** page by clicking on the value in the **Investment Profile** field (see section [Viewing existing Investment Profiles](#))
- **Assets** page by clicking on the figure in the **Market Value** field (see section [Viewing assets](#)).
- **Performance** page by clicking on the figure in the **Profit/Loss** field or the **Performance 1 Year** field (see section [Viewing performance figures](#)).
- **Order blotter** page by clicking on the value in the **Open Orders** field (see section [Viewing orders](#)).
- **Future cash flow** page by clicking on the date in the **Next Redemption** field (see section [Viewing future cash flow](#)).
- **Recent Operations** page by clicking on the date in the **Last Transaction** field (see section [Viewing recent operations](#)).

View for RM User:

From the Key Figures and Consolidated Asset Allocation sections, you can get direct access to the following pages that provide more detailed views:

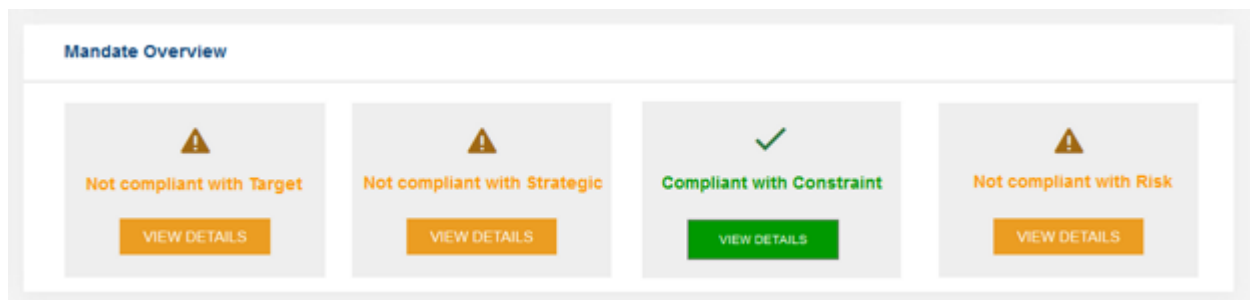

- **Assets** page by clicking on the figure in the **Market Value** field (see section [Viewing assets](#)).
- **Performance** page by clicking on the figure in the **Profit/Loss** field or the **Performance 1 Year** field (see section [Viewing performance figures](#)).

- **Order blotter** page by clicking on the value in the **Open Orders** field (see section [Viewing orders](#)).
- **Future cash flow** page by clicking on the date in the **Next Redemption** field (see section [Viewing future cash flow](#)).
- **Compliance** page (only available for RM) by clicking on the status in the **Objective Compliance** field (see section [Viewing compliance](#)).
- **Automatic Rebalancing Details** page (only available for RM) by clicking on the latest rebalancing status and date (see section [Viewing automatic rebalancing details](#)).
- Pie charts that display a breakdown of assets by Asset Classes (for Client Users and RM Users), and also By Region and By Currencies for RM Users only. If all values are negative, a bar chart is displayed instead. This is the case for all donut graphs used in the application. If you want to display the allocation matrices, click the  icon. To return to the display of allocation charts, click the  icon. Assets Classes are displayed with their related Market Values.

13.1.2.3 Mandate Overview

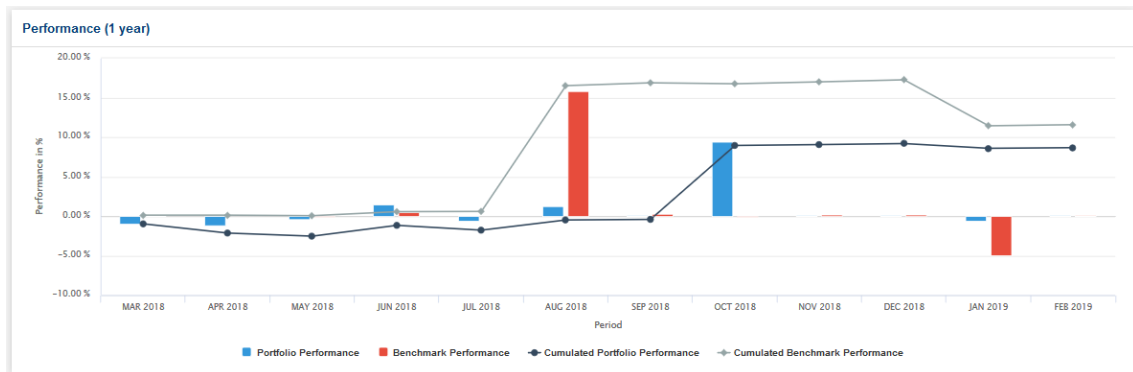

The Mandate Overview section is only for PM users and provides the details of compliance of the portfolio with target and strategic objectives, constraints and risk.

1. By clicking **View Details**, you can get direct access to the **Compliance** page and **Risk** page that provide more detailed views (see sections [Viewing compliance](#) and [Viewing risk](#)).

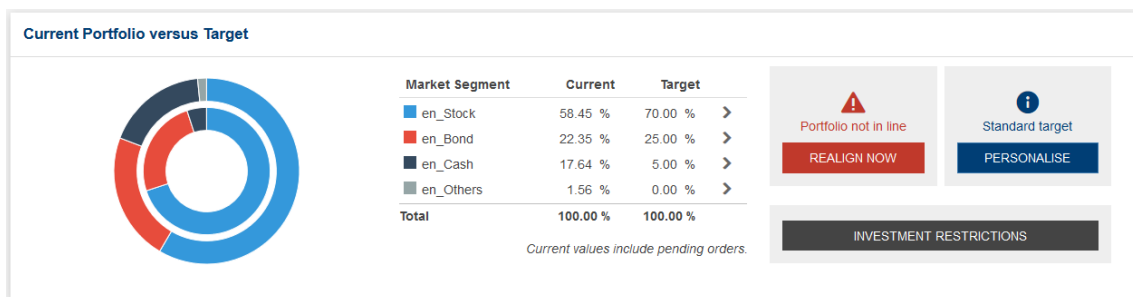

13.1.2.4 Performance

For Client Users, RM Users and PM Users, the Performance section displays a chart that illustrates the performance of the portfolio against a benchmark over the last year.

Advisory or Robo-Advisor summary view

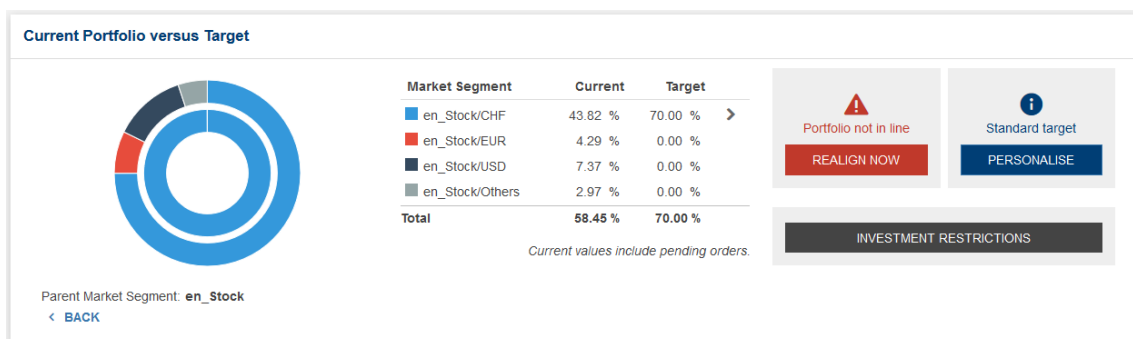

If the portfolio is defined with service type Advisory or Robo-Advisor, the Current Portfolio versus Target section is also displayed:

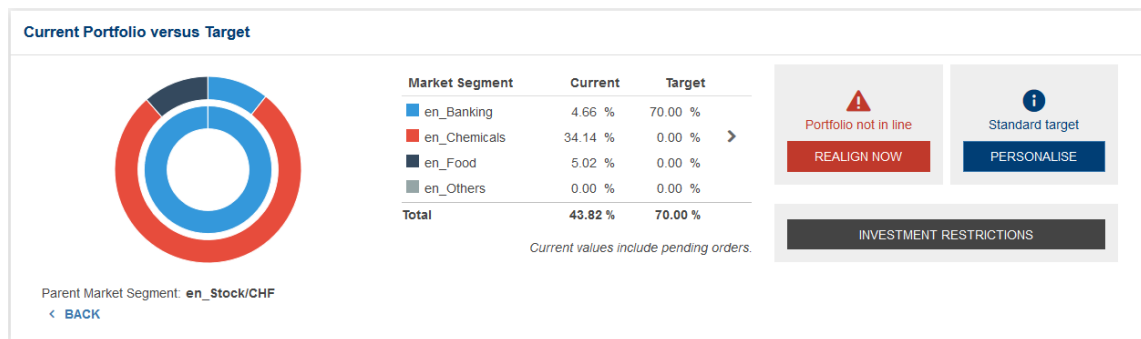

This section lets Client Users and RM Users do the following:

- Compare the current portfolio's allocation to its target allocation as defined in the Investment Profile. Users can click on the chart and legend for more information as well as navigate up and down through the market structure of their Investment Profile.

For example, when the user clicks on the stock market segment, the user can view the different sub-allocations by currencies:

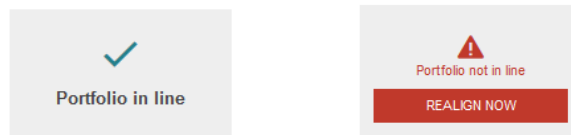

As well as by sectors:

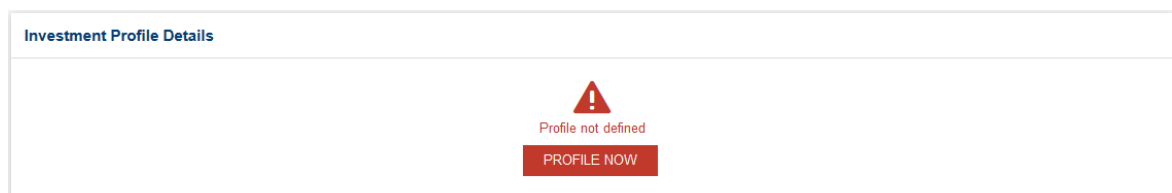

At any sub-level, the parent market segment can be displayed by clicking the **Back** button.

- See whether the portfolio is in line or not.

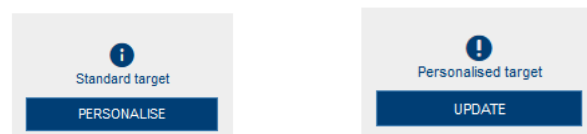

If the portfolio is not in line, users can click on the **Realign Now** button to initiate an Investment Proposal (see section [Managing Investment Proposals](#)). As no manual order creation is permitted for Discretionary, Robo-Advisor, and Goal-based portfolios, this button is not displayed for these portfolios.

If there is no valid Investment Profile, the following pop-up is displayed where users can click on the **Profile Now** button to complete the Investment Profile Questionnaire.

- See whether the target is a standard one (defined by the bank) or a personalized one:

The **Personalise** button (for standard target) and the **Update Target** button (for personalized target) allows users to define new objective weights in their Investment Profile.

- Use the **Investment Restrictions** button to see, if any, a list of instruments in the portfolio that must never be sold (Position White List section) or never be bought (Instrument Black List section). For more information, see section [Investment restrictions](#).

Note: If the hierarchy flag is activated in the portfolio banner, the graph and related buttons are replaced by a message:

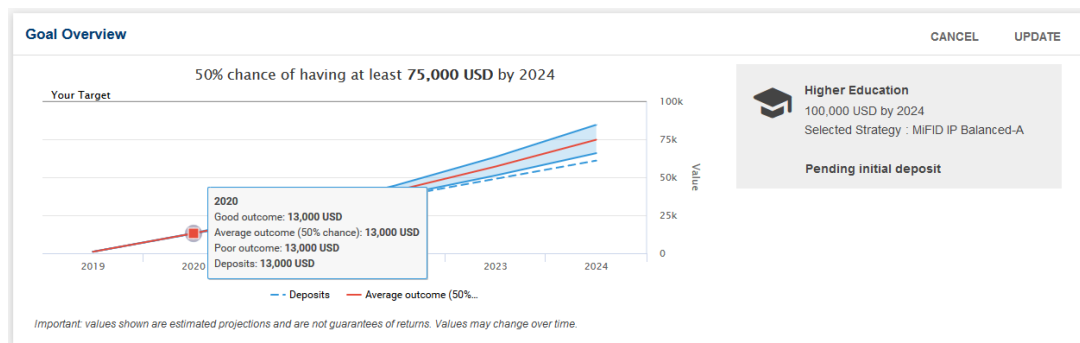

Current Portfolio versus Target

Not applicable when hierarchy mode is activated.

Goal Based Portfolio summary view

If the portfolio is defined with service type 'Goal-based', the Goal Overview section also is displayed. Please note:

- For the RM User, the Goal Overview section replaces the Key figures section
- For the Client User, the Goal Overview section replaces the Portfolio Overview section

This section lets Client Users and RM Users view the following details for the selected goal:

- The goal's target
- The time horizon
- The selected strategy
- The invested amount
- The current value of the goal
- The gain
- The compliance status (on track vs. not)
- The Monte Carlo Simulation graph of the goal

If the user wants to change the parameters or manage all transfers (automatic transfers, cash account, one-off investments and withdrawals), they may do so by selecting the **Update** button (see section [Editing a goal](#)).

If the user wants to liquidate the goal-based portfolio, they may do so by selecting the **Cancel** button (see section [Cancelling a goal](#)).

13.1.2.5 Process Results

For RM Users, the Process Results section displays a list of the batch processes related to the portfolio. The most recent processes are shown at the top of the list.

Automated Process Results			
Nature	Process Status	Begin Date	End Date
Automatic Rebalancing	Completed	12/03/2019	12/03/2019
Automatic Rebalancing	Completed	12/03/2019	12/03/2019

To view the details for a process, click on the ➤ icon of the process.

- If the process is an automatic rebalancing for a portfolio, the Automatic Rebalancing Details page will be displayed (see section [Viewing automatic rebalancing details](#))
- If the process is a transfer request, the Transfer Request Details page will be displayed. (see section [Viewing transfer request details](#))
- If the process is a payout request, the Payout Request Details page will be displayed (see section [Viewing payout request details](#))
- If the process is a payout monitoring job, the Payout Monitoring Details page will be displayed (see section [Viewing payout monitoring details](#))
- If the process is an event generation job, the Event Generation Details page will be displayed (see section [Viewing event generation details](#))

13.1.2.6 Order Processes

For PM Users, the Order Processes section displays a list of the batch processes related to the portfolio. The most recent processes are shown at the top of the list.

Order Processes			
Nature	Process Status	Initiator	Processed
Realignment	Completed	Denis Limat	10/12/2018 03:05:33
Order Allocation	Failed	Karine Mabboux	08/12/2018 06:26:45
Realignment	Pending	Denis Limat	06/12/2018 03:42:22

1. To view the details for a process, click on the ➤ icon of the process.

13.1.3 Launching a workflow for a portfolio

To launch a workflow for a portfolio:

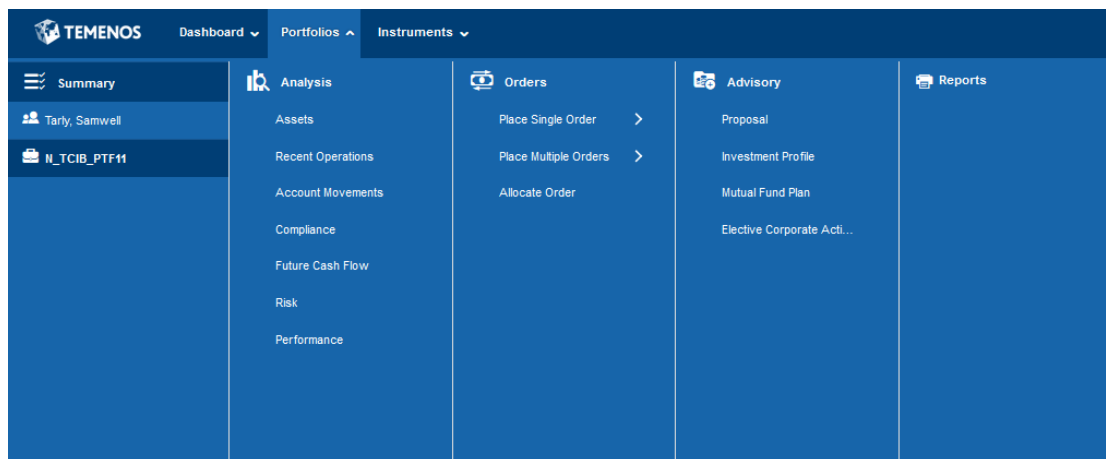

1. Navigate to the summary view of a portfolio (see [Obtaining summary view of a portfolio](#) for more information)
2. Select the desired workflow from the flyout on the right (see the Navigation Principle [Launching a workflow](#) for more details).

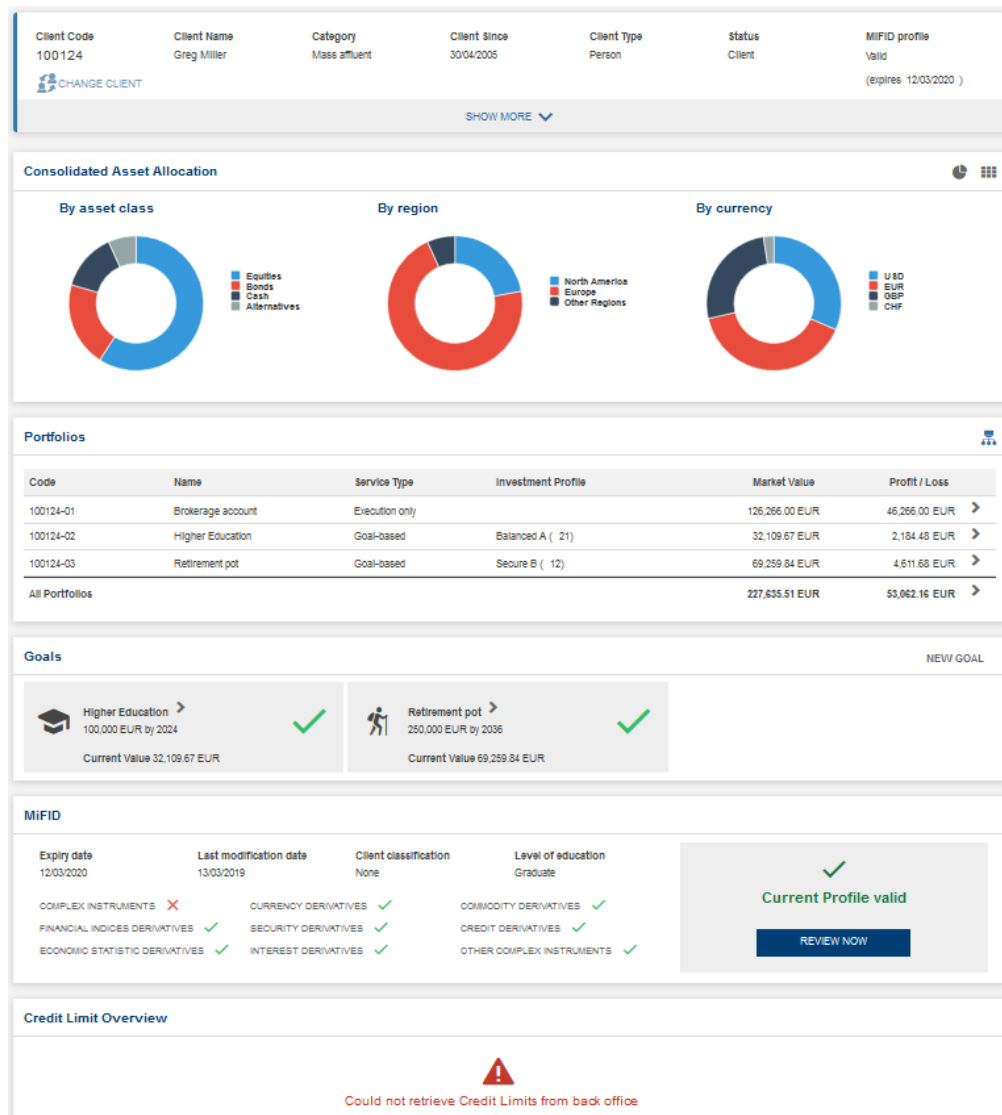

13.2 Obtaining summary view of a client

To obtain a summary view of any client, RM Users must first find the desired client by using rapid search (see section [Rapid search](#)) or searching from the Clients tab of the **Advanced Search** page (see section [Searching for clients](#)).

After the client has been selected, the name of the client will be displayed as an icon and link that RM Users can access from the menu bar **Portfolios > Summary**. The following image provides an illustration of the  client icon and link:

Clicking the icon/link will take you to the **Client Summary** page (or the **Client View** page if you have access to the CRM module), which provides RM Users with an overview of the selected client.

The **Client Summary** page is divided as follows:

- At the top of the page, an instant snapshot of client details is displayed.
 - To access the client's contact details and related countries, click the **Show More** link. The client banner extends and displays the contact data (i.e., home address, e-mail, home phone number, and mobile phone number) and the client's related countries. Click **Show Less** to minimise the banner.
 - To obtain a summary view for another client, click **Change Client**.
- In the Portfolios section:
 - Click the icon to display the portfolios in flat mode (no hierarchy). Click again on the icon to display the list in a hierarchy mode where the portfolios are grouped by family.
 - To view further details of a particular portfolio, click on its corresponding line. A summary view of the selected portfolio is displayed. For more information, see section [Obtaining summary view of a portfolio](#).

- To get a consolidated view of all portfolios of the client, click **All Portfolios**.
- In the Consolidated Asset Allocation section, pie charts display a breakdown of portfolios' assets by asset class, by region, and by currency. If all values are negative, a bar chart is displayed instead. This is the case for all donut graphs used in the application. If you want to display the allocation matrices, click the  icon. To return to the display of allocation charts, click the  icon.
- In the MiFID section, depending on the status of the MiFID profile of the client and the status of the current review, you will have the option to click a button to either review the client profile, generate the report, validate or reject the current profile review. For more information, see section [Managing MiFID profiles](#).
- In the Credit Limit Overview section, high level information for each of the limit products associated to the client is displayed.

Credit Limit Overview					
Limit ID	Limit Product	Online Limit	Outstanding Amount	Available/Excess	OD Condition Account
100387.0000100.01	Advances in Current Accounts	0.00 USD	0.00 USD	0.00 USD	
100387.0000100.02	Advances in Current Accounts	0.00 GBP	0.00 GBP	0.00 GBP	
100387.0000100.03	Advances in Current Accounts	0.00 USD	0.00 USD	0.00 USD	
100387.0002400.01	AA Revolving Loans	75,000.00 USD	0.00 USD	75,000.00 USD	

13.2.1 Managing MiFID profiles

13.2.1.1 Defining a new MiFID profile or finalizing a current profile review

To define a new MiFID profile or to finalize a current review:

1. From the **Client Summary** page (or the **Client View** page if you have access to the CRM module), depending on the status of the MiFID profile of the client and the status of the current review, you will have the option to click on one of the following:
 - **Profile Now:** If no MiFID profile has been defined yet for the selected client.
 - **Review Now:** If the current MiFID profile is expired.
 - **Finalize Review:** If a review of the MiFID profile has been started but not finalized yet.

The **MiFID Profiling** page (questionnaire) is displayed with a step approach for the creation / finalization process. The first step is Personal Data.

MiFID Profiling

PERSONAL DATA KNOWLEDGE AND EXPERIENCE SUMMARY

What classification do you belong to? * Professionnal Per Se

What is your level of education? * ☐ High School ☐ Graduate ☒ Post-Graduate

Have you signed off the Best Execution Policy? * ☐ Not Signed ☒ Signed ☐ Pending ☐ Missing

CANCEL **SAVE AND CLOSE** **NEXT >**

2. Complete all fields on the page. These fields relate to the client's personal data. Mandatory fields are marked with an asterisk.
3. Do one of the following:
 - If you want to cancel the process, click **Cancel**. The current MiFID profile is not altered and the current questionnaire will be kept in the system with a status set to Cancelled, but is no longer available via the front-end. You will be returned to the **Client Summary** page and the status of the current profile remains unchanged. The **Cancel** button is available on most remaining pages of this process.
 - (Only for users with the role of Relationship Manager) If you want to save the entered information and exit the questionnaire, click **Save and Close**. The system will save the information without any checks, without altering the current MiFID profile and the **Client Summary** page is displayed. The status of the current review is updated to Review In Progress and the percentage of completion is calculated depending on the number of fields completed. The **Save and Close** button is available on most remaining pages of this process.
 - If you want to continue to the next step, click **Next**. The system will check that all mandatory fields have been completed. If any are incomplete, an error message is displayed. When all mandatory fields are completed, the system saves all entered information and proceeds to the next step - Knowledge and Experience – on the **MiFID Profiling** page (questionnaire).

6. (Only for users with the role of Relationship Manager) At the bottom of the page, to set the client's decision, select one of the following radio buttons of the **Client Decision** field:
- **Under Review** (default): The client needs to review the information entered during the MiFID profiling process before accepting or rejecting the questionnaire. The status of the review will be set to Review Pending Validation.
 - **Accepted**: The client has reviewed the information entered during the MiFID profiling process and has validated the questionnaire. The MiFID profile is updated and its status will be set to Current Profile Valid.
 - **Refused**: The client has reviewed the information entered during the MiFID profiling process and has rejected the questionnaire. The MiFID profile remains the same as before the creation/finalization process had begun and its status remains unchanged.
7. To finalize the process, click **Finish**.
8. (Only for users with the role of Relationship Manager) A pop-up is displayed that lets you insert your client's electronic signature, if required, into the associated MiFID profile report. Do one of the following in the pop-up:

- If a signature is required, clients can sign with a finger or a stylus on touch-enabled devices, or with a mouse on standard devices in the **Client Signature** field. If the client is not satisfied with the signature, click **Reset** to resign. Then, click **Confirm**.
 - If a signature is not required, check **Skip Signature**. Then, click **Confirm**.
9. (Optional) In the pop-up, click **View Report** to view the report associated with the current profile.

10. Click the **X** icon to close the pop-up.

The **Client Summary** page is displayed and the status of the review is updated in the MiFID section.

13.2.1.2 Validating MiFID profiles

You can only validate MiFID profiles with status Under Review.

To validate a MiFID profile:

1. From the **Client Summary** page, click **Validate profiling**.

The **MiFID Profiling** page (questionnaire) is displayed with a summary of the profile.

13.3 Obtaining summary view of a portfolio group

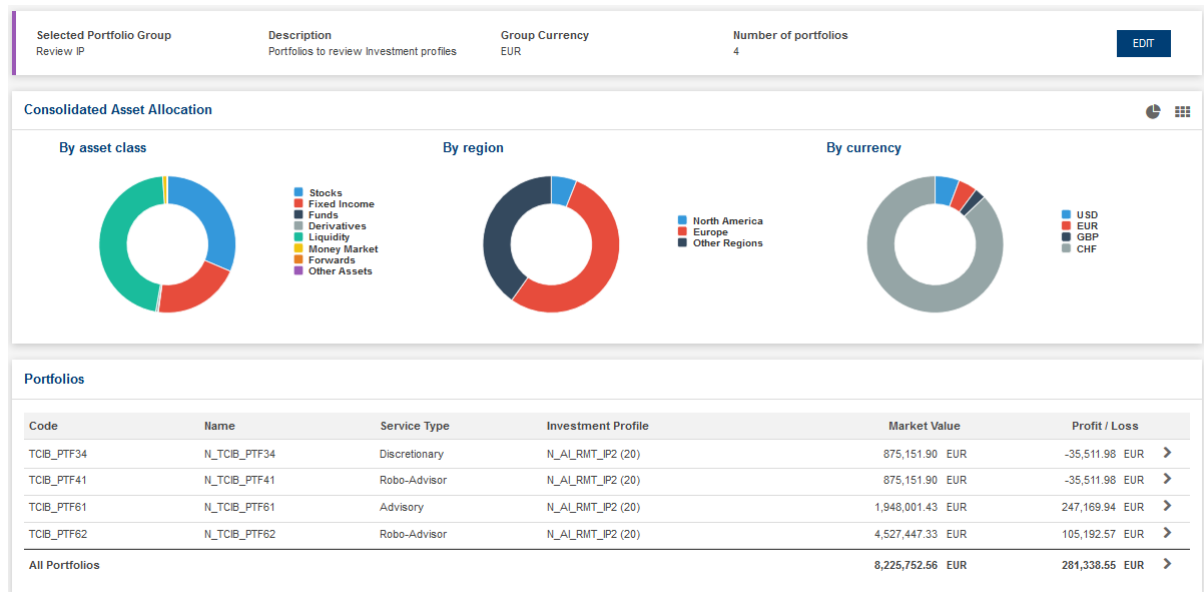

To obtain a summary view of any portfolio group, RM Users must first find the desired portfolio group by using rapid search (see section [Rapid search](#)) or searching from the Portfolio Groups tab of the **Advanced Search** page (see section [Searching for portfolio groups](#)).

After the portfolio group has been selected, the name of the portfolio group will be displayed as an icon and link that RM Users can access from the menu bar **Portfolios > Summary**. The following image provides an illustration of the  portfolio group icon and link:

Clicking the icon/link will take you to the **Portfolio Group Summary** page, which provides RM Users with an overview of the selected portfolio group. The page is divided as follows:

- At the top of the page, an instant snapshot of portfolio group details are displayed. To edit details of the portfolio group, click **Edit** (see section [Managing portfolio groups](#) for more information).
- In the Portfolios section:
 - To view further details of a particular portfolio in the portfolio group, click on its corresponding line. A summary view of the selected portfolio is displayed. For more information, see section [Obtaining summary view of a portfolio](#).
 - To get a consolidated view of all portfolios of the group, click **All Portfolios**.
- In the Consolidated Asset Allocation section, pie charts display a breakdown of portfolio group's assets by asset class, by region, and by currency. If all values are negative, a bar chart is displayed instead. This is the case for all donut graphs used in the application. If you want to display the allocation matrices, click the  icon. To return to the display of allocation charts, click the  icon.

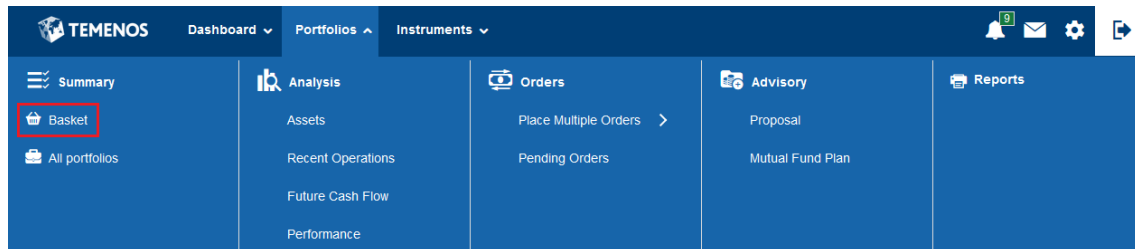

13.4 Obtaining summary view of your portfolio basket

To obtain a summary view of their portfolio basket, RM Users can click the basket icon (see section [Quick access to portfolio basket](#)). The list of portfolios that compose the portfolio basket is displayed and RM Users can access the summary view of their portfolio basket by clicking **Summary**.

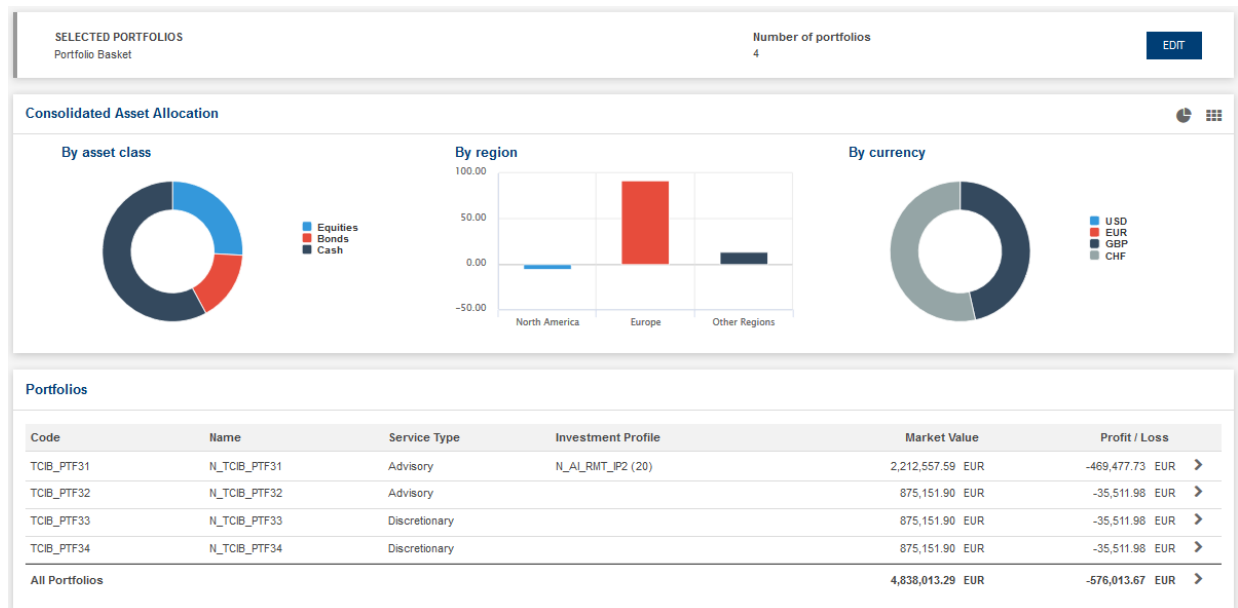

Your Basket	
TCIB_PTF31	N_TCIB_PTF31
TCIB_PTF32	N_TCIB_PTF32
TCIB_PTF33	N_TCIB_PTF33
TCIB_PTF34	N_TCIB_PTF34
SUMMARY	GLOBAL ORDER ALLOCATE ORDER REALIGN EMPTY

Alternatively, RM Users can use the icon and link from the menu bar **Portfolios > Summary** to access their portfolio basket summary. The following image provides an illustration of the  portfolio basket icon and link:

Clicking the icon/link will take you to the **Basket Summary** page, which provides RM Users with an overview of their portfolio basket. The page is divided as follows:

- At the top of the page, an instant snapshot of portfolio basket details are displayed. To edit details of the basket, click **Edit** (see section [Managing your portfolio basket](#) for more information).
- In the Portfolios section:
 - To view further details of a particular portfolio in the portfolio basket, click on its corresponding line. A summary view of the selected portfolio is displayed. For more information, see section [Obtaining summary view of a portfolio](#).
 - To get a consolidated view of all portfolios in the basket, click **All Portfolios**.
- In the Consolidated Asset Allocation section, pie charts display a breakdown of portfolio group's assets by asset class, by region, and by currency. If all values are negative, a bar chart is displayed instead. This is the case for all donut graphs used in the application. If you want to display the allocation matrices, click the  icon. To return to the display of allocation charts, click the  icon.

13.5 Viewing assets

The **Assets** sub-menu is an option under **Analysis** in the **Portfolios** menu and provides details of all assets of a portfolio.

From the **Assets** sub-menu, the following functions are available:

- [Viewing asset allocations and held assets](#)
- [Viewing asset classes overview and details](#)
- [Buying or selling quantities of an instrument](#)
- [Viewing details of a position](#)
- [Viewing Details of an instrument](#)

13.5.1 Viewing asset allocations and held assets

The portfolio asset allocations (breakdown of assets by asset class, by region and by currency) and held assets (list of assets) are accessible from the **Held Assets** tab.

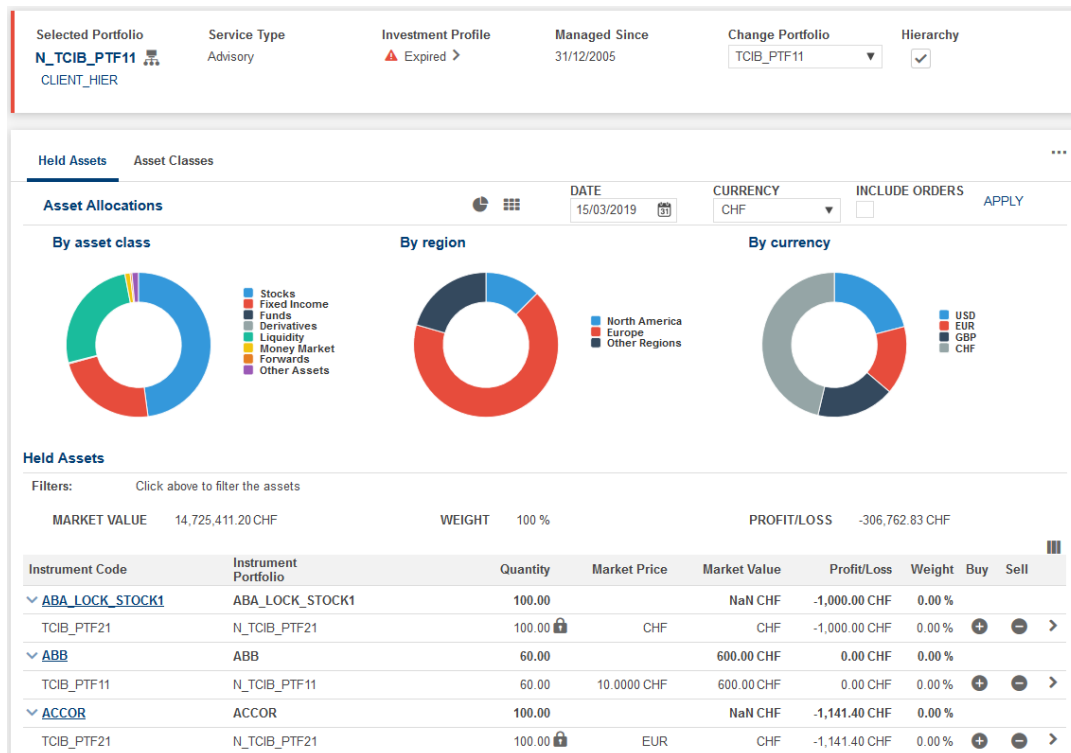

To obtain information about asset allocations and held assets:

1. From the menu bar, go to **Portfolios > Assets**.
The **Assets** page is displayed with the **Held Assets** tab shown by default.
For Private Equity (PE) position, the Initial Commitment will be shown. To see the related positions, click the > icon to the left of the Instrument Code.
2. (Optional) To display the allocation matrices, click the icon located in the Consolidated Asset Allocation section. To return to the display of the allocation charts, click the icon.
3. (Optional) You can filter the list of assets by clicking one or more items on the charts / matrices in the Asset Allocations section.

If a position is locked, then the lock icon  is displayed to the right of the quantity.

The tags of the selected filters are displayed in the Held Assets section.

4. (Optional) Do one or more of the following optional tasks, then click **Apply**:
 - To change the date, click the  icon in the **Date** field.
 - To change the currency, click the down arrow and select the desired currency from the drop-down list in the **Currency** field.
 - To include non-accounted transactions in the Assets page, select the **Include Orders** checkbox.

The page will automatically refresh with the new date, or selected currency, or list of non-accounted transactions along with the accounted positions. Positions originating from non-accounted transactions are italicized and greyed to distinguish from accounted positions.

5. (Optional) If the portfolio belongs to a portfolio hierarchy as a parent portfolio, you can load the hierarchy by checking the **Hierarchy** checkbox on the portfolio banner. (For more information about this checkbox, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)). Once the hierarchy is activated, the position lists are displayed in detailed and flat mode, and positions are grouped by instrument.
6. (Optional). You can switch to view another or all portfolios of the client, group, or basket from the drop-down list of the **Change Portfolio** field on the portfolio banner. (For more information about this field, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).

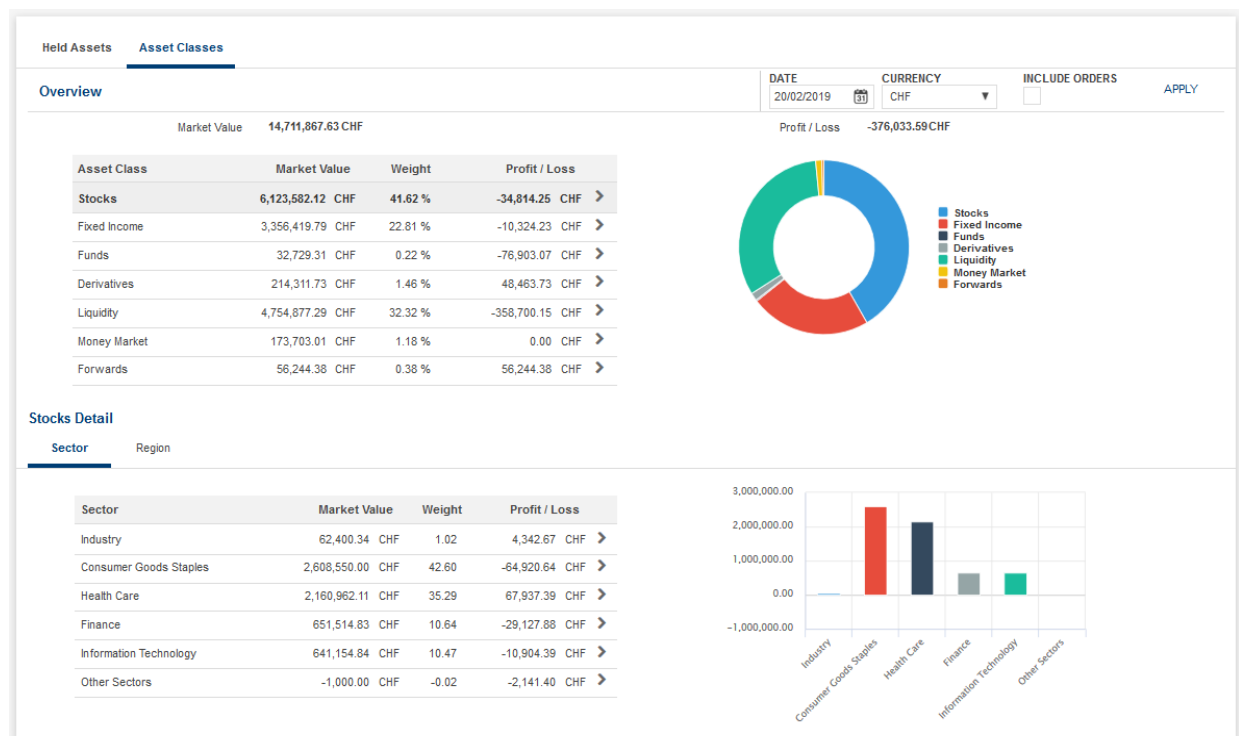

- (Optional). You can view the instrument details as a pop-up by clicking on the hyperlink on the instrument code.
For Private equity instruments, the hyperlink will be on the instrument column. (For more information, see section [Viewing Details of an instrument](#))
- (Optional). You can select which columns will be displayed by using the column selector  icon. (For more information, see section [Column Selection](#)).

13.5.2 Viewing asset classes overview and details

The portfolio asset classes are accessible from the **Asset Classes** tab. It displays the portfolio asset allocation by asset class.

To obtain information about asset classes:

- From the menu bar, go to **Portfolios > Assets**.
The **Assets** page is displayed with the **Held Assets** tab shown by default.
- Click the **Asset Classes** tab.
The **Overview** section provides a list of asset classes that are held in the selected portfolio.

- To obtain a breakdown of each asset class, click on the desired asset class.
Detailed information about the asset class is displayed at the lower half of the page. For example, the Stocks Detail section is displayed when you click **Stocks** from the list of asset classes in the Overview section.
- For all asset classes, further in-depth breakdowns are available from their detailed sections.
The available views are:

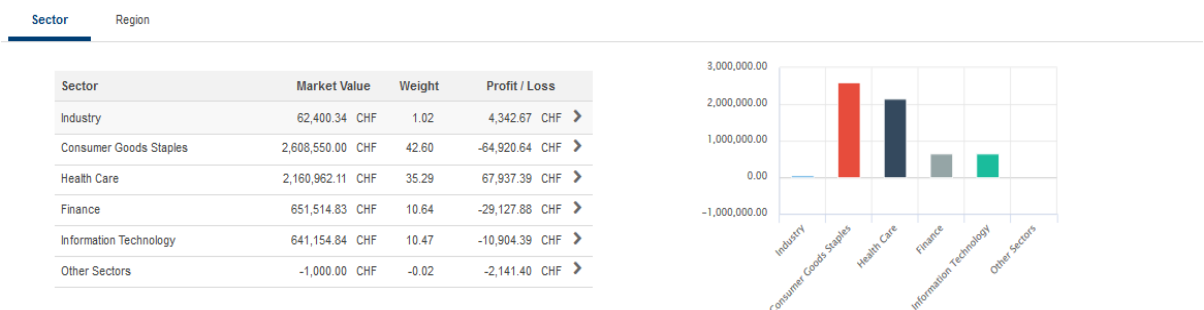

- Stocks per region and per sector
- Fixed Income per currency, per rating, per maturity, and per duration
- Funds per type
- Derivatives per type
- Liquidity per currency
- Money Market per currency and per type
- Forwards per currency pair
- Other Assets per nature

Examples:

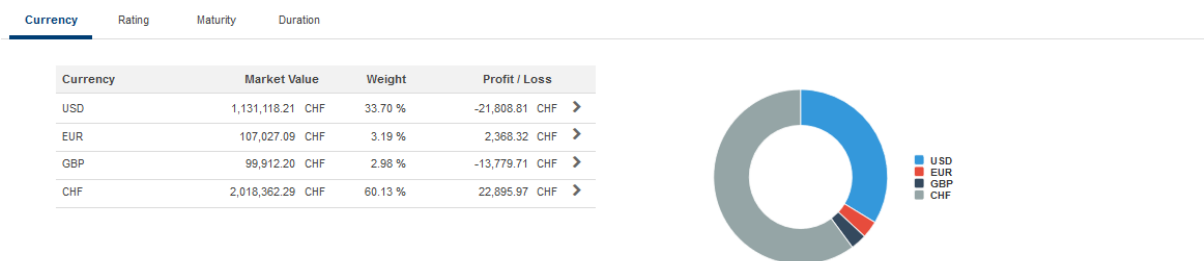

In the Stocks Detail section, you can select to break down the information by sector or by region.

Stocks Detail

- In the Fixed Income Detail section, you can select to break down the information by duration, maturity, rating, or currency.

Fixed Income Detail

- In the Money Market Detail section, you can select to break down the information by type or by currency:

Money Market Detail

Currency Type

Currency	Market Value	Weight	Profit / Loss
CHF	173,703.01 CHF	100.00 %	0.00 CHF

7. From any detailed section of an asset class, you can click the ► icon to display the corresponding list of positions, with more details than displayed on the Held Assets view. From the Stocks Detail section, for example, when you click the ► icon of Asia-Pacific, the Stocks Detail – Region Asia-Pacific section replaces the Stocks Detail section to show a list of Asian-Pacific stocks held in the portfolio:

Held Assets **Asset Classes**

Overview

DATE: 20/02/2019 CURRENCY: CHF INCLUDE ORDERS: ☐ APPLY

Market Value: 14,711,867.63 CHF Profit / Loss: -376,033.59 CHF

Instrument Code	Portfolio Name	Quantity	Currency	Quote	Exchange Rate	Market Value	Profit / Loss %	Weight	Region	Buy	Sell
> T_AI_USD_IBM	CommonReference										
> T_AI_USD_MSFT											

BACK

To return to the previous detailed page, click **Back**.

8. (Optional) You can change the date by clicking the  icon in the **Date** field or change the currency by clicking the down arrow and selecting the desired currency from the drop-down list in the **Currency** field. To include non-accounted transactions on the **Assets** page, select the **Include Orders** checkbox. Then click **Apply**.

The **Assets** page will automatically refresh with the new date, or selected currency, or list of non-accounted transactions along with the accounted positions. Positions originating from non-accounted transactions are italicized and greyed to distinguish from accounted positions.

9. (Optional) If the portfolio belongs to a portfolio hierarchy as a parent portfolio, you can load the hierarchy by checking the **Hierarchy** checkbox on the portfolio banner (for more information about this checkbox, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)). Once the hierarchy is activated, the list of positions is displayed in detailed and flat mode, and positions are grouped by instrument.
10. (Optional) You can switch to view another or all portfolios of the client, group, or basket from the drop-down list of the **Change Portfolio** field on the portfolio banner (for more information about this field, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).
11. (Optional). You can select which columns will be displayed by using the column selector  icon. (For more information, see section [Column Selection](#)).

13.5.3 Buying or selling quantities of an instrument

To buy or sell quantities of an instrument:

1. From any list of positions on the **Assets** page, you can:
 - Click the  icon of the desired instrument to place a buy order
 - Click the  icon of the desired instrument to place a sell order.

Note: These icons are only displayed if you have the right to place the order.

After the position is selected, the  or  icon is marked as selected and becomes  or . The selected position is added to the orders cart. Thereafter, you can select more positions to add to your orders cart, which will be used to initiate new buy or sell orders depending on the icon you have selected.

Instrument Code	Instrument Portfolio	Quantity	Market Price	Market Value	Profit/Loss	Weight	Buy	Sell
▼ ABA_LOCK_STOCK1	ABA_LOCK_STOCK1	100.00		NaN CHF	-1,000.00 CHF	0.00 %

ACCOR	ACCOR	100.00		Na				
TCIB_PTF21	N_TCIB_PTF21	100.00	EUR					

If you have only one order in your orders cart, the **Place Securities Order** or **Place Derivatives Order** page is displayed, depending on the instrument nature chosen. If you have more than one order in your orders cart, the **Place Orders** page is displayed and lists the created orders.

Each order is created with the following fields prefilled:

- The nature as Buy or Sell.
- The portfolio as the position portfolio.
- The instrument as the position instrument.
- The quantity as the position quantity, only for a sell order.

For more details about placing orders, see section [Placing securities orders](#) or [Placing derivatives orders](#).

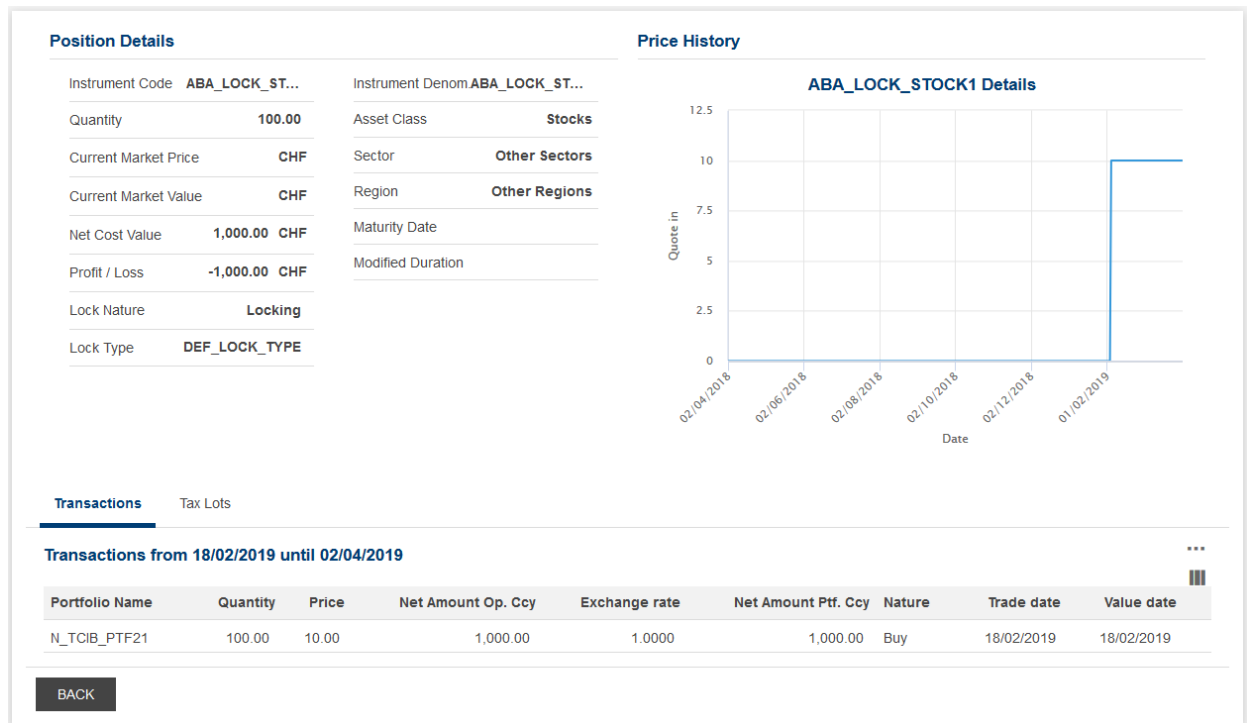

13.5.4 Viewing details of a position

To view details of a position:

1. From any list of positions on the **Assets** page, click the ► icon of the desired position to view its detail.

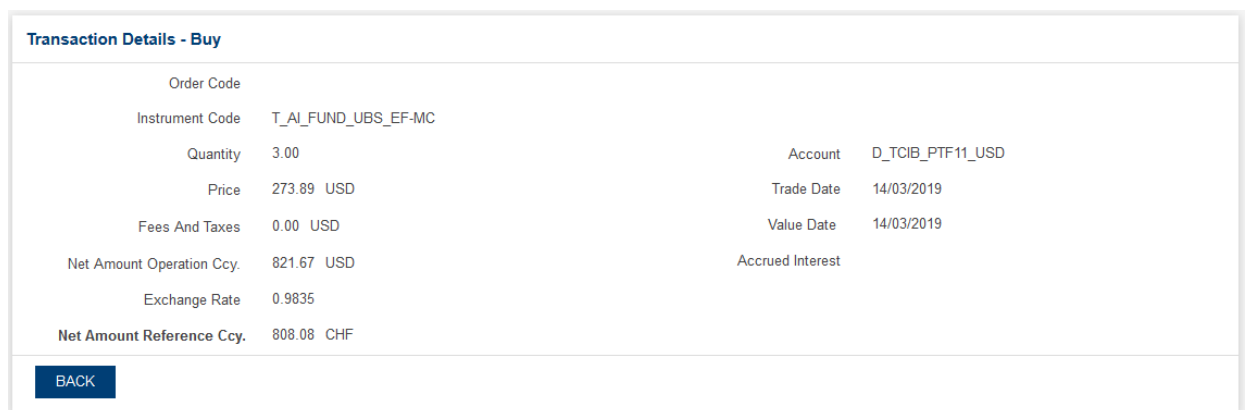

The **Position Details** page is displayed with the details of the selected position.

If a locked position is selected, the Lock Nature and the Lock Type for the position are also shown.

2. Do one of the following:

- To return to the original list of positions, click **Back**.
- To view details of a particular transaction, click on the desired transaction in the Transaction section. The **Transaction Details** page is displayed with details of the selected transaction. Click **Back** to return to view the **Position Details** page.

- (Optional) To view details of the order and its executions that lead to the transaction, click the icon next to **Order Code** field.
- (Optional). You can select which columns will be displayed by using the column selector icon. (For more information, see section [Column Selection](#)).

13.5.5 Viewing Details of an instrument

To view details of an instrument:

1. From any list of positions (for example, the list on the **Assets** page), click on the hyperlink for the instrument.

For PE (Private Equity) instruments, the hyperlink will be the Instrument Name (subnature of the PE instrument).

For other types of instruments, the hyperlink will be the Instrument Code.

The **Instrument Details** page is displayed with the details of the selected instrument.

2. The information shown will vary depending on the type of instrument.
(Optional) The **Additional Details** sections can be expanded and collapsed.

If the instrument is applicable for an IPO, the IPO related information will be shown under **Additional Details**.

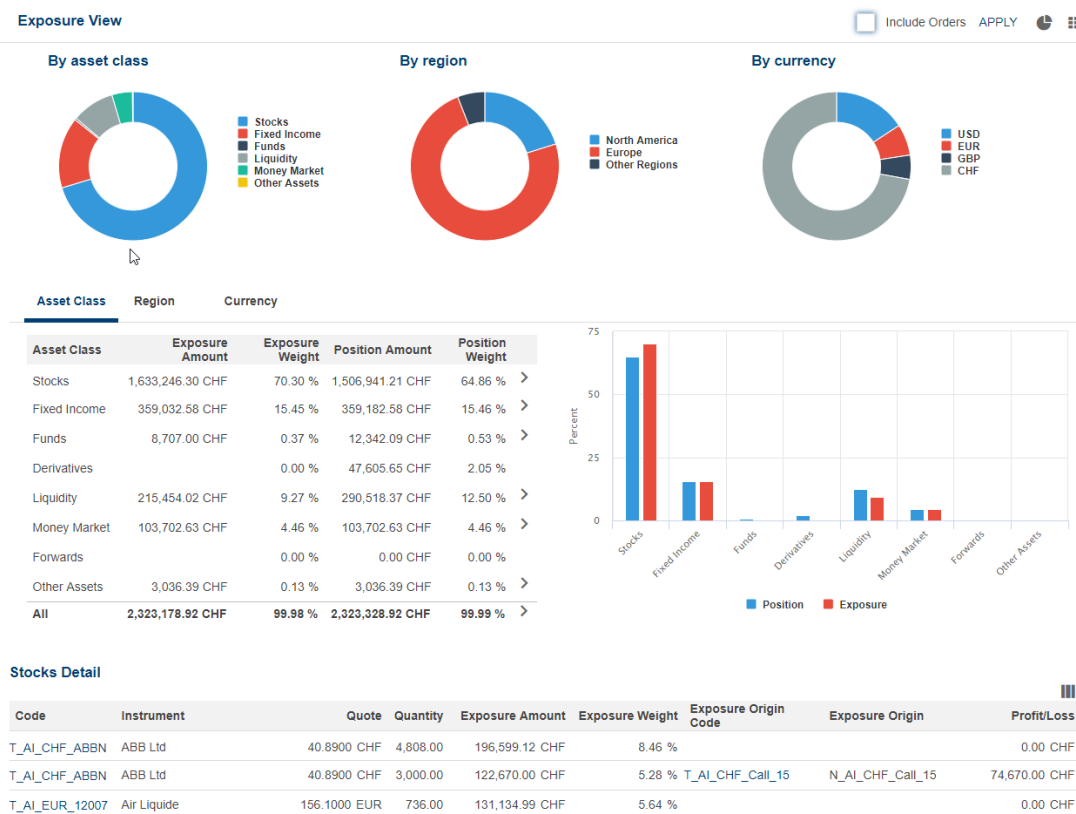

- To return to the previous page, click **Back**.

13.6 Viewing portfolio exposure

The **Exposure View** sub-menu is an option under **Analysis** in the **Portfolios** menu and provides the positions' exposure for the selected portfolio.

To view the exposure of the portfolio:

- From the menu bar, go to **Portfolios > Exposure View**.
- The **Exposure View** page is displayed.

- (Optional) To include non-accounted transactions in the Exposure View page, select the Include Orders checkbox, after you click **Apply**.
- (Optional) To display the allocation matrices, click the ⌵ icon located in the first section. To return to the display of the allocation charts, click the 📊 icon.

- From an asset class, you can click the ► icon to display the corresponding list of exposure positions. From the Stocks, for example, when you click the ► icon, the list of the exposure in stocks held in the portfolio is displayed.
- (Optional) You can select which columns will be displayed by using the column selector  icon. (For more information, see section [Column Selection](#)).
- (Optional) You can view the Instrument Details as a pop-up by clicking on the hyperlink on the instrument code or Exposure Origin code. (For more information, see section [Viewing Details of an instrument](#)).

13.7 Viewing recent operations

The **Recent Operations** sub-menu is an option under **Analysis** in the **Portfolios** menu and provides details of the accounted operations for the selected portfolio.

To view recent operations:

- From the menu bar, go to **Portfolios > Recent Operations**.

The **Recent Operations** page is displayed.

4. (Optional) If the portfolio belongs to a portfolio hierarchy as a parent portfolio, you can load the hierarchy by checking the **Hierarchy** checkbox on the portfolio banner (for more information about this checkbox, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)). Once the hierarchy is activated, the list of recent transactions is displayed in detailed and flat mode.
5. (Optional) You can switch to view another or all portfolios of the client, group, or basket from the drop-down list of the **Change Portfolio** field on the portfolio banner (for more information about this field, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).
6. (Optional) You can download the list view in PDF or Excel format by clicking on  icon. For more information, see section [Printing or exporting data](#).
7. (Optional). You can select which columns will be displayed by using the column selector  icon. (For more information, see section [Column Selection](#)).

13.8 Viewing account movements

The **Account Movements** sub-menu is an option under **Analysis** in the **Portfolios** menu and provides details of the accounted operations, per account, for the selected portfolio.

To view account movements:

1. From the menu bar, go to **Portfolios > Account Movements**.

The **Account Movements** page is displayed with a list of accounts that contain movement. By default, all accounts are collapsed. To expand the tree levels to view its movements, click the  icon of the desired account.

You can also define the period by selecting the radio button **Other**. Then, the **From** and **To** fields are displayed for you to define the period. The results of your selection are displayed after you click **Apply**.
- (Optional) If the portfolio belongs to a portfolio hierarchy as a parent portfolio, you can load the hierarchy by checking the **Hierarchy** checkbox on the portfolio banner (for more information about this checkbox, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)). Once the hierarchy is activated, the list of account movements is displayed in detailed and flat mode.
- (Optional) You can switch to view another or all portfolios of the client, group, or basket from the drop-down list of the **Change Portfolio** field on the portfolio banner (for more information about this field, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).
- (Optional). You can select which columns will be displayed by using the column selector  icon. (For more information, see section [Column Selection](#)).
- (Optional) You can download the list view in PDF or Excel format by clicking on  icon. For more information, see section [Printing or exporting data](#).

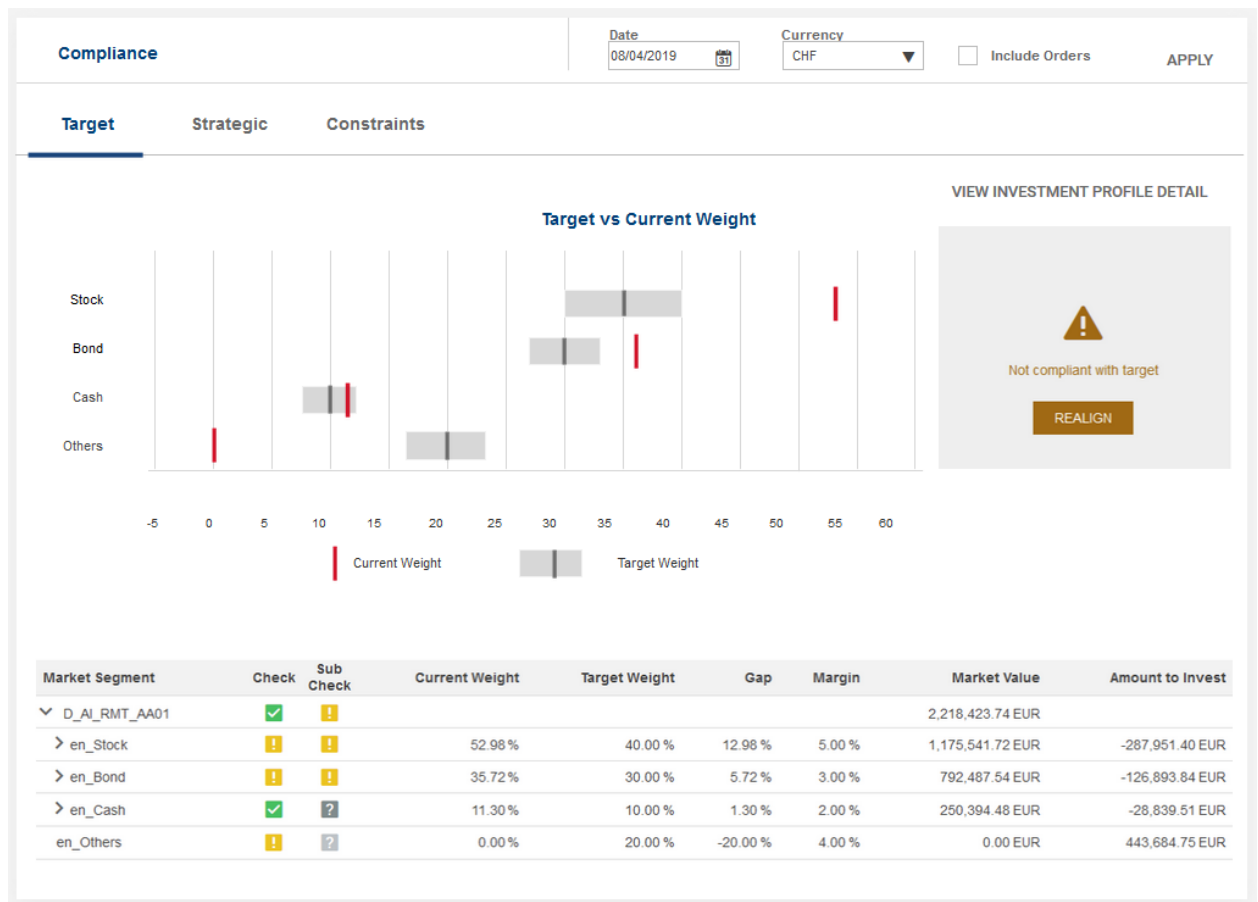

13.9 Viewing compliance

The **Compliance** sub-menu is an option under **Analysis** in the **Portfolios** menu and provides details of the current and objective weights of the assets with deviation and severity details.

To view compliance details:

- If you are an RM User, from the menu bar, go to **Portfolios > Compliance**.
- If you are a PM User, set the Portfolio in context and go to **Analysis > Compliance**.

The **Compliance** page's **Target** tab is displayed by default showing the compliance result based on the portfolio's tactical allocation definition.

The chart shows the variability between Current Weight and Target weight and indicates the difference so that you have an idea of how far the Current Weight might be from the Target Weight. When you hover your mouse over any item on the graph, more details are available.

The deviation and the severity details are illustrated using various icons under the Check and Sub-Check columns.

- Check column indicates that the portfolio is in line with its strategy at the given level.
- Sub-Check column indicates that the portfolio is in line with its strategy at a lower level.

The icons shown in the columns are:

Icon	Description
✓	Compliant
!	Not compliant – Low severity
!	Not compliant – Medium severity
!	Not compliant – High severity
?	No objectives defined

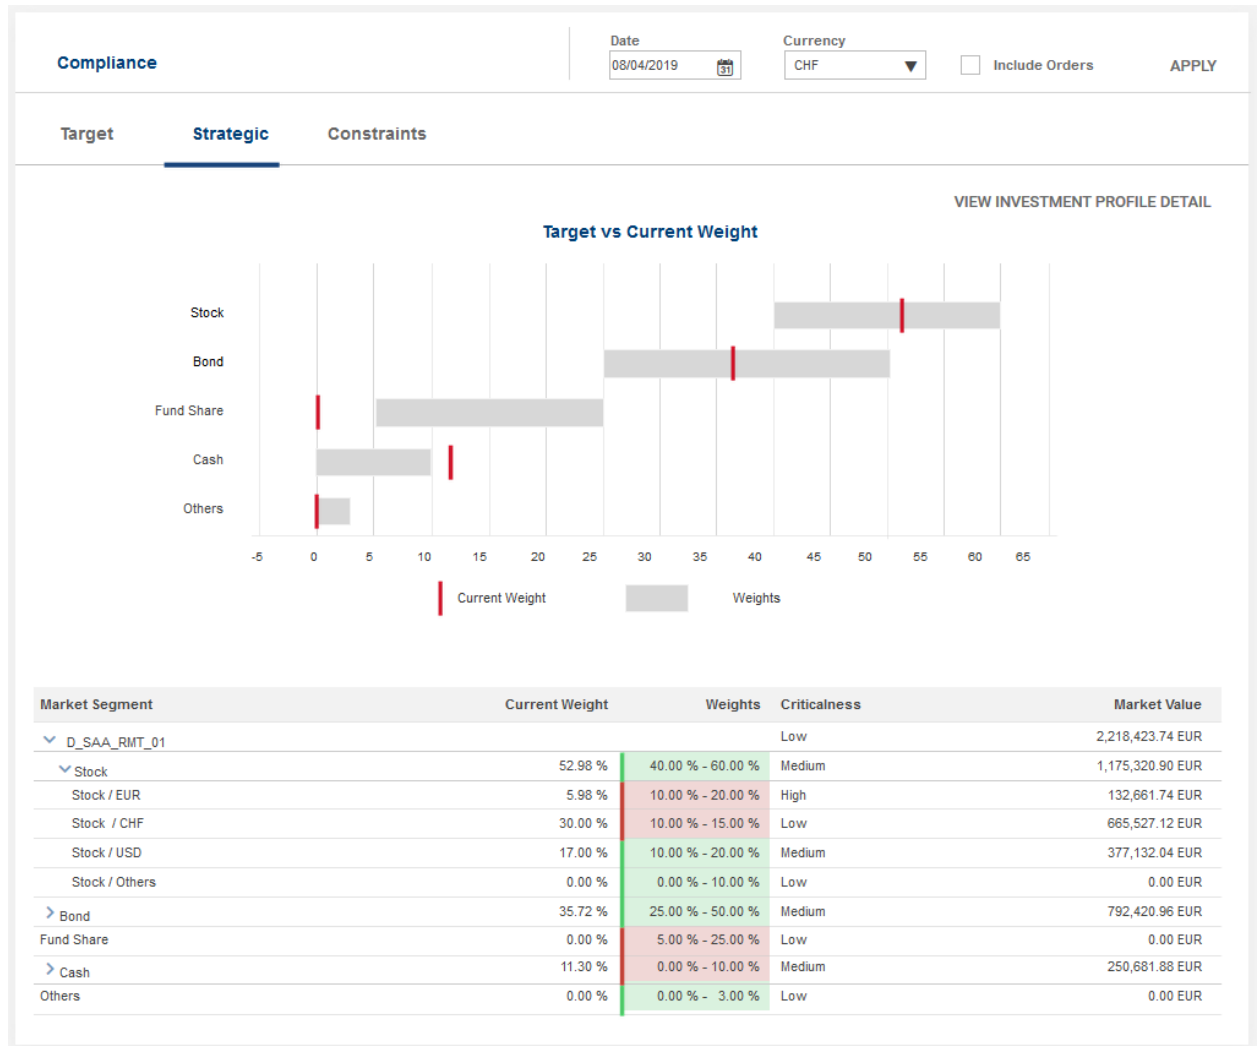

Icon Description

Not evaluated

When you hover your mouse over any icon, Tooltip will display the severity associated to the icon.

- (Optional) You can click on the **Strategic** tab to view the compliance result based on strategic allocation definition.

The chart shows the variability between Current Weight and Target weight and indicates the difference so that you have an idea of how far the Current Weight might be from the Target Weight. When you hover your mouse over any item on the graph, more details are available.

The deviation and the severity details are illustrated using various boxes under the Weights column.

- Weights column indicates that the portfolio is in line with its strategy at the given level.

The boxes shown in the columns are:

Boxes	Description
	Compliant
	Not compliant – Low severity
	No Objectives defined or Not evaluated

4. (Optional) You can expand and collapse the tree levels by clicking on the arrows of the particular market segment.
5. (Optional) You can click on the **View Investment Profile Detail** to view the details of the Investment Profile.
6. (Optional) You can click on the **Constraints** tab to view the compliance result based on constraints definition.
7. (Optional) You can change the date by clicking the  icon in the **Date** field or change the currency by clicking the down arrow and selecting the desired currency from the drop-down list in the **Currency** field. To include non-accounted transactions in the **Assets** page, select the **Include Orders** checkbox.

The **Assets** page will automatically refresh with the new date, or selected currency, or list of non-accounted transactions along with the accounted positions. Positions originating from non-accounted transactions are italicized and greyed to distinguish from accounted positions.

8. (Optional) If the portfolio belongs to a portfolio hierarchy as a parent portfolio, you can load the hierarchy by checking the **Hierarchy** checkbox on the portfolio banner (for more information about this checkbox, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).
Once the hierarchy is activated, the compliance view is displayed in detailed and flat mode and the positions are grouped by instrument.
9. (Optional) You can switch to view another portfolio of the client, group, or basket from the drop-down list of the **Change Portfolio** field on the portfolio banner (for more information about this field, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)). Note that the **Compliance** page is not available in a consolidated mode for all portfolios of the selected client, group, or basket.
10. (Optional) You can download the list view in PDF or Excel format by clicking on  icon. For more information, see section [Printing or exporting data](#).

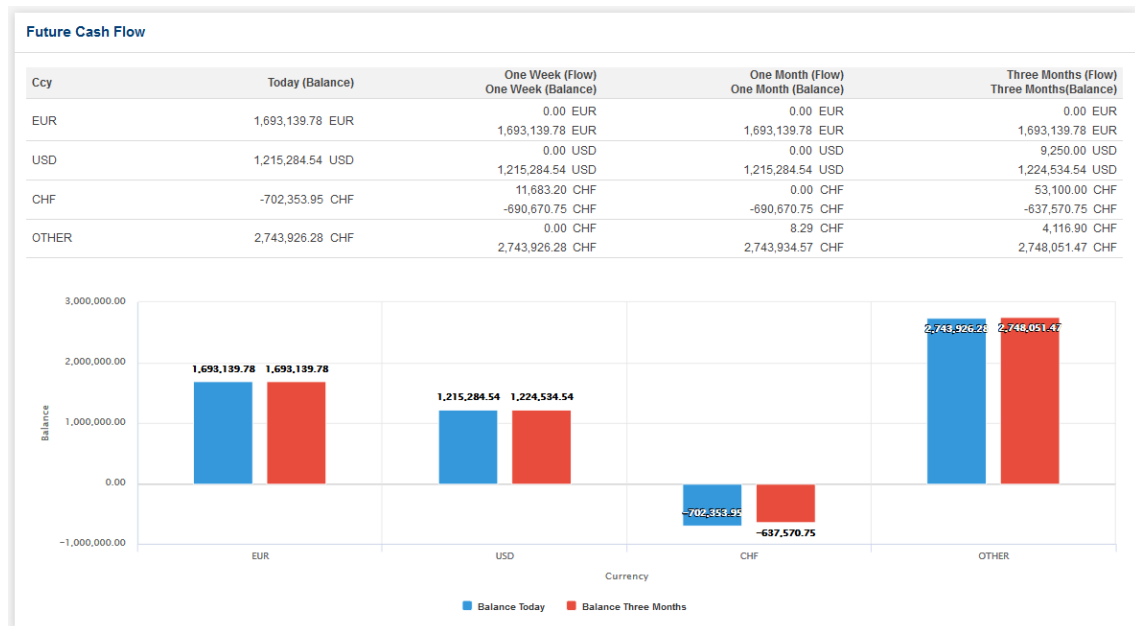

13.10 Viewing future cash flow

The **Future Cash Flow** sub-menu is an option under **Analysis** in the **Portfolios** menu and displays a set of cash flow forecasts that show expected cash flows for next three months and today's balance. Bar charts are included to illustrate the expected cash flows by currencies.

To view cash flow forecasts:

1. From the menu bar, go to **Portfolios > Future Cash Flow**.

The **Future Cash Flow** page is displayed.

- (Optional) If the portfolio belongs to a portfolio hierarchy as a parent portfolio, you can load the hierarchy by checking the **Hierarchy** checkbox on the portfolio banner (for more information about this checkbox, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).
- (Optional) You can switch to view another or all portfolios of the client, group, or basket from the drop-down list of the **Change Portfolio** field on the portfolio banner (for more information about this field, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).

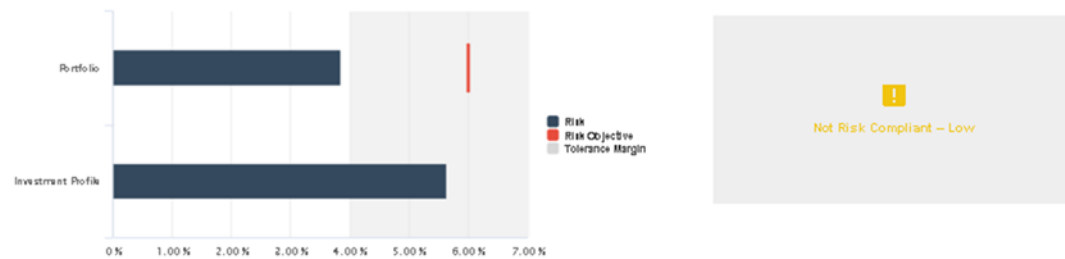

13.11 Viewing risk

The **Risk** sub-menu is an option under **Analysis** in the **Portfolios** menu that displays risk figures, based on a pre-configured indicator, for a portfolio and its positions, as well as a comparison to the portfolio's Investment Profile and level risk compliance.

The following image illustrates figures computed online through the services provided by our risk provider partner (for more information about the risk provider, contact your administrator).

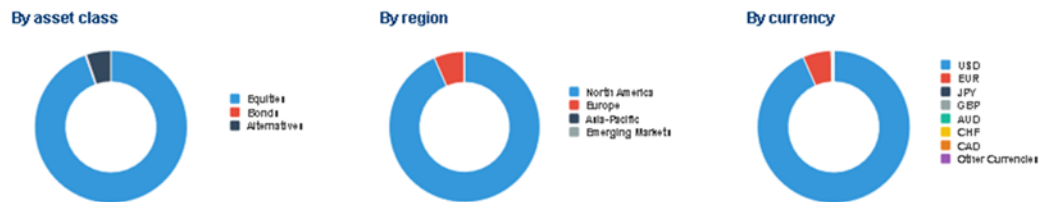

Measures - VaR Percent

The risk measure displayed are partially computed, please consider them with caution. Information returned by the risk engine: Some positions were not computed

Global Risk Contributions - VaR Percent

Risk & Performance Contributors - VaR Percent

Risk

Instrument	Market Value	Contribution	Risk
Geberit AG	7,240.01 EUR	1.41 %	6.72 %
Givaudan SA	25,192.40 EUR	1.03 %	5.18 %
LVMH Moët Hennessy Louis Vuitton	5,474.75 EUR	0.66 %	6.78 %
Expedia Group Inc	1,964.83 EUR	0.20 %	6.42 %
Vinci SA	1,190.31 EUR	0.17 %	5.61 %

Performance

Instrument	Market Value	Contribution	Performance
GSK 5 1/4 12/19/33	23,623.16 EUR	3.18 %	27.57 %
UKT 5 03/07/25	14,078.11 EUR	1.97 %	28.94 %
SPDR MSCI Europe UCITS ETF	2,405.04 EUR	0.09 %	6.45 %
Koninklijke Philips NV	432.90 EUR	0.04 %	15.75 %
CAN 2 3/4 12/01/48	1,493.77 EUR	0.04 %	4.06 %

Pending Risk Calculations & Issues - VaR Percent

Status	Instrument	Market Value	Message
✗	Essilor International Cie Gene	1,909.36 EUR	The assets data are not complete enough to achieve a correct computation

Depending on the configuration of the application, it is possible to display risk figures online or offline.

To view risk:

1. From the menu bar, go to **Portfolios > Risk**.

The **Risk** page shows read-only information that is split into the following categories:

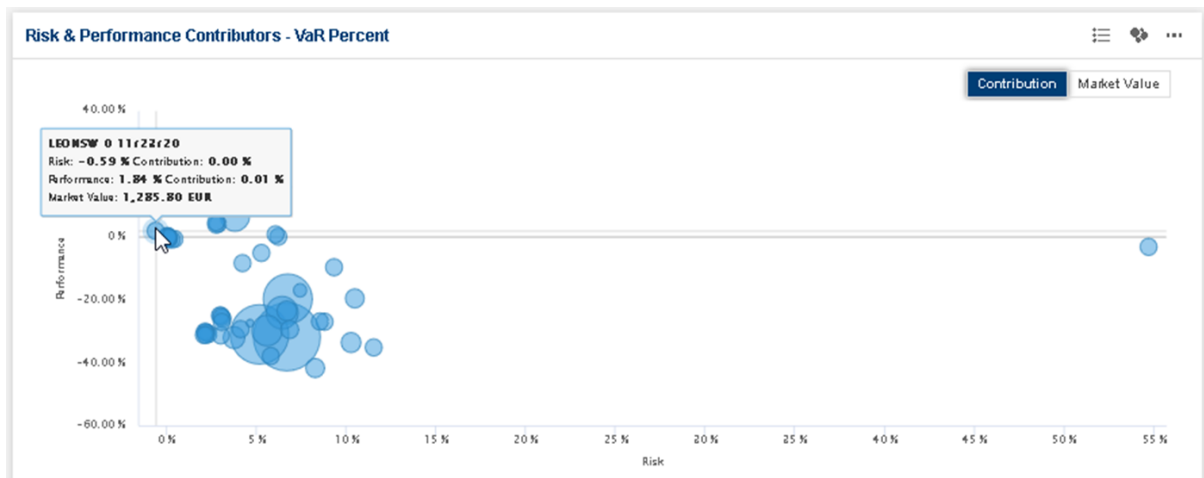

- Measures (computed by risk provider).
- Global Risk Contributions (computed by risk provider)

- Risk & Performance Contributors (top 5 contributors for each are displayed by default)
 - Risk (computed by risk provider)
 - Performance (computed by Front Office - PM)
- Pending Risk Calculation & Issues (positions without a risk computation, a red cross when computation is impossible, a hourglass when the computation is still in progress)

Note: If the system cannot provide risk figures from the risk provider, a warning message is displayed.

2. (Optional) To view all risk and performance contributors, you can click on the **All Contributors** tab.
3. (Optional) To view the risk and performance contributors as a bubble graph, you can click on the  icon. By default, the bubble size is based on the risk contribution. To view bubbles reflecting the market value of each position, you can click on *Market Value* tab.

4. (Optional) You can switch to view another portfolio of the client from the drop-down list of the **Change Portfolio** field on the portfolio banner (for more information about this field, see section [Portfolio banner for RM Users](#)).

Note that the **Risk** page is not available for Client Users, portfolios' groups, or baskets as well as a consolidated mode for all portfolios of the selected client, group, or basket. It is only available for single portfolios without any hierarchy.

13.12 Viewing performance figures

The **Performance** sub-menu is an option under **Analysis** in the **Portfolios** menu and displays global performance details of the portfolio, its breakdown by market segment, and its historical risk indicators.

The following sections provides information about:

- [Viewing global performance figures](#)

- [Viewing performance breakdown](#)
- [Viewing historical risk indicators](#)

13.12.1 Viewing global performance figures

To view global performance figures details:

1. From the menu bar, go to **Portfolios > Performance**.

The **Portfolio Performance** page is displayed with the **Global** tab shown by default. The figures are displayed in a list and in a graph.

2. On the line chart, you can add or remove certain elements from the legend to obtain a more detailed view.
3. (Optional) By default, performance figures of the last year are displayed. You can change the period by selecting a value from one of the available radio buttons. You can also define the period by selecting the radio button **Other**. Then, the **From** and **To** fields are displayed for you to define the period. The results of your selection are displayed after you click **Apply**.
4. (Optional) You can change the currency by clicking the down arrow and selecting the desired currency from the drop-down list in the **Currency** field. The page will automatically refresh with the currency after you click **Apply**.
5. (Optional) If the portfolio belongs to a portfolio hierarchy as a parent portfolio, you can load the hierarchy by checking the **Hierarchy** checkbox on the portfolio banner (for more

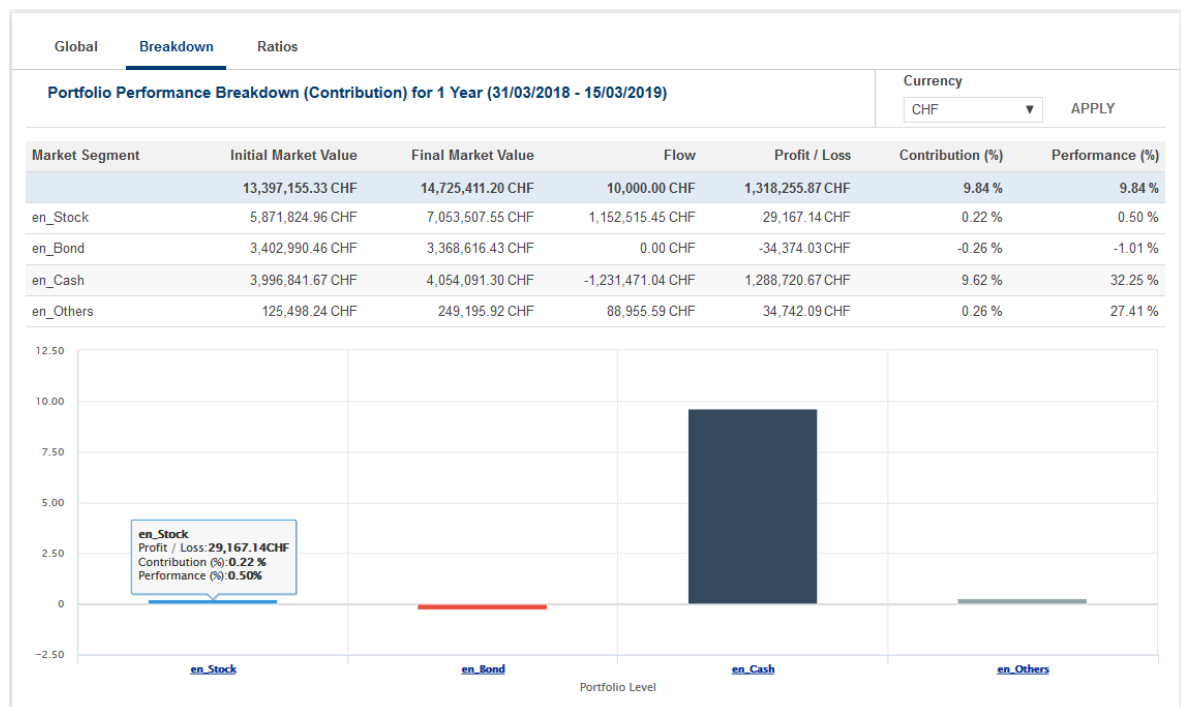

information about this checkbox, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).

- (Optional) You can switch to view another or all portfolios of the client, group, or basket from the drop-down list of the **Change Portfolio** field on the portfolio banner (for more information about this field, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).

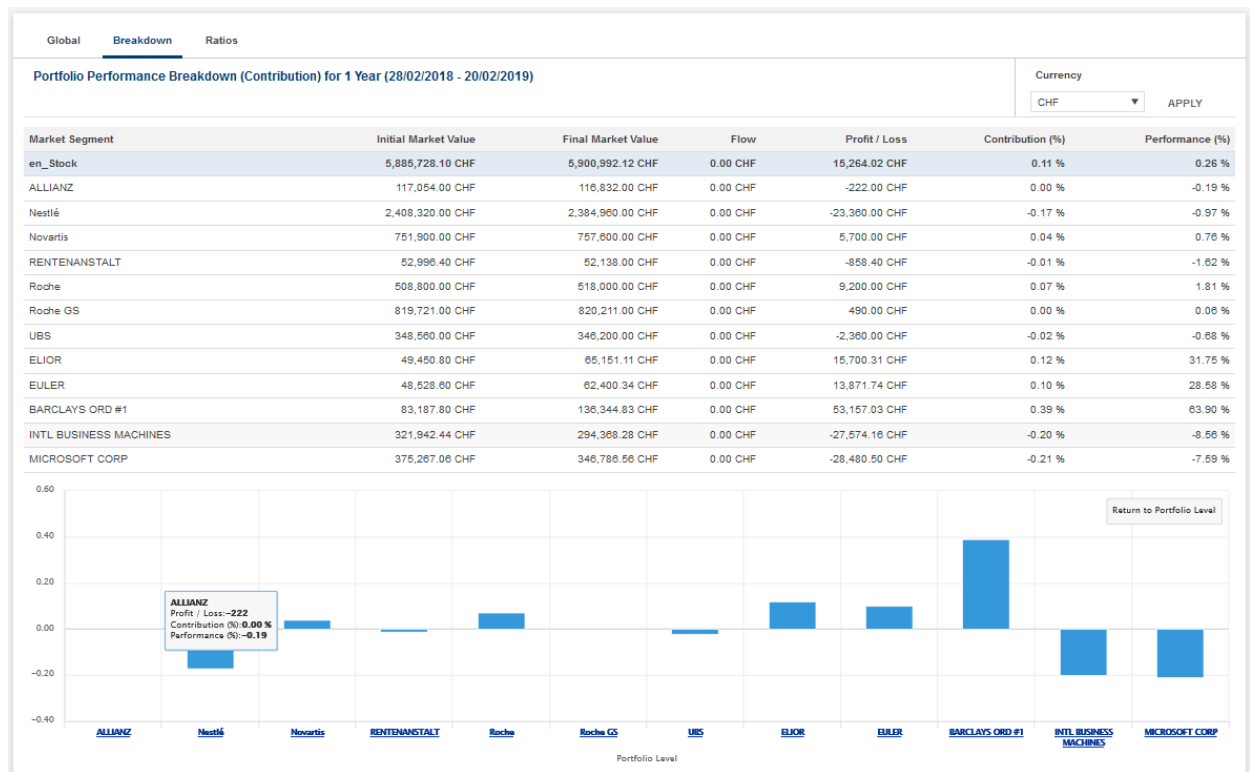

13.12.2 Viewing performance breakdown

To view performance breakdown details:

- From the menu bar, go to **Portfolios > Performance**.
The **Portfolio Performance** page is displayed with the **Global** tab shown by default.
- Click the Breakdown tab.
The breakdown figures are displayed in a list and in a graph/bar chart.

- Click on any item on the graph to drill down to the portfolio composition. Then, to return to the portfolio level, click **Back to Portfolio Level**. For example, if you clicked Stock in the bar chart, the following page is displayed with the positions allocated to this segment.

- If you have multiple levels of a market segment, you can click again on any item on the graph to drill down further to the portfolio market structure.
- (Optional) You can change the currency by clicking the down arrow and selecting the desired currency from the drop-down list in the **Currency** field. The page will automatically refresh with the currency after you click **Apply**.
- (Optional) If the portfolio belongs to a portfolio hierarchy as a parent portfolio, you can load the hierarchy by checking the **Hierarchy** checkbox on the portfolio banner (for more information about this checkbox, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).
- (Optional) You can switch to view another or all portfolios of the client, group, or basket from the drop-down list of the **Change Portfolio** field on the portfolio banner (for more information about this field, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).

13.12.3 Viewing historical risk indicators

To view historical risk indicators:

- From the menu bar, go to **Portfolios > Performance**.
The **Portfolio Performance** page is displayed with the **Global** tab shown by default.
- Click the Ratios tab.
The **Historical Risk Indicators** page is displayed.

Global Breakdown Ratios			
Historical Risk Indicators		PERIOD	CURRENCY
		☐ YTD ☒ 1 Yr ☐ 3 Yr ☐ 5 Yr ☐ Other	CHF APPLY
Portfolio	N_TCIB_PTF11	Benchmark	N_AI_RMT_AA01
Portfolio Return	9.84 %	Benchmark Return	2.21 %
Over-Performance	7.63 %	Average Return Benchmark	2.48 %
Average Return	13.44 %	Return Volatility Benchmark	0.67 %
Historical Volatility	10.39 %	Sharpe Ratio Benchmark	
Sharpe Ratio Portfolio			
Beta	-6.23 %		
Treynor Ratio			
Jensen's Alpha			
Tracking Error	10.67 %		
Information Ratio	1.02 %		

1. (Optional) By default, risk indicators of the last year are displayed. You can change the period by selecting a value from one of the available radio buttons. You can also define the period by selecting the radio button **Other**. Then, the **From** and **To** fields are displayed for you to define the period. The results of your selection are displayed after you click **Apply**.
2. (Optional) You can change the currency by clicking the down arrow and selecting the desired currency from the drop-down list in the **Currency** field. The page will automatically refresh with the selected currency after you click **Apply**.
3. (Optional) If the portfolio belongs to a portfolio hierarchy as a parent portfolio, you can load the hierarchy by checking the **Hierarchy** checkbox on the portfolio banner (for more information about this checkbox, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).
4. (Optional) You can switch to view another portfolio of the client, group, or basket from the drop-down list of the **Change Portfolio** field on the portfolio banner (for more information about this field, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)). Note that the **Historical Risk Indicators** page is not available in a consolidated mode for all portfolios of the selected client, group, or basket.

13.13 Viewing Lombard Valuation

The **Lombard Valuation** sub-menu is an option under **Analysis** in the **Portfolios** menu and displays Lombard Valuation information for a portfolio both at the portfolio level and at the position level.

Lombard Valuation information only is available for single portfolios.

To view Lombard Valuations:

1. From the menu bar, go to **Portfolios > Lombard Valuation**.

The **Lombard Valuation** page shows read-only information that is split into the following sections:

- A summary section with values at the portfolio level

- A positions section with detailed values, sorted by Lombard Value descending

Selected Portfolio RICHARD SMITH WR PORTFOLIO 111802		Service Type None	Investment Profile ▲ No profile >	Managed Since 16/03/2018	Change Portfolio 111802-1 ▼

Page 1 of 3 < 1 2 3 >

- (Optional) To change the currency, click the down arrow and select the desired currency from the dropdown list in the **Currency** field. Then click **Apply**.

The Summary section and Positions section will refresh with values in the selected currency.

- (Optional) To select which columns will be displayed in the Positions section, click the column selector  icon. (For more information, see section [Column Selection](#)).
- (Optional) To view the details of an instrument, click on the hyperlink for the instrument.

In the Positions section, the hyperlink is the Instrument Code.

The Instrument Details page is displayed with the details of the selected instrument.

To return to the previous page, click **Back**.

13.14 Placing securities orders

You can place new securities orders in the following ways:

- [Placing a single order](#) (creating orders one by one)
- [Placing multiple orders](#) (initiating multiple orders on portfolios from a list of positions)

13.14.1 Placing a single order

The **Securities Order** sub-menu is an option under **Orders** in the **Portfolios** menu where you can place a new single security order.

Note: As no manual order creation is permitted for Discretionary, Robo-Advisor, and Goal-based portfolios, this sub-menu menu is not displayed for these portfolios.

To place a single security order:

1. From the menu bar, go to **Portfolios > Securities Order**.

The **Place a Securities Order - Order** page is displayed.

Alternatively, you can access the **Place a Securities Order - Order** page from:

- Any list of positions (see section [Buying or selling quantities of an instrument](#)).
- Your watchlist (see section [Placing buy orders for instruments on the watchlist \(for Client Users only\)](#)).

In these cases, the fields **Nature**, **Portfolio** and **Instrument** fields are prefilled.

2. Complete the following fields (mandatory fields are marked with an asterisk):

Field	Description
Nature	Click Buy or Sell. If instrument Fund share is selected, Subscription is displayed below the toggle Buy/Sell when Buy is selected and Redemption is displayed below the toggle Buy/Sell when Sell is selected.
Portfolio	From the drop-down list, select the desired portfolio. By default, the first option in the drop-down list is selected. Note: Discretionary, Robo-Advisor, and Goal-based portfolios are not available in the drop-down list.
Instrument	The options to complete the Instrument field are: - Type some text in the field and select the desired instrument that is displayed on the drop-down list (see section Quick result proposal). - Type some text in the field and click the  icon. Then, search and select the desired instrument using the Advanced search feature. After the instrument is selected, the market price of the instrument is displayed in the Last Quote field.
Target Nature	From the drop-down list, select one of the following to indicate how the order will be placed: - by Quantity - by Gross Amount - by Net Amount - by Full Redemption Note: Subscription of Signature Portfolio allowed only in target nature Gross Amount and is a read only field.
Quantity	If you selected Quantity in the Target Nature field, enter the desired quantity to buy or sell in the Quantity field. This field accepts numerical values only. The Indicative Gross Amount, Indicative Fees and Taxes, and Indicative Net Amount fields automatically display the calculated amount based on the quantity entered. Indicative Fees and Taxes show the estimated fees and taxes fetched from the back-office. The value in the field changes when modifying the Instrument, Quantity, Limit Quote, and Contact Method fields. Note: For Redemption of Signature Portfolio, Quantity field is not displayed.
Account	Based on the instrument in the Instrument field, this field will automatically display the cash account linked to the client's portfolio.
Gross Amount	If you selected Gross Amount in the Target Nature field, enter the desired amount to buy or sell in the Amount field. This field accepts numerical values only. The Indicative Quantity field automatically displays the calculated quantity based on the amount entered. If the amount entered is not adequate to calculate one unit (or the minimum order quantity of the instrument) that can be traded, the Indicative Quantity field will display 0, and orders with 0 quantities cannot be fulfilled. To avoid this error, enter an adequate amount to fulfil the order.

Field	Description
Net Amount	If you selected Net Amount in the Target Nature field, enter the desired amount (inclusive of fees and taxes) to buy or sell in the Amount field. This field accepts numerical values only. The Indicative Quantity field automatically displays the calculated quantity based on the amount entered. The indicative quantity calculation takes into account potential fees, taxes, and accrued interest. If the amount entered is not adequate to calculate one unit (or the minimum order quantity of the instrument) that can be traded, the Indicative Quantity field will display 0, and orders with 0 quantities cannot be fulfilled. To avoid this error, enter an adequate amount to fulfil the order.
Full Redemption	If you selected Full Redemption in the Target Nature field, the entire position held will be liquidated for an instrument External Product.
Limit Type	From the drop-down list, select the order type to use for the order. The options are: • Market (default): The order will be executed at the best price that is currently available. • Limit: The order that sets the maximum or minimum at which the user is willing to buy or sell. You must also complete the Limit Date field and the Limit Quote field for this type of order. • Stop: The order to buy or sell becomes active only after a specified price level has been reached (the "stop price"). You must also complete the Limit Date field and the Stop Quote field for this type of order. • Stop Limit: This order type is similar to stop-loss order, but as the name suggests, there is a limit on the price at which the order will execute. There are two prices specified in a stop-limit order; the stop quote that will convert the order to a sell order, and the limit quote. Instead of the order becoming a market order to sell, the sell order becomes a limit order that will only execute at the limit price or better. You must also complete the Limit Date field, Limit Quote field, and Stop Quote field for this type of order.
Negotiation	From the drop-down list, select the Negotiation commission type: • No (default): The bank commission remains the same. • In Amount: You choose to enter the negotiated commission amount. • In Percent: You choose to enter the negotiated commission in percentage. Whichever commission type you choose, the value in the Standard field includes the bank's commission and its representation as a percentage of the operation gross amount.
Negotiated Commission (Percent)	If you selected In Percent in the Negotiation field, enter the desired commission percentage that you want to apply. This percentage is applied on the operation gross amount.
Negotiated Commission (Amount)	If you selected In Amount in the Negotiation field, enter the desired commission amount.

Field	Description
Validity Type	From the drop-down list, select the Validity Type to use for the order. The options are: • None (default): The order is valid for an indefinite time. The Limit Date is not displayed. • Day Order: The order is valid until the Limit Date. The Limit Day is set to the system date. • GTC: The order is valid for an indefinite time. The Limit Date is not displayed. • Closing: The order is valid until the Limit Date. The Limit Date is set to the system date. • Opening: The order is valid until the Limit Date. The Limit Date is set to the system date plus one business day. The Validity Types are applicable for all Limit Types.
Trade Instruction	Used to store any trading remarks while placing an order.
Additional Details	The Additional Details sections will only be displayed for an RM User login and not on Client User login.
Order Initiator	Choose one of the following radio buttons: • Bank : Order is mandated by the Bank • Client : Order is initiated by the client
Contact Date	If you selected Client in the Order Initiator field, the contact date is displayed. The system date is the default date. You cannot enter a future date.
Contacted By	From the drop-down list, select one of the following to indicate the communication party types: • Account Holder (default) • Attorney • Beneficial Owner • Other • Signatory • Third Party Manager
Contact Method	From the drop-down list, select one of the following to indicate how the client has contacted the bank: • Email • Facsimile • Internet (default) • Letter Post • Meeting • Other • Telephone
Client Instruction	Used to store any instructions from the client while placing an order.
Dividend Payment Option	If the instrument in the Instrument field is identified to pay dividends, the Dividend Payment Option field is displayed in the Instructions section of the page. From the drop-down list, select one of the following to indicate how the client wants to handle dividends: • Cash Payout • Dividend Reinvestment

CANCEL RESET CHECK

4. (Optional) Do one of the following:
 - Click **Reset** to restart the order from scratch.
 - Click **Cancel** to cancel the order. The **Order Cancel** pop-up is displayed asking you to confirm the action. Click **Yes** to cancel the order or **No** to go back to your order.
5. Click **Check**.

The application performs a pre-trade compliance check and any errors will be displayed at the top of the page.

 - If there are error messages, click **Modify** to modify the order details or **Cancel** to cancel the order. The application will not allow you to continue with orders that contain error messages.
 - If there are no error messages, the results of the pre-trade compliance check are displayed on the **Compliance** page, which contains the following tabs: **Breaches** (default), **Objectives**, and **Constraints**.
6. Do the following to check the information in each tab (**Breaches**, **Objectives**, and **Constraints**):
 - a. **Breaches** tab (default). This tab shows the violation of input controls, objectives, and constraints. For breaches of objectives and constraints, you can enter justifications to overrule the violations (depending on their severity):
 - If there is at least one case of high severity, a message at the top of the page is displayed and you cannot save the order; the **Save** button is not accessible. The only options are to click **Modify** to go back to the order details to modify the order or click **Cancel** to cancel the order. The **Order Cancel** pop-up is displayed where you can click **Yes** to cancel the order or **No** to go back to your order.

13.15 Placing OTC orders

The **OTC Order** sub-menu is an option under **Place Single Order** in the **Portfolios** menu where you can place a new single OTC Order.

Note: As no manual order creation is permitted for Discretionary, Robo-Advisor, and Goal-based portfolios, this sub-menu menu is not displayed for these portfolios.

To place an OTC order:

1. From the menu bar, go to **Portfolios > Place Single Order > OTC Order**.

The **Place an OTC Order - Template** page is displayed.

Alternatively, you can access the **Place an OTC Order - Template** page from the:

- Portfolio Proposal page (see section [Proposal step](#))
- Held Asset- List of Orders (see section [Placing multiple orders](#))

In these cases, the fields **Portfolio** and **Client** fields are prefilled and an unlisted Instrument will be created.

For more details, such as how the instrument templates are best created, refer to the *WealthSuite Front Office - Portfolio Management - Financial Instruments Reference Guide*.

2. Select the appropriate template category. Two options are available: Structured Notes and OTC Derivatives. Select the appropriate instrument template and navigate to next step via the **NEXT** button.

The **Place an OTC Order - Instrument** page is displayed

The content of the Instrument page displayed will vary by the nature of the template selected. The sample below is for a Capital Protected Note.

Leverage	Define the multiplier factor applied to the quantity of the underlying for structured products Applicable for MiniFuture Turbo.
Effective Leverage	Provide the multiplier factor, adjusted from spot and issue prices. Applicable for MiniFuture Turbo.

Field	Description
Specific section (for OTC derivatives only)	
Option Class	From drop-down list, select the option class for newly created instrument. Available options: 1. Call 2. Put
Option Style *	From drop-down list, select the option style for newly created instrument. Available options: 1. American 2. European 3. Bermudan
Barrier Style	From drop-down list, select the barrier style for newly created instrument. Available options (applicable for exotic options only): 1. Knock-In 2. Knock-Out 3. Double Knock-Out 4. Double Knock-In 5. knock-In Knock-Out 6. Digital Investment
Underlying section	
Underlying Category	From drop-down list, select the underlying category for this OTC order. Available options applicable for structured notes only: - Single instrument - Average basket - Worst of basket Note: For OTC derivatives, only single underlying is supported (no basket underlying) Underlying category dropdown not available for OTC derivatives.
Instrument *	Autocomplete for the instruments to be used as underlying for this OTC order. Note: For OTC derivatives, instrument can be prepopulated from the template.
Denomination	Display denomination for the user selected underlying instruments.
Weight	Define weight of each underlying instrument in the basket for this OTC order. Weight is only applicable to Average Basket underlying category.
Strike Price *	The strike price for each included instrument in this OTC order.
Strike Price (%)*	The strike price percentage for each included instrument in this OTC order.
Barrier	Enter barrier for each included instrument in this OTC order.
Barrier (%)	Enter barrier percentage for each included instrument in this OTC order.
Upper Barrier	Enter barrier for the underlying instrument in this OTC order. Applicable only in the case of double barrier exotic options (OTC derivatives.)

Field	Description
Upper Barrier (%)	Enter barrier percentage for the underlying instrument in this OTC order. Applicable only in the case of double barrier exotic options (OTC derivatives.)

4. (Optional) Do one of the following:
 - Click **Previous** to select another instrument template, and create another order.
 - Click **Cancel** to cancel the order. The **Order Cancel** pop-up is displayed asking you to confirm the action. Click **Yes** to cancel the order or **No** to go back to your order.

5. Click **Next** to proceed to the next step.

The **Place an OTC Order – Order** page is displayed.

6. Complete the following fields (mandatory fields are marked with an asterisk):

Field	Description
Nature	Select the nature of the order. The default is Buy.
Quantity *	Enter the desired quantity to buy or sell in the Quantity field. This field accepts numerical values only. The Indicative Gross Amount, Indicative Fees and Taxes, and Indicative Net Amount fields automatically display the calculated amount based on the quantity entered. Indicative Fees and Taxes show the estimated fees and taxes fetched from the back-office. Note: For Redemption of Signature Portfolio, the Quantity field is not displayed.
Account	Based on the instrument in the Instrument field, this field will automatically display the cash account linked to the client's portfolio.

Field	Description
Gross Amount	Calculated field. This field is read only.
Net Amount	Calculated field Includes the quantity field and negotiation amount. This field is read only.
Negotiation	From the drop-down list, select the Negotiation commission type: - No (default): The bank commission remains the same. - In Amount: You choose to enter the negotiated commission amount.
Negotiated Commission * (Amount)	If you selected In Amount in the Negotiation field, enter the desired commission amount.
Counterparty	Select the counter party. Mandatory for OTC Derivate trades only.
Trade Instruction	Used to store any trading remarks while placing an order.
Additional Details	The Additional Details sections will only be displayed for an RM User login and not on Client User login.
Order Initiator *	Choose one of the following radio buttons: Bank : Order is mandated by the Bank Client : Order is initiated by the client
Contact Date	If you selected Client in the Order Initiator field, the contact date is displayed. The system date is the default date. You cannot enter a future date.
Contacted By	From the drop-down list, select one of the following to indicate the communication party types: - Account Holder (default) - Attorney - Beneficial Owner - Other - Signatory - Third Party Manager
Contact Method	From the drop-down list, select one of the following to indicate how the client has contacted the bank: - Email - Facsimile - Internet (default) - Letter Post - Meeting - Other - Telephone
Client Instruction	Used to store any instructions from the client while placing an order.

7. (Optional) Do one of the following:
- Click **Reset** to restart the contract step from scratch.
 - Click **Previous** to select a different instrument.

- Click **Cancel** to cancel the order. The **Order Cancel** pop-up is displayed asking you to confirm the action. Click **Yes** to cancel the order or **No** to go back to your order.
8. Click **Check** to proceed to the next step. The application performs a pre-trade compliance check and the **Place an OTC Order – Compliance** page is displayed. This page is similar to the pre-trade compliance check page shown when placing new orders on the Securities Order page (see section [Placing a single order](#))
 9. On the **Place an OTC Order - Compliance** page, do one of the following:
 - Click **Cancel** to cancel the contract.
 - Click **Modify** to go back to the previous page. The **Place an OTC Order – Order** page is displayed.
 - Click **Save** after all information in the tabs are checked and the necessary actions, if any, are taken. The changes are saved and the **Place an OTC Order - Confirmation** page is displayed.
 10. On the **Place an OTC Order - Confirmation** page, do one of the following:
 - To create another contract, click **Place Another Order**.
 - To view pending orders, click **View Order Blotter**. (see section [Viewing orders](#))

13.16 Placing OTC contracts

The **OTC Contract** sub-menu is an option under **Place Single Order** in the **Portfolios** menu where you can create a new OTC Contract.

Note: As no manual order creation is permitted for Discretionary, Robo-Advisor, and Goal-based portfolios, this sub-menu menu is not displayed for these portfolios.

To place an OTC contract:

1. From the menu bar, go to **Portfolios > Place Single Order > OTC Contract**.

The **Place an OTC Contract - Template** page is displayed.

- Complete the following fields (mandatory fields are marked with an asterisk):

Field	Description
Portfolio *	From the drop-down list, select the desired portfolio. By default, the first option in the drop-down list is selected. Note: Discretionary, Robo-Advisor, and Goal-based portfolios are not available in the drop-down list.
Include Vanilla Option	Define if Vanilla Option should be included in this OTC Contract. By default, Vanilla Option will be always defaulted.
Call Option section	
Amount *	Enter the desired Call option amount in the Amount field. This field accepts numerical values only.

Field	Description
Account *	Based on the Call amount currency (or in template underlying currency), this field will automatically display the cash account linked to the client's portfolio. However the user can choose the other cash accounts tagged to the portfolio in this currency.
Maturity Date *	Enter the desired maturity date for call option in this OTC contract.
Fixing Date *	Enter the desired fixing date for call option in this OTC contract.
Settlement Frequency *	From drop down list, select the fixing frequency: Day Week Month Quarter Semester Year
Strike Price *	There are two ways to specify the strike price: - You can enter a price in the first field. The second field will be populated with the price / the spot rate as a percentage. - You can enter a percentage in the second field. The first field will be populated with the price calculated as spot rate * percentage
Lower Barrier	Enter the lower barrier for the call option. Also can be calculated based on barrier percentage and current spot rate.
Upper Barrier	Enter the upper barrier for the call option. Also can be calculated based on barrier percentage and current spot rate. Not Applicable to TARKO
Target Profit	Enter the profit for the call option. This field accepts numerical values only. Not Applicable to FX Forward Participating
Participation level*	Provide the Put Amount participation level for the call option.
Put Option section	
Amount	Calculated Put option amount, based on the Call amount, Participation level and Call Strike Price.
Account *	Based on the Put amount currency (or the template's reference currency), this field will automatically display the cash account linked to the client's portfolio. You can choose a different cash account related to the portfolio with this currency.
Maturity Date *	Enter the desired maturity date for put option in this OTC contract.
Fixing Date *	Enter the desired fixing date for put option in this OTC contract.

Field	Description
Settlement Frequency *	From drop down list, select fixing frequency: Day Week Month Quarter Semester Year
Strike Price *	There are two ways to specify the strike price: - You can enter a price in the first field. The second field will be populated with the price / the spot rate as a percentage. - You can enter a percentage in the second field. The first field will be populated with the price calculated as spot rate * percentage
Lower Barrier	Enter the lower barrier for the put option. Also can be calculated based on barrier percentage and current spot rate.
Upper Barrier	Enter the upper barrier for the put option. Also can be calculated based on barrier percentage and current spot rate. Not Applicable to TARKO
Target Profit	Enter the profit for Put option. This field accepts numerical values only. Not Applicable to FX Forward Participating
Vanilla Option section	
Amount *	Enter the desired Vanilla option amount in the Amount field. This field accepts numerical values only.
Maturity Date *	Enter the desired maturity date for vanilla option in this OTC contract.
Fixing Date *	Enter the desired fixing date for vanilla option in this OTC contract.
Settlement Frequency *	From drop down list, select fixing frequency: Day Week Month Quarter Semester Year
Strike Price *	There are two ways to specify the strike price: - You can enter a price in the first field. The second field will be populated with the price / the spot rate as a percentage. - You can enter a percentage in the second field. The first field will be populated with the price calculated as spot rate * percentage
Commission Negotiation, Instructions and Additional Details sections are same as described for DCI/TCI.	

Following steps are same for any of above cases.

2. (Optional) Do one of the following:
 - Click **Reset** to restart the contract step from scratch.
 - Click **Previous** to select another instrument template, and create another contract.
 - Click **Cancel** to cancel the order. The **Order Cancel** pop-up is displayed asking you to confirm the action. Click **Yes** to cancel the order or **No** to go back to your order.
3. Click **Check** to proceed to the next step. The application performs a pre-trade compliance check and the **Place an OTC Contract – Compliance** page is displayed. This page is similar to the pre-trade compliance check page shown when placing new orders on the Securities Order page (see section [Placing a single order](#))
4. On the **Place an OTC Contract - Compliance** page, do one of the following:
 - Click **Cancel** to cancel the contract.
 - Click **Modify** to go back to the previous page. The **Place an OTC Contract – Contract** page is displayed.
 - Click **Save** after all information in the tabs are checked and the necessary actions, if any, are taken. The changes are saved and the **Place an OTC Contract - Confirmation** page is displayed.
5. On the **Place an OTC Contract - Confirmation** page, do one of the following:
 - To create another contract, click **Place Another Order**.
 - To view pending orders, click **View Order Blotter**. (see section [Viewing orders](#))

13.17 Placing fund switch orders

You can place the following new fund switch orders:

- one sell versus one buy
- multiple sells versus one buy
- one sell versus multiple buys
- multiple sells versus multiple buys

The **Fund Switch Order** sub-menu is an option under **Orders** in the **Portfolios** menu.

Note: As no manual order creation is permitted for Discretionary, Robo-Advisor, and Goal-based portfolios, this sub-menu menu is not displayed for these portfolios.

To place a fund switch order:

1. From the menu bar, go to **Portfolios > Fund Switch Order**.
The **Fund Switch Order – Switch Order Definition** page is displayed.

2. Complete the following fields (mandatory fields are marked with an asterisk):

Field	Description
Portfolio	From the drop-down list, select the desired portfolio. By default, the first option in the drop-down list is selected. Note: Discretionary, Robo-Advisor, and Goal-based portfolios are not available in the drop-down list.
Type	From the drop-down list, select the switch type. By default, External in the drop-down is selected.
New Redemption Leg	You have the option to enter multiple sell orders Click on the New Redemption Leg link to add new rows in the Switch From (Redemption) section.
Instrument (in Switch From (Redemption) section)	The options to complete the Instrument field are: - Type some text in the field and select the desired instrument that is displayed on the drop-down list (see section Quick result proposal). - Type some text in the field and click the  icon. Then, search and select the desired instrument using the Advanced search feature. After the instrument is selected, the market price of the instrument is displayed in the Last Quote field.
Target Nature (in Switch From (Redemption) section)	From the drop-down list, select one of the following to indicate how the order will be placed: - by Quantity - by Gross Amount - by % of Position Held - by Full Redemption

Field	Description
Target Objective (in Switch From (Redemption) section)	- If you selected Quantity in the Target Nature field, the holding quantity is pre-populated in Target Objective field. However, you can override and enter the desired quantity. This field accepts numerical values only. - The Indicative Quantity field automatically displays the quantity entered. The Net Amount in Ptf Ccy field automatically displays the calculated amount based on the target objective entered. - If you selected Gross Amount in the Target Nature field, the holding amount is pre-populated in the Target Objective field. However, you can override and enter the desired amount. This field accepts numerical values only. - The Indicative Quantity field automatically displays the calculated quantity based on the amount entered. The Net Amount in Ptf Ccy field automatically displays the calculated amount based on the target objective entered. If the amount entered is not adequate to calculate one unit (or the minimum order quantity of the instrument) that can be traded, the Indicative Quantity field will display 0, and orders with 0 quantities cannot be fulfilled. To avoid this error, enter an adequate amount to fulfil the order. - If you selected % of Position Held in the Target Nature field, enter the desired % to sell in the Amount field. This field accepts numerical values only between 0-100. - The Indicative Quantity field automatically displays the calculated quantity based on the % entered. The Net Amount in Ptf Ccy field automatically displays the calculated amount based on the target objective entered. If the % entered is not adequate to calculate one unit (or the minimum order quantity of the instrument) that can be traded, the Indicative Quantity field will display 0, and orders with 0 quantities cannot be fulfilled. To avoid this error, enter an adequate % to fulfil the order.
New Subscription Leg	You have the option to enter multiple buy orders Click on the New Subscription Leg link to add new rows in the Switch To (Subscription) section.
Target Nature (in Switch To (Subscription) section)	If the type selected is External, select from the drop-down list how the order will be placed: - by Quantity - by Gross Amount - by % of Sales Proceeds If the type selected is Internal, the only target nature available is "% of Sales Proceeds". Note: Subscription of Signature Portfolio allowed only in target nature Gross Amount and is a read only field.

Field	Description
Target Objective (in Switch To (Subscription) section)	- If you selected Quantity in the Target Nature field, enter the desired quantity to buy in the Target Objective field. This field accepts numerical values only. - The Indicative Quantity and Net Amount in Ptf Ccy fields automatically display the calculated quantity and amount based on the quantity entered. - If you selected Gross Amount in the Target Nature field, enter the desired amount to buy in the Target Objective field. This field accepts numerical values only. - The Indicative Quantity field automatically displays the calculated quantity based on the amount entered. The Net Amount in Ptf Ccy field automatically displays the calculated amount based on the target objective entered. If the amount entered is not adequate to calculate one unit (or the minimum order quantity of the instrument) that can be traded, the Indicative Quantity field will display 0, and orders with 0 quantities cannot be fulfilled. To avoid this error, enter an adequate amount to fulfil the order. - If you selected % of Sales Proceeds in the Target Nature field, enter the desired % to buy in the Target Objective field. This field accepts numerical values only between 0-100. - The Indicative Quantity field automatically displays the calculated quantity based on the % entered. The Net Amount in Ptf Ccy field automatically displays the calculated amount based on the target objective entered. The indicative quantity calculation takes into account the total sales proceeds. If the % entered is not adequate to calculate one unit (or the minimum order quantity of the instrument) that can be traded, the Indicative Quantity field will display 0, and orders with 0 quantities cannot be fulfilled. To avoid this error, enter an adequate % to fulfil the order. - If the type selected is Internal, a check is performed to ensure that the total % entered in each of the subscription legs is not less than or greater than 100%.
Negotiation	From the drop-down list, select the Negotiation commission type: - No (default): The bank commission remains the same. - In Amount: You choose to enter the negotiated commission amount. - In Percent: You choose to enter the negotiated commission in percentage. Whichever commission type you choose, the value in the Standard field includes the bank's commission and its representation as a percentage of the operation gross amount.
Negotiated Commission (Percent)	If you selected In Percent in the Negotiation field, enter the desired commission percentage that you want to apply. This percentage is applied on the operation gross amount.
Negotiated Commission (Amount)	If you selected In Amount in the Negotiation field, enter the desired commission amount.

Field	Description
Validity Type	From the drop-down list, select the Validity Type to use for the order. The options are: • None (default): The order is valid for an indefinite time. The Limit Date is not displayed. • Day Order: The order is valid until the Limit Date. The Limit Day is set to the system date. • GTC: The order is valid for an indefinite time. The Limit Date is not displayed. • Closing: The order is valid until the Limit Date. The Limit Date is set to the system date. • Opening: The order is valid until the Limit Date. The Limit Date is set to the system date plus one business day. The Validity Types are applicable for all Limit Types.
Trade Instruction	Used to store any trading remark while placing an order.
Account (External) / Account for Fees & Taxes (Internal)	Based on the instrument in the Instrument field, this field will automatically display the cash account linked to the client's portfolio.
Order Initiator* (in Additional Details section)	Choose one of the following radio buttons: • Bank: Order is mandated by the Bank • Client: Order is initiated by the client
Contact Date* (in Additional Details section)	If you selected Client in the Order Initiator field, the contact date is displayed. The system date is the default date. You cannot enter a future date.
Contacted By* (in Additional Details section)	From the drop-down list, select one of the following to indicate the communication party types: • Account Holder (default) • Attorney • Beneficial Owner • Other • Signatory • Third Party Manager
Contact Method* (in Additional Details section)	From the drop-down list, select one of the following to indicate how the client has contacted the bank: • Email • Facsimile • Internet (default) • Letter Post • Meeting • Other • Telephone
Client Instruction	Used to store any instruction remark while placing an order

Field	Description
Dividend Payment Option	If the instrument in the Instrument field is identified to pay dividends, the Dividend Payment Option field is displayed when you click the  icon of the instrument (see next step). From the drop-down list, select one of the following to indicate how the client wants to handle dividends: • Cash Payout • Dividend Reinvestment

*The Additional Details section is displayed only for an RM User login and not Client User login.

- (Optional) Do one or more of the following:
 - To delete an order, click the  icon next to the order that you want to delete.
 - To edit an order, click the  icon next to the order that you want to edit. The **Switch Order – Switch Order Definition** page is displayed with prefilled information of the selected order. You can only update certain fields such as **Target Nature**, **Target Objective**, **Account (External)/ Account for Fees & Taxes (Internal)**, and **Dividend Payment Option** (if the instrument is identified to pay dividends) The values in other fields might change based on the new values. Click **Save** to save your changes or click **Back** if you do not want to make any changes.

Alternatively, you can access the **Place a Derivatives Order - Order** page from:

- Any list of positions (see section [Buying or selling quantities of an instrument](#)).
- Your watchlist (see section [Placing buy orders for instruments on the watchlist \(for Client Users only\)](#)).

In these cases, the fields **Buy/Sell**, **Portfolio** and **Instrument** fields are prefilled.

2. Complete the following fields (mandatory fields are marked with an asterisk):

Field	Description
Nature	Click Buy or Sell . The corresponding label "buy to open" and "sell to open" will appear beneath the buy or sell toggle icon.
Portfolio	From the drop-down list, select the desired portfolio. By default, the first option in the drop-down list is selected. Note: Discretionary, Robo-Advisor, and Goal-based portfolios are not available in the drop-down list.
Instrument	The options to complete the Instrument field are: • Type some text in the field and select the desired instrument that is displayed via the drop-down list (see section Quick result proposal). • Type some text in the field and click the  icon. Then, search and select the desired instrument using the Advanced search feature. After the instrument is selected, the market price of the instrument is displayed in the Last Quote field. Click the  icon next to the instrument name to look up the other attributes like contract size, expiration date and option class

Field	Description
Target Nature	The derivatives order will be placed by Quantity.
Quantity	Enter the desired quantity to buy or sell in the Quantity field. This field accepts numerical values only. The Indicative Gross Amount, Indicative Fees and Taxes, and Indicative Net Amount fields automatically display the calculated amount based on the quantity entered. Indicative Fees and Taxes show the estimated fees and taxes fetched from the back-office. The value in the field changes when modifying the Instrument, Quantity, Limit Quote, and Contact Method fields.
Account for Fees and Taxes	Based on the instrument in the Instrument field, this field will automatically display the cash account linked to the client's portfolio. This cash account is used to manage the fees and taxes. This field is applicable for futures orders.
Account	Based on the instrument in the Instrument field, this field will automatically display the cash account linked to the client's portfolio. This field is applicable for options orders.
Limit Type	From the drop-down list, select the order type to use for the order. The options are: • Market (default): The order will be executed at the best price that is currently available. • Limit: The order that sets the maximum or minimum at which the user is willing to buy or sell. You must also complete the Limit Date field and the Limit Quote field for this type of order. • Stop: The order to buy or sell becomes active only after a specified price level has been reached (the "stop price"). You must also complete the Limit Date field and the Stop Quote field for this type of order. • Stop Limit: This order type is similar to stop-loss order, but as the name suggests, there is a limit on the price at which the order will execute. There are two prices specified in a stop-limit order; the stop quote that will convert the order to a sell order, and the limit quote. Instead of the order becoming a market order to sell, the sell order becomes a limit order that will only execute at the limit price or better. You must also complete the Limit Date field, Limit Quote field, and Stop Quote field for this type of order.
Negotiation	From the drop-down list, select the Negotiation commission type: • No (default): The bank commission remains the same. • In Amount: You choose to enter the negotiated commission amount. Whichever commission type you choose, the value in the Standard field includes the bank's commission and its representation as a percentage of the operation gross amount.
Negotiated Commission (Percent)	If you selected In Percent in the Negotiation field, enter the desired commission percentage that you want to apply. This percentage is applied on the operation gross amount.
Negotiated Commission (Amount)	If you selected In Amount in the Negotiation field, enter the desired commission amount.

Field	Description
Validity Type	From the drop-down list, select the Validity Type to use for the order. The options are: • None (default): The order is valid for an indefinite time. The Limit Date is not displayed. • Day Order: The order is valid until the Limit Date. The Limit Day is set to the system date. • GTC: The order is valid for an indefinite time. The Limit Date is not displayed. • Closing: The order is valid until the Limit Date. The Limit Date is set to the system date. • Opening: The order is valid until the Limit Date. The Limit Date is set to the system date plus one business day. The Validity Types are applicable for all Limit Types.
Trade Instruction	Used to store any trading remarks while placing an order.
Order Initiator	Choose one of the following radio buttons: • Bank : Order is mandated by the Bank • Client : Order is initiated by the client
Contact Date	If you selected Client in the Order Initiator field, the contact date is displayed. The system date is the default date. You cannot enter a future date.
Contacted By	From the drop-down list, select one of the following to indicate the communication party types: • Account Holder (default) • Attorney • Beneficial Owner • Other • Signatory • Third Party Manager
Contact Method	From the drop-down list, select one of the following to indicate the mode of contact between client and bank: • Email • Facsimile • Internet (default) • Letter Post • Meeting • Other • Telephone

3. (Optional) The **Indicative Fees & Taxes** field displays the estimated fees and taxes fetched from the back office. Fees and taxes will be different if values are changed in the following fields: **Instrument**, **Quantity**, **Gross Amount**, **Net Amount**, **Limit Quote**, **Stop Quote**, and **Contact Method**. To view the breakdown of fees and taxes, click the  icon next to **Indicative Fees & Taxes** field.
Note: If the application cannot provide a fees and taxes breakdown, a warning message is displayed to caution that the user can still proceed with the order entry without the fees and taxes information.
4. (Optional) Do one of the following:

- Click **Reset** to restart the order from scratch.
 - Click **Cancel** to cancel the order. The **Order Cancel** pop-up is displayed asking you to confirm the action. Click **Yes** to cancel the order or **No** to go back to your order.
5. Click **Check** to go to the next step – the Check & Review step – of the process.
- The application performs a pre-trade compliance check and the **Place a Derivatives Order - Confirmation** page is displayed. This page is similar to the pre-trade compliance check page shown when placing new orders on the Securities Order page (see section [Placing a single order](#)).
6. On the **Place a Derivatives Order - Confirmation** page, do one of the following:
- Click **Cancel** to cancel the order.
 - Click **Modify** to go back to the previous page. The **Place a Derivatives Order – Order** page is displayed.
 - Click **Save** after all information in the tabs are checked and the necessary actions, if any, are taken. The changes are saved and the **Place a Derivatives Order - Confirmation** page is displayed.
7. On the **Place a Derivatives Order - Confirmation** page, do one of the following:

Field	Description
Buy/Sell	Click Buy or Sell . In the field below Buy/Sell , choose the relevant forex order type from the drop-down list.
Portfolio	From the drop-down list, select the desired portfolio. By default, the first option in the drop-down list is selected. Note: Discretionary, Robo-Advisor, and Goal-based portfolios are not available in the drop-down list.
Buy Or Sell (in the Order section)	- If buy was chosen in the first section on the page, this field label will be displayed as Buy. Else it will be displayed as Sell. - From the drop-down list, choose the currency and amount that will be to be bought or sold. The field to enter the amount accepts numerical values only.
Sell Or Buy (in the Order section)	- If buy was chosen in the first section on the page, this field label will be displayed as Sell. Else, it will be displayed as Buy. - From the drop-down list, choose the currency and amount that will be to be bought or sold. The field to enter the amount accepts numerical values only.

Field	Description
Credit Account/ Debit Account	- If Buy was chosen in the first section on the page, this field label will be displayed as Credit Account. Else, it will be displayed as Debit Account. - From the drop-down list, choose the cash accounts, which needs to be debited/credited for the order.
Debit Account/Credit Account	- If buy is chosen in the toggle icon, this field label will be displayed as Debit Account, Else it will be displayed as Credit Account. - From the drop-down list, choose the cash account that will be debited/credited for the order.
Value Date	The field will be populated with the default date. However, you can change the date by clicking on the calendar icon.
Contract Length (applicable only for forex forward orders)	Enter a numerical value that represents the number of days/weeks/months for which you want the forex forward contract to be valid. Then, choose month (s), weeks(s), or day(s) from the drop-down list,.
Expiration Date (applicable for forex forward orders)	The date will be populated based on the contract length chosen. The application calculates the date from the system date to the contract length specified in the above field.
Additional Details	The Additional Details sections will only be displayed for an RM User login and not on Client User login.
Order Initiator	Choose one of the following radio buttons: Bank: Order is mandated by the Bank Client: Order is initiated by the client
Contact Date	If you selected Client in the Order Initiator field, the contact date is displayed. The system date is the default date. You cannot enter a future date.
Contacted By	From the drop-down list, select one of the following to indicate the communication party types: - Account Holder (default) - Attorney - Beneficial Owner - Other - Signatory - Third Party Manager
Contact Method	From the drop-down list, select one of the following to indicate the mode of contact between client and bank: - Email - Facsimile - Internet (default) - Letter Post - Meeting - Other - Telephone

3. In the Rate section, based on the currencies chosen for buy and sell, the various fields are populated with relevant read-only values or are editable. The following table describe various

forex order types (e.g., Forex Spot Convention, Forex Spot Negotiation, etc.) and their available fields:

Field	Forex Spot Convention	Forex Spot Negotiation	Forex Forward Convention (D and ND)	Forex Forward Negotiation(D and ND)
Client Rate	Read-only field. It will include margin pips	Editable field. You can override the values.	Read-only field. It will include the margin pips	Editable field. You can override the values.
Multiply	From the drop-down, either choose multiply or divide. It will show the direct/indirect quote between the currencies chosen.			
Margin Pips	Read-only field. It will be fetched from the back office system	Editable field. You can override the values.	Read-only field. It will be fetched from the back office system	Editable field. You can override the values.
Market Rate	Read-only field. It will display the market exchange rate between the currencies chosen for buy or sell			
Margin Amount	This field will show the margin amount applicable for the order, based on the margin pips fetched /overridden.			

Notes:

- If the application cannot fetch a value from back office, a warning message is displayed to caution that the user can still proceed with the order entry without the margin pips information.
 - If the right currency pair is not set for a forex forward order, an error message is displayed to request that you choose the right currency pair.
 - If the same currency is set for both buy and sell sides of the order, an error message is displayed to request that you choose a different currency.
4. (Optional) Do one of the following:
- Click **Reset** to restart the order from scratch.
 - Click **Cancel** to cancel the order. The **Order Cancel** pop-up is displayed asking you to confirm the action. Click **Yes** to cancel the order or **No** to go back to your order.
5. Click **Check** to go to the next step – the Check & Review step – of the process.
- The application performs a pre-trade compliance check and the **Place a Forex Order – Check & Review** page is displayed. This page is similar to the pre-trade compliance check page shown when placing new orders on the Securities Order page (see section [Placing a single order](#)).
6. On the **Place a Forex Order - Check & Review** page, do one of the following:
- Click **Cancel** to cancel the subscription.
 - Click **Modify** to go back to the previous page. The **Place a Forex Order - Order** page is displayed.
 - Click **Save** after all information in the tabs are checked and the necessary actions, if any, are taken. The changes are saved and the **Place a Forex Order - Confirmation** page is displayed.
7. On the **Place a Forex Order - Confirmation** page, do one of the following:

- To create another order, click **Place Another Order**.
- To view pending orders, click **View Order Blotter**.

2. Complete the following fields (mandatory fields are marked with an asterisk):

Field	Description
BIC	Enter the BIC of the external bank.
Reference Bank	- Type some text in the field and select the desired external bank that is displayed on the drop-down list. - Type some text in the field and click the icon. Then, search and select the desired external bank using the Advanced search feature.
External Bank Name	Enter the name of the external bank
Account Owner *	Enter the name of the account owner at the external bank
IBAN / External Securities Acct. *	Enter the account number at the external bank
Portfolio *	From the drop-down list, select the desired portfolio. By default, the first option in the drop-down list is selected.
Instrument *	The options to complete the Instrument field are: - Type some text in the field and select the desired instrument that is displayed via the drop-down list (see section Quick result proposal). - Type some text in the field and click the  icon. Then, search and select the desired instrument using the Advanced search feature.

Field	Description
	After the instrument is selected, the market price of the instrument is displayed in the Last Quote field.
Quantity *	Enter the desired quantity to transfer from the external bank. This field accepts numerical values only.
Deposit *	Based on the instrument in the Instrument field, this field will automatically display the main deposit linked to it.
Account for fees & Taxes *	Based on the instrument in the Instrument field, this field will automatically display the cash account linked to the client's portfolio.
Order Initiator *	Choose one of the following radio buttons: - Bank : Order is mandated by the Bank - Client : Order is initiated by the client
Contact Date *	If you selected Client in the Order Initiator field, the contact date is displayed. The system date is the default date. You cannot enter a future date.
Contacted By *	From the drop-down list, select one of the following to indicate the communication party types: - Account Holder (default) - Attorney - Beneficial Owner - Other - Signatory - Third Party Manager
Contact Method *	From the drop-down list, select one of the following to indicate how the client has contacted the bank: - Email - Facsimile - Internet (default) - Letter Post - Meeting - Other - Telephone
Client Instruction	Used to store any instructions from the client while placing an order.

3. (Optional) The **Indicative Fees & Taxes** field displays the estimated fees and taxes fetched from the back office. Fees and taxes will be different if values are changed in the following fields: **Instrument** and **Quantity**. To view the breakdown of fees and taxes, click the  icon next to **Indicative Fees & Taxes** field.

Note: If the application cannot provide a fees and taxes breakdown, a warning message is displayed to caution that the user can still proceed with the transfer entry without the fees and taxes information.

4. (Optional) Do one of the following:
- Click **Cancel** to cancel the transfer. The Transfer Cancel pop-up is displayed asking you to confirm the action. Click **Yes** to cancel the transfer or **No** to go back to your transfer.

5. Click **Next**.
6. The application performs a pre-trade compliance check and any errors will be displayed at the top of the page.

If there are error messages, click **Previous** to modify the transfer details or **Cancel** to cancel the transfer. The application will not allow you to continue with transfer that contain error messages.

If there are no error messages, the results of the pre-trade compliance check are displayed on the **Check & Review page**, which contains the following: Debit and Credit cards, **Transfer** panel and **Case Clarification**.

7. In the Debit and Credit cards, **Transfer** panel the details are displayed in view only mode as entered in the previous step **Transfer**.
8. The **Case Clarification** section on the page provides information about all objectives, constraints, and controls that have been violated. These are sorted by criticality:

For users with a Relationship Manager role only:

3. In the **Case Clarification** section, either check the individual checkboxes of the cases that you want to clarify or check the **Select All** checkbox to clarify all cases on the list at the same time.
4. Click **Clarify** to display a pop-up that allows you to enter a reason for the clarification.

5. Click **Save** and the cases are checked with their related clarification.
6. After all required cases are clarified, Click **Confirm** to proceed to the next step **Confirmation** of the creation process.

For users with a Client role only:

1. In the **Case Clarification** section, check the single confirmation checkbox.
2. Click **Confirm** to proceed to the next step Confirmation of the creation process.
3. On click of **Confirm** the transfer is saved and displayed in view mode on the **Assets Transfer In - Confirmation** page.
4. From this page, you can **Place Another Transfer** or view the list of **Pending Transfers** (see section [Viewing pending transfers](#)).

16. (Optional) The **Indicative Fees & Taxes field** displays the estimated fees and taxes fetched from the back office. Fees and taxes will be different if values are changed in the following field **Quantity to transfer**. To view the breakdown of fees and taxes, click the  icon next to **Indicative Fees & Taxes field**.

Note: If the application cannot provide a fees and taxes breakdown, a warning message is displayed to caution that the user can still proceed with the transfer entry without the fees and taxes information.

17. The **Case Clarification** section on the page provides information about all objectives, constraints, and controls that have been violated. These are sorted by criticality:

For users with a Relationship Manager role only:

1. In the **Case Clarification** section, either check the individual checkboxes of the cases that you want to clarify or check the **Select All** checkbox to clarify all cases on the list at the same time.
2. Click **Clarify** to display a pop-up that allows you to enter a reason for the clarification.

3. Click **Save** and the cases are checked with their related clarification.
4. After all required cases are clarified, Click **Confirm** to proceed to the next step **Confirmation** of the creation process.

For users with a Client role only:

1. In the **Case Clarification** section, check the single confirmation checkbox.
2. Click **Confirm** to proceed to the next step Confirmation of the creation process.
2. On click of **Confirm** the transfer is saved and displayed in view mode on the **Assets Transfer Out - Confirmation page**.

From this page, you can **Place Another Transfer** or view the list of **Pending Transfers** (see section [Viewing pending transfers](#)).

For users with a Client role only:

1. In the **Case Clarification** section, check the single confirmation checkbox.
 6. Click **Confirm** to proceed to the next step Confirmation of the creation process.
2. On click of **Confirm** the transfer is saved and displayed in view mode on the **Initiate Cash Transfer - Confirmation page**.

From this page, you can **Place Another Transfer** or view the list of **Pending Transfers** (see section [Viewing pending transfers](#)).

13.23 Allocating block orders

To allocate a block order into several portfolio orders:

1. From the menu bar, go to **Portfolios > Global Order Allocation**.

Note: As no manual order creation is permitted for Discretionary, Robo-Advisor, and Goal-based portfolios, this sub-menu menu is not displayed for these portfolios.

The **Create Global Buy Order - Global Order Definition** page is displayed.

Create Global Buy Order

GLOBAL ORDER DEFINITION	ORDER ALLOCATION	CHECK & REVIEW	CONFIRMATION
Allocation Mode *	☐ Manual ☐ Semi-automatic ☒ Automatic		
Allocation Method *	Pro Rata of Market Value ▼		
Portfolio Group *	Basket ▼		
Instrument *	T_AI_EUR_12040 X Q Accor		
Last Quote	44.37 EUR		
Quantity *	10,000.00		
Order Amount	443,700.00 EUR		
CANCEL		NEXT >	

2. Complete the **Allocation Mode** field by selecting one of the following options:
 - **Manual**: With this mode, you will need to allocate the block order by manually entering portfolio orders one by one.
 - **Semi-automatic**: With this mode, the system automatically allocates the block order by creating one portfolio order for each portfolio contained in the portfolio group selected; you only have to enter the order quantities.
 - **Automatic**: With this mode, the system automatically allocates the block order by creating one portfolio order for each portfolio contained in the portfolio group selected. The system sets the quantity based on the allocation method selected.
3. If you chose **Automatic** in the **Allocation Mode** field, you must complete the **Allocation Method** field by selecting one of the following options:
 - **Pro Rata of Market Value**: The system allocates the global order based on the market value of each portfolio.
 - **Pro Rata Quantity**: The system allocates the global order based on the total quantity held of each portfolio.
 - **Equal percentage**: The system allocates the global order with an equal percentage of the initial quantity to each portfolio so that everyone receives the same quantity of security.
4. If you chose **Semi-automatic** or **Automatic** in the **Allocation Mode** field, you must complete the **Portfolio Group** field by selecting one of your portfolio groups or your portfolio basket for the global order allocation.
5. In the **Instrument** and **Quantity** fields, enter the global order instrument and quantity.
6. Do one of the following:
 - To complete the **Negotiation** and **Negotiated Commission** fields, click the  icon of the portfolio.
 - To cancel the order allocation, click **Cancel**. The **Orders Cancel** pop-up is displayed asking you to confirm the action. Click **Yes** to cancel all orders or **No** to go back to the **Create Global Buy Order - Global Order Definition** page.
 - Click **Next** to go to the next step of the process.

The **Create Global Buy Order - Order Allocation** page is displayed.

CANCEL < PREVIOUS NEXT >

The content on the **Create Global Buy Order - Order Allocation** page varies depending on the allocation mode selected on the previous page:

- If you had selected Manual mode, the list of portfolio orders is empty and you must add portfolio orders one by one to finalize the allocation.
- If you had selected Semi-automatic mode, the list of portfolio orders is automatically generated with quantity set to 0; you need to change the quantities to finalize the allocation.
- If you had selected Automatic mode: the list of portfolio orders is automatically generated with proposed quantities; the allocation is finalized.

7. (Optional) Do one of the following:

- To update the global order instructions, modify the **Limit Type**, **Limit Date**, **Limit Quote** or **Stop Quote** fields.
- To update existing orders, modify the **Portfolio Code**, **Quantity** or **Cash Account** fields in the Order Allocation list found in the Order Allocation section.
- To add a portfolio order to the current Order Allocation list, click **Add New Order**. A new empty order is added to the end of the list. Then, complete its **Portfolio Code**, **Quantity**, and **Cash Account** fields.
- To delete an order from the Order Allocation list, click the icon next to the order that you want to delete.

8. When you are finished with your allocation, you can do one of the following:

- Click **Cancel** to cancel the order allocation. The **Orders Cancel** pop-up is displayed asking you to confirm the action. Click **Yes** to cancel all orders or **No**.

- Click **Previous** to go back to the previous page. The **Previous** pop-up is displayed asking you to confirm the action. Click **Yes** to cancel the current allocation or **No**.
 - Click **Next** to go to the next step of the process. The application performs a pre-trade compliance check and the **Create Global Buy Order - Compliance** page is displayed. This page is similar to the pre-trade compliance check when placing new orders on the **Place Order** page (see section [Placing a single order](#)).
9. On the **Create Global Buy Order - Compliance** page, you can do one of the following:
- Click **Cancel** to cancel the creation of orders.
 - Click **Previous** to go back to the previous page. The **Create Global Buy Order - Order Allocation** page is displayed.
 - Click **Save** after all information in the tabs are checked and the necessary actions, if any, are taken. The orders are saved and the **Create Global Buy Order - Confirmation** page is displayed with a list of created orders. From this page, you can create a new Global Buy order by clicking **New Global Order**.

13.24 Allocating orders

To allocate an order based on various allocation rules:

1. From the menu bar, go to **Portfolios > Allocate Order**.

Note: As no manual order creation is permitted for Discretionary, Robo-Advisor, and Goal-based portfolios, this sub-menu menu is not displayed for these portfolios.

The **Allocate Order - Order Allocation** page is displayed.

Allocate Order

Nature * Buy ▾

Minimum Order Amount - Please Select ▾

Order Grouping ☐

Minimum Order Percent %

Allocation Rule(s) ADD NEW RULE

Instrument *	Instrument Denomination	Last Quote	Quantity *

2. Complete the **Allocation Method** field by selecting one of the following options:
- **Instrument Order Quantity:** With this method, you will need to define at least one allocation rule by choosing the instrument and the order quantity. The system automatically allocates the order, based on the allocation rule, by creating orders of the quantity specified for a portfolio set in context or for each portfolio contained in the portfolio group/basket selected.
 - **Instrument Resulting Quantity:** With this method, you will need to define at least one allocation rule by choosing the instrument and the resulting quantity. The system automatically allocates the order, based on the allocation rule, by creating orders that would result in the quantity specified (based on the existing positions held in the specified instrument) for the portfolio set in the context or for each portfolio contained in the portfolio group/basket selected.
 - **Instrument Order % of Portfolio:** With this method, you will need to define at least one allocation rule by choosing the instrument, objective %, and margin % (optional). The system automatically allocates the order, based on the objective % defined, by creating orders that would equal the objective % of the portfolio market value, for the portfolio set in the context or for each portfolio contained in the portfolio group/basket selected.
 - **Instrument Resulting % of Portfolio:** With this method, you will need to define at least one allocation rule by choosing the instrument, objective %, and margin %. The system automatically allocates the order, based on the allocation rule, by creating orders that would result in the objective % specified (based on the existing positions held in the specified instrument) for the portfolio set in the context or for each portfolio contained in the portfolio group/basket selected.
 - **Combined Sell/Buy:** With this method, you will need to define at least two allocation rules for two different instruments: one with nature buy and another with nature sell. For a buy, the allocation rule needs to be defined with objective %. Based on the % specified in the allocation rule as well as the existing position held in the instrument specified for a sell, the system creates the buy and the sell orders for the portfolio set in context or for each portfolio contained in the portfolio group/basket selected.

- **Switch Instr:** With this method, you will need to define at least two allocation rules for two different instruments: one with nature buy and another with nature sell. For a buy, the allocation rule needs to be defined with objective %. Based on the % specified in the allocation rule as well as the existing position held in the instrument specified for a sell, the system creates the buy and the sell orders for the portfolio set in context or for each portfolio contained in the portfolio group/basket selected.
3. If you chose **Instrument Order Quantity** or **Instrument Order % of Portfolio** in the **Allocation Method** field, you must complete the **Nature** field by selecting either buy or sell. For other allocation methods, the **Nature** field will be read-only.
 4. (Optional) Check the **Order Grouping** checkbox. Also, complete the **Minimum Order Amount**, **Currency**, and **Minimum Order Percent** fields.
 5. In the **Allocation Rule(s)** section, do one or more of the following:
 - Complete the **Instrument** field. Then, based on the allocation method chosen, the remaining fields displayed will differ and might be shown pre-populated. If required, complete the fields that are not pre-populated. Mandatory fields are marked with an asterisk.
 - To add a new allocation rule, click **Add New Rule**.
 - To delete an allocation rule, click the  icon next to the rule that you want to delete.
 - To edit an allocation rule, click the  icon next to the rule that you want to edit. The **Allocate Order - Allocation Rule Details** page is displayed, where you can update the details of the allocation rule such as **Limit Type**, **Limit Quote**, **Limit Date**, and **Stop Quote** fields. Note that the default value is **Market** in the **Limit Type** field and will remain as **Market** if you proceed to the next step (List of Orders step) of the allocate order process without editing the field. You can click **Reset** to clear the fields of the values that you entered. Otherwise, click **Save** to save your changes or click **Back** if you do not want to make any changes. Clicking either button will display the **Allocate Order - Order Allocation** page.

13.27 Viewing orders

The **Order blotter** sub-menu is an option under **Orders** in the **Portfolios** menu that lets you view pending (open, executed, unexecuted) and non-pending (cancelled, expired, rejected) orders. You have the option to submit a request to cancel or to update an order from here. You also have the option to view only the pending orders or all the orders in this page.

Note: As no manual order creation is permitted for Discretionary, Robo-Advisor, and Goal-based portfolios, this sub-menu is not displayed for these portfolios.

To view pending orders or all orders:

1. From the menu bar, go to **Portfolios > Order Blotter**.

The **Order Blotter** page is displayed. The **Securities** tab is displayed by default and the pending toggle button is selected by default with a list of all open, unexecuted and executed single orders (e.g., securities, derivatives).

To transfer some assets:

- From the menu bar, go to **Portfolios > Transfers > Assets Transfer**.
- Select the portfolio to which the assets will be transferred.
- Select some quantities to transfer or click **Transfer All**.
- For users with a Relationship Manager role only: Enter additional details.
- Click **Next**.

The application proceeds to the next steps of the process displaying the transfer orders based in the selected quantities. If there are cases to clarify, a warning message is displayed and the application provides information about objectives, constraints, and controls that have been violated. The cases are sorted by criticality:

CONFIRM

For users with a Relationship Manager role only:

- In the Case Summary section, either check the individual checkboxes of the cases that you want to clarify or check the **Select All** checkbox to clarify all cases on the list at the same time.

15. Click **Clarify**.
A pop-up is displayed for you to enter a reason for the clarification.
16. Enter the clarification and click **Save**.
The cases are checked with their related clarification.
17. After all required cases are clarified click **Confirm**.

For users with a Client role only:

18. In the Case Summary section, check the single confirmation checkbox.
19. Click **Confirm**.

The system publishes the transfer orders and display a confirmation page.

13.29 Managing cash withdrawals

The **Cash Withdrawal** menu entry, which lets you request cash withdrawals as well as monitor pending requests, is an option under **Transfers** in the **Portfolios** menu. This feature is only for portfolios that have service type Robo-Advisor or Goal-based as it is meant to sell enough assets to free up the needed amount to withdraw in a fully automated process. For other type of portfolios, the **Cash Transfer** feature must be used.

8. After all required cases are clarified click **Confirm**.

For users with a Client role only:

9. In the Case Summary section, check the single confirmation checkbox.
10. Click **Confirm**.

The system processes the withdrawal request. Note that the requested amount might not be immediately available for withdrawal, as some securities might need to be sold to meet the requested amount before the cash transfer is processed.

13.29.1.1 Issues that might delay or block the withdrawal request

The following is a non-exhaustive list of issues that might the withdrawal request:

- You have asked for an amount that is below the minimum authorised.
- You have asked for an amount that is greater than the asset value of the portfolio, including violating the minimum, required cash holdings (as a percentage) in the portfolio or the minimum amount to keep in the portfolio.
- The system has raised critical cases that prevent some assets to be sold.
- The system has not been able to free up enough cash to cover the requested amount.
- Some orders are blocked by the back-office.

13.29.2 Monitoring pending requests

We currently allow only one request at a time for the same portfolio (cash withdrawal and portfolio liquidation). If such request exists for the selected portfolio, you can monitor the request progress using the same menu entry:

Withdrawal			
A withdrawal request is already in progress.			
Date	Amount	Transfer Account	Status
15/03/2019	10,000.00 EUR	100124-01_EUR	Pending (Orders sent to market)

To monitor a pending request, go to **Portfolios > Transfers > Cash Withdrawal** from the menu bar.

13.30 Managing portfolio liquidation (Portfolio closure)

The **Portfolio Liquidation** menu entry, which lets you request the full liquidation of your portfolios as well as monitor pending requests, is an option under **Transfers** in the **Portfolios** menu. This feature is available for all kind of portfolios. However, portfolios that have service type Execution-Only requires the manual selling or transfer of all assets before initiating the liquidation.

Portfolio Liquidation	
☒ Sell All ☐ Transfer All	
Credit Account *	- Please Select ▼
CANCEL	CONFIRM

In the following sections, you will learn about:

- [Selling all positions](#)
- [Transferring all positions](#)

- [Monitoring pending requests](#)

13.30.1 Selling all positions

To liquidate your portfolio selling all positions:

1. From the menu bar, go to **Portfolios > Transfers > Portfolio Liquidation**.
11. Select the **Sell All** option.
12. Select the cash account to which the money will be transferred.
13. Click **Confirm**.

The system processes the withdrawal request, sells all securities, and invalidates any portfolio objectives or constraints. Note that it will take time to liquidate all securities. The cash transfer is processed only after all securities are effectively sold. At the end of the process, your portfolio and its related cash accounts will be closed, implying that they will no more be displayed in the Channels application.

13.30.2 Transferring all positions

To liquidate your portfolio transferring all positions:

1. From the menu bar, go to **Portfolios > Transfers > Portfolio Liquidation**.
2. Select the **Transfer All** option.
3. Select the portfolio to which the assets will be transferred.
4. Select the cash account to which the money will be transferred.
5. Click **Confirm**.

The system processes the withdrawal request, transferring all securities, and invalidates any portfolio objectives or constraints. Note that it will take time to transfer all securities. The cash transfer is processed only after all securities are effectively transferred. At the end of the process, your portfolio and its related cash accounts will be closed, implying that they will no more be displayed in the Channels application.

13.30.3 Monitoring pending requests

We currently allow only one request at a time for the same portfolio (cash withdrawal and portfolio liquidation). If such request exists for the selected portfolio, you can monitor the request progress using the same menu entry:

Withdrawal			
A withdrawal request is already in progress.			
Date	Amount	Transfer Account	Status
15/03/2019	10,000.00 EUR	100124-01_EUR	Pending (Orders sent to market)

To monitor a pending request, go to **Portfolios > Transfers > Cash Withdrawal** from the menu bar.

13.31 Viewing pending transfers

The **Pending Transfers** of **Transfers** sub-menu is an option under the **Portfolios** menu for Discretionary, Advisory, Execution, Robo-Advisor and Goal-based portfolios that lets you view all open, executed and unexecuted transfers. You have the option to submit a request to cancel a transfer from here.

To view an open, executed and unexecuted transfers:

1. From the menu bar, go to **Portfolios > Transfers**.
2. The **Pending Transfers** page is displayed. The **Securities Transfers** tab is shown by default with a list of all open, executed and unexecuted single transfers placed **Today**.

13.32 Cancelling pending orders

This section describes the following types of pending orders that you can cancel:

- [Cancelling pending single orders](#)
- [Cancelling pending fund orders](#)
- [Cancelling pending IPO Subscription orders](#)
- [Cancelling pending PE subscriptions](#)

13.32.1 Cancelling pending single orders

Cancellation is permitted as long as the order was not executed.

This section describes:

- [Cancelling pending single orders](#)
- [Cancelling pending parent orders](#)

13.32.1.1 Cancelling pending single orders

To cancel pending single orders:

1. From the **Order Blotter** page, select the **Single Orders** tab. For information about this page, see section [Viewing orders](#).
2. (Optional) If a ➤ icon is displayed for the order, you can click on the icon to view details of the order before cancelling it.
3. (Optional). You can select which columns will be displayed by using the column selector ☰ icon. (For more information, see section [Column Selection](#)).
4. To cancel one or more orders at a time, place a checkmark next to the orders that you want to cancel. If you want to cancel all orders that are shown on the page, place one checkmark in the checkbox of the column list header.

The screenshot shows the 'Single Orders' tab selected. The table contains the following data:

Order Code	Instrument	Nature	Status	Quantity	Net Amount	Instrument Name
☒ ITCIB_P1014	T_AI_CHF_UBSN	Buy	Sent	10.00	877.45	UBS SA
☐ ITCIB_P1013	T_AI_CHF_UBSN	Buy	Sent Insert Request Sent	10.00	877.45	UBS SA
☒ ITCIB_P1001	800000-008	Buy	To Send	10.00	83.80	ADMIRALGP
☐ TCIB_PTF11_91	T_AI_USD_MCD	Buy	To Validate	1,000.00	30,294.72	MCDONALD'S CORP
☒ TCIB_PTF11_90	T_AI_USD_MCD	Buy	To Send	1,000.00	30,294.72	MCDONALD'S CORP

5. Click **Cancel Orders**.
The **Cancel Order** pop-up is displayed asking you to confirm the action.
6. Do one of the following:
 - To cancel the selected orders, click **Yes**. The list of pending orders is refreshed.
 - To return to the list of pending orders without confirming the cancellation, click **No**.

After submitting the cancellation request, these orders will have one of the following statuses:

- **Cancelled:** The order was never sent to the Order Management System (OMS) and has been successfully cancelled. The pending order is successfully cancelled and is no longer displayed in **Order Blotter** page when the **Pending** toggle button is selected. But when the **All** toggle button is selected, you can view the cancelled order.
- **Request Accepted.** The OMS has acknowledged receiving the cancellation order. The pending order is no longer displayed in **Order Blotter** page when the **Pending** toggle button is selected. But when the **All** toggle button is selected, you can view the cancelled order.
- **Cancel Request Error or Cancel Request Rejected:** The order was already executed by the OMS and can no longer be cancelled. The order remains on the list of pending orders with the new status.

The **Cancel Order** pop-up is displayed asking you to confirm the action.

5. Do one of the following:
 - To cancel the selected pending order, click **Yes**. The list of pending orders is refreshed.
 - To return to the list of pending orders without confirming the cancellation, click **No**.

After submitting the cancellation request, these orders will have one of the following statuses:

- **Cancelled:** The order was never sent to the Order Management System (OMS) and has been successfully cancelled. The pending order is successfully cancelled and is no longer displayed in **Order Blotter** page when the **Pending** toggle button is selected. But when the **All** toggle button is selected, you can view the cancelled order.
- **Request Accepted.** The OMS has acknowledged receiving the cancellation order. The pending order is no longer displayed in **Order Blotter** page when the **Pending** toggle button is selected. But when the **All** toggle button is selected, you can view the cancelled order.
- **Cancel Request Error or Cancel Request Rejected:** The order was already executed by the OMS and can no longer be cancelled. The order remains on the list of pending orders with the new status.

13.32.2 Cancelling pending fund orders

Cancellation is permitted as long as the pending order has not yet been sent for processing.

This section describes:

- [Cancelling pending single fund orders](#)
- [Cancelling pending fund switch orders](#)

13.32.2.1 Cancelling pending single fund orders

To cancel pending fund orders:

1. From the **Order Blotter** page, select the **Single Orders** tab. For information about this page, see section [Viewing orders](#).
2. (Optional) If a ➤ icon is displayed for the order, you can click on the icon to view details of the order before cancelling it.
3. To cancel more than one single order at a time, place a checkmark next to the orders that you want to cancel. If you want to cancel all orders that are shown on the page, place one checkmark in the checkbox of the column list header.
4. Click **Cancel Orders**.

The **Cancel Order** pop-up is displayed asking you to confirm the action.

5. Do one of the following:
 - To cancel the selected orders, click **Yes**. The list of pending orders is refreshed.
 - To return to the list of pending orders without confirming the cancellation, click **No**.

After submitting the cancellation request, these orders will have status Cancelled, which indicates that the pending order has been successfully cancelled. It will no longer be displayed in **Order Blotter** page when the **Pending** toggle button is selected. But when the **All** toggle button is selected, you can view the cancelled order.

13.32.2.2 Cancelling pending fund switch orders

To cancel pending fund switch orders:

1. From the **Order Blotter** page, select the **Switch Orders** tab. For information about this page, see section [Viewing orders](#).

2. Do one of the following:
 - If you want to view the details of a fund switch order before cancelling it, click on the **>** icon of the desired order that has a value populated in the Switch Order Code column. The **Order Details** page is displayed where you have the option to cancel one or more individual legs of the entire fund switch order.
 - To cancel more than one single fund switch order at a time, place a checkmark next to the orders that have a value populated in the Switch Order Code column. All checkboxes of the individual legs of a checked fund switch order are selected automatically. If you want to cancel all orders that are shown on the page, place one checkmark in the checkbox of the column list header.
3. Click **Cancel Orders**.
The **Cancel Order** pop-up is displayed asking you to confirm the action.
4. Do one of the following:
 - To cancel the selected orders, click **Yes**. The list of pending orders is refreshed.
 - To return to the list of pending orders without confirming the cancellation, click **No**.

After submitting the cancellation request, these orders will have status Cancelled, which indicates that the pending order has been successfully cancelled. It will no longer be displayed in **Order Blotter** page when the **Pending** toggle button is selected. But when the **All** toggle button is selected, you can view the cancelled order.

13.32.3 Cancelling pending IPO Subscription orders

Cancellation is permitted as long as the pending order has not yet been sent for processing.

13.32.3.1 Cancelling pending IPO subscriptions

To cancel pending IPO Subscription orders:

5. 1. From the Order **Blotter** page, select the **IPO Subscriptions** tab. For information about this page, see section [Viewing orders](#).
6. 2. (Optional) If a ➤ icon is displayed for the order, you can click on the icon to view details of the order before cancelling it.
7. 3. To cancel one or more orders at a time, place a checkmark next to the orders that you want to cancel. If you want to cancel all orders that are shown on the page, place one checkmark in the checkbox of the column list header.

- **Cancel Request Error or Cancel Request Rejected:** The order was already executed by the OMS and can no longer be cancelled. The order remains on the list of pending orders with the new status.

13.32.4 Cancelling pending PE subscriptions

To cancel pending PE subscriptions orders:

- d. From the **Order Blotter** page, select the **PE Subscriptions** tab. For information about this page, see section [Viewing orders](#).
- e. (Optional) If a ► icon is displayed for the order, you can click on the icon to view details of the order before cancelling it.
- f. To cancel one or more orders at a time, place a checkmark next to the orders that you want to cancel. If you want to cancel all orders that are shown on the page, place one checkmark in the checkbox of the column list header.
 8. Click **Cancel Orders**.
The **Cancel Order** pop-up is displayed asking you to confirm the action.
 9. Do one of the following:
 - To cancel the selected orders, click Yes. The list of pending orders is refreshed.
 - To return to the list of pending orders without confirming the cancellation, click No.

After submitting the cancellation request, these orders will have one of the following statuses:

- **Cancelled:** The order was never sent to the Order Management System (OMS) and has been successfully cancelled. The pending order is successfully cancelled and is no longer displayed in **Order Blotter** page when the **Pending** toggle button is selected. But when the **All** toggle button is selected, you can view the cancelled order.
- **Request Accepted:** The OMS has acknowledged receiving the cancellation order. The pending order is no longer displayed in **Order Blotter** page when the **Pending** toggle button is selected. But when the **All** toggle button is selected, you can view the cancelled order.
- **Cancel Request Error or Cancel Request Rejected:** The order was already executed by the OMS and can no longer be cancelled. The order remains on the list of pending orders with the new status.

13.33 Cancellling pending transfers

Cancellation is permitted as long as the pending transfer has been sent for execution processing.

To cancel pending transfers:

10. From the **Pending Transfers** page, view the Securities Transfers tab or **Cash Transfers** tab. For information about this page, see section [Viewing pending transfers](#).
11. (Optional) If a ► icon is displayed for the transfer, you can click on the ► icon to view details of the transfer before cancelling it.
12. To cancel one or more transfers at a time, place a checkmark next to the transfers that you want to cancel. If you want to cancel all transfers that are shown on the page, place one checkmark in the checkbox of the column list header.

13. Click **Cancel**.
14. The Cancel pop-up is displayed asking you to confirm the action.
15. Do one of the following:
 - To cancel the selected transfers, click **Yes**. The list of pending transfers is refreshed.
 - To return to the list of pending transfers without confirming the cancellation, click **No**.
16. After submitting the cancellation request, these transfers will have one of the following statuses.
 - **Cancelled:** The transfer was never sent or sent to the Back Office for processing and has been successfully cancelled. The pending transfer is successfully cancelled and is displayed on the **Pending Transfers** page.
 - **Request Accepted:** The Back Office has acknowledged receiving the cancellation transfer. The pending transfer is displayed on the **Pending Transfers** page.
 - **Cancel Request Error or Cancel Request Rejected:** The Back Office has rejected or the transfer cancellation has resulted in error. The transfer remains on the list of pending transfers.

13.34 Modifying pending orders

This section describes the following types of pending orders that you can modify:

- [Modifying pending single orders](#)
- [Modifying pending fund orders](#)
- [Modifying pending IPO Subscription orders](#)

- [Modifying pending PE Subscription orders](#)

13.34.1 Modifying pending single orders

Some orders cannot be modified such as those that have already been executed by Order Management System (OMS).

To modify pending single orders:

1. From the **Order Blotter** page, select the **Single Orders** tab. For information about this page, see section [Viewing orders](#).
2. Click the  icon of the order that you want to modify.
3. Make the desired updates in the relevant fields.
4. Click **Save**.

After submitting the modification request, these orders will have one of the following statuses:

- No change (in status): The order was never sent to the OMS and has been successfully modified. It remains on the Order **Blotter** page where you can click the icon to view the order's details.
- Request Accepted: The OMS has acknowledged receiving the modification order. It remains on the **Order Blotter** page where you can click the icon to view the order's details.
- Update Request Error or Update Request Rejected: The OMS has negatively acknowledged receiving the modification order. The order remains on the list of pending orders with no change in status.

The order can already executed by OMS and can no longer be modified.

13.34.4 Modifying pending PE Subscription orders

Modification is permitted as long as the pending PE Subscription order has not yet been sent for processing.

To modify pending PE Subscription orders:

13. 1. From the **Order Blotter** page, select the **PE Subscriptions** tab. For information about this page, see section [Viewing orders](#).
14. 2. Click the  icon of the order that you want to modify.
15. 3. Make the desired updates in the relevant field such as **Account**.
16. 4. Click **Save**.

After submitting the modification request, these orders will have one of the following statuses:

- No change (in status): The order was never sent to the OMS and has been successfully modified. It remains on the Order **Blotter** page where you can click the icon to view the order's details.
- Request Accepted: The OMS has acknowledged receiving the modification order. It remains on the **Order Blotter** page where you can click the icon to view the order's details.

- Update Request Error or Update Request Rejected: The OMS has negatively acknowledged receiving the modification order. The order remains on the list of pending orders with no change in status.

13.35 Managing Advisor or Robo-Advisor portfolios

This section provides information about features linked to the management of portfolios that are defined with service type Advisory or Robo-Advisor.

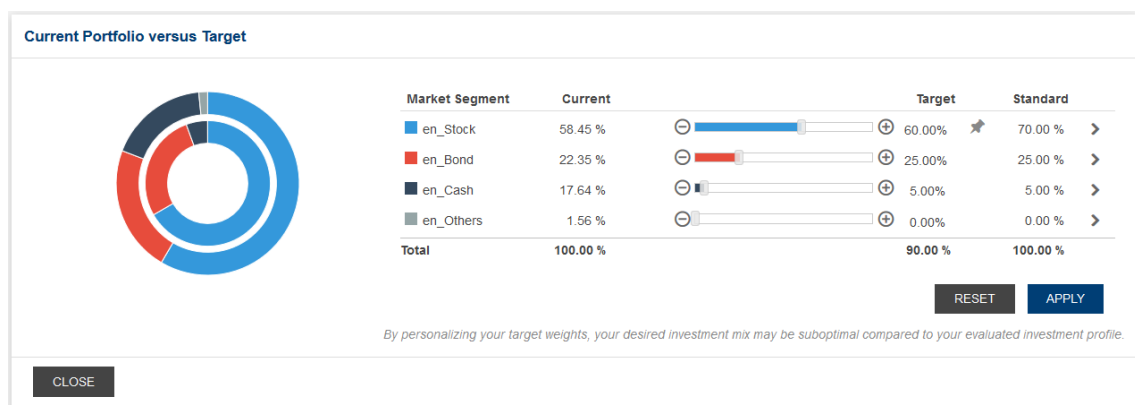

The common features of this type of portfolio for both Client Users and RM Users are:

- [Target personalisation](#)
- [Investment restrictions](#)

13.35.1 Target personalisation

For portfolios that are defined with service type Advisory or Robo-Advisor, the **Portfolio Overview** page displays the Current Portfolio versus Target section (see section [Advisory or Robo-Advisor summary view](#)), which lets users see whether the target is a standard one (defined by the bank) or a personalized one.

If it is a personalized target, users can click **Update Target** to display the Current Portfolio versus Target section in update mode, which lets users define new objective weights in their Investment Profile.

All market segment target weight, at any level of the Investment Profile, can be modified by using the slider widget.

Note that modifications to a sub-market segment must be done with respect to its parent target weight. If this rule is not respected, a warning message is displayed:

Warning

The sum of your personalised target allocation weights is higher than 70.00% (352%). Please adjust.

For example, if the user needs to re-allocate the stock market segment (shown as 60% in our example), the user can click the chevron icon of the stock market segment to access its sub-market segments:

Current Portfolio versus Target

Market Segment	Current		Target	Standard	
en_Stock/CHF	43.82 %		60.00 %	70.00 %	
en_Stock/EUR	4.29 %		0.00 %	0.00 %	
en_Stock/USD	7.37 %		0.00 %	0.00 %	
en_Stock/Others	2.97 %		0.00 %	0.00 %	
Total	58.45 %		60.00 %	70.00 %	

Parent Market Segment: en_Stock

[BACK](#)

RESET

APPLY

CLOSE

By personalizing your target weights, your desired investment mix may be suboptimal compared to your evaluated investment profile.

Then, using the slider widget, the sub-market segment target weights can be modified to respect the parent target (stock market segment) of 60%:

Current Portfolio versus Target

Market Segment	Current		Target	Standard	
en_Stock/CHF	43.82 %		30.00 %	70.00 %	
en_Stock/EUR	4.29 %		20.00 %	0.00 %	
en_Stock/USD	7.37 %		10.00 %	0.00 %	
en_Stock/Others	2.97 %		0.00 %	0.00 %	
Total	58.45 %		60.00 %	70.00 %	

Parent Market Segment: en_Stock

[BACK](#)

RESET

APPLY

CLOSE

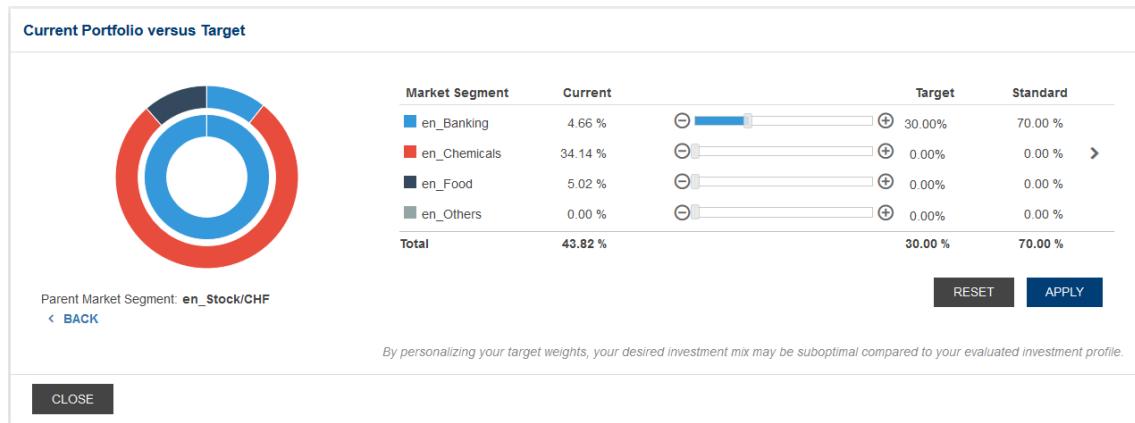

By personalizing your target weights, your desired investment mix may be suboptimal compared to your evaluated investment profile.

As a result, the sub-market segment Stock/CHF/Banking is also updated to 30%:

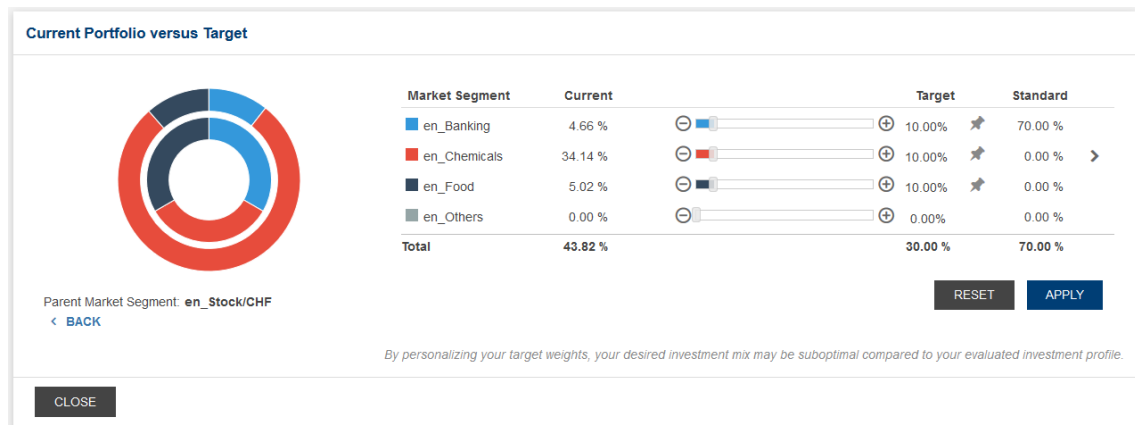

6 September 2019

WealthSuite Channels – Front Office WS 201909 - User Guide

285

At this point, the user can also define new targets for Chemicals (10%) and Food (10%), which will automatically adjust the Banking target to 10%:

After the user completed all modifications to the targets, clicking **Apply** and **Close** will validate the modifications and take the Current Portfolio versus Target section out of update mode.

13.35.2 Investment restrictions

For portfolios that are defined with service type Advisory or Robo-Advisor, the **Portfolio Overview** page displays the Current Portfolio versus Target section (see section [Advisory or Robo-Advisor summary view](#)), which contains the **Investment Restrictions** button that can be used to view and edit:

- [Position White List](#)
- [Instrument Black List](#)

Excluded Positions ¹

EDIT

No results

Instrument Black List ¹

EDIT

No results

BACK

13.35.2.1 Position White List

The Position White List stores positions of instruments that must be kept in the portfolio when they are held, which means that they will be never sold.

To edit this list, click the **Investment Restrictions** button in the Current Portfolio versus Target section. Then, click the **Edit** button in the Position White List section, which will display the section in update mode:

Excluded Positions ¹						
Instrument Code	Instrument	ISIN	Current Quantity	Market Value	Weight	Quantity to Keep
T_AI_CHF_57043	en_T_AI_CHF_57043	LU0068133486	100,000.00	116,928.33 CHF	3.94 %	1,000
T_AI_CHF_57046	en_T_AI_CHF_57046	ISINCHF57046	100,000.00	118,358.61 CHF	3.99 %	1,000
T_AI_CHF_57049	en_T_AI_CHF_57049	ISINCHF57049	100,000.00	117,503.06 CHF	3.96 %	

In the **Quantity to Keep** field, enter the instrument's quantity that must be kept in portfolio.

After the modifications are saved, click **Edit** again to perform the following functions:

- Adding new instrument's positions.
- Modifying the current value in the **Quantity to Keep** field.
- Resetting the current **Quantity to Keep** by using the **Reset the quantity** icon at the right side of the quantity.

Excluded Positions ¹						
Instrument Code	Instrument	ISIN	Current Quantity	Market Value	Weight	Quantity to Keep
T_AI_CHF_57043	en_T_AI_CHF_57043	LU0068133486	100,000.00	116,928.33 CHF	3.94 %	1,000.00 ✕
T_AI_CHF_57046	en_T_AI_CHF_57046	ISINCHF57046	100,000.00	118,358.61 CHF	3.99 %	1,000.00 ✕
T_AI_CHF_57049	en_T_AI_CHF_57049	ISINCHF57049	100,000.00	117,503.06 CHF	3.96 %	

Click **Save** to save all modifications.

13.35.2.2 Instrument Black List

Instrument Black List stores instruments that will never be bought in the portfolio.

To edit this list, click the **Investment Restrictions** button in the Current Portfolio versus Target section. Then, click the **Edit** button in the Instrument Black List section, which will display the section in update mode:

If you want to add a new instrument, click **Add Instrument**. The **Instrument Search** page is displayed (see section [Searching for instruments](#)).

Instrument Code	Instrument	ISIN
ABB	ABB	

Then, you can click **Save** to save the modifications or click to delete one or more instruments.

13.36 Managing Goal Based Portfolios

This section provides information about features linked to the management of portfolios that are defined with service type Goal-based.

The common features of this type of portfolio for both Client Users and RM Users include:

- [Setting a new goal](#)
- [Editing a goal](#)
- [Cancelling a goal](#)
- [Viewing the list of goal-based portfolios](#)
- [Viewing the goal's details](#)
- [Monitoring your goal](#)
- [Portfolio Analysis on your goal](#)

13.36.1 Setting a new goal

To create a goal:

1. Do one of the following:
 - If you are a RM User, navigate to the Client Summary page and click **New Goal**.
 - If you are a Client user, navigate to the Client Home page and click **New Goal**.

The **Set New Goal** flow is displayed with a step approach for the creation process:

- [Definition step](#)
- [Investments step](#)

- [Optimization step](#)
- [Transfers step](#)
- [Summary step](#)

13.36.1.1 Definition step

1. Complete the following:

Field/section	Description
Tell us about your goal	Select the nature of the goal: • Major Purchase • Education • Rainy Day • Retirement
I need	The target amount of the goal + currency of the goal
by	The target date of the goal
for	The name of the goal

2. Do one of the following:
 - To cancel the creation process, click **Cancel**. This option is available at any time during the creation process. The **Cancel** pop-up is displayed asking you to confirm the action. You can:
 - Click **No** to go back to the creation process.
 - Click **Yes** to quit the creation process.
 - To proceed to the next step ([Investments step](#)) of the creation process, click **Next**.

13.36.1.2 Investments step

The **Set New Goal** flow is displayed with the next step – Investments – of the creation process.

Goal

DEFINITION INVESTMENTS OPTIMIZATION TRANSFERS SUMMARY

How much do you have to invest?

Today I can invest CHF and will add CHF per Month

How much risk would you be willing to take?

Lower risk Higher risk

Secure Conservative **Balanced** Active Dynamic

Greater security Greater potential gains

Your target portfolio allocation

■ Equities: 25.0%
■ Bonds: 45.0%
■ Cash: 15.0%
■ Alternatives: 15.0%

CANCEL < PREVIOUS NEXT >

3. Complete the 'How much do you have to invest' section:

Field/section	Description
Today, I can invest	The initial contribution/deposit for the goal defined in the selected currency
and will add	Periodic contributions/deposits to the goal defined in the selected currency
per	The frequency of the investment. List includes: • Month - user can define the day of the month when the transfer will be executed • Quarter • Year

4. Complete the 'How much risk would you be willing to take' section. This section requires input from the user on the Risk Level which will then define the target portfolio allocation and display the graph accordingly

Field/section	Description
<Select a risk level>	The risk level the user would be willing to absorb from lower risk/greater security to higher risk/greater potential gains: • Secure • Conservative • Balanced • Active • Dynamic

Field/section	Description
Your target portfolio allocation	Allocation graph showing the first level market segment allocation of the strategy linked to the selected risk level

- To proceed to the next step ([Optimization step](#)) of the creation process, click **Next**.

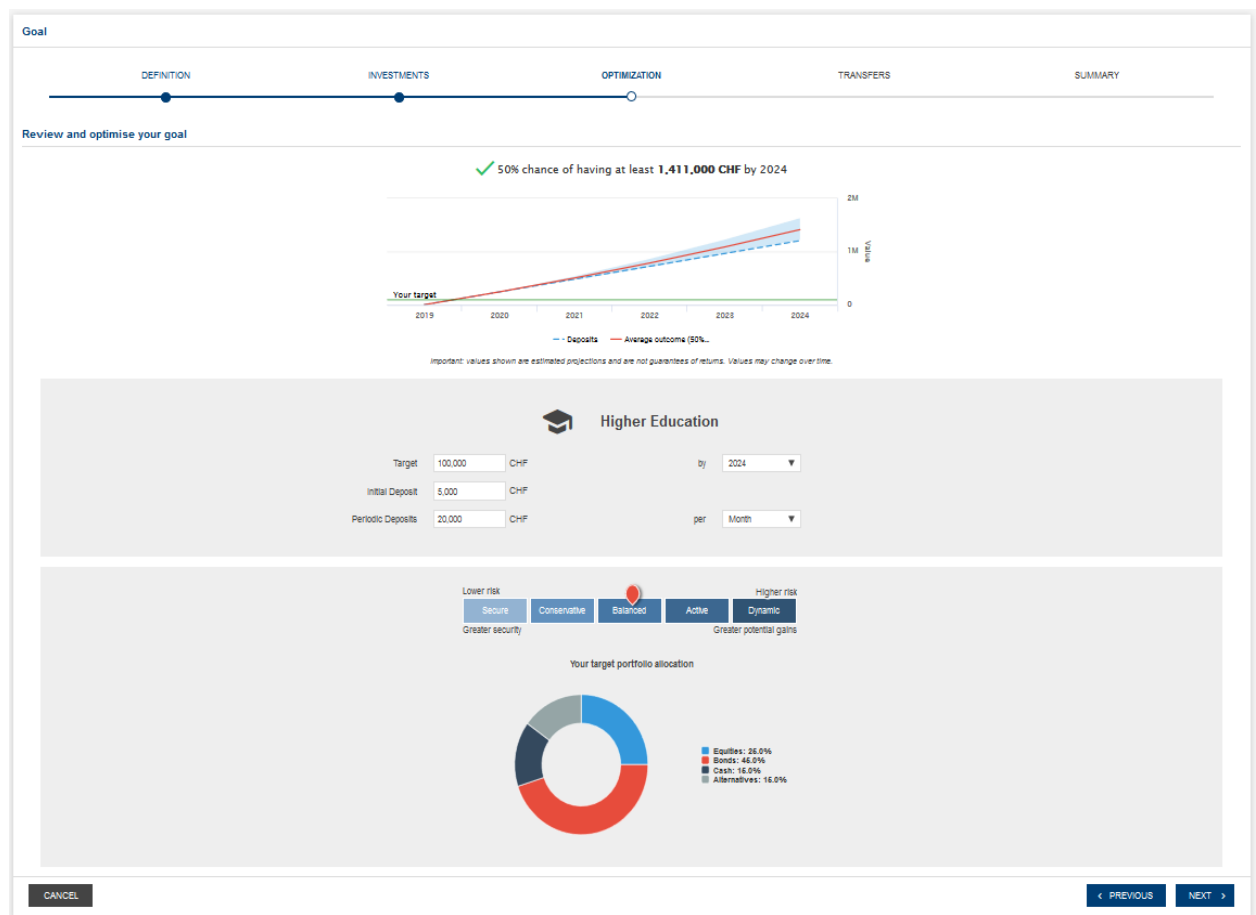

13.36.1.3 Optimization step

The **Set New Goal** flow is displayed with the next step – Optimization – of the creation process.

This step allows the simulation of the goals using the Monte Carlo Simulation.

Based on the parameters provided, the Simulator will be able to generate the projection data in order to:

- Determine if you are able to achieve your goal based on the contributions and
- Display the data in a graphical presentation

- Update the parameters of your goal if needed:

Field/section	Description
Target	The target amount of the goal defined in the selected currency
By	Target date of the goal
Initial Deposit	The initial contribution/deposit for the goal defined in the selected currency
Periodic Deposits	Periodic contributions/deposits to the goal defined in the selected currency
Per	The frequency of the investment. List includes: • Month • Quarter • Year
Risk Level	The risk level the client can take for his goal: • Secure • Conservative • Balanced • Active • Dynamic

1. Once updated, The Monte Carlo Simulator re-calculates the probabilities and displays the projections on the graph.
2. To proceed to the next step ([Transfers step](#)) of the creation process, click **Next**.

13.36.1.4 Transfers step

The **Set New Goal** flow is displayed with the next step – Transfers – of the creation process.

Goal

DEFINITION INVESTMENTS OPTIMIZATION TRANSFERS SUMMARY

Set your transfer details or leave blank to do it later

Transfer 5,000 CHF now and 20,000 CHF per Month from

- Please Select

Day of transfer for the periodic deposits *

1

01/03/2019

CANCEL

< PREVIOUS

NEXT >

1. Set your transfer details if available:

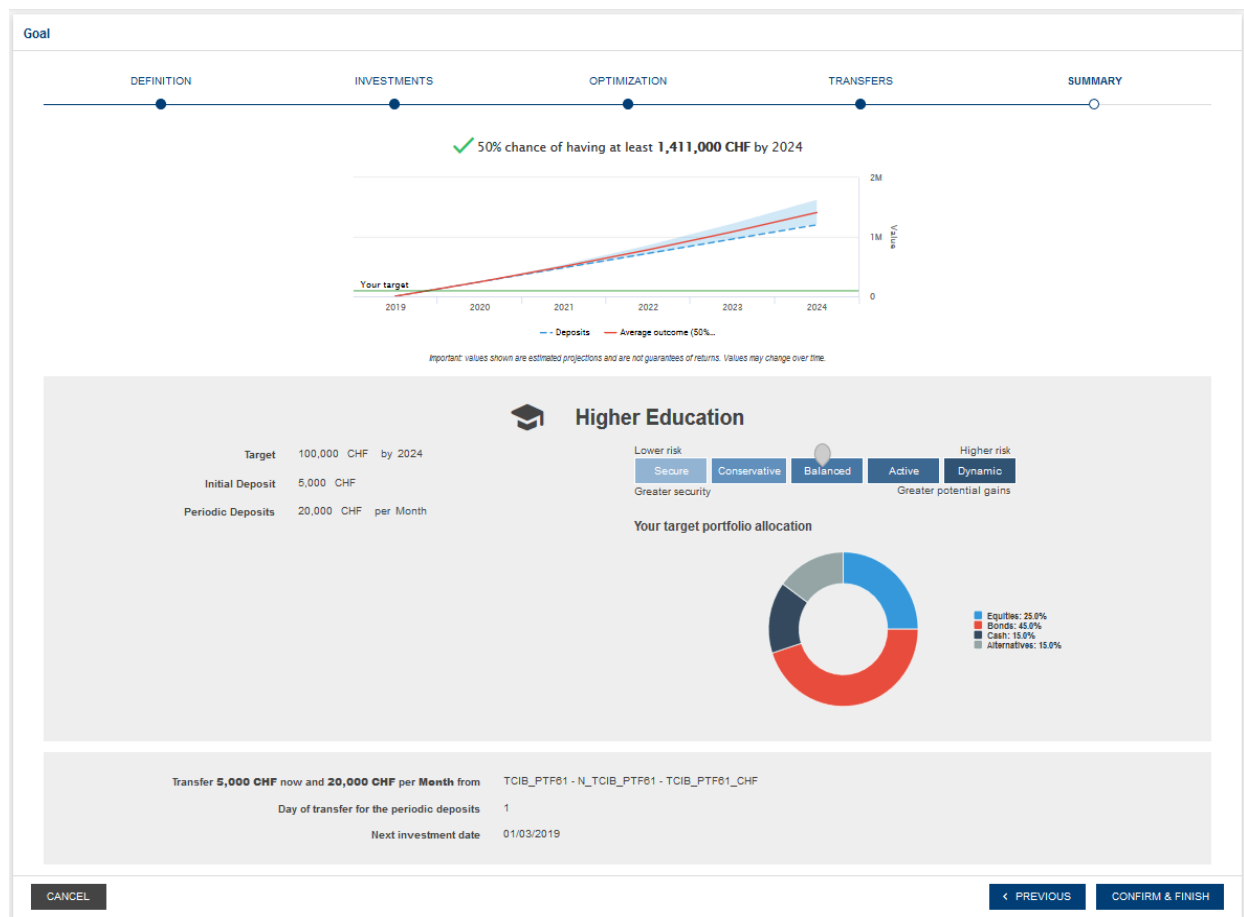

Field/section	Description
Transfer <initial contribution in selected currency> now and <periodic contributions in selected currency> per <frequency> from	List of the client's cash accounts that matches the goal's currency. The list retrieves the accounts that are not linked to this goal.

- To proceed to the next step ([Summary step](#)) of the creation process, click **Next**.

13.36.1.5 Summary step

The **Set New Goal** flow is displayed with the next step – Summary – of the creation process.

- Review the summary of the goal including the simulation graph, the goal and transfer details before validating the goal
- Click **Confirm and Finish** to end the Goal creation. The goal is created and the user is navigated to the Client Summary View page for an RM User or to the Client Home page for a Client User.

13.36.2 Editing a goal

To edit a goal:

1. Do one of the following:
 - If you are a RM User or a Client User, navigate to the Goal Summary page and select **Update** button to initiate the Edit Goal process.

The Edit Goal page is displayed.

Goal

✓ 50% chance of having at least 398,000 EUR by 2024

Important: values shown are estimated projections and are not guarantees of returns. Values may change over time.

Goal name: Higher Education

Target: 100,000 EUR by 2024

Periodic Deposits: 5,000 EUR per Month

Lower risk: Secure, Conservative, **Balanced**, Active, Higher risk: Dynamic

Greater security: Greater potential gains

Your target portfolio allocation

Transfer 5,000 EUR per Month from: 100124-01 - Brokerage account - 100124-01_EUR

Day of transfer for the periodic deposits: 1

Next investment date: 01/03/2019

CANCEL CONFIRM

- Updating the parameters refreshes the Monte Carlo Simulation and reflects the new projections
- Updating the risk level will also refresh the target portfolio allocation

13.36.3 Cancelling a goal

To cancel a goal:

1. Do one of the following:

- If you are a RM User or a Client User, navigate to the Goal Summary page and click **Cancel**.

A confirmation pop up is displayed with the ability to select the cash account to which the portfolio's balance will be transferred.

The screenshot shows the 'Goal Overview' page. At the top, it says '50% chance of having at least 285,000 EUR by 2036'. Below this is a line chart showing 'Your Target' over time from 2019 to 2036. A modal titled 'Cancel this goal' is open in the center. The modal text says: 'You are about to cancel this goal. Please select the account to credit and confirm the cancellation.' Below this is a dropdown menu labeled 'Transfer the cash to *' with the option '- Please Select'. At the bottom of the modal are 'YES' and 'NO' buttons. In the background, the 'Retirement pot' goal is visible with a 'Current Value' of 69,276.33 EUR, a 'Gain' of 6.58%, and 'You've invested' 65,000.00 EUR. The 'Portfolio Overview' section below shows a total value of 69,279.09 EUR, a donut chart, and a table of asset classes.

Asset Class	Value
Equities	16,416.21 EUR
Bonds	32,281.69 EUR
Cash	10,002.18 EUR
Alternatives	10,579.01 EUR

Performance 1 Year: 6.58 %
Profit / Loss: 4,611.68 EUR

- Clicking **Yes** will:
 - Initiate a full liquidation of the portfolio
 - Display a confirmation page displaying the details of the Goal

The screenshot shows a confirmation page titled 'Goal'. It features a green information icon and the text: 'Your cancellation request is now being processed. Your account will be credited once we've sold the assets.' Below this is a card for 'Kids education' with a graduation cap icon. The card details: '80,000 EUR by 2022', 'Selected Strategy : Balanced A', 'Current Value 32,116.98 EUR', 'Gain 0.00 %', and 'You've invested 30,000.00 EUR'. At the bottom right of the page is a 'BACK TO CLIENT' button.

- Clicking **No** will return you to the Goal Overview page.
 - If you are a RM User, click **Back to Client** to navigate back to the Client Summary page.

- If you are a Client User, click **Back to Homepage** to navigate back to the Client Homepage.

13.36.4 Viewing the list of goal-based portfolios

To view the list of goal-based portfolios

1. Do one of the following:
 - If you are a RM User, selecting the client will display the Client Summary page. The portfolio list on this page contains all the portfolios of the current client, including Goal-Based portfolios.
 - If you are a Client User, the Homepage will display listing all your portfolios, including Goal Based portfolios.

13.36.5 Viewing the goal's details

To view the details of a goal:

1. Do one of the following:
 - If you are a RM User, navigate to the Client Summary page> Goals section and from the carousel, select the applicable **Mini card or chevron**. This will navigate you to the Goal Summary page or navigate from the Portfolio List by selecting a specific Goal based portfolio.
 - If you are a Client user, navigate to the Client Homepage/ Goals section and from the carousel, select the applicable **Mini card or chevron**. This will navigate you to the Goal Summary page.

Your goals			NEW GOAL
 Higher Education > 100,000 EUR by 2024 Current Value 32,109.67 EUR		 Emergency > 200,000 EUR by 2024 Pending initial deposit	 Retirement > 300,000 EUR by 2024 Pending initial deposit

2.

On the Goal summary page, you can:

- View the details of the goal including the projected evolution based on the Monte Carlo Simulation, a quick way of seeing if the goal is in-line or not with its objectives, asset overview and its performance.
- Update the goal parameters (see section [Editing a goal](#)), cancel the goal (see section [Cancelling a goal](#)), personalize the goal and add investment restrictions to the goal

13.36.6 Monitoring your goal

To identify goals which are not in line with their objectives:

1. Use the Portfolio Advanced Search filter criteria (see section [Searching for portfolios](#))
2. Create an alert using the Alert definition filter criteria (see section [Understanding the Alert Configuration menu](#))
3. Use the Monitoring criteria on the RM Homepage (see section [Viewing overview of potential problems](#))
4. View notifications related to the results of the alerts

13.36.7 Portfolio Analysis on your goal

If you are a RM or a Client user, you will be able to access all portfolio analysis functions for goal-based portfolios (see section [Portfolio functions](#)).

13.37 Managing Investment Proposals

Investment Proposals enable the banks to prepare and send active trading advices to their clients, or to prospects, based on a pre-defined Investment Profile.

Once a proposal has been built, it is submitted to the client or the prospect in the form of a report. Once agreement from the client or prospect has been obtained, the proposal's order session and its constituting orders can be traded.

The management of Investment Proposals is available, without restrictions, for users with the role of Relationship Manager. Those with the role of Client Users can manage proposals only for portfolios that have service type Advisory.

The **Proposal** sub-menu is an option under **Advisory** in the **Portfolios** menu. This sub-menu lets you:

- Manage existing proposals (see section [Managing existing Investment Proposals](#)).
- Create a new proposal (see section [Creating new Investment Proposals](#)).

13.37.1 Managing existing Investment Proposals

Investment Proposals							REFRESH	NEW PROPOSAL
Description	Created By	Creation	Last modif	Status	Report			
Proposal created on 20/02/2019 (09:47) for portfolio N_TCIB_PTF61	MANAGER	20/02/2019	26/02/2019	Sent for Validation				
Proposal created on 14/01/2019 (11:42) for portfolio N_TCIB_PTF61	CLIENT	14/01/2019	26/02/2019	Working				
Proposal created on 19/02/2019 (08:38) for portfolio N_TCIB_PTF61	MANAGER	19/02/2019	20/02/2019	Released for Trading	Completed			

From the list of Investment Proposals, accessible from the menu **Portfolios > Proposal**, the following options are available for managing Investment Proposals:

- To view or print an Investment Proposal report, click the  icon from the **Report** column. The Investment Proposal report is automatically displayed in PDF format in a new window or a dedicated PDF tool depending on your browser.

- To update an existing Investment Proposal with the status Working or Sent for Validation, click the  icon. The process of updating an Investment Proposal is similar to creating one; the only difference is that some steps have been already completed. For information about how to create an Investment Proposal, see section [Creating new Investment Proposals](#).
 - When editing a proposal with the status “Sent for validation”, the application will automatically change its status to Working and delete its associated report. Note that a **Sent for validation** proposal cannot be edited if its report generation is pending. In this case, click the  icon, which will display a warning message, and the **Investment Proposals** page is refreshed.
- To delete an existing Investment Proposal with the status Working, click the  icon. The Investment Proposal is deleted and the **Investment Proposals** page is refreshed.
- To validate an Investment Proposal with the status Sent for Validation, click the  icon. The Investment Proposal status is updated to “Validated” and the **Investment Proposals** page is refreshed.

(Only for users with the role of Relationship Manager) When validating a proposal, a pop-up is displayed that lets you insert your client's electronic signature, if required, into the associated Investment Proposal report. Do one of the following in the pop-up:

- If a signature is required, clients can sign with a finger or a stylus on touch-enabled devices, or with a mouse on standard devices in the **Client Signature** field. If the client is not satisfied with the signature, click **Reset** to resign. Then, click **Confirm**.
- If a signature is not required, check **Skip Signature**. Then, click **Confirm**.

(Optional) In the pop-up, click **View Report** to view the report associated with the current profile.

To close the pop-up, click the  icon.

- To reject an Investment Proposal with the status Sent for Validation, click the  icon. The Investment Proposal status is updated to “Rejected” and the **Investment Proposals** page is refreshed.
- To refresh the list of Investment Proposals, click the **Refresh** button.
- To create a new Investment Proposal, see section [Creating new Investment Proposals](#).

13.37.2 Creating new Investment Proposals

From the list of Investment Proposals, click **New Proposal** button. Note that this button is not accessible when the option **All Portfolios** is selected from portfolio banner.

The following users can create new Investment Proposals:

- [Client Users](#)
- [RM Users](#)

13.37.2.1 Client Users

For Client Users managing a portfolio that is defined with service type Advisory, the **Investment Proposal** creation pages can be accessed in the following ways:

- Using the **Realign Now** button in the Current Portfolio versus Target section on the **Portfolio Overview** page (see section [Advisory or Robo-Advisor summary view](#)).
- From the **Advisory** main menu.

The **Investment Proposal** creation pages are displayed with a step approach for the creation process:

- [Proposal step](#)
- [Confirmation step](#)

Proposal step

For Client Users, the first step to creating an Investment Proposal is Proposal.

- To display basic information about the Investment Proposal, click the icon. A pop-up is displayed. Note that this option is available at any time during the Investment Proposal creation process.
- The sections on the **Investment Proposal – Proposal** page provide available actions for Client Users to take during the creation process. Review all available actions in these sections:
 - [Order Summary \(for Client Users only\)](#): provides information about buy and sell orders.
 - Proposed Portfolio versus Target: provides information about the realignment result versus the Target.
 - [Case Summary](#): provides information about cases created on violated objectives and constraints.
 - [Compliance Summary for Targets](#)
 - [Compliance Summary for Restrictions](#)

Order Summary (for Client Users only)

The Order Summary section provides information about all buy and sell orders that have been generated to reach the Investment Profile targets.

14 buy order(s) 

Instrument	Target Type	Target Objective	Quantity	Net Amount	% of ptf.	Factsheet	
T_AI_CHF_ABBN ABB Ltd	Quantity	2,492.00	2,492.00	101,897.88 CHF	4.80	Included	 

19 sell order(s) 

Instrument	Target Type	Target Objective	Quantity	Net Amount	% of ptf.	
T_AI_EUR_12062 Axa	Quantity	1,040.00	1,040.00	45,333.67 CHF	2.13	 

In this section, Client Users can:

- Edit orders by clicking the  icon to modify the order's Target Nature (Quantity, Amount, % of Portfolio, % of Market Segment Objective) and Target Objective. When users click **Save**, they have the option to provide a reason for the change before confirming the modifications or to cancel the request and return to the previous page.
- Delete orders by clicking the  icon located on the right of the desired order. A message is displayed asking users to cancel the request or to provide a reason for the deletion before confirming the change.
- Restore rejected orders. When users modify or delete orders, the original orders that were proposed by the bank appear as rejected orders. Rejected orders can be restored by clicking the  icon next to the desired order:

1 rejected order(s) 

Instrument	Target Type	Target Objective	Quantity	Net Amount	% of ptf.	Factsheet	
T_AI_USD_MCD MCDONALD'S CORP	Quantity	3,436.00	3,436.00	101,915.40 CHF	4.80	Included	 

fund switch order(s) 

Proposed Portfolio versus Target Click on Check to refresh

A message is displayed asking users to confirm the change or to cancel the request. After the user clicks **Confirm**, the rejection date as well as any rejection / modification justifications are cleared and the order is reintegrated into the Investment Proposal.

- Add new orders by clicking the **New Order** link and then, select Securities/Derivatives or Forex to initiate a buy or sell order.

1. The sections on the **Investment Proposal – Setup** page provide available actions for RM Users to take during the creation process. Review all available actions in these sections:
- [General Information](#)
 - [Current Portfolio versus Target](#)
 - [Option](#)

General Information

Complete or update the following fields in the General Information section. Mandatory fields are marked with an asterisk. You will be prevented from moving to the next step if mandatory fields are incomplete:

Field	Description
Description	A default description is provided by the application; you can update it.
Target Investment Profile*	Set by default to the current Investment Profile. You can select another Investment Profile from the drop-down list if you want to propose a new Investment Profile to your client.
Add cash	The Add cash field allows you to simulate a cash increase to be considered in the Investment Proposal. Enter an amount and select a currency from the drop-down list. The page is refreshed to take into consideration the cash increase; the pie chart Current will be updated accordingly.

Current Portfolio versus Target

The Current Portfolio versus Target section provides information about the current asset allocation versus the objective weights defined in the Investment Profile. To view details of the weights of an asset class (e.g., Stocks, Bonds, Cash, Others), click on any asset class on chart. To return to the chart, click **Back to Portfolio Level**.

Option

The Option section lets RM Users choose the way they want to manage the Investment Proposal. Choose one of the following radio buttons:

- **Apply Target:** Lets the application automatically generate buy and sell orders on targets.
 - **Manual Allocation:** Lets RM Users manually enter buy and sell orders.
2. After you have reviewed all available actions described in the previous step, and performed the necessary actions, click **Next** to proceed to the next step ([Proposal step](#)) of the creation process.

Proposal step

For RM Users, the second step to creating an Investment Proposal is Proposal.

In this section, RM Users can:

- Add new orders by clicking the **New Order** link and then, select Securities/Derivatives or Forex to initiate a buy or sell order.

6 September 2019

WealthSuite Channels – Front Office WS 201909 - User Guide

311

Field	Description
Target Nature	From the drop-down list, select one of the following to determine how the order will be placed: - by Quantity - by Gross Amount - by % of Portfolio - by % of Market Segment Objective (only accessible if a target Investment Profile is set) - by Full Redemption Note: Subscription of Signature Portfolio allowed only in target nature Gross Amount and is a read only field.
Target Objective	Enter the desired objective in the Target Objective field. This field accepts numerical values only. The Quantity, Amount Order Cur and Amount Portfolio Cur fields are automatically updated based on the objective entered.
Factsheet	Allows you to decide if you want to include in the Investment Proposal report a Factsheet of the selected instrument. Only available for Buy orders with the default Include.
Negotiation	From the drop-down list, select the Negotiation commission type: - No (default): The bank commission remains the same. - In Amount: You choose to enter the negotiated commission amount. - In Percent: You choose to enter the negotiated commission in percentage. Whichever commission type you choose, the value in the Standard field includes the bank's commission and its representation as a percentage of the operation gross amount.
Negotiated Commission (Percent)	If you selected In Percent in the Negotiation field, enter the desired commission percentage that you want to apply. This percentage is applied on the operation gross amount.
Negotiated Commission (Amount)	If you selected In Amount in the Negotiation field, enter the desired commission amount.
Additional Details	The Additional Details sections will only be displayed for an RM User login and not on Client User login.
Order Initiator	Choose one of the following radio buttons: Bank: Order is mandated by the Bank Client: Order is initiated by the client
Contact Date	If you selected Client in the Order Initiator field, the contact date will appear. It will be defaulted to the system date. You must not enter a future date.

Field	Description
Contacted By	From the drop-down list, select one of the following to indicate the communication party types: • Account Holder (default) • Attorney • Beneficial Owner • Other • Signatory • Third Party Manager
Contact Method	From the drop-down list, select one of the following to indicate how the client has contacted the bank: • Email • Facsimile • Internet (default) • Letter Post • Meeting • Other • Telephone
Account	Based on the instrument in the Instrument field, this field will automatically display the cash account linked to the client's portfolio.
Dividend Payment Option	If the instrument in the Instrument field is identified to pay dividends, the Dividend Payment Option field is displayed when you click the  icon of the instrument (see next step). From the drop-down list, select one of the following to indicate how the client wants to handle dividends: • Cash Payout • Dividend Reinvestment

b. Click **Save** to save the order in the system.

- If there is at least one error, the **Order Entry** page displays the error message(s). The application does not allow you to continue without modifying the order.
 - If there are no errors but at least one warning message, the **Order Entry** page displays the warning message(s). You can either modify the order or click **Confirm** to confirm the order.
 - If there are no warnings or errors, the order is saved and the **Proposal** page is displayed, with the newly created order listed in the List of Order Summary section.
- Edit orders by clicking the  icon to modify the order's Target Nature (Quantity, Amount, % of Portfolio, % of Market Segment Objective) and Target Objective. The steps are similar to the steps outlined for adding new orders. However, make note of the following differences between entering and modifying orders:
 - The **Order Initiator** field cannot be modified. If you need to modify this information, delete or reject your order, and then create a new one with the correct information.
 - If the original order was requested by the client, clicking the **Save** button will immediately save the modifications. Note that, like the manual order creation, all error messages must be fixed and warning messages must be confirmed before the order is saved.

- If the original order was proposed by the bank, clicking the **Save** button will display a confirmation message asking for the initiator of the modification.
- If the modifications were initiated by the bank, click **Confirm** and the application will save the modifications. Note that, like the manual order creation, all error messages must be fixed and warning messages must be confirmed before the order is saved.
- If the modifications were initiated by the client, you have the option to enter the reason for the modifications. Then, click **Confirm** and the application will reject the original order before saving the newly modified order. Note that, like the manual order creation, all error messages must be fixed and warning messages must be confirmed before the order is saved. Rejected orders initiated by the client are kept in the proposal for tracking purposes but not taken into consideration for the final Investment Proposal. The new order will show as "requested by the client" and not "proposed by the bank".
- Delete orders by clicking the  icon located on the right of the desired order.
 - If the original order was requested by the client, a message is displayed asking users to cancel the request or to confirm the removal of the order from the Investment Proposal.
 - If the original order was proposed by the bank, a confirmation message is displayed asking for the initiator of the deletion.
 - If the deletion was initiated by the bank, click **Confirm** and the application will remove the order from the Investment Proposal.
 - If the order was rejected by the client, you have the option to enter the reason for the rejection. Then, click **Confirm** and the application will reject the order from the Investment Proposal. Rejected orders initiated by the client are kept in the proposal for tracking purposes but not taken into consideration for the final Investment Proposal.
- Restore rejected orders. When the bank modifies or deletes an order initiated by the client, the original that was initiated by client appears as a rejected order.
 - To view details of the rejected order, click on the chevron  icon next to the desired order.
 - To restore a rejected order, click on the  icon next to the desired order.

1 rejected order(s)								
Instrument	Target Type	Target Objective	Quantity	Net Amount	% of ptf.	Factsheet		
ABB ABB	Quantity	100.00	100.00	1,000.00 CHF	0.04	Included		
0 fund switch order(s)								
Proposed Portfolio versus Target								Click on Check to refresh

A message is displayed asking users to confirm the change or to cancel the request. After the user clicks **Confirm**, the rejection date as well as any rejection / modification justifications are cleared and the order is reintegrated into the Investment Proposal.

- Check all modifications by clicking **Check**. All modifications (e.g., editing, deleting, restoring, and adding orders) must be checked by the application.

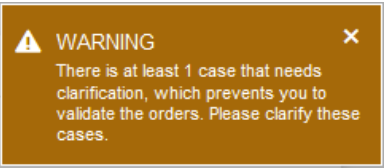

- After you have reviewed all available actions described in the previous step, and performed the necessary actions, click **Next** to proceed to the next step (Case Clarification step) of the creation process.

For information about the Case Clarification step for derivative and forex orders, refer to sections [Placing derivatives orders](#) and [Placing forex orders](#).

Case Clarification step

For RM Users, the third step to creating an Investment Proposal is Case Clarification, where the application performs a pre-trade compliance check. When there are cases to clarify, a warning message is displayed at the top of the *Investment Proposal – Case Clarification* page:

The Case Summary section on the page provides information about all objectives, constraints, and controls that have been violated. These are sorted by criticality:

Case Summary

2 major cases that requires some clarification

☐ Select All

CLARIFY

- On the **Investment Proposal – Wrap-Up** page, do one or more of the following:

- To display basic information about the Investment Proposal, click the **i** icon. A pop-up is displayed. Note that this option is available at any time during the Investment Proposal creation process.
 - To generate and view a draft Investment Proposal report, click **View Draft Report**. The draft report is automatically displayed in PDF format in a new window or in a dedicated PDF tool according to your web browser.
 - To set the client's decision, select one of the following:
 - **Under Review** (default): The client needs to review the Investment Proposal before accepting or rejecting it. The Investment Proposal status will be set to Sent For Validation.
 - **Accepted**: The client has reviewed the Investment Proposal with you and has accepted it. The Investment Proposal status will be set to "Validated".
 - **Refused**: The client has reviewed the Investment Proposal with you and has refused it. The Investment Proposal status will be set to "Rejected".
2. To finish the creation process, click **Finish**. A pop-up is displayed that lets you insert your client's electronic signature, if required, into the associated Investment Proposal profile report. Do one of the following in the pop-up:
- If a signature is required, clients can sign with a finger or a stylus on touch-enabled devices, or with a mouse on standard devices in the **Client Signature** field. If the client is not satisfied with the signature, click **Reset** to resign. Then, click **Confirm**.
 - If a signature is not required, check **Skip Signature**. Then, click **Confirm**.
3. (Optional) In the pop-up, click **View Report** to view the report associated with the current profile.

4. Click the **X** icon to close the pop-up.
- The **Investment Proposals** page is displayed with the newly created Investment Proposal added to the list of existing Investment Proposals.

13.38 Managing Investment Profiles

To gain a general idea of the client's investment preferences, the Investment Profile Questionnaire collects information about the client such as risk appetite and investment time horizon. Based on

the responses provided, various investment vehicles and financial instruments that are suitable to the client's needs and objectives will be recommended.

The **Investment profile** sub-menu is an option under **Advisory** in the **Portfolios** menu. This sub-menu lets you:

- View the current Investment Profile of the selected portfolio.
- Review the Investment Profile by going through a questionnaire that will define the best strategy based on answers provided by the client.

The management of Investment Profiles is available, without restrictions, for users with the role of Relationship Manager. Those with the role of Client Users can manage Investment Profiles only for portfolios that have service type Advisory or Robo-Advisor.

In the following sections, you will learn about:

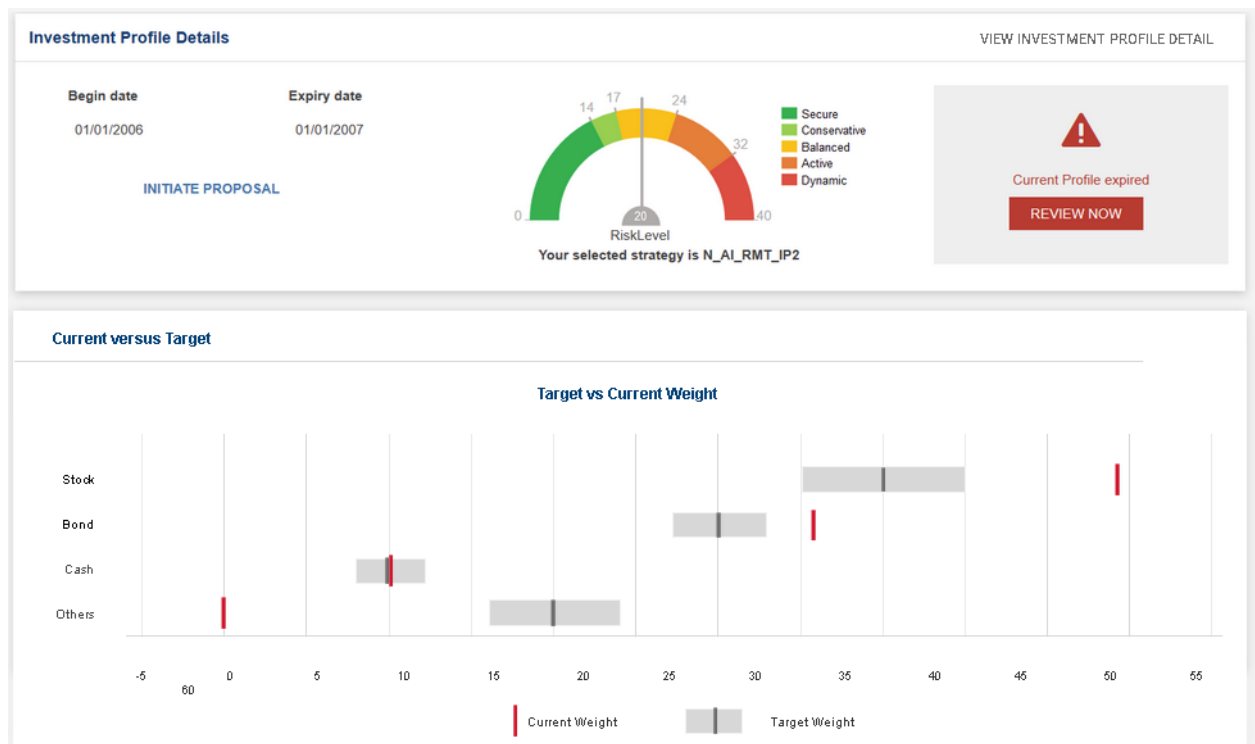

- [Viewing existing Investment Profiles](#)
- [Defining Investment Profiles](#)
- [Validating Investment Profiles](#)
- [Rejecting Investment Profiles](#)
- [Viewing Investment Profile reports](#)

13.38.1 Viewing existing Investment Profiles

To view an existing Investment Profile:

1. From the menu bar, go to **Portfolios > Investment Profile**.

The **Investment Profile Details** page is displayed.

2. (Optional) Depending on the status of the Investment Profile of the portfolio and the status of the current review, you will have the option to click on one of the following:

- **Profile Now:** If no Investment Profile has been defined yet for the selected portfolio.
- **Review Now:** If the current Investment Profile is expired.
- **Finalize Review:** If a review of the Investment Profile has been started but not finalized yet.

The **Investment Profiling page** (questionnaire) is displayed where you can begin to define a new Investment Profile or to finalize a current one (see section [Defining Investment Profiles](#)).

3. (Optional) If an Investment Profile review has been finalized but is pending validation, click on one of the following:

- **Validate profile** (see section [Validating Investment Profiles](#))
- **Reject profile** (see section [Rejecting Investment Profiles](#))
- **View report** (see section [Viewing Investment Profile reports](#))

4. (Optional) You can click on the **View Investment Profile Detail** to view the details of the Investment Profile.

- Complete all fields on the page. These fields relate to the client's investment time horizon (e.g., age category and expected length of investment time). Mandatory fields are marked with an asterisk.
- Do one of the following:

- If you want to cancel the process, click **Cancel**. The current Investment Profile is not altered and the current questionnaire will be kept in the system with a “Cancelled” status, but is no longer available via the front-end. You will be returned to the **Investment Profiling** page and the status of the current profile remains unchanged. The **Cancel** button is available on most remaining pages of this process.
- (Only for users with the role of Relationship Manager) If you want to save the entered information and exit the questionnaire, click **Save and Close**. The system will save the information without any checks and the **Investment Profiling** page is displayed. The status of the current review is updated to "Review in progress" and the percentage of completion is calculated depending on the number of fields completed. The **Save and Close** button is available on most remaining pages of this process.
- If you want to continue to the next step, click **Next**. The system will check that all mandatory fields have been completed. If any are incomplete, an error message is displayed. When all mandatory fields are completed, the system saves all entered information and proceeds to the next step – Risk Tolerance – on the **Investment Profiling** page (questionnaire).

RISK TOLERANCE

SUMMARY

Investment Profiling

Risk is an unavoidable part of investing. Historically, investments with higher return potential have required a higher tolerance for risk. Therefore, by clearly defining your risk tolerance, we will be better prepared to choose the most appropriate investments for your portfolio.

What is your primary objective for investment? *

☐ Preservation of capital with minimal opportunity for capital growth.
☐ Generate a stream of income with less emphasis on capital appreciation.
☐ Steady capital appreciation with less emphasis on income generation.
☐ High capital appreciation with minimum income generation.

How would you best describe your income expectations over the next five years? *

☐ I expect my income to rise well ahead of inflation (through promotion, career developments etc.).
☐ I expect my income to keep pace with inflation.
☐ I expect my income to fall (as a result of retirement, reduced working-hours etc.).
☐ My income fluctuates from year to year (e.g. for self-employed investors).

How easily can you meet your unforeseen financial needs without liquidating your current investment? *

☐ Very easily after some planning.
☐ Easily with some planning.
☐ It would be difficult with some planning.
☐ It would be very difficult with some planning.

How would you describe your knowledge of investments? *

☐ None
☐ Limited
☐ Good
☐ Extensive

What is the maximum loss that you can tolerate (within 1 year) in a worst case scenario? *

☐ Less than 3%
☐ Between 3% and 10%
☐ Between 10% and 20%
☐ Between 20% and 25%
☐ Over 25%

What would you do with your investment if the market falls? *

☐ I am willing to accept minimal declines in the value of my investments, as capital preservation is my primary objective.
☐ I am willing to accept some declines, but I am not comfortable with moderate to extreme drops in the value of my investments.
☐ I am willing to accept moderate declines, but I am not comfortable with extreme drops in the value of my investments.
☐ I am prepared to take losses and large fluctuations in the value of my investments in order to maximize my long term returns.

4. Complete all fields on the page. These fields relate to the client's risk tolerance (e.g., primary investment objective, income expectations in the next five years, maximum loss toleration capacity, behaviour when markets fall, etc.). Mandatory fields are marked with an asterisk.
5. Do one of the following:
 - Use the **Save and Close** button or **Cancel** button as described earlier.
 - To return to a previous step of the process, click **Previous**. The system saves all entered information without any checks. The Previous button is available on most remaining pages of this process.
 - If you want to continue to the next step, click **Next**. The system will check that all mandatory fields have been completed. If any are incomplete, an error message is displayed. When all mandatory fields are completed, the system saves all entered information and proceeds to the next step – Summary – on the **Investment Profiling** page (questionnaire) where all information entered at the Time Horizon and Risk Tolerance steps are displayed. Based on the answers provided, the system will arrive at an Investment Profile and Investment Strategy. At this point, you can use the gauge to select another strategy that corresponds to the category of the Investment Profile or keep the strategy proposed by the system.

13.39 Managing Mutual Fund Systematic Plans

A Mutual Fund Systematic Plan is a flexible and automatic savings strategy that offers an opportunity for mutual fund investors to invest in smaller amounts periodically instead of lump sums. This type of disciplined savings vehicle reduces the average cost of units purchased and is good for investors who do not possess a high sophistication of financial markets.

The **Mutual Fund Plan** sub-menu is an option under **Advisory** in the **Portfolios** menu.

The management of Mutual Fund Systematic Plans is available, without restrictions, for users with the role of Relationship Manager. The role of Client Users cannot create or edit any mutual fund plans.

In the following sections, you will learn about:

- [Creating new Mutual Fund Systematic Plans](#)
- [Managing existing Mutual Fund Systematic Plans](#)

13.39.1 Creating new Mutual Fund Systematic Plans

The creation of a new Mutual Fund Systematic Plan is available only to users with the role of Relationship Manager.

To create a new Mutual Fund Systematic Plan:

- From the menu bar, go to **Portfolios > Mutual Fund Plan**.
- From the list of **Mutual Fund Plans**, click **New Proposal** button.

The **Mutual Fund Systemic Plan** page is displayed with a step approach for the creation process. The first step is Instructions.

Mutual Fund Systematic Plan

CANCEL SAVE AND CLOSE NEXT

3. In the Plan Definition and Objectives section, do the following:

a. Complete the following mandatory fields:

Field	Description
Periodic Amount	Enter the desired amount to invest periodically for the current plan. This field accepts numerical values only. Also enter the currency for this investment. By default, it is set to the currency of the portfolio.
Begin Date	Define the start date of the plan. By default, it is set to today's date.
Frequency	Define the frequency of the investment. By default, it is set to Month. Other options include Quarter, Semester, and Year.
Order Date	If the frequency of the plan is set to Month, enter an order date. This is the scheduled day in the month when the order is placed. Note: Mandatory field only if the plan is defined with a frequency set to Month.
First Investment Date	If the frequency of the plan is set to Month, the first investment date is automatically calculated, based on the value in the Order Date field. If, however, the frequency is set to Quarter, Semester, or Year, enter the first investment date for the plan.

- b. (Optional) If you want to specify an end date of the plan, click on **Specify End Date** radio button. Additional fields will be displayed for you to enter the end date. If you want to instead specify the number of cycles during which the plan remains valid, click **Enter Cycles**. In this case, the end date is automatically calculated.
- c. (Optional) If you want to increase the future investments of the current plan by a specific amount or percentage, complete this field.

4. In the Mutual Fund Investments section, define the funds in which you want to invest:
 1. In the **Instrument Code** field, type some text related to the desired mutual fund and select the fund from the drop-down list (see section [Quick result proposal](#)). If a drop-down list is not displayed or the desired fund is not on the list, click the  icon to search for the fund (see section [Advanced search](#)). After the fund is selected, its denomination is displayed.
 2. If the instrument in the **Instrument Code** field is identified to pay dividends, the **Dividend Payment Option** field is displayed. From the drop-down list, select one of the following to indicate how the client wants to handle dividends: Cash Payout or Dividend Reinvestment
 3. In the **Target Weight** field, enter the target weight for the fund. If you are defining more than one fund, the total target weight must be equal to 100%.
 4. (Optional) In the **Fee Setup Override** field, select to define the fee as an amount or percent.
 5. (Optional) To add another mutual fund, click **New Fund**.
 6. (Optional) To delete the selected fund, click .
3. (Optional) Do one of the following:
 - To cancel the creation process, click **Cancel**. This option is available at any time during the creation process. The **Cancel** pop-up is displayed asking you to confirm the action. You can:
 - Click **No** to go back to the creation process.
 - Click **Yes** to quit the creation process and to return to the list of plans.
 - To keep the Mutual Fund Systematic Plan in draft mode to complete at a later date, click **Save and Close**. This option is available at any time during the creation process. The draft will appear on the list of plans when you select the **Working** radio button.
4. When you are finished with defining the mutual funds in which you want to invest, click **Next** to proceed to the next step (Summary step) of the creation process. Note that if there is an error on the page, you will not be allowed to continue to the next step without first fixing the error.

The application performs a pre-trade compliance check and the **Mutual Fund Systemic Plan** page is displayed with the Summary step displayed in read-only mode of information that was entered in the previous steps. You can also see the cases raised by the pre-trade compliance check.

BACK

EDIT

CANCEL

SUSPEND

To view an existing plan:

- Go to **Portfolios > Mutual Fund Plan** from the menu bar.
The **Mutual Fund Systematic Plans** page is displayed.
- Click on the radio button (i.e., **Valid** (default), **Working**, **To Validate**, or **Inactive**) that represents the status of the plan you want to view.
A list of plans of the selected status is displayed.
- Click on the corresponding line or the **>** icon of the desired plan.
The **Plan Details** page is displayed for the selected plan.
- (Optional and available only for Valid or Inactive plans) To view the order list of an investment, click on the chevron of the desired investment from the list of past investments.

The order list is displayed below the list of plan investments. Further details of an order is available by clicking its chevron:

- If the selected order has an accounting status, the transaction details page is displayed. To return to the previous screen, click **Back**. To view details of the order and its executions that lead to the transaction, click the  icon next to **Order Code** field.
- If the selected order has an executed status, the order details screen is displayed. To return to the previous screen, click **Back**.

5. (Optional and available only for Valid or Inactive plans) To display the report associated with the plan, click **View Report**.

The report is displayed on a new page.

6. Click **Back** to return to the list of plans.

13.39.2.2 Editing an existing Valid plan or Working plan

Only users with the role of Relationship Manager can edit a mutual fund plan. The role of Client Users cannot edit any plans.

- To edit a Valid plan, click on the **Valid** radio button on the **Mutual Fund Systematic Plans** page. Then, click on the ✎ icon of the desired plan. Note that you can also edit a Valid plan from the **Plan Details** page. To do so, when viewing a plan, click **Edit**. When you edit a Valid plan, its status is updated to Working. Until the editing is finalised, the plan remains in this status and no order will be generated. The plan must be successfully validated again for its status to return to Valid.
- To edit a Working plan, click on the **Working** radio button on the **Mutual Fund Systematic Plans** page. Then, click on the ✎ icon of the desired plan.

The pages for editing a plan are similar to those for creating a plan. However, some attributes such as the begin date of the plan are not editable.

13.39.2.3 Validating or rejecting an existing plan

To validate or reject an existing plan:

1. On the **Mutual Fund Systematic Plans** page, click on the **To Validate** radio button to show the list of To Validate plans.
2. Click on the ✓ icon of the desired plan.
The **Validate Mutual Fund Systematic Plan** page of the selected plan is displayed.
3. Do one of the following:
 - To validate a plan, click on the **Validate** button. Similar to the creation process, a pop-up is displayed that allows you to insert your client's electronic signature, if required, into the associated Mutual Fund Systematic Plan report. (For more information about the signature pop-up, see section [Creating new Mutual Fund Systematic Plans](#).) The status of the plan is updated to Valid and orders will be generated based on the attributes and instructions specified for this plan. The plan is now accessible from the list of Valid plans.
 - To reject a plan, click on the **Reject** button. The status of the plan is updated to **Rejected**. The plan is now accessible from the list of Inactive plans.

13.39.2.4 Suspending an existing plan

To suspend an existing plan:

1. On the **Mutual Fund Systematic Plans** page, click on the **Valid** radio button to show the list of Valid plans.
2. Click on the ⓪ icon of the plan you want to suspend. Note that you can also suspend a Valid plan from the **Plan Details** page. To do so, when viewing a plan, click **Suspend**.

A confirmation pop-up is displayed asking you to confirm the action.

3. Do one of the following:
 - To suspend the plan, click **Yes**. The status of the selected plan is updated to **Suspended**. The plan is now accessible from the **Inactive** plans list. As long as the plan is suspended, no order will be generated. To change the status to Valid, you must reactivate the plan (see section [Reactivating a suspended plan](#)).
 - To cancel the suspension, click **No**.

13.39.2.5 Reactivating a suspended plan

To reactivate a suspended plan:

1. On the **Mutual Fund Systematic Plans** page, click on the **Inactive** radio button to show the list of Inactive plans.
2. Click on the  icon of the plan you want to reactivate. Note that you can also reactivate a suspended plan from the **Plan Details** page. To do so, when viewing a plan, click **Reactivate**.

A confirmation pop-up is displayed.

3. Do one of the following:
 - To reactivate the plan, click **Yes**. The status of the selected plan is updated to Valid. The plan is now accessible from the list of Valid plans.
 - To cancel the reactivation, click **No**.

13.39.2.6 Cancelling an existing plan

To cancel an existing plan:

1. On the **Mutual Fund Systematic Plans** page, click on the **Valid** radio button to show the list of Valid plans.
2. Click on the  icon of the plan you want to cancel. Note that you can also cancel a valid plan from the **Plan Details** page. To do so, when viewing a plan, click **Cancel**.

A confirmation pop-up is displayed.

3. Do one of the following:
 - To cancel the plan, click **Yes**. The status of the selected plan is updated to Cancelled. The plan is now accessible from the **Inactive** plans list. No further actions can be performed on this plan.
 - To stop the cancellation, click **No**.

13.39.2.7 Deleting an existing plan

Only users with the role of Relationship Manager can delete a mutual fund plan. The role of Client Users cannot delete any plans.

You can only delete Working plans.

To delete an existing Working plan:

1. On the **Mutual Fund Systematic Plans** page, click on the **Working** radio button to show the list of Working plans.
2. Click on the  icon of the plan you want to delete. Note that you can also delete a working plan from the **Plan Details** page. To do so, when viewing a plan, click **Delete**.

A confirmation pop-up is displayed.

3. Do one of the following:
 - To delete the plan, click **Yes**. The plan is deleted and is no longer accessible.
 - To cancel the deletion, click **No**.

13.40 Managing Elective Corporate Actions

The **Elective Corporate Actions** sub-menu in the **Portfolios** menu lets you specify the choice for each corporate action (see section [Elective Corporate Actions](#)).

This sub-menu is available when a single portfolio, a group of portfolios or a basket of portfolios is in context.

13.41 Managing reports

The **Reports & Activities** sub-menu in the **Portfolios** menu lets you:

- View or delete generated client statements / reports (see section [Viewing or deleting generated reports](#)).
- Generate a new client statement / report (see section [Generating reports](#)).

13.41.1 Viewing or deleting generated reports

The **Reports** sub-menu in the **Portfolios** menu lets users view and generate client statements / reports.

To view or delete generated statements / reports:

1. From the menu bar, go to **Portfolios > Reports**.

The **Reports** page is displayed with the list of statements / reports that were previously generated, if any.

Reports								REFRESH	CREATE REPORT
Report Name	Object	Hierarchy	Launch Date	Created By	From	To	Status		
Mutual Fund Systematic Plan	Portfolio TCIB_PTF11	No	26/02/2019	MANAGER	26/02/2019	26/02/2019	Completed		
MIFID 2015 Questionnaire	Client CLIENT_HIER	No	19/02/2019	MANAGER	19/02/2019	19/02/2019	Completed		
MIFID 2015 Questionnaire	Client CLIENT_HIER	No	19/02/2019	MANAGER	19/02/2019	19/02/2019	Completed		
Portfolio Investment Proposal Report	Portfolio TCIB_PTF11	No	19/02/2019	MANAGER	19/02/2019	19/02/2019	Failed		

2. To view a report, click the icon of the desired statement / report in the **Report** column. You can only view statements / reports that have status Completed.

The selected statement / report is automatically displayed in PDF format in a new browser window.

3. (Optional) To print the statement / report, click **Print**.
4. (Optional) You can refresh the list of statements / reports by clicking **Refresh**.

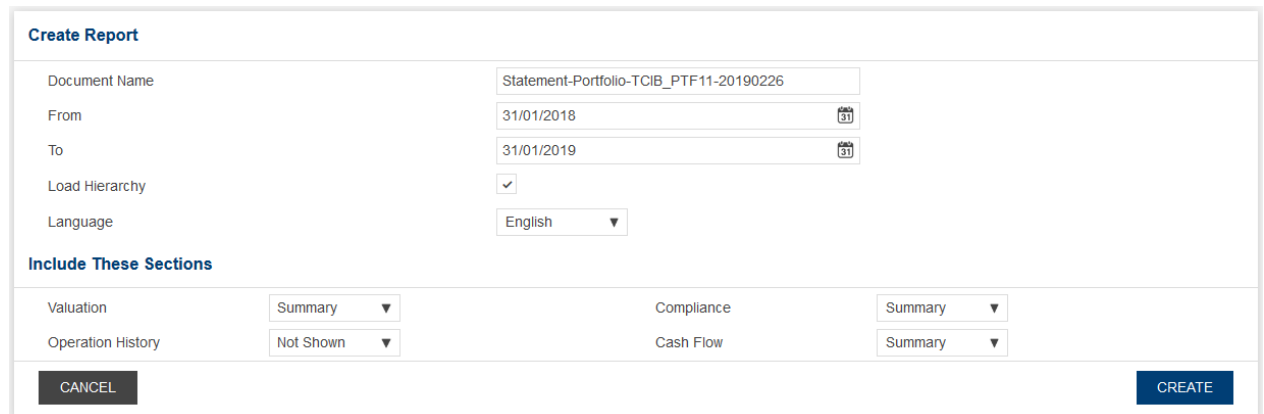

5. To delete a report, click the  icon of the desired statement / report in the **Report** column. The **Confirm Delete** pop-up is displayed asking you to confirm the action.
6. Do one of the following:
 - Click **No** to quit the delete process and to go back to the Reports page.
 - Click **Yes** to delete the statement / report. The Reports page is refreshed.
7. (Optional) If the portfolio belongs to a portfolio hierarchy as a parent portfolio, you can load the hierarchy by checking the **Hierarchy** checkbox on the portfolio banner. (For more information about this checkbox, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)). Once the hierarchy is activated, the list of reports is displayed in detailed and flat mode.
8. (Optional) You can switch to view another or all portfolios of the client, group, or basket from the drop-down list of the **Change Portfolio** field on the portfolio banner. (For more information about this field, see section [Portfolio banner for Client Users](#) or [Portfolio banner for RM Users](#)).

13.41.2 Generating reports

The **Reports** sub-menu in the **Portfolios** menu lets users view and generate client statements / reports.

To generate a statement / report:

1. From the menu bar, go to **Portfolios > Reports**.
The **Reports** page is displayed with the list of statements / reports that were previously generated, if any.
2. Click **Create Report**.
The **Create Report** page is displayed.

Create Report			
Document Name	Statement-Portfolio-TCIB_PTF11-20190226		
From	31/01/2018		
To	31/01/2019		
Load Hierarchy	☒		
Language	English ▼		
Include These Sections			
Valuation	Summary ▼	Compliance	Summary ▼
Operation History	Not Shown ▼	Cash Flow	Summary ▼
CANCEL		CREATE	

3. Enter the details of the statement / report to create and then, click **Create**.
The report generation is launched and the **Reports** page is displayed. The newly created statement / report is displayed on the list with Pending status. You can view it when the status changes to Completed (see section [Viewing or deleting generated reports](#)).

13.42 Managing activities

The **Reports & Activities** sub-menu in the **Portfolios** menu lets RM users schedule and maintain the following activities (e.g., tasks) with other users for the selected portfolio:

- [Viewing existing activities](#)
- [Creating activities](#)
- [Editing activities](#)
- [Deleting activities](#)
- [Linking documents to activities](#)
- [Unlinking documents from activities](#)
- [Linking categories and associated clients/portfolios to activities](#)
- [Unlinking categories and associated clients/portfolios from activities](#)

Note: The information provided in these sections describe how the activities are managed from the Client menu. All steps described also apply to how activities are managed from the Portfolio menu except the initial access point from the menu bar, which is **Portfolio > Reports & Activities** instead of **Client > Activities**.

14 Understanding the Instruments menu

This section describes the purpose of the **Instruments** menu in the Channels application.

Under the **Instruments** menu, the following functions are available:

- [Viewing instruments held as assets](#)
- [Obtaining market information](#)
- [Managing personal instrument watchlist](#)

14.1 Viewing instruments held as assets

The **Held Assets** sub-menu of the **Instruments** menu provides an analysis of the instruments held as assets in the portfolios. This sub-menu is only available to users who have the role of a RM.

From the **Held Assets** sub-menu, the following functions are available:

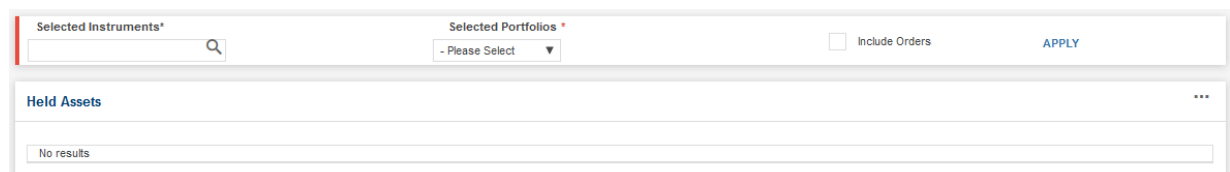

- [Viewing instruments held as assets in portfolios](#)
- [Buying or selling quantities of instruments](#)
- [Viewing details of a position](#)

14.1.1 Viewing instruments held as assets in portfolios

To view instruments held as assets in a portfolio:

1. From the menu bar, go to **Instruments > Held Assets**.

The **Held Assets** page with an empty banner is displayed.

2. In the **SELECTED INSTRUMENTS** field:
 - Type some text in the field and select one of the proposed instrument from the automatically proposed list (see section [Quick result proposal](#))
 - Type some text in the field and click the  icon to access the **Advanced search** page on the Instruments tab.
 - Click the  icon to immediately access the **Advanced Search** page on the Instruments tab.
3. In the **SELECTED PORTFOLIOS** field, select one of the following portfolio context from the drop-down list:

- All portfolios
 - A portfolio group
 - The portfolio basket
- (Optional) To include orders that are in non-accounted status, check **Include Orders**. Non-accounted orders are italicized and greyed to distinguish from accounted status orders.
 - Click **APPLY**.
- The page is refreshed and the list of positions is displayed.

- To change the scope of the search for instruments or portfolios, click **EDIT** and repeat the steps above.

14.1.2 Buying or selling quantities of instruments

The steps are the same as [Buying or selling quantities of an instrument](#) when [Viewing assets](#) as described in section [Understanding the Portfolios menu](#).

14.1.3 Viewing details of a position

The steps are the same as [Viewing details of a position](#) when [Viewing assets](#) as described in section [Understanding the Portfolios menu](#).

14.2 Obtaining market information

The **Market Info** sub-menu of the **Instruments** menu displays a table of market indices and a table of currency exchange rates. These tables give you an at-a-glance overview of the market and currency's current performances, including:

- Quote (for market indices only)
- Old quote (for market indices only)
- Exchange rate (for currency only)
- Old exchange rate (for currency only)
- Change (amount)
- Change (%)

- Trend represented by icons ➡ (change less than +/- 0.01%), ↗ (increasing), ↘ and (decreasing).

To obtain market information:

1. From the menu bar, go to **Instruments > Market Info**.

The **Market Info** page is displayed.

Market Info						
Market Indices						
Instrument Code	Instrument Denomination	Quote	Old Quote	Change	Change %	Trend

USD	EUR	0.8616	1.1628	-0.3012	-25.90	↘

2. (Optional) To view Price History graphs for particular market indices or currency rates, click the ↗ icon of the desired index or currency.

The **Price History** pop-up is displayed.

14.3 Managing personal instrument watchlist

The **My Watchlist** sub-menu of the **Instruments** menu displays a list of instruments / securities that you have selected to track. It gives you an at-a-glance overview of the instrument's current performance, including:

- Current quote
- Old quote
- Change (amount)
- Change (%)
- Trend represented by icons ➡ (change less than +/- 0.01%), ↗ (increasing), ↘ and (decreasing).

Under the **My Watchlist** sub-menu, the following functions are available:

- [Adding instruments to the watchlist](#)
- [Viewing Price History graph](#)
- [Deleting instruments from the watchlist](#)
- [Placing buy orders for instruments on the watchlist \(for Client Users only\)](#)

14.3.1 Adding instruments to the watchlist

To add an instrument to the watchlist:

1. From the menu bar, go to **Instruments > My Watchlist**.

The **My Watchlist** page is displayed with the user's watchlist.

My Watchlist							ADD INSTRUMENT	
Instrument Code	Instrument Denomination	Current Quote	Old Quote	Change	Change %	Trend		
ABB	ABB							
AIR_FRANCE	AIR_FRANCE	20.04 EUR	8.55 EUR	11.49 EUR	134.39 %			
CARR-PA	CARREFOUR	25.50 EUR	25.00 EUR	0.50 EUR	2.00 %			
CBL_ROCHE	CBL_ROCHE	254.20 CHF						
CH0014852781	Swiss Life	260.00 EUR	360.00 EUR	-100.00 EUR	-27.78 %			

2. Click **ADD INSTRUMENT**.

The **Advanced Search** page on the Instruments tab is displayed.

3. Search for the desired instruments. For information about how to conduct the search, see section [Searching for instruments](#).
4. From the list of search results, place a checkmark next to each desired instrument and click **Select instrument(s)**.

The selected instruments are added to the watchlist. Note that instruments that were already present on the watchlist will not be added twice.

14.3.2 Viewing Price History graph

To view the Price History graph:

1. From the menu bar, go to **Instruments > My Watchlist**.
The **My Watchlist** page is displayed with the user's watchlist.
2. Click the  icon of the desired instrument to view its Price History graph.
The **Price History** pop-up is displayed.
3. To close the **Price History** pop-up, click the **X** icon.

14.3.3 Deleting instruments from the watchlist

To delete an instrument from the watchlist:

1. From the menu bar, go to **Instruments > My Watchlist**.
The **My Watchlist** page is displayed with the user's watchlist.
2. Click the  icon of the desired instrument to delete it from the watchlist.

14.3.4 Placing buy orders for instruments on the watchlist (for Client Users only)

To place buy orders for an instrument on the watchlist:

1. From the menu bar, go to **Instruments > My Watchlist**.
The **My Watchlist** page is displayed with the user's watchlist.
2. Click the  icon of the desired instrument to place a buy order for Securities and IPO's. For more information about how to place orders, see sections [Placing securities orders](#), [Placing IPO Subscription orders](#).
3. **Note:** When instruments are past the IPO subscription end date and earlier than the first dealing date, then the  icon will be disabled.
4. **Note:** For Private Equity instruments, the  icon will be disabled.

15 Understanding the Create Client menu

The information provided in this section is specific to the Customer Relationship Management (CRM) module, which is not part of the standard packaging and is sold separately.

This section describes the purpose of the **Create Client** menu in the Channels application.

Under the **Create Client** menu, the following functions are available:

- [Creating prospects](#)
- [Creating persons / client](#)
- [Creating organizations](#)
- [Managing Client Onboardings](#)

15.1 Creating prospects

The **Quick Create Person** submenu of the **Create Client** menu lets you quickly capture basic contact information about a potential client/prospect.

To create a prospect:

1. On the menu bar, click the  icon.
2. Select **Quick Create Person**.
The **Quick Create Person** page is displayed.
3. Complete the fields. Mandatory fields are marked with an asterisk.
4. Click **Create Person** to save the new information.

15.2 Creating persons / client

The **Create Person** submenu of the **Create Client** menu lets you create a client.

To create a person/client:

1. On the menu bar, click the  icon.
2. Select **Create Person**.
The **Create Person - Identification** page is displayed.

- To go back to the **Create Person – Contact Information**, click **Edit Contact Information**.
- To save all information and to confirm the creation, click **Create Person**.

15.3 Creating organizations

The **Create Organization** submenu of the **Create Client** menu lets you capture information about a group, such as a corporation or foundation.

To create an organization:

1. On the menu bar, click the  icon.
2. Select **Create Organization**.
The **Create Organization - Identification** page is displayed.
3. Complete the following mandatory fields:

Field	Description
Name	Enter the name of the organization.
Booking Centre	From the drop-down list, select the name of the booking centre.
Status	From the drop-down list, select the status of the new organization.

4. Do one of the following:

 - To go to the next step of the process, click **Next**.The **Create Organization – Contact Information** page is displayed.
5. Complete the fields. Mandatory fields are marked with an asterisk.
6. Do one of the following:
 - To cancel the creation, click **Cancel**.
 - To go back to the previous page, click **Previous**.
 - To go to the next step of the process, click **Next**.The **Create Organization – Confirmation** page is displayed with the organization's information displayed in read-only mode.
7. Do one of the following:
 - To cancel the creation, click **Cancel**.
 - To go back to the **Create Organization - Identification** page, click **Edit Identification**.
 - To go back to the **Create Organization – Contact Information**, click **Edit Contact Information**.
 - To save all information and to confirm the creation, click **Create Organization**.

15.4 Managing Client Onboardings

The onboarding process assists RM Users with collecting and organizing all financial information of a prospective client during their initial meetings. After the data is collected, RM Users can use the information to determine how to move forward with the financial planning and relationship of these prospects.

The following sections describe:

- [Creating Client Onboardings](#)
- [Editing Client Onboardings](#)
- [Deleting Client Onboardings](#)

- [Validating Client Onboardings](#)

15.4.1 Creating Client Onboardings

You can create a Client Onboarding for a person, organization, or customer. Note that creating a Client Onboarding does not automatically create a new client in the system until the onboarding process is validated (see section [Validating Client Onboardings](#)).

To create a Client Onboarding:

1. On the menu bar, click the  icon.
2. Select **Client Onboarding**.

The **Client Onboarding** page is displayed with a list of onboardings, if any.

3. Click on one of the three tabs – Person, Organization, or Customer – to indicate the type of client for which you are onboarding.
4. Click **New Client Onboarding** link.

The **Client Onboarding - Definition** page is displayed with a step approach for the creation process:

- [Definition step](#)
- [Step Completion step](#)
- [Summary step](#)

15.4.1.1 Definition step

The **Client Onboarding – Definition** page is displayed with the first step – Definition – of the creation process.

1. In the Steps section located on the left of the page, click on each individual step (e.g., Identification, MiFID Profile, Financial Situation, Signature) to show the fields of the selected step. Mandatory steps are marked with an asterisk. You are not required to complete the steps in any particular order.
Details and fields related to the selected step are shown on the right side of the page.
2. Complete the fields. Mandatory fields are marked with an asterisk.

Icons are displayed next to each step to indicate whether the information that you provided in each step is sufficient to create the Client Onboarding. No icon displayed indicates that you have not looked into the step yet.

3. Do one of the following:

- To cancel the creation process, click **Cancel**. The **Cancel** pop-up is displayed asking you to confirm the action.
- To save the information in draft mode, click **Save and Close**. The status of this Client Onboarding is In Progress and you can come back at any time to complete it (see section [Editing Client Onboardings](#)).
- To return to a previous page, click **Previous**.
- To proceed to the final step ([Summary step](#)) Step Completion step of the creation process, click **Next**.

15.4.1.3 Summary step

The **Client Onboarding – Summary** page is displayed with the Summary step in read-only mode of information that was entered in the previous step (see section [Step Completion step](#)).

Onboard Client

Do one of the following:

- To cancel the creation process, click **Cancel**. The **Cancel** pop-up is displayed asking you to confirm the action.
- To save the information in draft mode, click **Save and Close**. The status of this Client Onboarding is In Progress and you can come back at any time to complete it (see section [Editing Client Onboardings](#)).
- To return to a previous page to make further updates, click **Previous**.
- To complete the creation process, click **Onboard Client**. Note that this button is only enabled when all mandatory steps and fields have been completed.

15.4.2 Editing Client Onboardings

You can only edit Client Onboardings that are set with status In Progress and:

- You created the Client Onboarding.
- or
- You were assigned the Client Onboarding.

Person	Organization	Customer					
NEW CLIENT ONBOARDING							
Description	Assigned To	Due	Last Update	Status	Mandatory Steps		
Investment Seminar opportunity for Jackson Smith	Meera Reed	17/06/2018	14/06/2018	In Progress	1 / 2 Completed		
Educational workshop with Ana Sculley		19/06/2018	15/06/2018	In Progress	2 / 2 Completed		
Investment Seminar for Abdul Obrist	Meera Reed	19/06/2018	14/06/2018	In Progress	2 / 2 Completed		

To edit an existing Client Onboarding:

1. On the menu bar, click the icon.
2. Select **Client Onboarding**.
The **Client Onboarding** page is displayed with a list of onboardings.
3. Click on one of the three tabs – Person, Organization, or Customer – where the relevant Client Onboarding is saved in draft mode.
4. Click on the icon of the Client Onboarding you want to edit.
The **Client Onboarding – Definition** page is displayed.
5. Edit the desired fields in the **Client Onboarding – Definition** page and **Client Onboarding – Step Completion** page. For more information about completing and saving the information in the fields of these pages, see section [Creating Client Onboardings](#).

15.4.3 Deleting Client Onboardings

You can only delete Client Onboardings that you created and are set with status In Progress.

Person	Organization	Customer	NEW CLIENT ONBOARDING					
Description	Assigned To	Due	Last Update	Status	Mandatory Steps			
Investment Seminar opportunity for Jackson Smith	Meera Reed	17/06/2018	14/06/2018	In Progress	1 / 2 Completed			
Educational workshop with Ana Sculley		19/06/2018	15/06/2018	In Progress	2 / 2 Completed			
Investment Seminar for Abdul Obrist	Meera Reed	19/06/2018	14/06/2018	In Progress	2 / 2 Completed			

To delete an existing Client Onboarding:

1. On the menu bar, click the icon.
2. Select **Client Onboarding**.
The **Client Onboarding** page is displayed with a list of onboardings.
3. Click on one of the three tabs – Person, Organization, or Customer – where the relevant Client Onboarding is saved in draft mode.
4. Click on the icon of the Client Onboarding you want to delete.
A confirmation pop-up is displayed asking you to confirm the action.
5. Click **Yes**.

15.4.4 Validating Client Onboardings

You can only validate Client Onboardings that you created.

Validating a Client Onboarding will finalize the onboarding process. The system captures all client information from the onboarding process to create a new client.

Person	Organization	Customer					
NEW CLIENT ONBOARDING							
Description	Assigned To	Due	Last Update	Status	Mandatory Steps		
Investment Seminar opportunity for Jackson Smith	Meera Reed	17/06/2018	14/06/2018	In Progress	1 / 2 Completed		
Educational workshop with Ana Sculley		19/06/2018	15/06/2018	In Progress	2 / 2 Completed		
Investment Seminar for Abdul Obrist	Meera Reed	19/06/2018	14/06/2018	In Progress	2 / 2 Completed		

To validate a Client Onboarding:

1. On the menu bar, click the icon.
2. Select **Client Onboarding**.
The **Client Onboarding** page is displayed with a list of onboardings.
3. Click on one of the three tabs – Person, Organization, or Customer – where the relevant Client Onboarding is saved in draft mode.
4. Click on the icon of the Client Onboarding you want to validate.
The system performs a validation check and then, a confirmation pop-up is displayed asking you to confirm the action.
5. Click **Yes**.

The ***Client View*** page of the newly-created client is displayed. The Client Onboarding for this client is closed and removed from the list of onboardings.

16 Understanding the Notes menu

The information provided in this section is specific to the Customer Relationship Management (CRM) module, which is not part of the standard packaging and is sold separately.

This section describes the purpose of the **Notes** menu in the Channels application.

Under the **Notes** menu, the following functions are available:

- [Viewing existing notes](#)
- [Creating notes](#)
- [Deleting notes](#)
- [Editing notes](#)
- [Linking documents to notes](#)
- [Unlinking documents from notes](#)
- [Linking categories and associated clients/portfolios to notes](#)
- [Unlinking categories and associated clients/portfolios from notes](#)
- [Attaching one note to multiple clients](#)
- [Launching a workflow for a note](#)

16.1 Viewing existing notes

The **Notes** menu shows a list of all notes attached to the selected client.

To view a note:

1. Click the  icon located on the top right of the main menu. Alternatively, you can also click **Show All** in the Notes section of the **Client View** page.

The **Notes** page is displayed with a list of notes, if any.

2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Enter from and to dates to apply a date filter.
 - Enter part or all of the note's subject in the **Search on Subject** field, then click on the magnifying glass icon.

3. To view details of a note on the list, click the > icon of the desired note.

Details of the selected note are shown on the right side of the list.

16.2 Creating notes

When creating notes for selected clients, you can also link categories or associated clients to the new notes.

To create a new note:

1. Click the  icon located on the top right of the main menu.

The **Notes** page is displayed with a list of notes, if any.

2. Click the  icon to create a new note.
The **New Note** section is displayed.
3. Complete the fields to create the note. Mandatory fields are marked with an asterisk.
4. (Optional) Link categories and associated clients to the note. For more information, see section [Linking categories and associated clients/portfolios to notes](#).
5. Click **Save** to save the new note.

16.3 Deleting notes

To delete a note:

1. Click the  icon located on the top right of the main menu. Alternatively, you can also click **Show All** in the Notes section of the **Client View** page.
The **Notes** page is displayed with a list of notes, if any.
2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Enter from and to dates to apply a date filter.
 - Enter part or all of the note's subject in the **Search on Subject** field, then click on the magnifying glass icon.
3. Click the > icon of the note that you want to delete.
Details of the selected note are shown on the right side of the list.
4. Click **Delete** to delete the note. When a confirmation message is displayed asking you to confirm the deletion, click **Yes**.
The selected note is deleted.

16.4 Editing notes

All fields except the **Subject** and **Type** (i.e., Public, Shared, Private, Confidential, and Chart) are editable.

To edit a note:

1. Click the  icon located on the top right of the main menu. Alternatively, you can also click **Show All** in the Notes section of the **Client View** page.
The **Notes** page is displayed with a list of notes, if any.
2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Enter from and to dates to apply a date filter.
 - Enter part or all of the note's subject in the **Search on Subject** field, then click on the magnifying glass icon.
3. Click the > icon of the note that you want to edit.
Details of the selected note are shown on the right side of the list.

4. Click **Edit** and do one or more of the following:
 - In the free text field, update the description of the note.
 - To link categories and associated clients to the note, see section [Linking categories and associated clients/portfolios to notes](#).
 - To unlink categories and associated clients to the note, see section [Unlinking categories and associated clients/portfolios from notes](#).
5. Click **Save** to save all changes.

16.5 Linking documents to notes

One or more documents can be linked to a note.

To link a document to a note:

1. Click the  icon located on the top right of the main menu. Alternatively, you can also click **Show All** in the Notes section of the **Client View** page.
The **Notes** page is displayed with a list of notes, if any.
2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Enter from and to dates to apply a date filter.
 - Enter part or all of the note's subject in the **Search on Subject** field, then click on the magnifying glass icon.
3. Click the > icon of the desired note.
Details of the selected note are shown on the right side of the list.
4. In the Documents section, click **Show All**.
The **Documents** page is displayed.
5. Click the  icon and do one of the following:
 - To link an existing document, select **Link Document**. Then, in the Link Document section, type relevant characters of the document name in the **Documents** field and then, click on the magnifying glass. The **Documents** page is displayed with a list of relevant search results. Place a checkmark next to the desired document(s) and click the **Link Documents** link. You are returned to the previous page where you can click **Save** to confirm the link.
 - To link a document that has not been created, select **Create New Document**. The **Documents** page is displayed where you can create the document (see section [Creating documents](#)).

16.6 Unlinking documents from notes

To unlink a document from a note:

1. Click the  icon located on the top right of the main menu. Alternatively, you can also click **Show All** in the Notes section of the **Client View** page.

The **Notes** page is displayed with a list of notes, if any.

2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Enter from and to dates to apply a date filter.
 - Enter part or all of the note's subject in the **Search on Subject** field, then click on the magnifying glass icon.
3. Click the > icon of the desired note.
Details of the selected note are shown on the right side of the list.
4. In the Documents section, click **Show All**.
5. In the Title section, click the > icon of the document that you want to unlink.
Details of the selected document are shown on the right side of the list.
6. Click **Unlink**. When a confirmation message is displayed asking you to confirm the action, click **Yes**.
The selected document is unlinked.

16.7 Linking categories and associated clients/portfolios to notes

A note can be linked to one or more clients and categories.

To link categories and clients to a note:

1. Click the  icon located on the top right of the main menu. Alternatively, you can also click **Show All** in the Notes section of the **Client View** page.
The **Notes** page is displayed with a list of notes, if any.
2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Enter from and to dates to apply a date filter.
 - Enter part or all of the note's subject in the **Search on Subject** field, then click on the magnifying glass icon.
3. Click the > icon of the desired note.
Details of the selected note are shown on the right side of the list.
4. Click **Edit** and do one or more of the following:
 - In the Categories section, additional categories can be linked to this note. For more information about categories, see section [Understanding the Category Maintenance menu](#). Do one of the following to perform the link:
 - Begin typing the category name and a list of relevant names are displayed from which the category can be selected.
 - To search for a category, click on the magnifying glass icon. You will be redirected to the **Category Maintenance** page to select and/or search for categories.
 - In the Links section, clients/portfolios associated with the selected client can be linked to this note. Do one of the following to perform the link:

- In the relevant fields, begin typing the name of the client/portfolio and a list of relevant names are displayed from which the client/portfolio can be selected.
 - To search for a client, click on the magnifying glass icon in the **Clients** field. You will be redirected to the **Advanced Search** page to search for the clients. For more information, see section [Searching for clients](#).
 - To search for a portfolio, click on the magnifying glass icon in the **Portfolios** field. You will be redirected to the **Advanced Search** page to search for the portfolios. For more information, see section [Searching for portfolios](#).
5. Click **Save** to save all changes.

16.8 Unlinking categories and associated clients/portfolios from notes

To unlink categories and associated clients from a note:

1. Click the  icon located on the top right of the main menu. Alternatively, you can also click **Show All** in the Notes section of the **Client View** page.
The **Notes** page is displayed with a list of notes, if any.
2. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Enter from and to dates to apply a date filter.
 - Enter part or all of the note's subject in the **Search on Subject** field, then click on the magnifying glass icon.
3. Click the > icon of the desired note.
Details of the selected note are shown on the right side of the list.
4. Click **Edit** and do one or more of the following:
 - In the Links section, click the **x** next to the name of the client/portfolio to delete.
 - In the Categories section, click the **x** next to the name of the category to delete.
5. Click **Save** to save all changes.

16.9 Attaching one note to multiple clients

To attach one note to multiple clients:

1. Search for clients who you would like to attach the same note (see sections [Rapid search](#) and [Searching for clients \(for CRM module only\)](#)).
2. From the Clients tab of the **Advanced Search** page, use the checkboxes to select the desired clients from the search result list.
3. Click **Manage Categories and Notes** link.
The **Category and Notes management** pop-up is displayed.
4. Select the **Attach Note** radio button and complete the subject and short description fields.
5. Click **OK**.

The same note is attached to the selected clients.

The screenshot displays the 'Category and Notes management' dialog box over a client list. The dialog has two main options: 'Attach Note' (selected) and 'Assign Category'. The 'Attach Note' option includes input fields for 'Enter a Subject' and 'Enter a description'. The 'Assign Category' option is currently inactive. The background interface shows a list of clients with checkboxes, and a sidebar with filters for Manager, Currency, Status, Client Type, Segmentation, and Monitoring.

16.10 Launching a workflow for a note

To launch a workflow for a note:

1. Click the  icon located on the top right of the main menu. Alternatively, you can also click **Show All** in the Notes section of the **Client View** page.
The **Notes** page is displayed with a list of notes, if any.
2. Select the desired workflow from the flyout on the right (see the Navigation Principle [Launching a workflow](#) for more details).

17 Understanding the Notifications menu

This section describes the purpose of the **Notifications** menu in the Channels application.

Under the **Notifications** menu, the following functions are available:

- [Viewing notifications in inbox](#)
- [Deleting notifications](#)
- [Marking notifications read or unread](#)

17.1 Viewing notifications in inbox

The **Notifications** menu shows a list of all notifications triggered by the mandatory or subscribed private alerts.

To view notifications:

1. Click the  icon located on the top right of the main menu. The number referenced in the icon indicates the number of unread notifications in your inbox. Using the icon will only display your last five notifications. To view all, click **View All Notifications**.

The **Notification Inbox** page is displayed with a list of notifications. Unread notification are marked in bold.

Notifications					MARK READ	MARK UNREAD	DELETE
☐ Select All							
Notification	Type	Category	Priority	Date and Time			
☐ No investment proposal since a defined threshold	Alert		Medium	21/02/2019 08:15:00		>	
☐ Liquidity ratio matches defined threshold	Alert		Medium	21/02/2019 08:15:00		>

☐ No investment proposal	Alert		Medium	21/02/2019 07:15:00		>	

2. (Optional) From this list, you can:
 - Click **Back** to return to the list of notifications.
 - Change the status of a notification (see section [Marking notifications read or unread](#)).
 - Delete a notification (see section [Deleting notifications](#)).
3. To view details of a notification, click on its corresponding line on the list. The **Notification Detail** page is displayed for the selected notification.

BACK

17.2 Deleting notifications

You can delete one or multiple notifications at a time. To delete a notification:

- Click the  icon located on the top right of the main menu and then, click **View All Notifications**.

The **Notification Inbox** is displayed.

- Do one of the following:
 - To delete multiple notifications, place a checkmark in the Select column next to the notifications that you want to delete and then, click **Delete**.
 - To delete a single notification, click the **Delete** icon located next to the notification that you want to delete.

The **Confirm Delete** pop-up is displayed asking you to confirm the action.

- Do one of the following:
 - Click **No** to quit the delete process. The inbox remains the same with no refresh.
 - Click **Yes** to confirm the deletion.

The list of notifications in the folder is refreshed.

17.3 Marking notifications read or unread

Unread notifications are marked in bold. After viewing a notification, you can again mark the notification as unread.

To mark the status of a notification in the inbox:

1. Click the  icon located on the top right of the main menu and then, click **View All Notifications**.

The **Notification Inbox** is displayed.

2. Do one of the following:
 - To change the status of read notifications to unread, place a checkmark in the Select column next to one or more desired notifications and click **Mark Unread**. The notification will be highlighted in bold.
 - To change the status of unread notifications to read, place a checkmark in the Select column next to one or more desired notifications and click **Mark Read**.

18 Understanding the Messages menu

This section describes the purpose of the **Messages** menu in the Channels application.

Under the **Messages** menu, the following functions are available:

- [Viewing messages in inbox](#)
- [Viewing draft messages](#)
- [Viewing sent messages](#)
- [Composing new messages](#)
- [Deleting messages](#)
- [Searching messages](#)
- [Marking messages read or unread](#)

18.1 Viewing messages in inbox

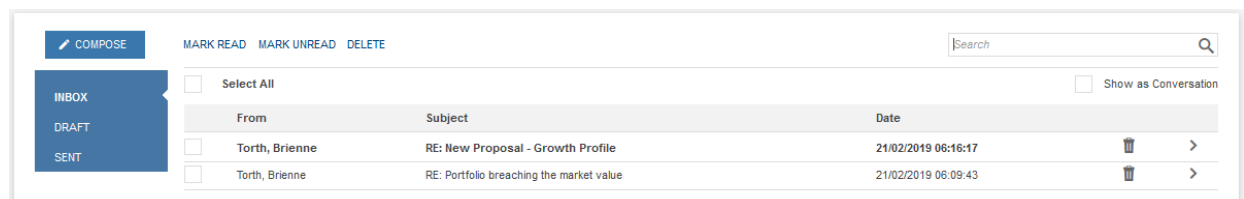

The Inbox folder in the **Messages** menu shows a list of all messages received.

To view messages in the inbox:

1. Click the  envelope icon located on the top right of the main menu. The number referenced in the icon indicates the number of unread messages in your inbox. Using the icon will only display your last five messages. To view all, click **Go to inbox**.

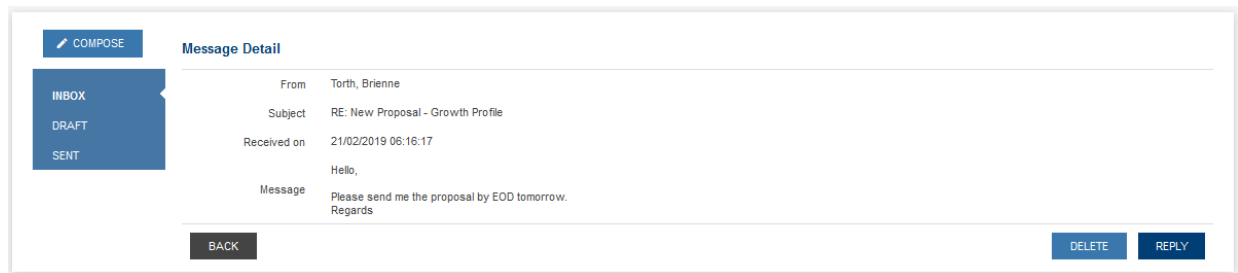

The **Message Inbox** page of the Inbox folder is displayed by default with a list of messages. Unread messages are marked in bold.

2. (Optional) From this list, you can:
 - Arrange messages by conversation by clicking **Show as Conversation**.
 - Search for messages (see section [Searching messages](#)).
 - Mark messages as read or unread (see section [Marking messages read or unread](#)).
 - Delete messages (see section [Deleting messages](#)).

3. To view details of a message, click on its corresponding line on the list.

The **Message Detail** page is displayed for the selected message.

4. Do one of the following:
 - To reply to the message, click **Reply**. The **Message Reply** page is displayed where you can enter text and then, click **Send**. Or, you can click **Save As Draft** to save the draft message.
 - To return to the list of messages, click **Back**.
 - To delete the message, click **Delete**. The **Confirm Delete** pop-up is displayed asking you to confirm the action:
 - Click **No** to quit the delete process and to go back to the message detail.
 - Click **Yes** to delete the message. The Inbox folder is refreshed.

18.2 Viewing draft messages

The Drafts folder in the **Messages** menu shows a list of all messages saved as draft by you.

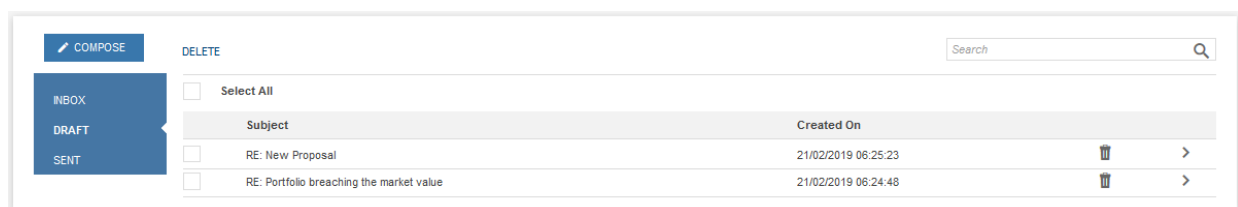

To view draft messages:

1. Click the  envelope icon located on the top right of the main menu and then, click **Go to inbox**.

The **Message Inbox** page of the Inbox folder is displayed by default.

2. Select the Draft folder.

The **Draft Message** page is displayed with the list of messages that you have saved as drafts.

3. (Optional) From this list, you can:
 - Search for messages (see section [Searching messages](#)).
 - Delete messages (see section [Deleting messages](#)).
4. To view details of a draft message or to edit it, click on its corresponding line on the message list.

The **Compose New Message** page is displayed for the selected message.

5. Do one of the following:
 - To return to the list of draft messages, click **Cancel**.
 - To send the draft message with no changes, click **Send**.
 - To modify and send the draft message, update the fields and click **Send**. For more information about the page and fields, see section [Composing new messages](#).
 - To modify and save the message as draft again, update the fields and click **Save As Draft**.

18.3 Viewing sent messages

The Sent folder in the **Messages** menu shows a list of all messages sent by you.

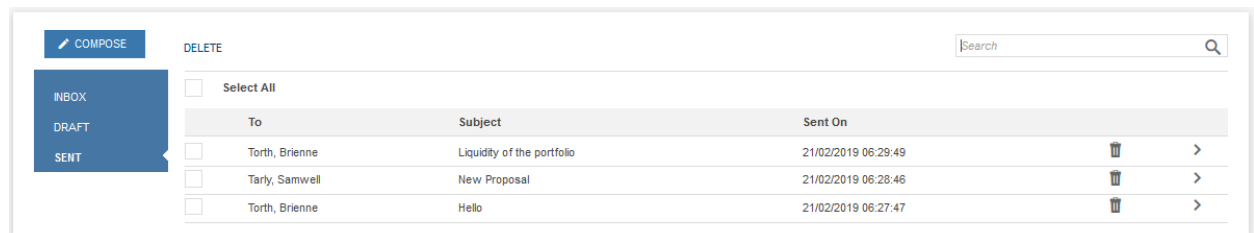

To view messages you have sent:

1. Click the  envelope icon located on the top right of the main menu and then, click **Go to inbox**.

The **Message Inbox** page of the Inbox folder is displayed by default.

2. Select the Sent folder.

The **Sent Message** page is displayed with the list of messages you have sent.

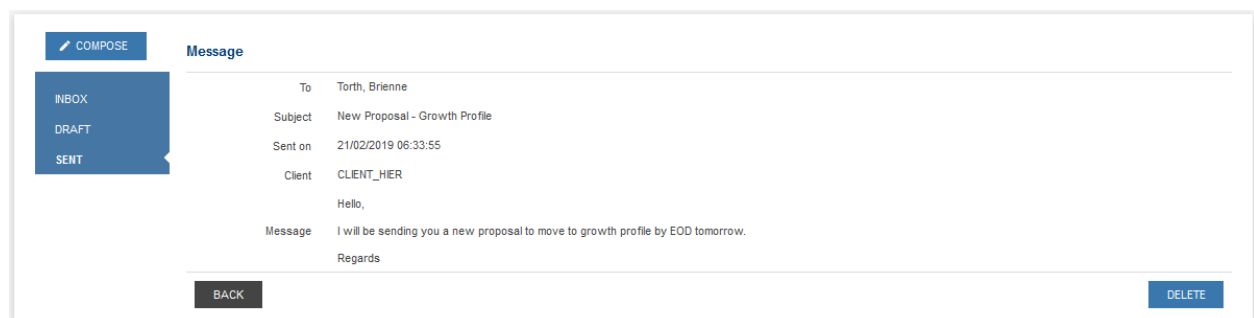

The screenshot shows the 'Sent' folder selected in the left sidebar. The main area displays a table of sent messages with columns for 'To', 'Subject', and 'Sent On'. Each row has a checkbox on the left and delete/expand icons on the right.

	To	Subject	Sent On		
☐	Torth, Bienne	Liquidity of the portfolio	21/02/2019 06:29:49		>
☐	Tarty, Samwell	New Proposal	21/02/2019 06:28:46		>
☐	Torth, Bienne	Hello	21/02/2019 06:27:47		>

3. (Optional) From this list, you can:
 - Search for messages (see section [Searching messages](#)).
 - Delete messages (see section [Deleting messages](#)).
4. To view details of a sent message, click on its corresponding line on the message list.

The **Message Detail** page is displayed for the selected message.

The screenshot shows the 'Message Detail' page for a selected message. It displays the message content, including the 'To', 'Subject', 'Sent on', 'Client', and the message body. There are 'BACK' and 'DELETE' buttons at the bottom.

Message	
To	Torth, Bienne
Subject	New Proposal - Growth Profile
Sent on	21/02/2019 06:33:55
Client	CLIENT_HIER
Message	Hello, I will be sending you a new proposal to move to growth profile by EOD tomorrow. Regards

5. Do one of the following:

- To return to the list of sent messages, click **Back**.
- To delete the message, click **Delete**. The **Confirm Delete** pop-up is displayed asking you to confirm the action:
 - Click **No** to quit the delete process and to go back to the message detail.
 - Click **Yes** to delete the message. The Sent folder is refreshed.

18.4 Composing new messages

The **Compose** button in the **Messages** menu lets users create and send new messages.

To create and send a new message:

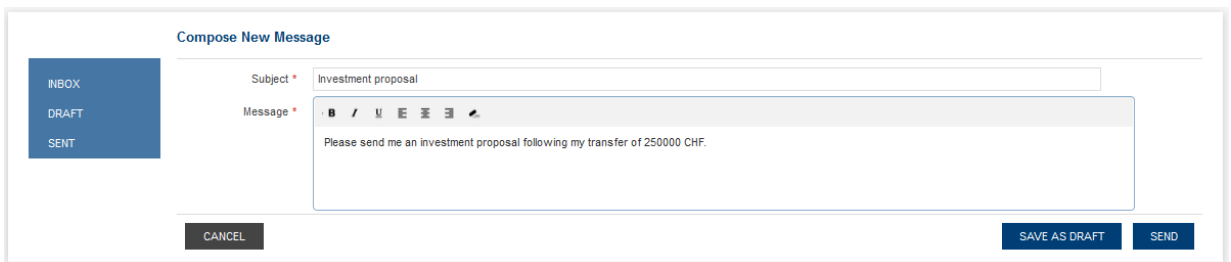

1. Click the  envelope icon located on the top right of the main menu and then, click **Go to inbox**.

The **Message Inbox** page of the Inbox folder is displayed by default.

2. Click **Compose New Message**.

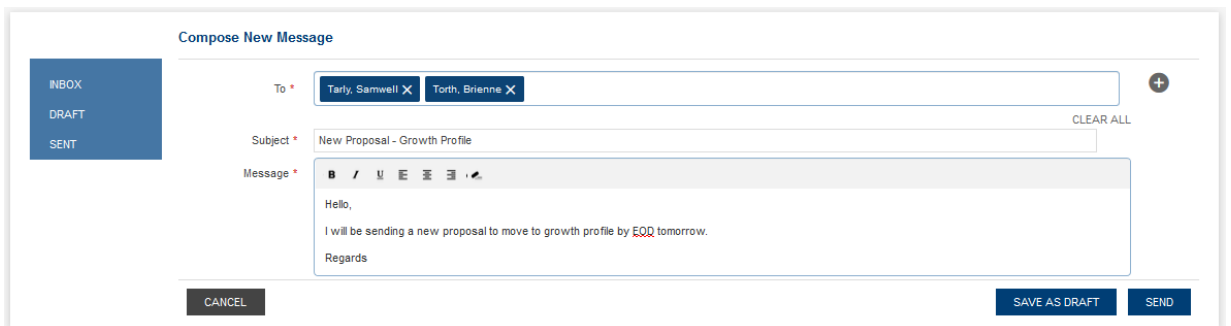

The **Compose New Message** page is displayed.

The following image shows the page for a Client User:

The screenshot shows the 'Compose New Message' interface. On the left is a sidebar with 'INBOX', 'DRAFT', and 'SENT' folders. The main area has a 'Subject' field with the text 'Investment proposal'. Below it is a 'Message' text area containing the text 'Please send me an investment proposal following my transfer of 250000 CHF.' At the bottom are three buttons: 'CANCEL', 'SAVE AS DRAFT', and 'SEND'.

The following image shows the page for a RM User:

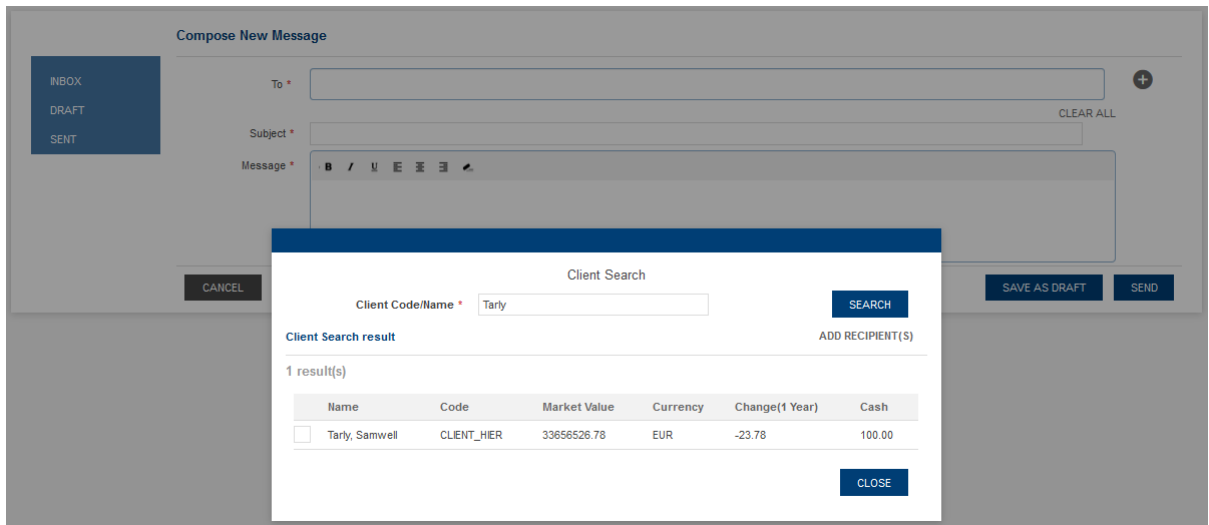

The screenshot shows the 'Compose New Message' interface for a RM User. The sidebar is the same. The 'To' field contains two recipients: 'Tartly, Samwell' and 'Torth, Brienne'. The 'Subject' field contains 'New Proposal - Growth Profile'. The 'Message' text area contains the text 'Hello, I will be sending a new proposal to move to growth profile by EOD tomorrow. Regards'. At the bottom are three buttons: 'CANCEL', 'SAVE AS DRAFT', and 'SEND'.

3. Complete the following fields:

Field	Description
To	(For RM Users only) Click the  icon to select the client to whom the message will be sent. You can add more clients by clicking  again (see step 4).
Subject	Enter the subject of the email.
Message	Enter text to explain the purpose of the email. You can format the message using rich text features such as bold, italics, etc.

4. (For RM Users only) To add client(s) in the **To** field, do the following:
- Click the  icon to display the **Client Search** pop-up.
 - Enter search text in the **Client Code/Name** field and click **Search**. A list of clients that match your search criteria is displayed.
 - From the list, select the clients that you want to add as recipients to the message.
 - Click **Add Recipient(s)** and the selected clients will be displayed in the **To** field.
 - To remove one recipient, click the  icon next to the client's name that is displayed in the **To** field. To remove all recipients, click the **Clear All** link. In this case, the **Confirm Delete** pop-up is displayed asking you to confirm the action. Click **Yes** or **No**.
 - Click **Close** to close the **Client Search** pop-up.

The screenshot shows the 'Compose New Message' interface. On the left is a sidebar with 'INBOX', 'DRAFT', and 'SENT'. The main area has fields for 'To', 'Subject', and 'Message'. A 'Client Search' pop-up is open in the center. It has a search bar with 'Tarty' entered and a 'SEARCH' button. Below the search bar, it says 'Client Search result' and '1 result(s)'. A table lists the results:

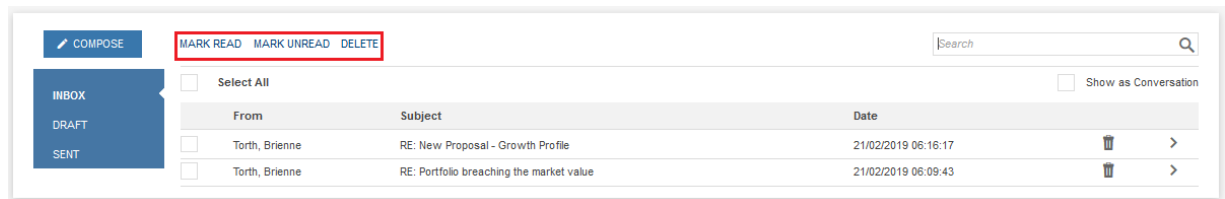

Name	Code	Market Value	Currency	Change(1 Year)	Cash
☐ Tarty, Samwell	CLIENT_HIER	33656526.78	EUR	-23.78	100.00

Buttons for 'ADD RECIPIENT(S)', 'CLOSE', 'SAVE AS DRAFT', and 'SEND' are visible.

5. On the **Compose New Message** page, do one of the following:
- To save the message as a draft message, click **Save as Draft**. The **Draft Message** page is displayed with the list of messages you have saved as drafts.
 - To send the message, click **Send**. The **Message Sent** page is displayed.

18.5 Deleting messages

You can delete one or multiple messages at a time.

To delete a message:

1. Click the  envelope icon located on the top right of the main menu and then, click **Go to inbox**.

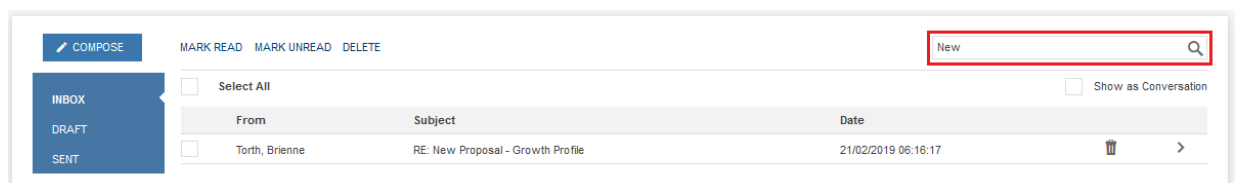

The **Message Inbox** page of the Inbox folder is displayed by default with a list of messages. Unread messages are marked in bold.

2. If you are deleting draft or sent messages, select the corresponding folder.
3. Do one of the following:
 - To delete multiple messages, place a checkmark in the Select column next to the messages that you want to delete and then, click **Delete**.
 - To delete a single message, click the **Delete** icon located next to the message that you want to delete.

The **Confirm Delete** pop-up is displayed asking you to confirm the action.

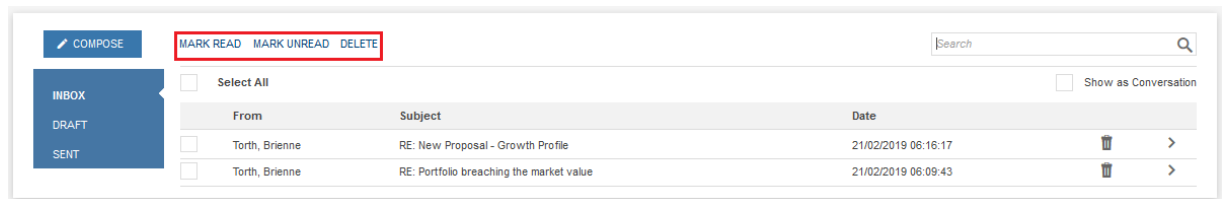

4. Do one of the following:
 - Click **No** to quit the delete process.
 - Click **Yes** to delete the message. The list of messages in the folder is refreshed.
5. Searching messages

A search field is available to help locate messages in the Inbox, Draft, and Sent folders. Type one or more letters into the search field to return related search results. The application can also search using message subject.

18.6 Marking messages read or unread

Unread messages are marked in bold. After viewing an unread message, you can again mark the message as unread.

To mark the status of a message in the inbox:

1. Click the  envelope icon located on the top right of the main menu and then, click **Go to inbox**.
The **Message Inbox** page of the Inbox folder is displayed by default with a list of messages.
2. Do one of the following:
 - To change the status of read messages to unread, place a checkmark in the Select column next to one or more desired messages and click **Mark Unread**. The messages will be highlighted in bold.
 - To change the status of unread messages to read, place a checkmark in the Select column next to one or more desired messages and click **Mark Read**.

19 Understanding the Alert Configuration menu

This section describes the purpose of the **Alert Configuration** menu in the Channels application.

Under the **Alert Configuration** menu, the following functions are available:

- [Viewing subscribed mandatory alerts](#)
- [Viewing alert templates](#)
- [Subscribing to alert templates](#)
- [Unsubscribing from private alerts](#)

19.1 Viewing subscribed mandatory alerts

To view a subscribed mandatory alert:

1. On the menu bar, click the  icon.
The **Configuration** menu is displayed.
2. Click Alert Configuration.

The **Alert Configuration** page is displayed on the Subscribed Alerts tab (default) with a list of subscribed alerts.

4. Do one of the following:
 - Click **Test** to view the query results in the same page.
 - Click **Back** to go back to the subscribed alerts list.

19.2 Viewing alert templates

To view an alert template:

1. On the menu bar, click the  icon.
The **Configuration** menu is displayed.
2. Click Alert Configuration.
The **Alert Configuration** page is displayed on the Subscribed Alerts tab (default) with a list of subscribed alerts.
3. Click on the Templates tab.
The list of available alert templates is displayed.

5. Do one of the following:
 - Click **Test** to view the query results on the same page.
 - Click **Back** to return to the list of templates.
 - To subscribe to this alert template, see section [Subscribing to alert templates](#).
 - To customise the query, see section [Customising the query in templates](#).

19.3 Subscribing to alert templates

To subscribe to an alert template:

1. On the menu bar, click the  icon.
The **Configuration** menu is displayed.
2. Click Alert Configuration.
The **Alert Configuration** page is displayed on the Subscribed Alerts tab (default) with a list of subscribed alerts.
3. Click on the Templates tab.
A list of templates is displayed.
4. Click on the corresponding line of the alert template that you want to subscribe to.
The **Template - Alert Details** page is displayed for the selected template.
5. Do one of the following:
 - For non-editable templates, click **Subscribe**.
 - For editable templates, complete the **operator** and **value** fields in the Alert Definition section, then click **Subscribe**. For more information about editable and non-editable templates, see section [Customising the query in templates](#).The **Confirm Subscription** pop-up is displayed asking you to confirm the action.
6. Do one of the following:
 - Click **No** to quit the subscription process. The template details will not be refreshed.
 - Click **Yes** to confirm the subscription.

19.3.1 Customising the query in templates

The **Template - Alert Details** page can have either an editable query or a non-editable query. A non-editable query is when the query is fully defined by the Administrator, and RM Users can only subscribe to it. As illustrated below, the Alert Definition section is in read-only mode.

Details		Schedule	
Name	Portfolio Over-Performance	Frequency	Daily
Description	Get notified on portfolio over performance	Time Of Execution	10:00:00
Priority	Medium		
Type	Information		

Alert Definition			
Portfolio	Over-Performance	>=	10 %

TEST

BACK SUBSCRIBE

An editable query is when the Administrator has only defined the criteria of the query in the Alert Definition section but RM Users can customise the query by defining the **operator** and **value** fields, as illustrated below:

Details		Schedule	
Name	Alert Template for Market Value	Frequency	Daily
Description	Notify when market value breaches	Time Of Execution	09:00:00
Priority	Medium		
Type	Information		

Alert Definition	
Portfolio	Market value - Please Select ▼ EUR

BACK SUBSCRIBE

19.4 Unsubscribing from private alerts

Private alerts are those that are subscribed voluntarily by the RM User or Client User; unlike mandatory alerts that are assigned to RM Users by the Administrator.

To unsubscribe from a private alert:

- On the menu bar, click the  icon.
The **Configuration** menu is displayed.
- Click Alert Configuration.
The **Alert Configuration** page is displayed on the Subscribed Alerts tab (default) with a list of subscribed alerts.
- Do one of the following:
 - Click the **Unsubscribe** icon of the private alert that you want to unsubscribe. This icon is only available for private alerts.
 - Click on the corresponding line of the private alert that you want to unsubscribe. The **Alert Details** page is displayed for the selected alert. Click **Unsubscribe**.
The **Confirm Unsubscription** pop-up is displayed asking you to confirm the action.
- Do one of the following:
 - Click **No** to keep the subscription to the alert.
 - Click **Yes** to unsubscribe from the alert. The list of subscribed alerts is refreshed.

20 Understanding the Category Maintenance menu

The information provided in this section is specific to the Customer Relationship Management (CRM) module, which is not part of the standard packaging and is sold separately.

This section describes the purpose of the **Categories Maintenance** page in the Channels application. Categories allows RM Users to add relevant labels to clients, documents, and notes, which can be useful for sorting, grouping, and performing quick searches.

On the **Categories Maintenance** page, the following functions are available:

- [Searching for existing categories](#)
- [Creating new categories](#)
- [Editing or deleting existing categories](#)

The categories linked to a client or a note can be viewed on the **Client View** page or the **Notes** page.

- [Viewing assigned categories for clients](#)
- [Viewing assigned categories for notes](#)
- [Viewing assigned categories for documents](#)
- [Searching for existing categories](#)
- [Creating new categories](#)
- [Editing or deleting existing categories](#)
- [Linking or unlinking categories assigned to clients](#)
- [Assigning one category to multiple clients](#)

20.1 Viewing assigned categories for clients

To view categories that have been assigned to a client, go to the Client Details section on the **Client View** page and click the > icon next to the category name displayed in the **Categories** field. (For more information about the **Client View** page, see section [Obtaining summary view of a client](#).) The **Client Profiling** page is displayed.

20.2 Viewing assigned categories for notes

For more information, see section [Understanding the Notes menu](#).

20.3 Viewing assigned categories for documents

For more information, see section [Managing documents](#).

20.4 Searching for existing categories

To search for an existing category:

1. On the menu bar, click the  icon.
The **Configuration** menu is displayed.
2. Click **Category Maintenance**.
The **Category Maintenance** page is displayed with a list of existing categories, if any, in alphabetical order.
3. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Enter part or all of the category name in the **Search on Name** field, then click the magnifying glass icon.
 - Select a filter type (i.e., Client or Note) in the **Applies To** field.
4. To close the **Category Maintenance** page, click **Close**.

20.5 Creating new categories

To create a new category:

1. On the menu bar, click the  icon.
The **Configuration** menu is displayed.
2. Click **Category Maintenance**.
The **Category Maintenance** page is displayed with a list of existing categories, if any, in alphabetical order.
3. Click **Create Category**.
A new empty row is added to the end of the categories list.
4. Complete all fields in the row. Mandatory fields are marked with an asterisk.
5. Click **Save** to save the new category.

20.6 Editing or deleting existing categories

Only categories that are not already linked to a client or note are editable.

To edit or delete an existing category:

1. On the menu bar, click the  icon.
The **Configuration** menu is displayed.
2. Click **Category Maintenance**.
The **Category Maintenance** page is displayed with a list of existing categories, if any, in alphabetical order.
3. (Optional) If you have a paginated list, do one or more of the following to reduce the list:

- Enter part or all of the category name in the **Search on Name** field, then click the magnifying glass icon.
 - Select a filter type (i.e., Client or Note) in the **Applies To** field.
4. Do one of the following:
 - To edit the category details, update the fields of the selected category and click **Save**.
 - To delete a category, click the  icon next to the selected category. When a confirmation message is displayed asking you to confirm the deletion, click **Yes**.
 5. To close the **Category Maintenance** page, click **Close**.

20.7 Linking or unlinking categories assigned to clients

RM Users can link one or multiple categories to a client as well as unlink one or multiple categories at the same time.

To link or unlink categories assigned to a client:

1. At the top of the **Client View** page or the **Client Profiling** page, a snapshot of the client's primary personal details is displayed. Click the **Edit** link on the client banner. (For more information about these pages, see section [Understanding the Client menu](#).)
The **Client Details Edit** page is displayed.
2. In the **Categories** field, do one of the following:
 - To link categories, click on the magnifying glass icon to go to the list of existing categories in alphabetical order. Place a check next to the desired categories and click **Link Categories**. If you have a paginated list, you can use the search feature to reduce the list. To conduct a search, enter part or all of the category name in the **What are you looking for?** field, then press **<Search>**.
 - To unlink categories, click on the **x** icon of the category you want to delete.
3. Click **Save** on the client banner to save all changes.

20.8 Assigning one category to multiple clients

To assign one category to multiple clients:

1. Search for clients who you would like to assign to the same category (see sections [Rapid search](#) and [Searching for clients \(for CRM module only\)](#)).
2. From the Clients tab of the **Advanced Search** page, use the checkboxes to select the desired clients from the search result list.
3. Click **Manage Categories and Notes** link.
The **Category and Notes management** pop-up is displayed.
4. Select the **Assign Category** radio button and begin to type the name/subject of the category in the blank field.
A list of matching results, if any are displayed.

5. Select the desired category from the list of results.
The field is populated with your selection.
6. Click **OK**.
The same category is assigned to the selected clients.

The screenshot displays the WealthSuite Channels interface. At the top, there is a search bar with the letter 't' and a 'Mine only' checkbox. Below this, the 'Clients' tab is active, showing a list of clients. A 'Category and Notes management' dialog box is open, allowing the user to assign a category to the selected clients. The dialog box has a purple header and contains the following information:

Name	HH	Household Name	Code	Status	Client Type	Market Value	Cost
Tarby, Samwell					CLIENT_HIER		
Torth, Brienne					CLIENT		

The dialog box also includes radio buttons for 'Attach Note' and 'Assign Category', with the latter being selected. A text input field is provided for the category name. The 'Cancel' and 'OK' buttons are at the bottom right of the dialog box.

21 Understanding the Manage Workflows menu

The information provided in this section is specific to the Customer Relationship Management (CRM) module, which is not part of the standard packaging and is sold separately.

This section describes the purpose of the **Workflow Instances** page in the Channels application.

On the **Workflow Instances** page, the following functions are available:

- [Viewing existing workflow instances](#)
- [Deleting a workflow instance](#)
- [Reassign a workflow step](#)
- [Run a workflow step](#)

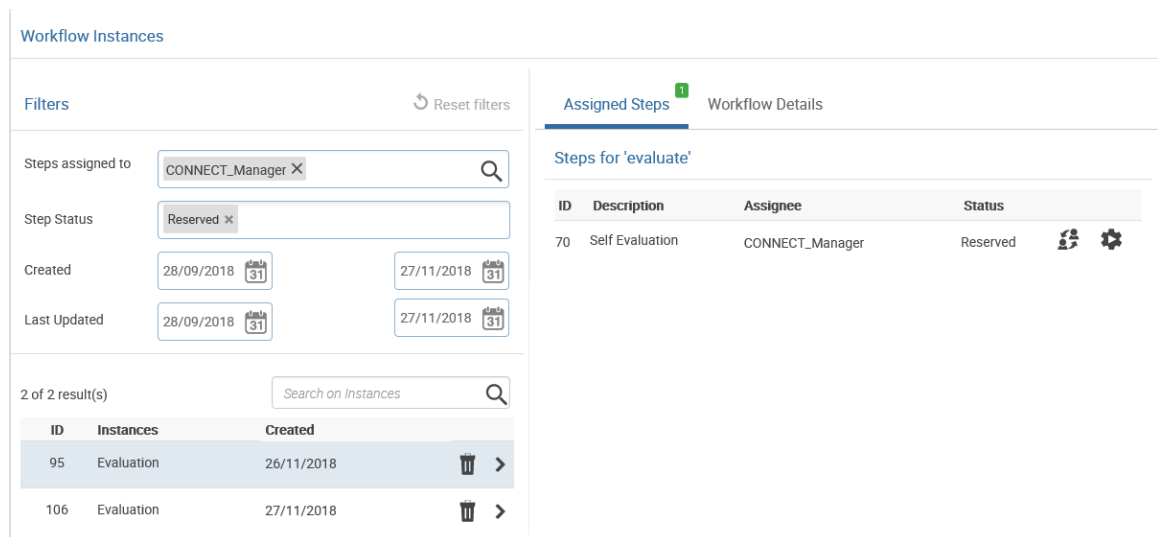

21.1 Viewing existing workflow instances

The **Workflow Instances** page shows a list of all *In Progress* workflow instances that have one or more steps assigned to a specified user.

To view the steps for a workflow instance:

1. On the menu bar, click the  icon.
The **Configuration** menu is displayed.
2. Click Manage Workflows.

The **Workflow Instances** page is displayed with a list of existing workflows, if any.

The screenshot shows the 'Workflow Instances' page. On the left, there are filters for 'Steps assigned to' (CONNECT_Manager), 'Step Status' (Reserved), 'Created' (28/09/2018 to 27/11/2018), and 'Last Updated' (28/09/2018 to 27/11/2018). Below the filters, it shows '2 of 2 result(s)' and a search bar. The main table lists the following instances:

ID	Instances	Created	
95	Evaluation	26/11/2018	 
106	Evaluation	27/11/2018	 

On the right side of the page, there are tabs for 'Assigned Steps' (with a green notification badge) and 'Workflow Details'. Under 'Assigned Steps', there is a section for 'Steps for 'evaluate'' with a table:

ID	Description	Assignee	Status	
70	Self Evaluation	CONNECT_Manager	Reserved	 

3. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Select one or more users to filter the workflows based on to whom steps are assigned.
 - Select one or more step statuses.

- Enter from and to dates to apply a date filter to when the workflow instance was created or last modified.
 - Enter part or all of the instance's subject in the **Search on Instances** field, then click on the magnifying glass icon.
4. To view steps for a workflow instance on the list, click the > icon of the desired workflow. Steps of the selected workflow are shown on the right side of the list.
 5. To view attributes for a workflow instance on the list, change to the **Workflow Details** tab on the right.
 6. Attributes of the selected workflow are shown on the right side of the list.

7. To see additional information about the workflow instance in jBPM, click **View Details**

21.2 Deleting a workflow instance

To delete a workflow instance:

1. On the menu bar, click the icon.
The **Configuration** menu is displayed.
2. Click Manage Workflows.
The **Workflow Instances** page is displayed with a list of existing workflows, if any.
3. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Select one or more users to filter the workflows based on to whom steps are assigned.
 - Select one or more step statuses.

- Enter from and to dates to apply a date filter to when the workflow instance was created or last modified.
 - Enter part or all of the instance's subject in the **Search on Instances** field, then click on the magnifying glass icon.
4. To delete a workflow instance on the list, click the  icon of the desired workflow.
When a confirmation message is displayed asking you to confirm the deletion, click **Yes**.

21.3 Reassign a workflow step

To reassign a workflow step:

1. On the menu bar, click the  icon.
The **Configuration** menu is displayed.
2. Click Manage Workflows.
The **Workflow Instances** page is displayed with a list of existing workflows, if any.
3. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Select one or more users to filter the workflows based on to whom steps are assigned.
 - Select one or more statuses.
 - Enter from and to dates to apply a date filter to when the workflow instance was created or last modified.
 - Enter part or all of the instance's subject in the **Search on Instances** field, then click on the magnifying glass icon.
4. To view steps for a workflow instance on the list, click the **>** icon of the desired workflow.
Details of the selected workflow are shown on the right side of the list.
5. To reassign a workflow step, click the  icon of the desired step.
6. Type a few characters or the entire name of the RM User in the **Assignee** field. Then, select the RM User from the list of results that is displayed.
7. Click the  icon to save the change.
Click the  icon to discard the change.

21.4 Run a workflow step

To run a workflow step:

1. On the menu bar, click the  icon.
The **Configuration** menu is displayed.
2. Click Manage Workflows.
The **Workflow Instances** page is displayed with a list of existing workflows, if any.

3. (Optional) If you have a paginated list, do one or more of the following to reduce the list:
 - Select one or more users to filter the workflows based on to whom steps are assigned.
 - Select one or more step statuses.
 - Enter from and to dates to apply a date filter to when the workflow instance was created or last modified.
 - Enter part or all of the instance's subject in the ***Search on Instances*** field, then click on the magnifying glass icon.
4. To view steps for a workflow instance on the list, click the > icon of the desired workflow. Details of the selected workflow are shown on the right side of the list.
5. To run a workflow step, click the  icon of the desired step.

22 Understanding the Strategy Administration menu

This section describes the purpose of the **Strategy Administration** menu in the Channels application.

Under the **Strategy Administration** menu, the following functions are available:

- [Viewing strategies](#)
- [Creating strategies](#)
- [Editing strategies](#)
- [Validating, rejecting, or returning strategies to sender](#)

You can administer the following types of strategies:

- Investment profile
- Allocation
- Model Portfolio
- Recommendation List
- Risk

22.1 Viewing strategies

To view a strategy:

1. Do one of the following:
 - If you are an RM User, click on the  icon on the menu bar to display the **Configuration** menu. Then, select Strategy Administration.
 - If you are an Admin user, click on the **Strategies** main menu from the toolbar.
 - If you are a PM User, click on the **Configuration** main menu and then select **Strategies** menu.

The **Strategy Administration** page is displayed on the Investment Profile tab (default) with a list of valid Investment Profiles. You can also access the list of Investment Profiles with status Working or To Validate by selecting the respective radio buttons.

2. (Optional) To view strategies for Allocations, Model Portfolios, Recommendation Lists, or Risk, click on the respective tabs.

CLOSE

- Click on the icon next to the **Code** field, to view the portfolios linked to the Investment Profile strategy.
- Click **Close** to return to the list of Investment Profiles strategies on the **Strategy Administration** page.

22.2 Creating strategies

You can create the following:

- [Strategy for Investment Profiles](#)
- [Strategy for allocations](#)
- [Strategy for model portfolios](#)
- [Strategy for recommendation lists](#)
- [Strategy for risk](#)

22.2.1 Strategy for Investment Profiles

To create a strategy for an Investment Profile:

1. Do one of the following:
 - If you are an RM User, click on the  icon on the menu bar to display the **Configuration** menu. Then, select Strategy Administration.
 - If you are an Admin user, click on the **Strategies** main menu from the toolbar.
 - If you are a PM User, click on the **Configuration** main menu and then select **Strategies** menu.

The **Strategy Administration** page is displayed on the Investment Profile tab (default) with a list of Investment Profiles.

2. Click **New Investment Profile**.

The **Investment Profile** page is displayed with a step approach for the creation process:

- [Definition step](#)
- [Allocation step](#)
- [Model Portfolio & Recommendation List step](#)
- [Summary step](#)

1. Click **Add Instrument**. For each new row added, complete the following fields:

Field	Description
Instrument	• The options to complete the Instrument field are: • Type some text related to the desired instrument. A list of instruments that match the text is displayed in the quick result proposal drop-down list (see section Quick result proposal) where you can select the desired instrument. • Type some text related to the desired instrument, then click the  icon where you can search and select the desired instrument using the Advanced search feature. • After the instrument is selected, the instrument's name is displayed in the Instrument Name field. • If the instrument does not belong to the market segment, an error occurs.
Recommendation	From the drop-down list, select one of the following proposed recommendation: • Buy • Increase • Keep • Reduce • Sell • Neutral
Priority	The priority of the recommendation.
Max Weight	Maximum weight of the instrument in the portfolio.

- (Optional) After an instrument is added to the Recommendation List Composition, you have the option to click  to remove it. The **Confirm Delete** pop-up is displayed asking you to confirm the action.
- To proceed to the next step ([Summary step](#)) of the creation process, click **Next**.

22.2.4.4 Summary step

This step is similar to the Summary step for the Investment Profile creation process (see subsection [Summary step](#) of section [Strategy for Investment Profiles](#)).

22.2.5 Strategy for risk

To create a strategy for risk:

- Do one of the following:
 - If you are an RM User, click the  icon on the menu bar to display the **Configuration** menu. Then, click **Strategy Administration**.
 - If you are an Admin user, click on the **Strategies** main menu from the toolbar.

The **Strategy Administration** page is displayed on the Investment Profile tab (default) with a list of Investment Profiles.

- Click on the Risk tab.

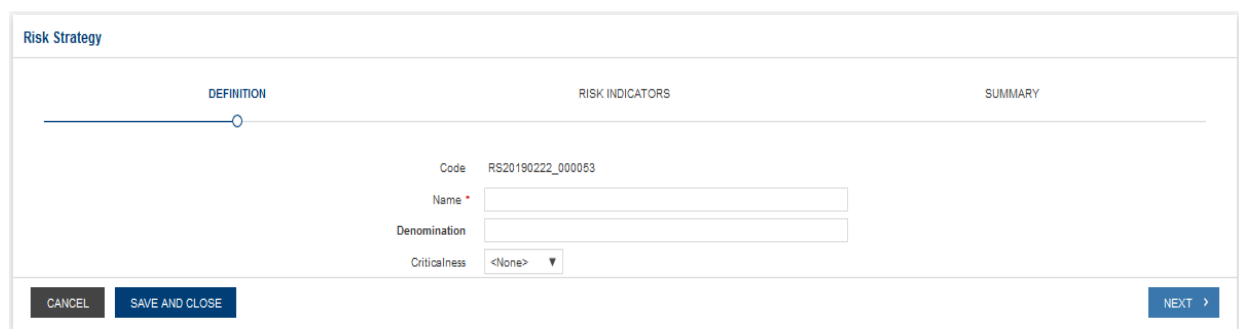

The list of risk strategies is displayed.

- Click **New Risk Strategy**.

The **Risk Strategy** page is displayed with a step approach for the creation process:

- [Definition step](#)
- [Risk Indicators step](#)
- [Summary step](#)

22.2.5.1 Definition step

- Complete the following fields:

Field	Description
Name	Name of the strategy.
Denomination	Denomination of the strategy.

Field	Description
Criticalness	The criticalness of the strategy

2. Do one of the following:

- To cancel the creation process, click **Cancel**. This option is available at any time during the creation process. The **Cancel** pop-up is displayed asking you to confirm the action. You can:
 - Click **No** to go back to the creation process.
 - Click **Yes** to quit the creation process.
- To keep the Risk Strategy in draft mode to complete at a later date, click **Save and Close**. This option is available at any time during the creation process. The draft will appear on the list of Risk Strategies when you select the **Working** radio button.
- To return to a previous step, click **Previous**. This option is available at any time during the creation process.
- To proceed to the next step (Risk Indicators step) of the creation process, click **Next**.

1. On the Risk Strategy page, a list of available risk indicators are displayed. Complete one or more of the following fields per risk indicator:

Field	Description
Compliance Objective	Compliance objective value of the strategy.
Min Compliance	Minimum compliance value of the strategy.
Max Compliance	Maximum compliance value of the strategy. If a value is entered in this field, then the Minimum Compliance field must also be completed.

Field	Description
Criticalness	The criticalness of the strategy. The field will default to a value that is equal to or higher than the severity defined in the Definition step .

- To proceed to the next step ([Summary step](#)) of the creation process, click **Next**.

22.2.5.3 Summary step

This step is similar to the Summary step for the Investment Profile creation process (see subsection [Summary step](#) of section [Strategy for Investment Profiles](#)).

22.3 Editing strategies

To edit a strategy:

- Do one of the following:
 - If you are an RM User, click the  icon on the menu bar to display the **Configuration** menu. Then, click Strategy Administration.
 - If you are an Admin user, click on the **Strategies** main menu from the toolbar.
 - If you are a PM User, click on the **Configuration** main menu and then select **Strategies** menu.

The **Strategy Administration** page is displayed on the Investment Profile tab (default) with a list of Investment Profiles.

- Click on the tab of the strategy type (i.e., Investment Profile, Allocation, Model Portfolio, Recommendation List, or Risk) that you want to edit.

Page 1 of 2 < 1 2 >

- Do one of the following:
 - To edit a draft strategy, click the **Working** radio button to show a list of draft strategies. Then, click on the  icon of the strategy that you want to edit.

- To edit a valid strategy, click the **Valid** radio button to show a list of valid strategies. Then, click on the  icon on the strategy that you want to edit.
- To view portfolios linked to the strategy, click the  icon next to the **Code** field.

The same pages as when you are creating a strategy are displayed for editing a strategy (see section [Creating strategies](#)). However, depending on the type of strategy that you are editing, some attributes are not editable such as:

- For Investment Profile, the allocation attributes are not editable.
- For allocations, the market structure attributes are not editable.
- For model portfolios, the market segment attributes are not editable.
- For recommendation lists, the market segment attributes are not editable.

22.4 Validating, rejecting, or returning strategies to sender

To validate, reject, or return a strategy to a sender:

1. Do one of the following:
 - If you are an RM User, click the  icon on the menu bar to display the **Configuration** menu. Then, click Strategy Administration.
 - If you are an Admin user, click on the **Strategies** main menu from the toolbar.
 - If you are a PM User, click on the **Configuration** main menu and then select **Strategies** menu.

The **Strategy Administration** page is displayed on the Investment Profile tab (default) with a list of Investment Profiles.

2. Click on the tab of the strategy type (i.e., Investment Profile, Allocation, Model Portfolio, Recommendation List, or Risk) that you want to validate, reject, or return to the sender.
3. Click on the **To Validate** radio button.
4. Click on the  icon of the strategy that you want to validate, reject, or return to the sender.

The **Validate Investment Profile** page of the selected strategy is displayed.

VALIDATE

5. (Optional) In the **Review Comment** field, add a comment to explain your decision.
6. Do one of the following:
 - To validate and save the strategy, click **Validate**. This strategy is now accessible to all users and can be viewed when the **Valid** radio button of the strategy lists is selected.
 - To return the strategy to the user who initiated it, click **Return to sender**. The user will now be able to edit the strategy, which is accessible when the **Working** radio button of strategy lists is selected.
 - To stop the validation and to cancel the strategy creation or edition, click **Reject**.

23 Understanding the Users Administration menu

This section describes the purpose of the **Users Administration** menu in the Channels application. The **Users Administration** menu is available only to Admin Users.

Under the **Users Administration** menu, the following functions are available:

- [Viewing RM Users and Client Users](#)
- [Creating new RM Users](#)
- [Creating new Client Users](#)
- [Modifying details of RM Users and Client Users](#)
- [Withdrawing or discarding users from validation process](#)
- [Accepting, rejecting, or returning users during validation process](#)
- [Deactivating or reactivating RM Users and Client Users](#)

23.1 Viewing RM Users and Client Users

To view RM Users (Managers) and Client Users:

1. On the menu bar, click **Users**.

The **User Administration** page is displayed on the Managers tab (default) with a list of active RM Users. You can access the list of "Working", "To Validate", or "Inactive" RM Users by selecting the corresponding radio button.

Managers		Client Users

Data Profile*	Data Profile for this business entity

*Only visible for the multi-entity functionality.

3. Complete the following fields in the Profiles section:

Field	Description
Functional Security Profile	Function Security Profile for the Client User. To view the composition of the profile, click on the > icon next to the field. To print or export the data, see section Printing or exporting data.

Field	Description
Report Profile	Report Profile for the Client User. To view the composition of the profile, click on the > icon next to the field. To print or export the data, see section Printing or exporting data .
Data Profile	Data Profile for the Client User. To view the composition of the profile, click on the > icon next to the field. To print or export the data, see section Printing or exporting data .
Data Security Profile	Data Security Profile for the Client User
Channel Profile	Channel Profile for the Client User. To view the composition of the profile, click on the > icon next to the field. To print or export the data, see section Printing or exporting data .
Screen Profile	Screen Profile for the Client User. To view the composition of the profile, click on the > icon next to the field. To print or export the data, see section Printing or exporting data .

4. Do one of the following:
- To cancel the creation process, click **Cancel**. This option is available at any time during the creation process. The **Cancel** pop-up is displayed asking you to confirm the action. You can:
 - Click **No** to go back to the creation process.
 - Click **Yes** to quit the creation process.
 - To complete the creation process at a later date, click **Save and Close** to store the information in draft mode. This option is available at any time during the creation process. The draft will appear on the list of Client Users when you select the **Working** radio button on the **User Administration** page.
 - To proceed to the next step ([Summary step](#)) of the creation process click **Next**.

23.3.2 Summary step

The Summary step displays read-only information that was entered in the previous step (see section [Definition step](#)) about the Client User.

Create Client User

Validation User and Comment

To Be Validated By

Comment

CANCEL SAVE AND CLOSE PREVIOUS FINISH

1. (Optional) Complete the Validation User and Comment section.
2. Do one of the following:
 - To cancel the creation process, click **Cancel**. This option is available at any time during the creation process. The **Cancel** pop-up is displayed asking you to confirm the action. You can:
 - Click **No** to go back to the creation process.
 - Click **Yes** to quit the creation process.
 - To view the composition of the profile, click on the > icon next to the desired profile. To print or export the data, see section [Printing or exporting data](#).
 - To complete the creation process at a later date, click **Save and Close** to store the information in draft mode. This option is available at any time during the creation process. The draft will appear on the list of Client Users when you select the **Working** radio button on the **User Administration** page.
 - To return to the previous step, click **Previous**.
 - To complete the creation process, click **Finish**.

The information is sent for validation. For more information about the validation process, see sections [Withdrawing or discarding users from validation process](#) and [Accepting, rejecting, or returning users during validation process](#).

23.4 Modifying details of RM Users and Client Users

To modify details of an RM User (Manager) or Client User:

1. On the menu bar, click **Users**.

The **User Administration** page is displayed on the Managers tab (default). If you are modifying details of a Client User, click on the Client Users tab.

2. Do one of the following
 - To edit a draft user, click on the **Working** radio button to show a list of draft users. Then, click on the  icon of the user you want to edit.
 - To edit an active user, click on the **Active** radio button to show a list of active users. Then, click on the  icon of the user you want to edit.
 - To edit an inactive user, click on the **Inactive** radio button to show a list of inactive users. Then, click on the  icon of the user you want to edit. Note that editing an inactive user will reactivate that user.

The **Create Manager** or **Create Client User** page is displayed.

3. Modify the values in the Definition step. For more information about this step, see section [Definition step](#) for RM Users or section [Definition step](#) for Client Users.
4. Click **Next**.

The Summary step is displayed.
5. Review the modifications and do one of the following:
 - To return to the Definition step to make more modifications, click **Previous**.
 - To complete the creation process at a later date, click **Save and Close** to store the modifications in draft mode. The draft will appear on the list of RM Users or Client Users when you select the **Working** radio button on the **User Administration** page.
 - To complete the modification process, click **Finish**. The information is sent for validation. For more information about the validation process, see sections [Withdrawing or discarding users from validation process](#) and [Accepting, rejecting, or returning users during validation process](#).

23.5 Withdrawing or discarding users from validation process

After you complete the creation process (see section [Creating new RM Users](#) or [Creating new Client Users](#)) or modification process (see section [Modifying details of RM Users and Client Users](#)), the information of the RM User (Manager) or Client User is sent for validation.

If you want to make further modifications to a user's information, you must first withdraw the user from the validation process. If, however, you no longer want the user to be created or you want to cancel the modifications to the user's information, you must discard the user's information from the validation process.

To withdraw or discard a user from the validation process:

1. On the menu bar, click **Users**.

The **User Administration** page is displayed on the Managers tab (default). For a Client User, click on the Client Users tab.

2. Click on the **To Validate** radio button to show a list of users sent for validation.

- Click on the ✓ icon of the user that you want to withdraw or discard from the validation process.

The **Review Manager** page or **Review Client User** page is displayed.

WITHDRAW

DISCARD

- Do one of the following:
 - To withdraw the user from the validation process, click **Withdraw**. The user will appear on the list of RM Users or Client Users when you select the **Working** radio button on the **User Administration** page.
 - To discard the user's new or modified information from the validation process, click **Discard**.

23.6 Accepting, rejecting, or returning users during validation process

After you complete the creation process (see section [Creating new RM Users](#) or [Creating new Client Users](#)) or modification process (see section [Modifying details of RM Users and Client Users](#)), the information of the RM User (Manager) or Client User is sent for validation.

This section describes how you can:

- Accept the user's new or modified information
- Reject the user's new or modified information
- Return the user to the person who created or modified the user's information

To accept, reject, or return a user during the validation process:

- On the menu bar, click **Users**.

The **User Administration** page is displayed on the Managers tab (default). For a Client User, click on the Client Users tab.

2. Click the **To Validate** radio button to show a list of users sent for validation.
3. Click on the ✓ icon of the user that you want to accept, reject, or return.
The **Validate Manager** or **Validate Client User** page is displayed.

Comment			
Review Comment			

BACK RETURN TO SENDER REJECT VALIDATE

4. (Optional) In the **Review Comment** field, add a comment to explain your decision.
5. Do one of the following:
 - To accept the user's new or modified information, click **Validate**. This user is now accessible to all users and will appear on the list of RM Users or Client Users when the **Active** radio button is selected on the **User Administration** page.
 - To reject the user's new or modified information, click **Reject**. The validation process of the user's information is stopped and cancelled.
 - To return the user to the person who created or modified the user's information, click **Return to Sender**. The user's information can now be further modified. The user will appear on the list of RM Users or Client Users when you select the **Working** radio button is selected on the **User Administration** page.

23.7 Deactivating or reactivating RM Users and Client Users

To deactivate an RM User (Manager) or Client User:

1. On the menu bar, click **Users**.

The **User Administration** page is displayed on the Managers tab (default). If you are deactivating a Client User, click on the Client Users tab.

2. (Optional) If the user is on the Working or To Validate list, click on the corresponding radio button.
3. Click on the  icon of the desired user and then, select **Deactivate User**.
 - If the user is on the Active list, a pop-up is displayed asking you to confirm the action. After the action is confirmed, the user will appear on the Inactive list.
 - If the user is on the Working list, any information that has been saved will be discarded.
 - If the user is on the To Validate list, then deactivation is not possible. The user must be removed from the validation process (see sections [Withdrawing or discarding users from validation process](#) and [Accepting, rejecting, or returning users during validation process](#)).

To reactivate an RM User (Manager) or Client User:

1. On the menu bar, click **Users**.

The **User Administration** page is displayed on the Managers tab (default). If you are reactivating a Client User, click on the Client Users tab.
2. Access the list of inactive users by selecting the **Inactive** radio button. Note that the **Inactive** radio button that you selected on the Managers tab is retained when you go to the Client User tab.
3. Click on the  icon of the desired user and then, select **Activate User**.

A pop-up is displayed asking you to confirm the action. After the action is confirmed, the user will appear on the Active list.

Note that if the user is on the Working list or To Validate list, then reactivation is not possible as the user's information is undergoing the validation process. For more information about the validation process, see sections [Withdrawing or discarding users from validation process](#) and [Accepting, rejecting, or returning users during validation process](#).

24 Understanding the Constraints Administration menu

This section describes the purpose of the **Constraints** menu in the Channels application. This menu is not available to Client Users.

Under the **Constraints** menu, the following functions are available:

- [Viewing constraints](#)
- [Creating constraints](#)
- [Editing constraints](#)
- [Validating, rejecting, or returning constraints to sender](#)

You can administer the following types of constraints:

- Allocation Constraints
- Security In Constraints
- Security Out Constraints
- Holding Constraints
- Trading Constraints

24.1 Viewing constraints

To view a constraint:

1. Do the following:

- If you are an RM User, click on the  icon on the menu bar to display the **Configuration** menu. Then, select **Constraint Administration**.
- If you are an Admin user, click on the **Constraints** main menu from the toolbar.

The **Constraint Administration** page is displayed on the Allocation tab (default) with a list of valid Allocation Constraints. You can also access the list of Allocation Constraints with status Working or To Validate by selecting the respective radio buttons.

2. (Optional) To view constraints for Security In, Security Out, Holding, or Trading, click on the respective tabs.

Allocation Security In Security Out Holding Trading		
☒ Valid ☐ Working ☐ To Validate

CLOSE

- Click **Close** to return to the list of Allocation Constraints on the **Constraint Administration** page.

24.2 Creating constraints

The following sections provide information on:

- [Creating Allocation Constraints](#)
- [Creating Security In Constraints](#)
- [Creating Security Out Constraints](#)
- [Creating Holding Constraints](#)
- [Creating Trading Constraints](#)

24.2.1 Creating Allocation Constraints

To create an Allocation constraint:

- Do one of the following:
 - If you are an RM User, click on the  icon on the menu bar to display the **Configuration** menu. Then, select **Constraints Administration**.
 - If you are an Admin user, click on the **Constraints** main menu from the toolbar.

The **Constraint Administration** page is displayed on the Allocation tab (default) with a list of valid Allocation constraints.
- Click **New Allocation Constraint**.
 The **Allocation Constraint** page is displayed with a step approach for the creation process:
 - [Portfolio Constraints step](#)
 - [Summary step](#)

24.2.1.1 Portfolio Constraints step

1. Complete the following fields:

Field	Description
Portfolio	Code of the portfolio.
Market Segment	Name of the Market Segment.
Nature	Nature of the constraint
Type	Type of constraint
Minimum	Minimum value for the constraint
Maximum	Maximum value for the constraint
Criticalness	Criticality of the constraint

2. Do one of the following:

- To cancel the creation process, click **Cancel**. This option is available at any time during the creation process. The **Cancel** pop-up is displayed asking you to confirm the action. You can:
 - Click **No** to go back to the creation process.
 - Click **Yes** to quit the creation process.
- To keep the Allocation constraint in draft mode to complete at a later date, click **Save and Close**. This option is available at any time during the creation process. The draft will appear on the list of Allocation constraints when you select the **Working** radio button.

- To return to a previous step, click **Previous**. This option is available at any time during the creation process.
- To proceed to the next step ([Summary step](#)) of the creation process, click **Next**.

24.2.1.2 Summary step

The Summary step displays main information about the Allocation constraint and lets you select the user who needs to validate as well as add comments, if any, for the user.

FINISH

1. In the **To Be Validated By** field, begin to type some text related to the desired user. A list of user who match the text is displayed in the quick result proposal drop-down list.
2. From the drop-down list, select the user who will be validating the constraint.
3. In the **Comment** field, add information for the user who is validating the constraint.
4. Click **Finish** to end the Allocation Constraint creation. The constraint is sent to the validation user for confirmation.

24.2.2 Creating Security In Constraints

The steps for creating a Security In Constraint are similar to those described in section [Creating Allocation Constraints](#). You must, however, click on the Security In tab of the **Constraint Administration** page to start the creation process.

Note that in the Definition step of creating a Security In Constraint, the fields to complete are slightly different:

Security In Constraint

3. To proceed to the next step ([Summary step](#)) of the creation process, click **Next**.

24.2.4.4 Summary step

This step is similar to the Summary step for the Investment Profile creation process (see subsection [Summary step](#) of section [Strategy for Investment Profiles](#)).

24.2.5 Creating Trading Constraints

To create a Trading Constraint:

1. Do one of the following:
 - If you are an RM User, click the  icon on the menu bar to display the **Configuration** menu. Then, select **Constraint Administration**.
 - If you are an Admin user, click on the **Constraints** main menu from the toolbar.

The **Constraint Administration** page is displayed on the Allocation tab (default) with a list of Allocation Constraints.

2. Click on the Trading tab.

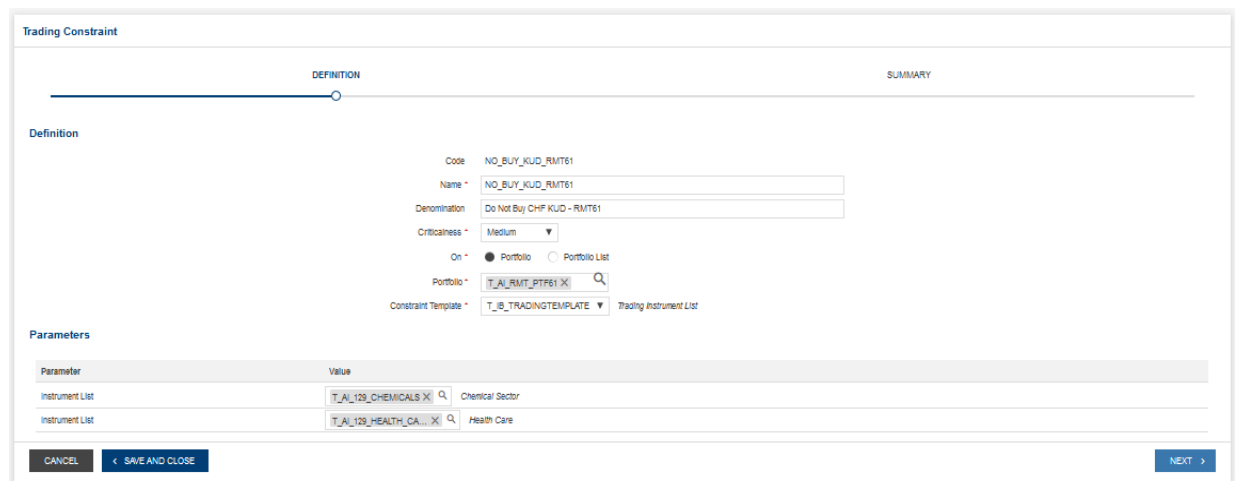

The list of Trading Constraints are displayed.

3. Click **NEW TRADING CONSTRAINT**.

The **Trading Constraint** page is displayed with a step approach for the creation process:

- [Definition step](#)
- [Summary step](#)

24.2.5.1 Definition step

The screenshot shows the 'Trading Constraint' form in the 'DEFINITION' step. The form is divided into two main sections: 'Definition' and 'Parameters'. The 'Definition' section contains the following fields:

- Code: NO_BUY_KUD_RMT61
- Name: NO_BUY_KUD_RMT61
- Denomination: Do Not Buy CHF KUD - RMT61
- Criticalness: Medium
- On: ☒ Portfolio ☐ Portfolio List
- Portfolio: T_A1_RMT_PTF61
- Constraint Template: T_IB_TRADINGTEMPLATE

The 'Parameters' section contains a table with two rows:

Parameter	Value
Instrument List	T_A1_129_CHEMICALS
Instrument List	T_A1_129_HEALTH_CA

At the bottom of the form, there are buttons for 'CANCEL', 'SAVE AND CLOSE', and 'NEXT'.

1. Complete the following fields:

Field	Description
Code	Code of the constraint.
Name	Name of the constraint.
Denomination	Denomination of the constraint.
Criticalness	Criticalness of the constraint.
On	The options to complete this field are: • On portfolio • On portfolio list

Field	Description
Portfolio / Portfolio List	The options to complete this field are: Type some text related to the desired portfolio/portfolio list. A list of portfolio/portfolio list that match the text is displayed in the quick result proposal drop-down list (see section Quick result proposal) where you can select it. Type some text related to the desired portfolio/portfolio list, then click the  icon where you can search and select the desired portfolio/portfolio list using the Advanced search feature.
Constraint Template	Code of the desired constraint template.

Note: The fields in the Parameters section varies according to the template indicated in the **Constraint Template** field.

2. Do one of the following:
 - To cancel the creation process, click **Cancel**. This option is available at any time during the creation process. The **Cancel** pop-up is displayed asking you to confirm the action. You can:
 - Click **No** to go back to the creation process.
 - Click **Yes** to quit the creation process.
 - To keep the Trading Constraint in draft mode to complete at a later date, click **Save and Close**. This option is available at any time during the creation process. The draft will appear on the list of Trading Constraints when you select the **Working** radio button.
 - To return to a previous step, click **Previous**. This option is available at any time during the creation process.
 - To proceed to the next step ([Summary step](#)) of the creation process, click **Next**.

24.2.5.2 Summary step

The Summary step for creating Trading Constraints is the same as the one for creating Allocation Constraints process (see subsection [Summary step](#) of section Allocation Constraints).

24.3 Editing constraints

To edit a constraint:

1. Do one of the following:
 - If you are an RM User, click the  icon on the menu bar to display the **Configuration** menu. Then, select **Constraint Administration**.
 - If you are an Admin user, click on the **Constraints** main menu from the toolbar.

The **Constraint Administration** page is displayed on the Allocation tab (default) with a list of Allocation Constraints.

2. Click on the tab of the constraint type (i.e., Allocation, Security In, Security Out, Holding, or Trading) that you want to edit.

Allocation Security In Security Out Holding Trading		
☒ Valid ☐ Working ☐ To Validate		
NEW ALLOCATION CONSTRAINT		
Portfolio Code	Portfolio Name	Begin Date

T_AI_AC_LH_PA1B	T_AI_AC_LH_PA1B	01/01/2002  

3. Do one of the following:

- To edit a draft constraint, click on the **Working** radio button to show a list of draft constraints. Then, click on the  icon of the constraint that you want to edit.
- To edit a valid constraint, click on the **Valid** radio button to show a list of valid constraints. Then, click on the  icon on the constraint that you want to edit.

The same pages as when you are creating a constraint are displayed for editing a constraint (see section [Creating constraints](#)). However, depending on the type of constraint that you are editing, some attributes may not be editable.

24.4 Validating, rejecting, or returning constraints to sender

To validate, reject, or return a constraint to a sender:

1. Do one of the following:

- If you are an RM User, click the  icon on the menu bar to display the **Configuration** menu. Then, select **Constraint Administration**.
- If you are an Admin user, click on the **Constraints** main menu from the toolbar.

The **Constraint Administration** page is displayed on the Allocation tab (default) with a list of Allocation Constraints.

2. Click on the tab of the constraint type (i.e., Allocation, Security In, Security Out, Holding, and Trading) that you want to validate, reject, or return to the sender.
3. Click on the **To Validate** radio button.
4. Click on the  icon of the constraint that you want to validate, reject, or return to the sender.

The **Validate Allocation Constraint** page of the selected constraint is displayed.

VALIDATE

5. (Optional) In the **Review Comment** field, add a comment to explain your decision.
6. Do one of the following:
 - To validate and save the constraint, click **Validate**. This constraint is now accessible to all users and can be viewed when the **Valid** radio button of the constraint lists is selected.
 - To return the constraint to the user who initiated it, click **Return to sender**. The user will now be able to edit the constraint, which is accessible when the **Working** radio button of constraint lists is selected.
 - To stop the validation and to cancel the constraint creation or edition, click **Reject**.

25 Understanding the Monitoring menu

This section describes the purpose of the **Monitoring** menu in the Channels application. This menu is available to PM Users.

Under the **Monitoring** menu, the following functions are available:

- [Portfolios](#)
- [Elective Corporate Actions](#)

25.1 Portfolios

The description for the Portfolios menu is same as the one described in section [Viewing the Portfolios menu](#).

25.2 Elective Corporate Actions

The description for Elective Corporate Actions menu is same as the one described in section [Elective Corporate Actions](#).

26 Understanding the Configuration menu

This section describes the purpose of the **Configuration** menu in the Channels application. This menu is available to PM Users.

Under the **Configuration** menu, the following functions are available:

- [Strategies](#)
- [Constraints](#)
- [Portfolio Lists](#)
- [Alerts](#)

26.1 Strategies

The description for the Strategies menu is same as the one for strategy administration menu (see section [Understanding the Strategy Administration menu](#)).

26.2 Constraints

The description for the Constraints menu is same as the one for strategy administration menu (see section [Understanding the Constraints Administration menu](#)).

26.3 Portfolio Lists

The description for Portfolio Lists menu is same as the one described in section [Viewing Portfolio Lists](#).

26.4 Alerts

The description for Alerts menu is same as the one for alert configuration menu (see section [Understanding the Alert Configuration menu](#)).

27 Viewing the Portfolios menu

This section describes the purpose of the **Portfolios** menu in the Channels application.

Under the **Portfolios** menu, the following functions are available:

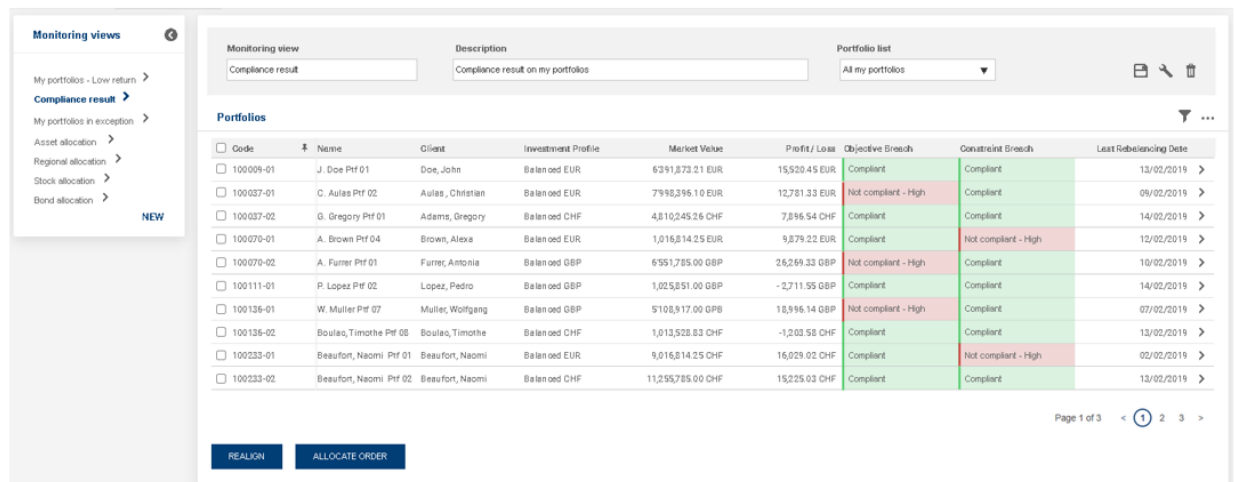

- [Viewing Monitoring views](#)
- [Creating Monitoring views](#)
- [Deleting Monitoring views](#)

27.1 Viewing Monitoring views

To view a monitoring view:

1. Do one of the following:
 - From the menu bar, go to **Monitoring > Portfolios** and click on the  icon next to the portfolio monitoring view in the list of Monitoring views card.
 - From the **Dashboard**, click on the  icon next to the portfolio monitoring view in the **Portfolio monitoring – Quick access** card.

The **Portfolio Monitoring** page is displayed.

Code	Name	Client	Investment Profile	Market Value	Profit / Loss	Objective Breach	Constraint Breach	Last Rebalancing Date

2. (Optional) To expand the list of monitoring views, click the  icon.
3. (Optional) To collapse the list of monitoring views, click the  icon.
4. (Optional) To create a new monitoring view, click **New**.

The monitoring view detail page is displayed.

5. (Optional) To save the monitoring view, click on the  icon of the monitoring view.
6. (Optional) To delete the monitoring view, click on the  icon of the monitoring view.

The **Removing monitoring view** pop-up is displayed asking you to confirm the action.

7. Do one of the following:
 - To delete the monitoring view, click **Yes** and the list of monitoring views is refreshed.
 - To return to the details of the monitoring without confirming deletion, click **No**.
8. (Optional). You can select which columns will be displayed by clicking on the configuration  icon.
9. Do one of the following:
 - To add a column to the monitoring view, click **Add to display**.
 - To apply the default columns and number of rows to display, click **Default**.
 - To apply the changes made to columns and number of rows to display, click **Apply**.
 - To cancel the changes made to columns and number of rows to display, click **Cancel**.
10. (Optional) You can download the list view in PDF or Excel format by clicking on  icon. For more information, see section [Printing or exporting data](#).
11. (Optional) To view the **Portfolio Summary** page, click on the  icon of the portfolio.
12. (Optional) To Realign the selected portfolios, place a checkmark next to the portfolios that you want to realign. If you want to realign all portfolios that are shown on the page, place one checkmark in the checkbox of the column list header.
13. Click **Realign** and the **Realign** page (asynchronous) is displayed on the selected portfolios.
14. (Optional) To Allocate orders on the selected portfolios, place a checkmark next to the portfolios that you want to allocate orders. If you want to allocate orders on all portfolios that are shown on the page, place one checkmark in the checkbox of the column list header.
15. Click **Allocate Order** and the **Allocate Order** page (asynchronous) is displayed on the selected portfolios.

27.2 Creating Monitoring views

You can create monitoring view in the following ways:

- [Create a monitoring view](#)
- [Create a new monitoring view from an existing one](#)

27.2.1 Create a monitoring view

To create a monitoring view:

1. From the menu bar, go to **Monitoring > Portfolios** and click on **New** in the list of Monitoring views card.

The **monitoring view detail** page is displayed.

Monitoring views

My portfolios - Low return >
Compliance result >
 My portfolios in exception >

REALIGN **ALLOCATE ORDER**

2. Complete the following fields(mandatory fields are marked with an asterisk):

Field	Description
Monitoring view *	Name of the monitoring view.
Portfolio List *	From the drop-down list, select the desired portfolio list.

- (Optional) To select the portfolios from the list of portfolios, place a checkmark next to the portfolios. If you want to select all portfolios that are shown on the page, place one checkmark in the checkbox of the column list header.
- (Optional). You can select which columns will be displayed by clicking on the configuration icon.
- Do one of the following:
 - To add a column to the monitoring view, click **Add** to display.
 - To apply the default columns and number of rows to display, click **Default**.
 - To apply the changes made to columns and number of rows to display, click **Apply**.
 - To cancel the changes made to columns and number of rows to display, click **Cancel**.
- Click  icon to save the monitoring view and it appears in the list of monitoring views.
- (Optional) To delete the monitoring view, click on the  icon of the monitoring view.
The **Removing monitoring view** pop-up is displayed asking you to confirm the action.
- Do one of the following:
 - To delete the monitoring view, click **Yes**. The list of monitoring views is refreshed.
 - To return to the details of the monitoring without confirming deletion, click **No**.

27.2.2 Create a new monitoring view from an existing one

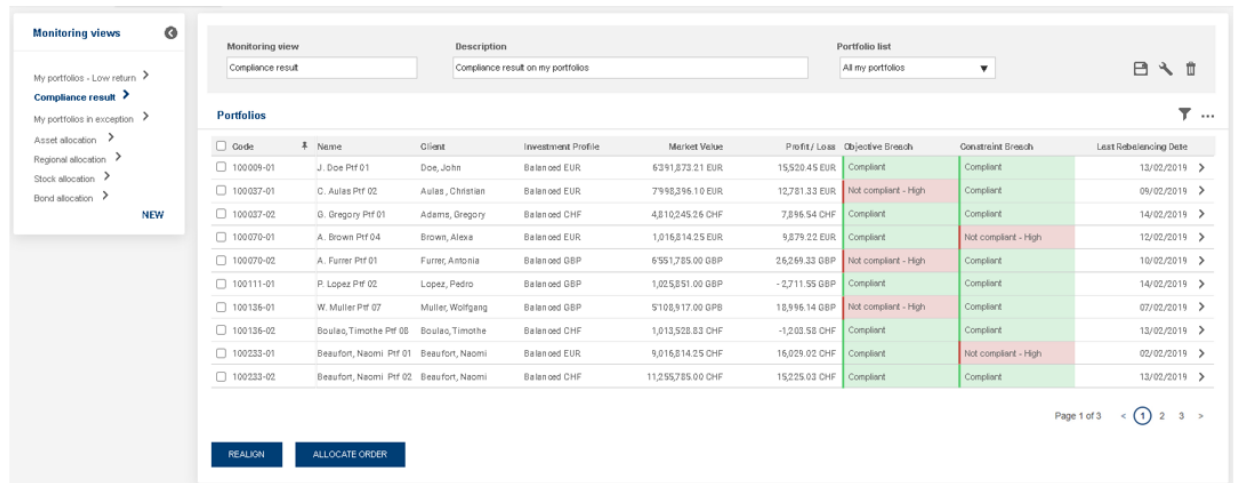

To create a new monitoring view from an existing one:

1. Do one of the following:

- From the menu bar, go to **Monitoring > Portfolios** and click on the  icon next to the portfolio monitoring view in the list of Monitoring views card
- From the Dashboard, click on the  icon next to the portfolio monitoring view in the **Portfolio monitoring – Quick access** card.

The **Portfolio Monitoring** page is displayed.

Code	Name	Client	Investment Profile	Market Value	Profit / Loss	Objective Breach	Constraint Breach	Last Rebalancing Date
100009-01	J. Doe Ptf 01	Doe, John	Balan oed EUR	6291,873.21 EUR	15,520.45 EUR	Compliant	Compliant	13/02/2019

2. The user updates the name of the existing monitoring view and description, selects another list of portfolios, then the application displays the view based on the new list and the  icon is highlighted with a label “View Edited”.
3. The user clicks on the  icon, the application displays two icons, **Save** and **Save As**. The user clicks on the **Save As** icon, then the application creates the new monitoring view, and this one appears in the list of the monitoring views.

27.3 Deleting Monitoring views

To delete a monitoring view:

1. Do one of the following:

- From the menu bar, go to **Monitoring > Portfolios** and click on the  icon next to the portfolio monitoring view in the list of Monitoring views card.
- From the **Dashboard**, click on the  icon next to the portfolio monitoring view in the **Portfolio monitoring – Quick access** card.

2. To delete the monitoring view, click on the  icon of the monitoring view.

The **Removing monitoring view** pop-up is displayed asking you to confirm the action.

3. Do one of the following:

- To delete the monitoring view, click **Yes** and the list of monitoring views is refreshed.
- To return to the details of the monitoring without confirming deletion, click **No**.

27.4 Order Generation Management

This section describes the Order Generation Management available in the PM profile.

Orders generation regroups the rebalancing and allocate order capabilities.

This feature provides the user with following functionality

- Place volume orders through asynchronous process.
- Manage different order processing like automatic order processing and/or automatic order grouping.
- Automatic notifications of order generation results post asynchronous treatment.

Details are provided for:

- [Realign \(Volume Order\)](#)
- [Allocate \(Volume Order\)](#)

27.4.1 Realign (Volume Order)

To place Realign (Volume Order) do the following:

1. Select a portfolio list using one of the following navigation paths
 - Portfolio Monitoring - Quick Access from the PM Dashboard
 - Monitoring → Portfolios , select a portfolio list
2. Click the checkbox next to Code in the column header to select all the portfolios listed or select the individual portfolios manually from the list.
3. Then click **Realign**.

The screenshot shows the TEMENOS Monitoring View interface. The top navigation bar includes 'Monitoring' and 'Configuration'. The main content area displays a table of portfolios with columns: Code, Name, Client, Portfolio Manager, Service type, Investment Profile, Market Value, TAA, SAA, Constraint, and Risk. A sidebar on the left titled 'Monitoring views' contains links for 'Portfolios to be realigned', 'Allocate order to be run', 'Portfolios which needs regular monitoring', and 'Portfolios where return is not in line'. At the bottom of the interface, there are two buttons: 'REALIGN' (highlighted with a red box) and 'ALLOCATE ORDER'.

Code	Name	Client	Portfolio Manager	Service type	Investment Profile	Market Value	TAA	SAA	Constraint	Risk
☐	SUC_PTF_03	SUC_PTF_03	PM_Manager	Discretionary	BAL_EUR		Not Compliant - Low		No Constraint	>

The following page will be displayed

Realign	
Portfolios * Your Selection ⓘ	Minimum Order Amount 100.00 CHF ▼
Description Rebalance Portfolio	Minimum Order Percent %
Instrument Dimension * ☒ All Instruments ☐ Instrument	
CANCEL	REALIGN

4. You can review the portfolio selection made, provide description to the order process and enter the other required details. (see section [Realigning a Portfolio/Portfolio Group](#) for more details.)
5. To generate orders, click **Realign**
Once the process is complete, a notification will be generated which will show whether the order process is in Success/Pending/Failed status (See section [Understanding the Notifications menu](#) for more details.)
6. To monitor the order processes, you can navigate to the following paths
 - Order Processes from the PM Dashboard
 - Monitoring → Order Processesand take necessary measures to correct possible problems related to order validation (See section [Order Processes](#) for more details).

27.4.2 Allocate (Volume Order)

To place Allocate (Volume Order) do the following:

1. Select a portfolio list using one of the following navigation paths
 - Portfolio Monitoring - Quick Access from the PM Dashboard
 - Monitoring → Portfolios , select a portfolio list
2. Click the checkbox next to Code in the column header to select all the portfolios listed or select the individual portfolios manually from the list.
3. Then click **Allocate Order**.

- Click **Back** to return to the list of predefined lists.

29 Understanding the Orders Monitoring page

This section describes the Orders Monitoring menu for a PM User. Many of the features in this page are similar to the Order Blotter page available for an RM User (see Section [Viewing orders](#)). Only the features unique to the PM User will be covered here:

- [Validating or Rejecting Orders](#)
- [Grouping Orders](#)

29.1 Validating or Rejecting Orders

The screenshot displays the TEMENOS Orders Monitoring interface. The top navigation bar includes 'Monitoring' and 'Configuration'. The main content area shows a list of orders under the 'Securities' tab. The table columns are: Portfolio Code, Order Code, Instrument Code, Nature, Status, Quantity, Net Amount, Executed Quantity, and Average Execution Quote. The 'Status' column for all orders is 'To Validate'. On the left, the 'Parameters' panel shows 'PORTFOLIOS' with 'ALL', 'MINE', and 'LIST' buttons, and 'ORDERS' with radio buttons for 'All', 'Pending', 'To Group', and 'To Validate'. The 'PERIOD' section has radio buttons for 'Today', 'One Week', and 'Other'. At the bottom, there are buttons for 'VALIDATE ORDERS' and 'REJECT ORDERS'.

1. From the **Dashboard > Order Blotter Summary** card (see Section [Order Blotter Summary](#)), click on the on the card displaying the counts of the "To Validate" orders.

This displays the list of orders which are in the "To Validate" status and waiting for the PM to take action.

2. Do one of the following:
 - To validate one or more orders, select the relevant orders by using the checkbox and click **Validate Orders**.
 - To reject one or more orders, select the relevant orders by using the checkbox and click **Reject Orders**.

The status of the validated orders changes to "To Group" and can be viewed by selecting the "To Group" status from the Filters available.

The status of the rejected orders changes to "Rejected" and can be viewed by selecting the "All" status from the Filters available.

29.2 Grouping Orders

The screenshot shows the TEMENOS Order Monitoring interface. On the left, there are filters for PORTFOLIOS (ALL, MINE, LIST) and ORDERS (All, Pending, ToGroup, ToValidate). The main table displays a list of orders with columns: Portfolio Code, Order Code, Instrument Code, Nature, Status, Quantity, Net Amount, Executed Quantity, and Average Execution Quote. The status for all orders is 'To Group Update Untreated'. At the bottom, there is a button labeled 'X GROUP ORDERS'.

Portfolio Code	Order Code	Instrument Code	Nature	Status	Quantity	Net Amount	Executed Quantity	Average Execution Quote
N_TCIB_PTF22	AAATCIB_PTF2200080	T_AI_EUR_12017	Buy	To Group Update Untreated	925.00	63,085.00		
N_TCIB_PTF22	AAATCIB_PTF2200079	T_AI_EUR_12062	Buy	To Group Update Untreated	1,577.00	63,080.00		
N_TCIB_PTF22	AAATCIB_PTF2200078	T_AI_EUR_12007	Buy	To Group Update Untreated	404.00	63,064.40		
N_TCIB_PTF22	AAATCIB_PTF2200077	T_AI_USD_MCD	Buy	To Group Update Untreated	2,698.00	81,371.68		
N_TCIB_PTF22	AAATCIB_PTF2200076	T_AI_CHF_BAER	Buy	To Group Update Untreated	126.00	107,690.94		
N_TCIB_PTF22	AAATCIB_PTF2200075	T_AI_CHF_ABBN	Buy	To Group Update Untreated	2,641.00	107,990.49		
N_TCIB_PTF22	AAATCIB_PTF2200074	T_AI_USD_57049	Buy	To Group Update Untreated	43,026.15	50,871.55		
N_TCIB_PTF22	AAATCIB_PTF2200073	T_AI_USD_57043	Buy	To Group Update Untreated	47,000.00	50,583.36		
N_TCIB_PTF22	AAATCIB_PTF2200072	T_AI_EUR_57053	Buy	To Group Update Untreated	82,538.00	94,643.80		
N_TCIB_PTF22	AAATCIB_PTF2200071	T_AI_CHF_57053	Buy	To Group Update Untreated	97,124.00	114,778.17		

1. From the **Dashboard > Order Blotter Summary** card (see Section [Order Blotter Summary](#)), click on the on the card displaying the counts of the "To Group" orders.

This displays the list of orders which are in the "To Group" status and waiting for the PM to take action.

2. Do one of the following:

- To group one or more orders, select the relevant orders by using the checkbox and click **Group Orders**.

NOTE: Only orders with the same Instrument, Nature, Order Type, Market and Trade Currency can be grouped together

Grouping the orders, creates a new "Block Order" with status "To Send" and also changes the status of the child orders to "To Send". All such orders can be viewed by selecting the "Pending" status from the Filters available.

30 Understanding the Profile Administration menu

This section describes the purpose of the **Profiles** menu in the Channels application. The **Profile** menu is available only to Admin Users.

Under the **Profile** menu, the following functions are available:

- [Viewing profiles](#)
- [Creating profiles](#)
- [Editing existing profiles](#)
- [Deleting existing profiles](#)

You can administer the following types of profiles:

- Data Profile
- Data Security Profile
- Screen Profile
- Report Profile
- Channel Profile
- Function Security Profile
- External Service Profile
- Format Profile
- Search Profile

30.1 Viewing profiles

To view a profile:

1. On the menu bar, click **Profiles**.
The **Profile Administration** page is displayed on the Data tab (default) with a list of Data Profile codes.
2. (Optional) To view other types of profiles (e.g., Data Security, Screen Profile, etc.), click on the respective tabs.

30.2 Creating profiles

The following sections describe:

- [Creating Data Profiles](#)
- [Creating Data Security Profiles](#)
- [Creating Screen Profiles](#)
- [Creating Report Profiles](#)
- [Creating Channel Profiles](#)
- [Creating Function Security Profiles](#)

- [Creating External Service Profiles](#)
- [Creating Format Profiles](#)
- [Creating Search Profiles](#)

30.2.1 Creating Data Profiles

To create a Data Profile:

1. On the menu bar, click **Profiles**.

The **Profile Administration** page is displayed on the Data tab (default) with a list of existing Data Profiles.

2. Click **New Profile**.

The **Data Profile** page is displayed.

The screenshot shows the 'Data Profile' form. At the top, there's a 'Profile' field with a red asterisk and a text input box. Below it, the 'Composition' section is visible, showing 'No results'. On the right side of the 'Composition' section, there's a 'NEW ITEM' link. At the bottom, there are 'CANCEL' and 'SAVE' buttons.

3. Complete the following mandatory field:

Field	Description
Profile	Unique code of the profile.

4. To add a composition item for the profile, click **New Item**. This action can be repeated until all desired composition items have been created.

The screenshot shows the 'Data Profile' form with the 'Profile' field filled with 'TEST_DATA_PROF'. The 'Composition' section shows three items: 'Data Security Profile', 'Update Authorised', and 'Delete Authorised'. Each item has a search icon, a dropdown menu, and a delete icon. At the bottom, there are 'CANCEL' and 'SAVE' buttons.

5. Complete the following mandatory fields in the Composition section:

Field	Description
Data Security Profile	Data Security Profile code.
Update Authorized	Option to authorize update for the Data Security Profile.
Delete Authorized	Option to authorize deletion of the Data Security Profile.

6. Do one of the following:

- To delete a composition, click  of the composition. The **Delete** pop-up is displayed asking you to confirm the action. You can:
 - Click **No** to keep the item.
 - Click **Yes** to delete the composition.
- To cancel the creation process, click **Cancel**. The **Cancel** pop-up is displayed asking you to confirm the action. You can:
 - Click **No** to go back to the creation process.
 - Click **Yes** to quit the creation process.
- To save the profile and its compositions, click **Save**. The profile is saved and the **Profile Administration** page is displayed with the newly added profile on the list.

30.2.2 Creating Data Security Profiles

To create a Data Security profile:

1. On the menu bar, click **Profiles**.

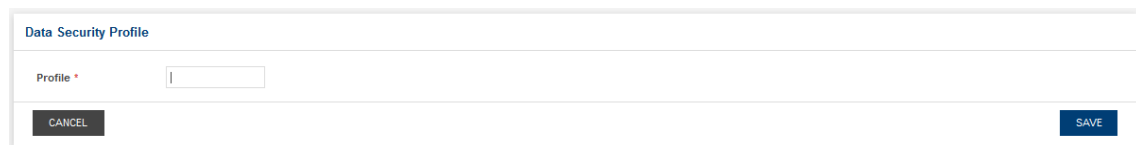

The **Profile Administration** page is displayed on the Data tab (default) with a list of Data Profiles.

2. Click on the Data Security tab.

A list of existing Data Security Profiles is listed.

3. Click **New Profile**.

The **Data Security Profile** page is displayed.

4. Complete the following mandatory field:

Field	Description
Profile	Unique code of the profile.

5. Do one of the following:

- To cancel the creation process, click **Cancel**. The **Cancel** pop-up is displayed asking you to confirm the action. You can:
 - Click **No** to go back to the creation process.
 - Click **Yes** to quit the creation process.
- To save the profile, click **Save**. The profile is saved and the **Profile Administration** page is displayed with the newly added profile on the list.

30.2.3 Creating Screen Profiles

To create a Screen Profile:

1. On the menu bar, click **Profiles**.

The **Profile Administration** page is displayed on the Data tab (default) with a list of Data Profiles.

2. Click on the Screen tab.

A list of existing Screen Profiles is listed.

3. Click **New Profile**.

The **Screen Profile** page is displayed.

4. Complete the following mandatory field:

Field	Description
Profile	Unique code of the profile.

5. To add a composition item for the profile, click **New Item**. This action can be repeated until all desired composition items have been created.

6. Complete the following mandatory fields in the Composition section:

Field	Description
Screen	Screen code.
Nature Attribute	Nature attribute of the screen.
Nature	Nature of the selected nature attribute.
Function	Function associated with the screen.

7. Do one of the following:

- To edit an existing composition, click on the  icon of the composition. The new item page is displayed where you can add / modify the following information and then, click **OK**:

Field	Description
Screen	Screen code.
Nature Attribute	Nature attribute of the screen.
Nature	Nature of the selected nature attribute.
Type Attribute	Type attribute of the screen.
Type	Type of the selected type attribute.
Subtype Attribute	Subtype attribute of the screen.
Subtype	Subtype of the selected subtype attribute.
Function	Function associated with the screen.
Report	Report associated with the screen.

 - Click **No** to go back to the creation process.
 - Click **Yes** to quit the creation process.
- To save the profile and its compositions, click **Save**. The profile is saved and the **Profile Administration** page is displayed with the newly added profile on the list.

30.2.4 Creating Report Profiles

To create a Report Profile:

1. On the menu bar, click **Profiles**.

The **Profile Administration** page is displayed on the Data tab (default) with a list of Data Profiles.

2. Click on the Report tab.
A list of existing Report Profiles is listed.
3. Click **New Profile**.
The **Report Profile** page is displayed.

4. Complete the following mandatory field:

Field	Description

5. To add a composition item for the profile, click **New Item**. This action can be repeated until all desired composition items have been created.

6. Complete the following mandatory fields in the Composition section:

Field	Description
Report	Report code.

7. Do one of the following:
 - To delete a composition, click  of the composition. The **Delete** pop-up is displayed asking you to confirm the action. You can:
 - Click **No** to keep the item.
 - Click **Yes** to delete the composition.
 - To cancel the creation process, click **Cancel**. The **Cancel** pop-up is displayed asking you to confirm the action. You can:
 - Click **No** to go back to the creation process.
 - Click **Yes** to quit the creation process.
 - To save the profile and its compositions, click **Save**. The profile is saved and the **Profile Administration** page is displayed with the newly added profile on the list.

30.2.5 Creating Channel Profiles

To create a Channel Profile:

1. On the menu bar, click **Profiles**.

The **Profile Administration** page is displayed on the Data tab (default) with a list of Data Profiles.

2. Click on the Channel tab.

A list of existing Channel Profiles is listed.

3. Click **New Profile**.

The **Channel Profile** page is displayed.

2. Click on the tab that is relevant to the profile that you want to delete.

A list of relevant profiles is displayed.

3. If the desired profile is not already listed, do one of the following:

- Type some text related to the desired profile. A list of profiles that match the text is displayed in the quick result proposal drop-down list (see section [Quick result proposal](#)) where you can select it.
- Type some text related to the desired profile, then click on the icon where you can search and select the desired profile using the [Advanced search](#) feature.

A list of profiles that match your search is displayed.

4. Click on the icon of the profile that you want to delete.

The **Delete** pop-up is displayed asking you to confirm the action. You can:

- Click **No** to keep the item.
- Click **Yes** to delete the profile and its composition. The **Profile Administration** page is displayed with a refreshed list of profiles.

31 Understanding the Workflows Administration Menu

The information provided in this section is specific to the Customer Relationship Management (CRM) module, which is not part of the standard packaging and is sold separately.

This section describes the purpose of the **Workflows** menu in the Channels application. The **Workflows** menu is available only to Admin Users.

Workflows are created and maintained via a workflow support tool, such as the jBPM Workbench. After a workflow has been created, the workflow is an *external workflow*. External workflows are not yet available to Channels users. The Admin User can create and maintain the attributes needed to make the workflow available to Channels users. A workflow with these attributes is described as an *internal workflow*.

Under the **Workflows** menu, the following functions are available:

- [Viewing workflows](#)
- [Creating workflow attributes](#)
- [Editing existing workflow attributes](#)
- [Deleting existing workflow attributes](#)

31.1 Viewing workflows

To view a workflow:

1. On the menu bar, click Workflows.

The **Workflow Administration** page is displayed with a list of internal workflows. You can also access the list of external workflows by selecting the respective radio button.

Workflows				
☒ Internal ☐ External		NEW WORKFLOW

4. Click **Cancel** to discard the changes.

31.4 Deleting existing workflow attributes

To delete an existing workflow's attributes:

1. On the menu bar, click **Workflows**.

The **Workflow Administration** page is displayed with a list of internal Workflows.

2. Click on the  icon of the workflow that you want to delete.

The **Delete** pop-up is displayed asking you to confirm the action. You can:

- Click **No** to keep the item.
- Click **Yes** to delete the workflow attributes. The **Workflow Administration** page is displayed with a refreshed list of workflows. The workflow will no longer be available to Channels users.

32 Using WealthSuite Channel on a Tablet

WealthSuite Channel on Tablet is available only for RM and Client users and allows to access to a subset of the pages of the application. The display of the pages or functionalities may be different due to the size of the screen of a tablet. For example, the column selector is not available on a tablet.
